

## Table of categories, fees and timeframes

Category	Description of application	Fee	Timeframe
<b>Application for approval of active constituent contained in a chemical product, registration of the chemical product and approval of the product label</b>			
1	Application for approval of an active constituent contained in a chemical product, registration of the associated chemical product and approval of the product label requiring a full assessment of the active constituent and chemical product.	\$48,860	15 months
2	Application for approval of an active constituent contained in a chemical product, registration of the associated chemical product and approval of the product label requiring less than full assessment of the active constituent and chemical product.	Modular	Modular
<b>Application for registration of a chemical product containing an approved active constituent and approval of the product label</b>			
3	Application for registration of a chemical product containing an approved active constituent and approval of the product label if: <ul style="list-style-type: none"> <li>(a) there is no registered chemical product containing the active constituent; and</li> <li>(b) a full assessment of the chemical product is required.</li> </ul>	\$31,750	15 months
4	Application for registration of a chemical product containing an approved active constituent and approval of the product label if: <ul style="list-style-type: none"> <li>(a) there is a registered chemical product containing the active constituent; and</li> <li>(b) the chemical product is to be used on a major food crop; and</li> <li>(c) there are no relevant maximum residue limits; and</li> <li>(d) poison schedule classification is required.</li> </ul>	\$21,210	15 months
5	Application for registration of a chemical product containing an approved active constituent and approval of the product label if: <ul style="list-style-type: none"> <li>(a) the chemical product is similar to a registered chemical product; and</li> <li>(b) chemistry and manufacture, efficacy and target species safety data are the only data required to demonstrate the similarity of the chemical product to the registered chemical product.</li> </ul>	\$3,300	5 months

Category	Description of application	Fee	Timeframe
6	Application for registration of a chemical product containing an approved active constituent and approval of the product label if: <ul style="list-style-type: none"> <li>(a) the chemical product is closely similar to a registered chemical product; and</li> <li>(b) efficacy and safety data are not required to demonstrate the similarity of the chemical product to the registered chemical product; and</li> <li>(c) chemistry and manufacture data are required.</li> </ul>	\$2,245	5 months
7	Application for registration of a chemical product containing an approved active constituent and approval of the product label if: <ul style="list-style-type: none"> <li>(a) the chemical product is closely similar to a registered chemical product; and</li> <li>(b) efficacy and safety data are not required to demonstrate the similarity of the chemical product to the registered chemical product; and</li> <li>(c) chemistry and manufacture data are not required.</li> </ul>	\$600	3 months
8	Application for registration of a chemical product containing an approved active constituent and approval of the product label if: <ul style="list-style-type: none"> <li>(a) the chemical product is the same as a registered chemical product; and</li> <li>(b) the chemical product is to be registered with a different name.</li> </ul>	\$540	3 months
9	Application for a listed registration of a chemical product containing an approved active constituent and approval of a product label for which an established standard has been approved in accordance with section 56D of the Code.	\$495	3 months
10	Application for registration of a chemical product containing an approved active constituent (or an active for which the APVMA has received an application for approval) and approval of the product label for all situations other than as described in items 3 to 9.	Modular	Modular

Category	Description of application	Fee	Timeframe
<b>Application to vary a registration or label approval</b>			
11	Application to vary particulars or conditions of registration or label approval where the variation is to extend the use of the chemical product to a new major food crop.	\$14,260	8 months
12	Application to vary particulars or conditions of registration or label approval if: (a) the variation is to allow a minor change; and (b) no data of a technical nature is required.	\$560	3 months
13	Application to vary particulars or conditions of registration or listed registration or label approval if: (a) the variation is to allow a minor change; and (b) no data of a technical nature is required; and (c) the variation is a change required by the APVMA.	Nil fee	3 months
14	Application to vary particulars or conditions of registration or listed registration or label approval if the application is not of a kind described in item 11 to 13.	Modular	Modular
<b>Application for approval of an active constituent</b>			
15	Application for approval of an active constituent requiring a full assessment.	\$23,430	12 months
16	Application for approval of an active constituent requiring less than full assessment but requiring a toxicological assessment.	\$4,025	8 months
17	Application for approval of an active constituent requiring less than full assessment but not requiring a toxicological assessment.	\$1,435	5 months
<b>Application for variation to an approved active constituent</b>			
18	Application to vary particulars or conditions of an approved active constituent.	\$915	5 months

Category	Description of application	Fee	Timeframe
<b>Application for a permit</b>			
19	Application for a permit to possess or supply, other than for use in Australia, an active constituent that is not an approved active constituent or a chemical product that is not a registered chemical product.	\$320	3 months
20	Application for a permit where a previous assessment remains valid and no data of a technical nature is required.	\$320	3 months
21	Application for a permit where the proposed use is a minor use.	\$320	Modular
22	Application for a permit in respect of a chemical product or an active constituent if the proposed use of the chemical product or active constituent is determined by the APVMA to be an emergency use.	Nil fee	As soon as practical
23	Application for a permit in respect of a chemical product or an active constituent if the application is not of a kind described in items 19 to 21.	Modular	Modular
<b>Other applications</b>			
24	Application made under section 10 of the Code (other than those of the kinds in items 1, 2, 3, 4, 5, 6, 7, 8, 10, 15, 16 or 17) requiring assessment of a technical nature.	Modular	Modular
25	Any other application: (a) that is not made under section 10 of the Code; and (b) that is not of a kind listed in an item of this Schedule; requiring assessment of a technical nature.	Modular	Modular
