

NOTICE

PROPOSED CHANGES TO TABLE 5 OF THE MRL STANDARD

Australian Pesticides and Veterinary Medicines Authority

The MRL Standard

Maximum residue limits in food and animal feedstuff

Table 5

Uses of substances where maximum residue limits are not necessary

**Situations where residues do not or should not occur in
foods or animal feeds; or where the residues are identical
to or indistinguishable from natural food components; or
are otherwise of no toxicological significance.**

<http://www.apvma.gov.au>**

THE PROPOSED CHANGES TO THE MRL STANDARD TABLE 5 ARE TO DELETE ENTRIES FOR UNREGISTERED PRODUCTS AND FOR PERMITS WHICH ARE NO LONGER CURRENT.

TO REMOVE NON FOOD USE ENTRIES; e.g. TIMBER TREATMENTS AND TO CORRESPOND WITH THE FOOD STANDARDS AUSTRALIA NEW ZEALAND, FOOD STANDARDS CODE.

COMMENTS ON THE PROPOSED CHANGES ARE SOUGHT OVER THE NEXT 4 WEEKS.

CLOSING DATE: 1st August 2006

Contact details: APVMA.Residues@apvma.gov.au

Substance	Use
Acetic acid DELETE:	- Fungistat on stored grain for animal use
DELETE: <i>Agrobacterium radiobacter</i> Strains K84 and K1026	- For the control of crown gall
DELETE: Aldrin	- Timber treatment, non-food containers
Alkoxyated fatty alkylamine polymer DELETE:	- In tree and vine crops
ADD:	- In peach and plum trees
DELETE: Allyl alcohol	- Pre-planting treatment of vegetable seed beds
DELETE: Alum	- Molluscicide - Mollusc repellent
DELETE: Aluminium silicates	- Insect dessicant for stored seeds
DELETE: Ammonia	- Treatment of citrus fruits
DELETE: Ammonium fluorosilicate	- Adjuvant for silica gel insecticide
DELETE: Ammonium sulphamate	- Herbicide on pasture and rangeland
DELETE: Androstenedione albumin conjugate with DEAE dextran adjuvant	- For improvement of fecundity in sheep

DELETE: Anthraquinone	- Seed dressing
<i>Bacillus licheniformis</i> DELETE:	- When used to control Fusarium wilt in cotton
ADD:	- When used as a direct fed microbial in animals
DELETE: <i>Bacillus pumilus</i>	- When used as a silage inoculant
<i>Bacillus subtilis</i> DELETE:	- When used to control Fusarium wilt in cotton
ADD:	- When used as a direct fed microbial in animals
DELETE: <i>Bacillus toyoi</i>	- Growth promotant in cattle and pigs
DELETE: Benomyl	- Treatment of seed barley, seed oats and seed wheat
DELETE: Benquinox	- Seed dressing
DELETE: Benzalkonium chloride	- For use as a teat dip
DELETE: Benzoic acid	- Fungistat on stored grain for animal use and when used to control Fusarium wilt in cotton
Beta-cyfluthrin DELETE:	- As the active constituent in contained bait stations used in orange, mandarin, mango, lychee, carambola and persimmon trees, where direct contact will not occur with the fruit
DELETE: Brodifacoum	- In baits as a rodenticide in situations where contact with crops, food products or soil in which crops are grown will not occur
DELETE: Bromadiolone	- In baits as a rodenticide in situations where contact with crops, food products or soil in which crops are grown will not occur
DELETE: Calciferol	- In baits as a rodenticide in situations where contact with crops, food products or soil in which crops are grown will not occur
DELETE: Calcium carbide	- Growth regulator in pineapples
DELETE: Calcium chloride	- Spray or dip of apples
DELETE:	

Calcium nitrate	- Spray or dip of apples
DELETE Calcium polysulphides	- Fungicide, miticide, dormant spray
DELETE: Carbendazim	- Timber treatment
DELETE: Carbetamide	- Herbicide on carrot seed crops
DELETE: Carbonyl Sulphide	- Hay
DELETE: Chlordane	- Timber treatment, non-food containers
DELETE: Cholecalciferol	- In baits as a rodenticide in situations where contact with crops, food products or soil in which crops are grown will not occur
Coumatetralyl DELETE:	- {T} For control of rats in sugar cane
DELETE: Creosote	- Timber treatment - Treatment for tree trunks - Disinfectant for animal and poultry houses, egg hatcheries and associated equipment excluding dairies and milking equipment
Cresylic acid DELETE:	- Treatment for tree trunks and poultry houses - Timber treatment
DELETE: Cyanatryn	- Aquatic herbicide in drainage ditches
DELETE: Cyfluthrin	- Crack and crevice treatment and barrier strip
DELETE: Cyhalothrin	- Crack and crevice treatment and barrier strip
DELETE: Cypermethrin	- Control of crawling insects in domestic premises
Cyromazine DELETE:	- Pre-planting treatment of vegetable seed beds and cereal crops with treated manure
DELETE: Cytokinins	- Growth regulator for vegetables
DELETE: Deltamethrin	- Crack and crevice treatment and barrier strip
DELETE: Dichlorodiethyl ether	- Wood preservative

4,5-dichloro-2-n-octyl-4-isothiazolin-3-one	- Anti-fouling paint on nets in aquaculture
DELETE: Dieldrin	- Timber treatment, non-food containers
DELETE: Diethyl phthalate	- Insect repellent
Ferrous sulphate	- Trace element
DELETE: Garlic	- Bird repellent
DELETE: Heptachlor	- Timber treatment, non-food containers
DELETE: Imiprothrin	- Control of crawling insects in domestic premises
DELETE: Lysol	- Disinfectant
DELETE Magnesium fluosilicate	- Bacteriostat in sheep dips
ADD: Magnesium fluorosilicate	- Bacteriostat in sheep dips
(S)-Methoprene	- Control of insects in domestic premises
DELETE:	- Control of insects in domestic premises
DELETE: Methy neodecanamide	- Crawling insect repellent in household cleaners
DELETE: N-Octyl bicycloheptene dicarboximide	- Control of insects in domestic premises
Permethrin	- Timber treatment, non-food containers
DELETE:	- Timber treatment, non-food containers
DELETE: Piperonyl butoxide	- Control of insects in domestic premises
DELETE: Prothiofos	- Timber treatment for poles, posts, and agricultural buildings/structures
DELETE: Pyrethrins	- Control of insects in domestic premises
DELETE: Rabbit calicivirus	- As an injection for the biological control of European rabbits
ADD: Rabbit Haemorrhagic Disease Virus (Rabbit Calicivirus)	- For pest rabbit control

- DELETE:**
Red pepper - Bird repellent
- Tar acids**
DELETE: - Timber and tree trunk treatment
- Tar distillates**
DELETE: - Timber and tree trunk treatment
- Tar oils**
DELETE: - Timber and tree trunk treatment
- DELETE:**
Tetramethrin - Crack and crevice treatment and barrier strip
- DELETE:**
Transfluthrin - Control of insects in domestic premises
