

Agvet chemical voluntary recall

Farmozine® 900 WG Herbicide – additional batches

APVMA registration number: 46810 APVMA approved label number: 57402

Batch numbers: 2022091601, 2022091602, 2022091606, 2022091607, 2022091802, 2022091803, 2022091805, 2022091808 – 2022091812, 2022092301, 2022092303 and 2022092306 – 2022092312

Sold by agricultural retailers in NSW, Vic and WA between December 2022 and May 2023.

On 26 May 2023, ADAMA Australia Pty Ltd, ACN 050 328 973 initiated a voluntary recall under section 106 of the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* (Cth) in relation to the chemical product described above.

Reason for voluntary recall:

Affected batches have reduced wettability and an increase in the time required for dispersion within the tank before addition of other tank mix partners. Without adequate time to disperse, residues can collect on filters and adversely impact product application.

Hazard:

Affected product may not disperse readily in the spray tank causing nozzle blockages in spray application equipment.

What to do:

DO NOT use the product if the batch number is 2022091601, 2022091602, 2022091606, 2022091607, 2022091802, 2022091803, 2022091805, 2022091808 – 2022091812, 2022092301, 2022092303 or 2022092306 – 2022092312. Return unopened or partially used containers of Farmozine® 900 WG Herbicide from affected batches to the retail outlet where purchased for exchange or refund.

Further Information

Please direct all calls and any queries concerning this voluntary recall to:

Steven Scott, Contact Phone +61 2 9431 7800.
