

Agvet chemical voluntary recall

PENETHAJECT ANTIBIOTIC INJECTION

APVMA registration number: 59193

APVMA approved label number: 124360

Batch numbers: Lot# NZ45969 (powder) E101591 (cow 6 pack)

Sold by veterinary retailers nationally between 04/05/2023 to 15/05/2024

On 15/05/2024, Elanco Australasia Pty Ltd [ABN: 64 076 745 198] initiated a voluntary recall under section 106 of the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* (Cth) in relation to the chemical product described above.

Reason for voluntary recall:

There have been some reports of issues in resuspending the powder in diluent resulting in large particles of undissolved powder. This recall is limited to the above-mentioned batch numbers.

Hazard:

Inability to withdraw the re-suspended product from the vial may lead to lower dosing and possible lack of efficacy.

What to do:

Do not use Penethaject Antibiotic Injection from batch NZ45969 (powder) E101591 (cow 6 pack).

Retailers and wholesalers should immediately quarantine all the stock on hand of the recalled product and contact Elanco Australia to arrange return and credit for the affected units. End users are advised to contact the retailer from which you purchased the product for replacement or refund.

For further information

Please direct all calls and any queries concerning this voluntary recall to Elanco Customer Service on
