Gazette

Agricultural and veterinary chemicals

No. APVMA 14, 9 July 2024

Published by the Australian Pesticides and Veterinary Medicines Authority

Australian Government

**Australian Pesticides and
Veterinary Medicines Authority**

The *Agricultural and Veterinary Chemical Code Act 1994* (the Act) commenced on 15 March 1995. The Agricultural and Veterinary Chemicals Code (the Agvet Code) scheduled to the Act requires notices to be published in the *Gazette* containing details of the registration of agricultural and veterinary chemical products and other approvals granted by the Australian Pesticides and Veterinary Medicines Authority. The Agvet Code and related legislation also requires certain other notices to be published in the *Gazette*. A reference to Agvet Codes in this publication is a reference to the Agvet Code in each state and territory jurisdiction.

General information

The APVMA Gazette is published fortnightly and contains details of the registration of agricultural and veterinary chemicals products and other approvals granted by the APVMA, notices as required by the Agricultural and Veterinary Chemicals Code (the Agvet Code) and related legislation and a range of regulatory material issued by the APVMA.

Pursuant to section 8J(1) of the Agvet Code, the APVMA has decided that it is unnecessary to publish details of applications made for the purpose of notifying minor variations to registration details. The APVMA will however report notifications activity in quarterly statistical reports.

Distribution and subscription

The APVMA Gazette is published in electronic format only and is available from the [APVMA website](#).

If you would like to subscribe to receive email notification when a new edition is published, please complete a [subscription form](#).

APVMA contacts

For enquiries regarding the publishing and distribution of the APVMA Gazette: Telephone: +61 2 6770 2300.

For enquiries on APVMA Gazette content, please refer to the individual APVMA contacts listed under each notice.

Agricultural chemical products and approved labels

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has registered or varied the relevant particulars or conditions of the registration in respect of the following products and has approved the label or varied the relevant particulars or conditions of the approval in respect of the containers for the chemical product, with effect from the dates shown.

Table 1: Agricultural products based on existing active constituents

Application no.	142344
Product name	Imtrade Machine 900 VeripHy WG Miticide
Active constituent	900 g/kg bifenthrin
Applicant name	Imtrade Australia Pty Ltd
Applicant ACN	090 151 134
Date of registration	24 June 2024
Product registration no.	94402
Label approval no.	94402/142344
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 900 g/kg bifenthrin water dispersible granule product for the control of two-spotted mite, European red mite and bryobia mite in pome fruit, stone fruit, almonds, fruiting vegetables, cucurbits, papaya and strawberries as specified in the directions for use table

Application no.	137839
Product name	VapourGrip Xtra Agent
Active constituents	395 g/L acetic acid, 357 g/L potassium hydroxide
Applicant name	Monsanto Australia Pty Ltd
Applicant ACN	006 725 560
Date of registration	24 June 2024
Product registration no.	93058
Label approval no.	93058/137839
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 395 g/L acetic acid, 357 g/L potassium hydroxide soluble concentrate for use in XtendFlex cotton as an adjuvant for 'XtendiMax 2 Herbicide with VapourGrip Technology' and 'Roundup Xtend 2 Herbicide with VapourGrip Technology'

Application no.	138080
Product name	Roundup Xtend 2 Herbicide with VapourGrip Technology
Active constituents	320 g/L glyphosate present as the monoethanolamine salt, 160 g/L dicamba present as the monoethanolamine salt
Applicant name	Monsanto Australia Pty Ltd
Applicant ACN	006 725 560
Date of registration	24 June 2024
Product registration no.	93140
Label approval no.	93140/138080
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 160 g/L dicamba and 320 g/L glyphosate soluble concentrate product for use in XtendFlex cotton varieties

Table 2: Variations of registration – agricultural chemical products

Application no.	144372
Product name	Rainlambda 250 CS Insecticide
Active constituent	250 g/L lambda-cyhalothrin
Applicant name	Shandong Rainbow International Co Ltd
Applicant ACN	N/A
Date of variation	11 June 2024
Product registration no.	66513
Label approval no.	66513/144372
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'Rainbow Lambda-Cyhalothrin 250 CS Insecticide' to 'Rainlambda 250 CS Insecticide'

Application no.	144389
Product name	Surefire Multi Turf Herbicide
Active constituents	300 g/L MCPA present as the potassium salt, 20 g/L clopyralid present as the potassium salt, 15 g/L diflufenican
Applicant name	PCT Holdings Pty Ltd
Applicant ACN	099 023 962
Date of variation	12 June 2024
Product registration no.	94199
Label approval no.	94199/144389
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'Surefire Bullseye Herbicide' to 'Surefire Multi Turf Herbicide'

Application no.	144374
Product name	Indoor Total Pest Control Vapour Strip
Active constituent	186 g/kg dichlorvos (an anticholinesterase compound)
Applicant name	FF Away, LLC
Applicant ACN	N/A
Date of variation	12 June 2024
Product registration no.	89766
Label approval no.	89766/144374
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'BarPro Solutions Indoor Total Pest Control Vapour Strip' to 'Indoor Total Pest Control Vapour Strip'

Application no.	144419
Product name	GCS Alpha-Cypermethrin 100 Duo Insecticide
Active constituent	100 g/L alpha-cypermethrin
Applicant name	General Crop Science
Applicant ACN	N/A
Date of variation	14 June 2024
Product registration no.	80899
Label approval no.	80899/144419
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'NovaGuard Alpha-Cypermethrin 100 Duo Insecticide' to 'GCS Alpha-Cypermethrin 100 Duo Insecticide'

Application no.	144420
Product name	Chlorostick 720 SC Fungicide
Active constituent	720 g/L chlorothalonil
Applicant name	Shandong Rainbow International Co Ltd
Applicant ACN	N/A
Date of variation	15 June 2024
Product registration no.	69652
Label approval no.	69652/144420
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'Rainbow Chlorothalonil 720 SC Fungicide' to 'Chlorostick 720 SC Fungicide'

Application no.	138722
Product name	Systiva Seed Treatment Fungicide
Active constituent	333 g/L fluxapyroxad
Applicant name	BASF Australia Ltd.
Applicant ACN	008 437 867
Date of variation	18 June 2024
Product registration no.	70065
Label approval no.	70065/138722
Description of the application and its purpose, including the intended use of the chemical product	Variation to registration particulars and label approval to add control of diseases in oats and to add suppression of stripe rust in wheat

Application no.	144456
Product name	Atlas High Performance Insect Bomb
Active constituents	10 g/kg permethrin, 1.07 g/kg fenoxycarb
Applicant name	Aaron Laboratories Pty Ltd
Applicant ACN	004 856 848
Date of variation	19 June 2024
Product registration no.	94378
Label approval no.	94378/144456
Description of the application and its purpose, including the intended use of the chemical product	Variation to the name that appears on the label from 'Atlas High Performance Insect Bomb' to 'Atlas Kill & Protect High Performance Insect Control Bomb'

Application no.	142317
Product name	Cruiser 600 FS Insecticide Seed Treatment
Active constituent	600 g/L thiamethoxam
Applicant name	Syngenta Australia Pty Ltd
Applicant ACN	002 933 717
Date of variation	19 June 2024
Product registration no.	51832
Label approval no.	51832/142317
Description of the application and its purpose, including the intended use of the chemical product	Variation to registration and label particulars, to extend the current use on canola to include protection from additional insect pests

Application no.	144458
Product name	Weed Force Dart Broadleaf Herbicide
Active constituents	200 g/L bromoxynil present as the n-octanoyl ester, 200 g/L MCPA present as the ethyl hexyl ester
Applicant name	Weed Force Pty Ltd
Applicant ACN	602 207 152
Date of variation	19 June 2024
Product registration no.	85505
Label approval no.	85505/144458
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'Weed Force Buffalo & Couch Selective Herbicide' to 'Weed Force Dart Broadleaf Herbicide'

Application no.	143183
Product name	Repelling Rid Since 1956 Tropical Antiseptic Bite Protection Repels + Protects 8 Hrs Insect Repellent Spray
Active constituents	191 g/L n,n-diethyl-M-toluamide (deet), 40 g/L n-octyl bicycloheptene dicarboximide, 1 g/L triclosan
Applicant name	Cavalieri Investing Pty Ltd
Applicant ACN	162 722 625
Date of variation	21 June 2024
Product registration no.	53405
Label approval no.	53405/143183
Description of the application and its purpose, including the intended use of the chemical product	Variation to registration and label particulars to amend the pack size to the pack range of 100mL – 250mL

Application no.	144482
Product name	Strike 60 Soil Fumigant
Active constituent	595 g/kg (865 g/L) chloropicrin, 380 g/kg (560 g/L) 1,3-dichloropropene
Applicant name	Trical Australia Pty Ltd
Applicant ACN	600 066 966
Date of variation	22 June 2024
Product registration no.	64862
Label approval no.	64862/144482
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name from 'Tri-Form 60 Soil Fumigant' to 'Strike 60 Soil Fumigant'

Application no.	144485
Product name	Strike 80 Soil Fumigant
Active constituents	795 g/kg chloropicrin, 195 g/kg 1,3-dichloropropene
Applicant name	Trical Australia Pty Ltd
Applicant ACN	600 066 966
Date of variation	22 June 2024
Product registration no.	70117
Label approval no.	70117/144485
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'Tri-Form 80 Soil Fumigant' to 'Strike 80 Soil Fumigant'

Application no.	144487
Product name	Tri-Brom 500-500 Soil Fumigant
Active constituents	500 g/kg methyl bromide, 500 g/kg chloropicrin
Applicant name	Trical Australia Pty Ltd
Applicant ACN	600 066 966
Date of variation	22 June 2024
Product registration no.	62709
Label approval no.	62709/144487
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'Tripicrin 500-500 Soil Fumigant' to 'Tri-Brom 500-500 Soil Fumigant'

Application no.	144488
Product name	Tri-Brom Methyl Bromide Fumigant 980
Active constituents	980 g/kg methyl bromide, 20 g/kg chloropicrin
Applicant name	Trical Australia Pty Ltd
Applicant ACN	600 066 966
Date of variation	22 June 2024
Product registration no.	41303
Label approval no.	41303/144488
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'SA Rural Methyl Bromide 980 Fumigant' to 'Tri-Brom Methyl Bromide Fumigant 980'

Application no.	144486
Product name	Strike Plus Soil Fumigant
Active constituent	1298 g/L (847 g/kg) chloropicrin
Applicant name	Trical Australia Pty Ltd
Applicant ACN	600 066 966
Date of variation	22 June 2024
Product registration no.	64383
Label approval no.	64383/144486
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'Pic Plus Soil Fumigant' to Strike Plus Soil Fumigant'

Application no.	143225
Product name	Nufarm 2,4-D Amine 625 Herbicide
Active constituent	625 g/L 2,4-D present as the dimethylamine and diethanolamine SA
Applicant name	Nufarm Australia Limited
Applicant ACN	004 377 780
Date of variation	24 June 2024
Product registration no.	56763
Label approval no.	56763/143225
Description of the application and its purpose, including the intended use of the chemical product	Variation to particulars of label, to remove deregistered products and update instructions to reflect APVMA labelling requirements

Application no.	143230
Product name	Phosfusion 600 Fungicide
Active constituent	600 g/L phosphorous (phosphonic) acid, present as the mono and di potassium phosphonate
Applicant name	Nutrien Ag Solutions Limited
Applicant ACN	008 743 217
Date of variation	24 June 2024
Product registration no.	67596
Label approval no.	67596/143230
Description of the application and its purpose, including the intended use of the chemical product	Variation to the registration particulars and the particulars of label approval to add additional restraints, add additional uses in almonds, chestnut, macadamias, poppies, and walnuts, and change the use claim for avocado

Application no.	143092
Product name	TITAN Spirando 240SC Insecticide
Active constituent	240 g/L spirotetramat
Applicant name	Titan Ag Pty Ltd
Applicant ACN	122 081 574
Date of variation	24 June 2024
Product registration no.	94001
Label approval no.	94001/143092
Description of the application and its purpose, including the intended use of the chemical product	Variation to registration and label particulars to add additional uses in a range of crops and pests

Application no.	138083
Product name	XtendiMax 2 Herbicide with VapourGrip Technology
Active constituents	480 g/L dicamba present as the monoethanolamine salt
Applicant name	Monsanto Australia Pty Ltd
Applicant ACN	006 725 560
Date of variation	24 June 2024
Product registration no.	88630
Label approval no.	88630/138083
Description of the application and its purpose, including the intended use of the chemical product	Variation of product registration and label approval to add use in XtendFlex cotton

Application no.	138084
Product name	Roundup Ready PL Herbicide with Plantshield Technology
Active constituent	540 g/L glyphosate present as the potassium salt
Applicant name	Monsanto Australia Pty Ltd
Applicant ACN	006 725 560
Date of variation	24 June 2024
Product registration no.	81975
Label approval no.	81975/138084
Description of the application and its purpose, including the intended use of the chemical product	Variation of product registration and label approval to add a tank mix with XtendiMax 2 Herbicide with VapourGrip Technology

Application no.	143232
Product name	Kelpie Glufos 200 SL Herbicide
Active constituent	200 g/L glufosinate-ammonium
Applicant name	Sinochem International Australia Pty. Ltd.
Applicant ACN	160 164 616
Date of variation	24 June 2024
Product registration no.	68032
Label approval no.	68032/143232
Description of the application and its purpose, including the intended use of the chemical product	Variation to the registration particulars and the particulars of label to add additional restraints

Application no.	142316
Product name	EQUENTO Insecticide Seed Treatment
Active constituent	100 g/L isocycloseram
Applicant name	Syngenta Australia Pty Ltd
Applicant ACN	002 933 717
Date of variation	24 June 2024
Product registration no.	89461
Label approval no.	89461/142316
Description of the application and its purpose, including the intended use of the chemical product	Variation to registration particulars and particulars of label approval to include control of blue oat mite and protection from bronze field beetle, vegetable beetle, slaters, and Portuguese millipede

Application no.	143460
Product name	IQ Shock & Swim for Spas & Pools
Active constituent	372 g/kg chlorine present as sodium dichloroisocyanurate
Applicant name	International Quadratics Pty Ltd
Applicant ACN	091 533 167
Date of variation	25 June 2024
Product registration no.	59801
Label approval no.	59801/143460
Description of the application and its purpose, including the intended use of the chemical product	Variation of product registration and label approval to extend the upper limit of pack sizes and arrange them as a range

Application no.	143527
Product name	Nufarm Calibre Miticide
Active constituent	100 g/L hexythiazox
Applicant name	Nufarm Australia Limited
Applicant ACN	004 377 780
Date of variation	25 June 2024
Product registration no.	58856
Label approval no.	58856/143527
Description of the application and its purpose, including the intended use of the chemical product	Variation of label particulars to add spray drift restraints and update protection statement, storage and disposal statement and first aid instructions

Application no.	143488
Product name	Mortein Powergard Easy Reach Crawling Insect Surface Spray
Active constituents	2.0 g/kg cypermethrin, 0.7 g/kg imiprothrin
Applicant name	RB (Hygiene Home) Australia Pty Ltd
Applicant ACN	629 549 506
Date of variation	25 June 2024
Product registration no.	70109
Label approval no.	70109/143488
Description of the application and its purpose, including the intended use of the chemical product	Variation to the registration particulars and particulars of label approval to add larger pack sizes, update the how to use instructions, and add additional precautions and first aid instructions

Application no.	144097
Product name	Trelona Termite Bait
Active constituent	5 g/kg novaluron
Applicant name	BASF Australia Ltd.
Applicant ACN	008 437 867
Date of variation	26 June 2024
Product registration no.	86731
Label approval no.	86731/144097
Description of the application and its purpose, including the intended use of the chemical product	Variation of registration particular to update the net content description and add pack sizes

Veterinary chemical products and approved labels

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has registered or varied the relevant particulars or conditions of the registration in respect of the following products and has approved the label or varied the relevant particulars or conditions of the approval in respect of the containers for the chemical product, with effect from the dates shown.

Table 3: Variations of registration – veterinary chemical products

Application no.	143134
Product name	elevet+ Maxalac DC Dry Cow Intramammary Antibiotic
Active constituent	Each 3 g syringe contains 83.3 g/kg cephalonium (as cephalonium dihydrate)
Applicant name	Jurox Pty Ltd
Applicant ACN	000 932 230
Date of variation	18 June 2024
Product registration no.	67479
Label approval no.	67479/143134
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the product by updating the product name and variation to the relevant particulars of both the product and the label by aligning with the current Veterinary Labelling Code

Application no.	144433
Product name	Stilbrol Tablets
Active constituent	Each tablet contains: 1mg stilboestrol
Applicant name	Dechra Veterinary Products (Australia) Pty. Ltd.
Applicant ACN	614 716 700
Date of variation	18 June 2024
Product registration no.	35703
Label approval no.	35703/144433
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'Apex Stilboestrol Tablets' to 'Stilbrol Tablets'

Application no.	143256
Product name	Ilium Frusemide Injection
Active constituent	50 mg/mL furosemide
Applicant name	Troy Laboratories Pty Ltd
Applicant ACN	000 283 769
Date of variation	19 June 2024
Product registration no.	50268
Label approval no.	50268/143256
Description of the application and its purpose, including the intended use of the chemical product	Variation of relevant particulars of the label approval to update the constituent statement on the label and align with the Veterinary Labelling Code

Application no.	143617
Product name	Moxxi LA Long Acting Injection for Cattle
Active constituent	100 mg/mL moxidectin
Applicant name	Abbey Laboratories Pty. Ltd.
Applicant ACN	156 000 430
Date of variation	27 June 2024
Product registration no.	87671
Label approval no.	87671/143617
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the product and label approved by extending the use to 1,000 kg cattle, adding additional pack sizes and updating the label according to the current Veterinary Labelling Code

Application no.	142242
Product name	Dermcare Pyohex Medicated Shampoo
Active constituent	30 g/L chlorhexidine gluconate
Applicant name	Dermcare-Vet Pty. Ltd.
Applicant ACN	010 280 010
Date of variation	28 June 2024
Product registration no.	47567
Label approval no.	47567/142242
Description of the application and its purpose, including the intended use of the chemical product	Variation of relevant particulars of registration and the label, including updating the accepted species name of <i>S. intermedius</i> to <i>S. pseudintermedius</i> under label claims, include an environmental statement, and amend the storage instructions

Approved active constituents

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has approved or varied the relevant particulars or conditions of the approval of the following active constituents, with effect from the dates shown.

Table 4: Approved active constituents

Application no.	141144
Active constituent	Acetamiprid
Applicant name	ADAMA Australia Pty Ltd
Applicant ACN	050 328 973
Date of approval	18 June 2024
Approval no.	93983
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent acetamiprid for use in agricultural chemical products

Application no.	142070
Active constituent	2,4-D 2-ethylhexyl ester
Applicant name	PT Trustchem Agro Indonesia
Applicant ACN	N/A
Date of approval	18 June 2024
Approval no.	94319
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent 2,4-D 2-ethylhexyl ester for use in agricultural chemical products

Application no.	142222
Active constituent	Tau-fluvalinate
Applicant name	Croponosys India Private Limited
Applicant ACN	N/A
Date of approval	18 June 2024
Approval no.	94362
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent tau-fluvalinate for use in agricultural chemical products

Application no.	142225
Active constituent	Azoxystrobin
Applicant name	Croponosys India Private Limited
Applicant ACN	N/A
Date of approval	19 June 2024
Approval no.	94365
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent azoxystrobin for use in agricultural chemical products

Application no.	141799
Active constituent	Pyroxasulfone
Applicant name	ADAMA Australia Pty Ltd
Applicant ACN	050 328 973
Date of approval	19 June 2024
Approval no.	94193
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent pyroxasulfone for use in agricultural chemical products

Application no.	142445
Active constituent	Dinotefuran
Applicant name	AGROSHINE Australia Pty Ltd
Applicant ACN	105 873 023
Date of approval	19 June 2024
Approval no.	94445
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent dinotefuran for use in agricultural chemical products

Application no.	141083
Active constituent	Bromoxynil butyrate
Applicant name	Nufarm Australia Limited
Applicant ACN	004 377 780
Date of approval	21 June 2024
Approval no.	93962
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent bromoxynil butyrate for use in agricultural products

Application no.	141475
Active constituent	Enamectin benzoate
Applicant name	Qilu Synva Pharmaceutical Co., Ltd.
Applicant ACN	N/A
Date of approval	21 June 2024
Approval no.	94084
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent emamectin benzoate for use in agricultural chemical products

Application no.	139828
Active constituent	Altrenogest
Applicant name	Avet Health Limited
Applicant ACN	616 838 101
Date of approval	21 June 2024
Approval no.	93601
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent altrenogest for use in veterinary chemical products

Application no.	142275
Active constituent	Ametryn
Applicant name	Syngenta Australia Pty Ltd
Applicant ACN	002 933 717
Date of approval	24 June 2024
Approval no.	94379
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent ametryn for use in agricultural chemical products

Application no.	142264
Active constituent	Glufosinate-p-ammonium manufacturing concentrate
Applicant name	BASF Australia Ltd.
Applicant ACN	008 437 867
Date of approval	25 June 2024
Approval no.	94372
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent glufosinate-p-ammonium manufacturing concentrate for use in agricultural chemical products

Application no.	141356
Active constituent	Cyproconazole
Applicant name	Shanghai E-Tong Chemical Co Ltd
Applicant ACN	N/A
Date of approval	26 June 2024
Approval no.	94054
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent cyproconazole for use in agricultural chemical products

Application no.	142509
Active constituent	Dinotefuran
Applicant name	PCT Holdings Pty Ltd
Applicant ACN	099 023 962
Date of approval	26 June 2024
Approval no.	94471
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent dinotefuran for use in agricultural chemical products

Application no.	141294
Active constituent	Chlorantraniliprole
Applicant name	Sino-Agri Leading Biosciences Co., Ltd.
Applicant ACN	N/A
Date of approval	27 June 2024
Approval no.	94027
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent chlorantraniliprole for use in agricultural chemical products.

Application no.	141400
Active constituent	Glyphosate-isopropylammonium manufacturing concentrate
Applicant name	Hubei Trisun Chemicals Co, Ltd
Applicant ACN	N/A
Date of approval	27 June 2024
Approval no.	94064
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent glyphosate-isopropylammonium manufacturing concentrate for use in agricultural chemical products.

Application no.	141460
Active constituent	Ethephon
Applicant name	Agoceania Pty Ltd
Applicant ACN	649 344 141
Date of approval	27 June 2024
Approval no.	94081
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent ethephon for use in agricultural chemical products.

Application no.	141472
Active constituent	Pyraclostrobin
Applicant name	United CropScience Pte., Ltd.
Applicant ACN	N/A
Date of approval	27 June 2024
Approval no.	94083
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent pyraclostrobin for use in agricultural chemical products.

Application no.	141561
Active constituent	Abamectin
Applicant name	Syngenta Australia Pty Ltd
Applicant ACN	002 933 717
Date of approval	27 June 2024
Approval no.	94108
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent abamectin for use in agricultural chemical products.

Application no.	142626
Active constituent	Dinotefuran
Applicant name	Shandong Rainbow International Co Ltd
Applicant ACN	N/A
Date of approval	28 June 2024
Approval no.	94511
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent dinotefuran for use in agricultural chemical products

Amendments to the APVMA MRL Standard

The Australian Pesticides and Veterinary Medicines Authority (APVMA) approves maximum residue limits (MRLs) of agricultural and veterinary chemicals in agricultural produce, particularly produce entering the food chain. The MRLs approved by the APVMA are associated with a regulatory decision to register a product, grant a permit approval, or as an outcome from a review decision and are set out in the *Agricultural and Veterinary Chemicals (MRL Standard for Residues of Chemical Products) Instrument 2023*. The *MRL Standard* lists MRLs of substances that may arise from the approved use of agricultural and veterinary chemical products containing those substances on commodities used for human consumption as well as livestock feeds. The *MRL Standard* also provides the relevant residue definitions to which these MRLs apply. There may be situations where the residue definition for monitoring and enforcement is different to the definition used for dietary risk assessment purposes.

MRLs are set at levels which are not likely to be exceeded if the agricultural or veterinary chemicals are used in accordance with approved label instructions. In considering MRLs and variation to MRLs, the APVMA takes into account studies on chemistry, metabolism, analytical methodology, residues, toxicology, good agricultural practice and dietary exposure. In approving MRLs, the APVMA is satisfied, from dietary exposure assessment, that the levels set are not an undue hazard to human health.

The APVMA has amended the *MRL Standard* and the changes will have affect the day after the instrument is registered.

Details of the amendment can be found in the *Agricultural and Veterinary Chemicals (MRL Standard for Residues of Chemical Products) Amendment Instrument (No. 2) 2024*.

The amendments will be incorporated into the compilation of the *Agricultural and Veterinary Chemicals (MRL Standard for Residues of Chemical Products) Instrument 2023*.

The MRL Standard is accessible via the [Federal Register of Legislation website](#).

Proposal to amend Schedule 20 in the Australian New Zealand Food Standards Code

In the previous notice on page 18 of APVMA Gazette No. 14, the APVMA gazetted amendments which it has approved to vary maximum residue limits (MRLs) for substances contained in agricultural and veterinary chemical products as set out in the APVMA's MRL Standard.

Under section 82 of the *Food Standards Australia New Zealand Act 1991*, the APVMA is proposing to incorporate those variations (Agricultural and Veterinary Chemicals Code (*MRL Standard*) Amendment Instrument 2024 (No. 2)) to MRLs into Schedule 20 – Maximum residue limits in the Australia New Zealand Food Standards Code.

MRLs contained in Schedule 20 provide the limits for residues of agricultural and veterinary chemicals that may legitimately occur in foods. By this means Schedule 20 permits the sale of treated foods and protects public health and safety by minimising residues in foods consistent with the effective control of pests and diseases.

The APVMA and Food Standards Australia New Zealand (FSANZ) are satisfied, based on dietary exposure assessments and current health standards, that the proposed limits are not harmful to public health.

The agreement between the Australian Government and the New Zealand Government concerning a Joint Food Standards System excludes MRLs for agricultural and veterinary chemicals in food from the system setting joint food standards. Australia and New Zealand independently and separately develop MRLs for agricultural and veterinary chemicals in food.

A Sanitary and Phytosanitary (SPS) notification to the World Trade Organization (WTO) will be made.

The APVMA invites comment on these proposals. Details on how to make a submission appear near the end of this notice, below the details of the proposed amendment.

The APVMA will consider any public comments made in response to this proposal. If the APVMA decides to proceed with the proposal, it will further notify any variations it makes to Schedule 20 in the APVMA Gazette. The variations will take effect as from the date of that subsequent notice.

Proposed variation to Schedule 20 in the Australia New Zealand Food Standards Code

9 July 2024

Note: Subsection 82(2) of the *Food Standards Australia New Zealand Act 1991* provides that variations to standards are legislative instruments, but are not subject to disallowance or sunseting.

To commence: on gazettal of variation

Schedule 20 Maximum Residue Limits

[1] Section S20—3 (table entry for Agvet chemical: Cyazofamid)

Insert in alphabetical order:

Ginger, root T*0.01

[2] Section S20—3 (table entry for Agvet chemical: Cyazofamid)

The maximum residue limit in the entry for each food commodity listed in the following table is amended as set out in the table:

Amendments relating to maximum residue limits			
Item	Food commodity	Omit	Substitute
1	Chard (silver beet)	T10	15
2	Spinach	T10	15

[3] Section S20—3 (table entry for Agvet chemical: 2,4-D)

Omit:

Walnuts *0.05

Substitute:

Walnuts 0.2

[4] Section S20—3 (table entry for Agvet chemical: Emamectin)

Omit:

Maize cereals T*0.01

Substitute:

Maize cereals *0.002

[5] Section S20—3 (table entry for Agvet chemical: Flonicamid)

The maximum residue limit in the entry for each food commodity listed in the following table is amended as set out in the table:

Amendments relating to maximum residue limits			
Item	Food commodity	Omit	Substitute
1	Fruiting vegetables, other than cucurbits	T0.5	0.5

Amendments relating to maximum residue limits			
Item	Food commodity	Omit	Substitute
2	Potato	0.2	0.3
3	Strawberry	T2	2

[6] **Section S20—3 (table entry for Agvet chemical: Fluopyram)**

Omit:

Root and tuber vegetables T0.2

[7] **Section S20—3 (table entry for Agvet chemical: Fluopyram)**

Insert the following food commodities and associated MRLs in alphabetical order:

Root and tuber vegetables [except sweet potato] 0.2

Sweet Potato 0.02

[8] **Section S20—3 (table entry for Agvet chemical: Fluxapyroxad)**

Omit:

Oats T0.2

Substitute:

Oats 0.2

[9] **Section S20—3 (table entry for Agvet chemical: Isocycloseram)**

Insert the following food commodities and associated MRLs in alphabetical order:

All other foods except animal food commodities 0.02

Almonds *0.01

Assorted tropical and sub-tropical fruits – inedible peel 0.2

Assorted tropical and sub-tropical fruits – inedible peel [except banana; papaya] *0.01

Baby leaves T5

Bush berries T*0.01

Cane berries T*0.01

Citrus fruits 0.2

Low growing berries T*0.01

Macadamia nuts *0.01

Papaya 0.3

[10] Section S20—3 (table entry for Agvet chemical: Mefentrifluconazole)

The maximum residue limit in the entry for each food commodity listed in the following table is amended as set out in the table:

Amendments relating to maximum residue limits			
Item	Food commodity	Omit	Substitute
1	Edible offal (mammalian)	T0.3	0.3
2	Meat (mammalian) (in the fat)	T0.2	0.2
3	Milks	*0.01	0.03

[11] Section S20—3 (table entry for Agvet chemical: Mesotrione)

Insert in alphabetical order:

Maize cereals T*0.01

[12] Section S20—3 (table entry for Agvet chemical: Methoxyfenozide)

Insert in alphabetical order:

Popcorn T*0.02

[13] Section S20—3 (table entry for Agvet chemical: Metolachlor)

Insert in alphabetical order:

Ginger, root T0.5

[14] Section S20—3 (table entry for Agvet chemical: Metribuzin)

Omit:

Carrot T0.3

Substitute:

Carrot T0.05

[15] Section S20—3 (table entry for Agvet chemical: Quinoxifen)

Insert in alphabetical order:

Wheat T*0.01

Invitation for submissions

Written submissions are invited from interested individuals and organisations to assist the APVMA in considering the proposal to vary Schedule 20 – Maximum residue limits in the Australia New Zealand Food Standards Code.

Submissions should be strictly confined to relevant matters that the APVMA must consider (such as public health and safety) which are associated with the occurrence of the proposed residues in foods. Comments received outside these grounds will not be considered by the APVMA.

Claims made in submissions should be supported wherever possible by referencing or including relevant studies, research findings, trials and surveys. Technical information should be in sufficient detail to allow independent scientific assessment.

Submissions must be made in writing and should be clearly marked as a 'submission on the proposed amendment to Schedule 20' and quote the correct amendment number.

Deadline for public submissions

Submissions must be received by 6 August 2024 (28 days from date Gazette published). Submissions received after this deadline will only be considered by prior arrangement or if agreement for an extension has been given prior to this closing date. Agreement to an extension of time will only be given if extraordinary circumstances warrant an extension to the submission period.

Please note: submissions will be published on the APVMA's website, unless you have asked for the submission to remain confidential, or if the APVMA chooses at its discretion not to publish any submissions received (refer to the [public consultation coversheet](#)).

Please lodge your submission using the [public consultation coversheet](#), which provides options for how your submission will be published.

Note that all APVMA documents are subject to the access provisions of the *Freedom of Information Act 1982* and may be required to be released under that Act should a request for access be made.

Variations to Schedule 20 of the Australian New Zealand Food Standards Code

The APVMA has previously gazetted particular amendments which it had made to the APVMA MRL Standard and which have been proposed as variations to maximum residue limits (MRLs) for substances contained in agricultural and veterinary chemical products as set out as in Schedule 20 – Maximum residue limits of the Australia New Zealand Food Standards Code. This notice pertains to proposals (No. 1) gazetted on 5 March 2024 (No. APVMA 5).

Submissions have been sought on these proposals and the APVMA has written separately to each person or organisation that made a submission. All matters raised in the submissions have been resolved.

Under subsection 82(1) of the *Food Standards Australia New Zealand Act 1991*, the APVMA has, by legislative instrument, incorporated these variations to MRLs into Schedule 20. A copy of the Amendment Instrument (No. APVMA 1, 2024) accompanies this notice. For a complete and up-to-date version of Schedule 20, including these amendments together with their Explanatory Statement, please refer to the [Federal Register of Legislation](#).

Based on dietary exposure assessments and current health standards, the APVMA and Food Standards Australia New Zealand (FSANZ) are satisfied that these MRLs are not harmful to public health. MRLs contained in Schedule 20 provide the limits for residues of agricultural and veterinary chemicals that may legitimately occur in foods. By this means, Schedule 20 permits the sale of treated foods and protects public health by minimising residues in foods consistent with the effective control of pests and diseases.

The agreement between the Australian Government and the New Zealand Government concerning a Joint Food Standards System, excludes MRLs for agricultural and veterinary chemicals in food from the system setting joint food standards. Australia and New Zealand independently and separately develop MRLs for agricultural and veterinary chemicals in food.

A Sanitary and Phytosanitary notification to the World Trade Organization (WTO) was also made in relation to the variations to MRLs in Schedule 20 and comment was received in response to that notice which has been addressed.

A copy of these variations have been given to FSANZ.

The variations take effect as from the date of this notice.

This notice is published in accordance with subsection 82(7) of the *Food Standards Australia New Zealand Act 1991*.

Australian Government

**Australian Pesticides and
Veterinary Medicines Authority**

***Australia New Zealand
Food Standards Code —
Schedule 20 — Maximum residue limits Variation
Instrument No. APVMA 2, 2024***

I, Sheila Logan, delegate of the Australian Pesticides and Veterinary Medicines Authority, acting in accordance with my powers under subsection 11(1) of the *Agricultural and Veterinary Chemicals (Administration) Act 1992*, make this instrument for the purposes of subsection 82(1) of the *Food Standards Australia New Zealand Act 1991*.

Sheila Logan

Delegate of the Chief Executive Officer of the Australian Pesticides and Veterinary Medicines Authority

Dated this third day of July 2024

Part 1 Preliminary

1 Name of instrument

This instrument is the *Australia New Zealand Food Standards Code — Schedule 20 – Maximum residue limits Variation Instrument No. APVMA 2, 2024* (Amendment Instrument).

2 Commencement

In accordance with subsection 82(8) of the *Food Standards Australia New Zealand Act 1991*, this instrument commences on the day it is published in the *Gazette*.

Note: A copy of the variations made by the Amendment Instrument was published in the Commonwealth of Australia Agricultural and Veterinary Chemicals Gazette.

3 Object

The object of this instrument is for the APVMA to make variations to Schedule 20 – Maximum residue limits in the *Australia New Zealand Food Standards Code* to include or change maximum residue limits pertaining to agricultural and veterinary chemical products.

4 Interpretation

In this instrument: —

APVMA means the Australian Pesticides and Veterinary Medicines Authority established by section 6 of the *Agricultural and Veterinary Chemicals (Administration) Act 1992*; and

Principal Instrument means Schedule 20 – Maximum residue limits in the *Australia New Zealand Food Standard Code* as defined in Section 4 of the *Food Standards Australia New Zealand Act 1991* being the Code published in *Gazette* No. P 27 on 27 August 1987 together with any amendments of the standards in that Code. Schedule 20 was published in the *Food Standards Gazette* FSC 96 on Thursday 10 April 2015 and was registered as a legislative instrument on 1 April 2015 (F2015L00468).

Part 2 Variations to Schedule 20— Maximum Residue Limits

5 Variations to Schedule 20

The Schedule to this instrument sets out the variations made to the Principal Instrument by this instrument.

Schedule

Variations to Schedule 20 – Maximum residue limits

Schedule 20 Maximum Residue Limits

[1] Section S20—3

Insert in alphabetical order the following chemicals, the corresponding residue definition(s), food commodities and associated MRLs:

Agvet chemical: Bupivacaine
Permitted residue: Bupivacaine

Sheep fat	0.07
Sheep kidney	0.02
Sheep liver	0.02
Sheep muscle	0.0005

Agvet chemical: Lignocaine
Permitted residue: Lignocaine

Sheep fat	0.2
Sheep kidney	0.2
Sheep liver	0.1
Sheep muscle	0.15

[2] Section S20—3 (table entry for Agvet chemical: Ametoctradin)

Omit:

Basil	T20
-------	-----

Substitute:

Basil	T50
-------	-----

[3] Section S20—3 (table entry for Agvet chemical: Cypermethrin)

The maximum residue limit in the entry for each food commodity listed in the following table is amended as set out in the table:

Amendments relating to maximum residue limits

Item	Food commodity	Omit	Substitute
1	Chives	T5	T8
2	Herbs	T5	T8

[4] Section S20—3 (table entry for Agvet chemical: Cypermethrin)

Omit:

Corriander (leaves, roots, stems)	T5
-----------------------------------	----

Substitute:

Coriander (leaves, roots, stems)	T8
----------------------------------	----

[5] Section S20—3 (table entry for Agvet chemical: Ethephon)

Omit:

Grapes	10
--------	----

Substitute:

Grapes	6
--------	---

[6] Section S20—3 (table entry for Agvet chemical: Fluxapyroxad)

Insert in alphabetical order:

Tea, green, black	T7
-------------------	----

[7] Section S20—3 (table entry for Agvet chemical: Ipflufenquin)

Insert the following food commodities and associated MRLs in alphabetical order:

Pome fruits	0.05
-------------	------

Wine grapes	0.04
-------------	------

[8] Section S20—3 (table entry for Agvet chemical: Mefentrifluconazole)

Omit:

Tree nuts	0.2
-----------	-----

Substitute:

Tree nuts	0.06
-----------	------

[9] Section S20—3 (table entry for Agvet chemical: Metalaxyl)

Omit:

Almonds	0.5
---------	-----

Substitute:

Almonds	T5
---------	----

[10] Section S20—3 (table entry for Agvet chemical: Pyraclostrobin)

Omit:

Tea, green, black	6
-------------------	---

Substitute:

Tea, green, black	T7
-------------------	----
