APVMA approved label number: 132541

Batch numbers: 56401/1 and 55781/1

Reason for voluntary recall

Some 1 L packs of Roundup N Natural* Weedkiller have a New Zealand (NZ) front label which does not meet the Australian Agricultural Labelling Code requirements (no signal heading and active ingredient identifier on the front label). The affected packs have the correct back label which contains relevant safety directions and how to use instructions. Affected product has a front label containing a NZ website at the bottom left as indicated by the blue dashed box in the picture above.

Hazard

Absence of signal heading and active ingredient identifier on the front label results in label not providing all the required information to end users. Otherwise, the label contains all information relevant to the product.
