Gazette

Agricultural and veterinary chemicals

No. APVMA 8, 15 April 2025

Published by the Australian Pesticides and Veterinary Medicines Authority

Australian Government

**Australian Pesticides and
Veterinary Medicines Authority**

The *Agricultural and Veterinary Chemical Code Act 1994* (the Act) commenced on 15 March 1995. The Agricultural and Veterinary Chemicals Code (the Agvet Code) scheduled to the Act requires notices to be published in the *Gazette* containing details of the registration of agricultural and veterinary chemical products and other approvals granted by the Australian Pesticides and Veterinary Medicines Authority. The Agvet Code and related legislation also requires certain other notices to be published in the *Gazette*. A reference to Agvet Codes in this publication is a reference to the Agvet Code in each state and territory jurisdiction.

General information

The APVMA Gazette is published fortnightly and contains details of the registration of agricultural and veterinary chemicals products and other approvals granted by the APVMA, notices as required by the Agricultural and Veterinary Chemicals Code (the Agvet Code) and related legislation and a range of regulatory material issued by the APVMA.

Pursuant to section 8J(1) of the Agvet Code, the APVMA has decided that it is unnecessary to publish details of applications made for the purpose of notifying minor variations to registration details. The APVMA will however report notifications activity in quarterly statistical reports.

Distribution and subscription

The APVMA Gazette is published in electronic format only and is available from the [APVMA website](http://apvma.gov.au).

If you would like to subscribe to receive email notification when a new edition is published, please complete a [subscription form](#).

APVMA contacts

For enquiries regarding the publishing and distribution of the APVMA Gazette: Telephone: +61 2 6770 2300.

For enquiries on APVMA Gazette content, please refer to the individual APVMA contacts listed under each notice.

Agricultural chemical products and approved labels

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has registered or varied the relevant particulars or conditions of the registration in respect of the following products and has approved the label or varied the relevant particulars or conditions of the approval in respect of the containers for the chemical product, with effect from the dates shown.

Table 1: Agricultural products based on existing active constituents

Application no.	146745
Product name	Agro-Essence Terbutylazine 875 WG Herbicide
Active constituent	875 g/kg terbutylazine
Applicant name	Agro-Alliance (Australia) Pty Ltd
Applicant ACN	130 864 603
Date of registration	24 March 2025
Product registration no.	95656
Label approval no.	95656/146745
Description of the application and its purpose, including the intended use of the chemical product	Registration of 875 g/kg terbutylazine water dispersible granule (WG) for the control of weeds in chickpeas, faba beans, fallows, field peas, lentils, lupins, sorghum and triazine tolerant canola.

Application no.	142933
Product name	Goliath Plus Gel Bait
Active constituents	0.4 g/kg fipronil, 0.4 g/kg chlorfenapyr
Applicant name	BASF Australia Ltd.
Applicant ACN	008 437 867
Date of registration	26 March 2025
Product registration no.	94607
Label approval no.	94607/142933
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 0.4 g/kg fipronil and 0.4 g/kg chlorfenapyr ready-to-use gel bait for the control of ants, cockroaches and silverfish in domestic, commercial, industrial and public buildings and facilities.

Application no.	146686
Product name	Swan Imazamox + Imazapyr Herbicide
Active constituents	33 g/L imazamox present as the ammonium salt, 15 g/L imazapyr present as the ammonium salt
Applicant name	Swan Chemical Holdings Pty Ltd
Applicant ACN	669 863 067
Date of registration	28 March 2025
Product registration no.	95646
Label approval no.	95646/146686
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 33 g/L imazamox present as the ammonium salt and 15 g/L imazapyr present as the ammonium salt soluble concentrate (SL) product for the early post-emergence control of certain annual grass and broadleaf weeds as part of the Clearfield Production System for Clearfield Plus Wheat, Clearfield Barley and Clearfield Canola.

Application no.	146719
Product name	Gluta Plex Glutaraldehyde Sanitiser
Active constituents	150 g/L glutaraldehyde, 100 g/L quarternary ammonium compounds
Applicant name	Castle Chemicals Pty Ltd
Applicant ACN	001 443 901
Date of registration	2 April 2025
Product registration no.	95651
Label approval no.	95651/146719
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 150 g/L glutaraldehyde and 100 g/L quaternary ammonium compound product, formulated as a liquid concentrate (LC) to sanitise all hard surfaces encountered in poultry sheds and animal enclosures.

Application no.	146866
Product name	Campbell Bremex 250SC Fungicide
Active constituent	250 g/L mandipropamid
Applicant name	Colin Campbell (Chemicals) Pty Ltd
Applicant ACN	000 045 590
Date of registration	2 April 2025
Product registration no.	95685
Label approval no.	95685/146866
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 250 g/L mandipropamid suspension concentrate product for control of powdery mildew in grapes, lettuce, leafy vegetables and oilseed poppies.

Application no.	146964
Product name	Rocky Point Lawn Weed Killer
Active constituents	150 g/L MCPA present as dimethylamine salt, 25 g/L dicamba present as dimethylamine salt
Applicant name	Rocky Point Pty Ltd
Applicant ACN	104 542 323
Date of registration	3 April 2025
Product registration no.	95703
Label approval no.	95703/146964
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 25 g/L dicamba (present as the dimethylamine salt) and 150 g/L MCPA (present as the dimethylamine salt) product, formulated as a soluble concentrate (SL) for use in home garden for selective control of broadleaf weeds in warm and cool season turf.

Application no.	146687
Product name	Swan Prothioconazole + Tebuconazole 420 SC Fungicide
Active constituents	210 g/L prothioconazole, 210 g/L tebuconazole
Applicant name	Swan Chemical Holdings Pty Ltd
Applicant ACN	669 863 067
Date of registration	4 April 2025
Product registration no.	95647
Label approval no.	95647/146687
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 210 g/L prothioconazole and 210 g/L tebuconazole suspension concentrate (SC) product for the control of various diseases in wheat, barley, oats, triticale, canola and pyrethrum.

Table 2: Variations of registration – agricultural chemical products

Application no.	147886
Product name	HexPro 750 Herbicide
Active constituent	750 g/kg hexazinone
Applicant name	Shandong Rainbow International Co Ltd
Applicant ACN	N/A
Date of variation	24 March 2025
Product registration no.	66512
Label approval no.	66512/147886
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'Rainbow Hexazinone 750 SG Herbicide' to 'HexPro 750 Herbicide'.

Application no.	145870
Product name	Trump Spray Oil
Active constituent	830 g/L paraffinic oil
Applicant name	Victorian Chemical Company Proprietary Limited
Applicant ACN	004 188 863
Date of variation	28 March 2025
Product registration no.	59092
Label approval no.	59092/145870
Description of the application and its purpose, including the intended use of the chemical product	Variation to particulars of registration and label approval to add uses.

Application no.	146426
Product name	Ecomist Insect Killer With Natural Pyrethrins
Active constituents	45 g/kg piperonyl butoxide, 9 g/kg pyrethrins
Applicant name	Damar Industries Pty Limited
Applicant ACN	097 723 610
Date of variation	4 April 2025
Product registration no.	45706
Label approval no.	45706/146426
Description of the application and its purpose, including the intended use of the chemical product	Variation to particulars of label to update label in accordance with the FAISD handbook and the Australian and New Zealand harmonised labelling for aerosol products.

Veterinary chemical products and approved labels

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has registered or varied the relevant particulars or conditions of the registration in respect of the following products and has approved the label or varied the relevant particulars or conditions of the approval in respect of the containers for the chemical product, with effect from the dates shown.

Table 3: Veterinary products based on existing active constituents

Application no.	144731
Product name	Aurazol Minidose Cattle Drench
Active constituent	112.5 g/L albendazole
Applicant name	Aura Laboratories Limited
Applicant ACN	N/A
Date of registration	25 March 2025
Product registration no.	95117
Label approval no.	95117/144731
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 112.5 g/L albendazole oral drench product for the control of benzimidazole sensitive mature and immature gastrointestinal roundworms (including inhibited type II <i>Ostertagia</i> larvae), lungworms, tapeworms and to aid in the control of adult liver fluke in cattle.

Application no.	146729
Product name	Terminator Allwormer Paste for Horses
Active constituents	167 mg/g morantel tartrate, 4 mg/g abamectin
Applicant name	Randlab Australia Pty Ltd
Applicant ACN	114 948 837
Date of registration	26 March 2025
Product registration no.	95654
Label approval no.	95654/146729
Description of the application and its purpose, including the intended use of the chemical product	Registration of 167 mg/g morantel tartrate, 4 mg /g abamectin, oral paste product for the treatment and control of tapeworms (<i>A. perfoliata</i>) and roundworms in horses.

Application no.	146326
Product name	Farmers' Own Dicyclanil Extra Spray-On Blowfly Treatment for Sheep
Active constituent	65 g/L dicyclanil
Applicant name	Arrovet Pty Ltd
Applicant ACN	674 072 532
Date of registration	31 March 2025
Product registration no.	95553
Label approval no.	95553/146326
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 65 g/L dicyclanil spray-on product for the protection of sheep against fly strike, and for the protection of mulesing and marking wounds on sheep against fly strike during the wound healing process.

Application no.	146325
Product name	Farmers' Own Dicyclanil 50 g/L Spray-On Blowfly Treatment for Sheep
Active constituent	50 g/L dicyclanil
Applicant name	Arrovet Pty Ltd
Applicant ACN	674 072 532
Date of registration	3 April 2025
Product registration no.	95552
Label approval no.	95552/146325
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 50 g/L dicyclanil pour-on product for the protection of sheep against fly strike for 18 to 24 weeks and for the protection of mulesing and marking wounds on sheep against fly strike during wound healing process.

Application no.	145769
Product name	Tristar-M Oral Drench for Sheep
Active constituents	40 g/L levamisole hydrochloride, 25 g/L albendazole, 1 g/L moxidectin
Applicant name	Vetpharm Laboratories IP Pty Ltd
Applicant ACN	654 406 756
Date of registration	7 April 2025
Product registration no.	95475
Label approval no.	95475/145769
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 40 g/L levamisole hydrochloride, 25 g/L albendazole, 1 g/L moxidectin oral drench product for the treatment and control of sensitive strains of gastrointestinal nematodes in sheep.

Table 4: Variations of registration – veterinary chemical products

Application no.	147779
Product name	Owtbac Tickgun Duo Pour-On for Cattle
Active constituents	15 g/L fluzuron, 5 g/L ivermectin
Applicant name	The United Animal Healthcare (Inner Mongolia) Co Ltd
Applicant ACN	N/A
Date of variation	13 March 2025
Product registration no.	95336
Label approval no.	95336/147779
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'Owtbac Tickmaster Duo Pour-On for Cattle' to 'Owtbac Tickgun Duo Pour-On for Cattle'.

Application no.	144804
Product name	ilium Meloxicam 20 Anti-Inflammatory Injection for Cattle, Sheep, Pigs and Horses
Active constituent	20 mg/mL meloxicam
Applicant name	Troy Laboratories Pty Ltd
Applicant ACN	000 283 769
Date of variation	26 March 2025
Product registration no.	62535
Label approval no.	62535/144804
Description of the application and its purpose, including the intended use of the chemical product	Variation of relevant particulars of product registration and label approval to update in-use shelf-life of the product.

Application no.	146850
Product name	Baycox Coccidiocide Solution
Active constituent	25 g/L toltrazuril
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of variation	26 March 2025
Product registration no.	45626
Label approval no.	45626/146850
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the product registration and label by updating the label to align with the current Veterinary Labelling Code.

Application no.	143501
Product name	Duplocillin Procaine and Benzathine Penicillin Injection
Active constituents	150 mg/mL procaine penicillin, 125 mg/mL benzathine penicillin
Applicant name	Intervet Australia Pty Limited
Applicant ACN	008 467 034
Date of variation	3 April 2025
Product registration no.	37266
Label approval no.	37266/143501
Description of the application and its purpose, including the intended use of the chemical product	Variation of the relevant particulars of product registration and label approval by updating the label active constituent concentration and storage particulars.

Application no.	146796
Product name	Itchderm HCA Spray
Active constituent	0.584 mg/mL hydrocortisone aceponate
Applicant name	InVetro Pty Ltd
Applicant ACN	654 837 733
Date of variation	3 April 2025
Product registration no.	95059
Label approval no.	95059/146796
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the product registration and label approval by including the target animal species under dosage and administration.

Table 5: Label approval – veterinary chemical products

Application no.	147196
Product name	Fido's Flea Shampoo for Cats and Dogs
Active constituents	1 g/L pyrethrins, 10 g/L piperonyl butoxide
Applicant name	Mavlab Pty Ltd
Applicant ACN	009 708 187
Date of registration	28 March 2025
Product registration no.	48811
Label approval no.	48811/147196
Description of the application and its purpose, including the intended use of the chemical product	Approval of a new label for the registered product 'Fido's Flea Shampoo for Cats and Dogs' with the label name, 'Covetrus Skin Relief Fleas and Lice Shampoo for Dogs and Cats'.

Approved active constituents

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has approved or varied the relevant particulars or conditions of the approval of the following active constituents, with effect from the dates shown.

Table 6: Approved active constituents

Application no.	146422
Active constituent	Eprinomectin
Applicant name	Jiangsu Quality Horizons Pharmtech Co Ltd
Applicant ACN	N/A
Date of approval	25 March 2025
Approval no.	95578
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent eprinomectin for use in veterinary chemical products.

Application no.	146521
Active constituent	Albendazole
Applicant name	Agro-Alliance (Australia) Pty Ltd
Applicant ACN	130 864 603
Date of approval	25 March 2025
Approval no.	95613
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent albendazole for use in veterinary chemical products.

Application no.	144590
Active constituent	Carprofen
Applicant name	Avet Health Limited
Applicant ACN	616 838 101
Date of approval	26 March 2025
Approval no.	95072
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent carprofen for use in veterinary chemical products.

Application no.	145085
Active constituent	Cyproconazole
Applicant name	Syngenta Australia Pty Ltd
Applicant ACN	002 933 717
Date of approval	26 March 2025
Approval no.	95250
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent cyproconazole for use in agricultural chemical products.

Application no.	145210
Active constituent	Diquat dibromide
Applicant name	Jiangsu Noon Crop Science Co., Ltd
Applicant ACN	N/A
Date of approval	26 March 2025
Approval no.	95296
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent diquat dibromide for use in agricultural chemical products.

Application no.	145841
Active constituent	Fenbendazole
Applicant name	Aura Laboratories Limited
Applicant ACN	N/A
Date of approval	26 March 2025
Approval no.	95496
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent fenbendazole for use in veterinary chemical products.

Application no.	145843
Active constituents	DL-alpha-tocopheryl acetate
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of approval	26 March 2025
Approval no.	95497
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent DL-alpha-tocopheryl acetate for use in veterinary chemical products.

Application no.	145183
Active constituent	Propentofylline
Applicant name	Intervet Australia Pty Limited
Applicant ACN	008 467 034
Date of approval	27 March 2025
Approval no.	95281
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent propentofylline for use in veterinary chemical products.

Application no.	145159
Active constituent	Pyraflufen-ethyl
Applicant name	Conquest Crop Protection Pty Ltd
Applicant ACN	098 814 932
Date of approval	28 March 2025
Approval no.	95271
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent pyraflufen-ethyl for use in agricultural chemical products.

Application no.	145220
Active constituent	Topramezone
Applicant name	Thai Harvest Limited
Applicant ACN	N/A
Date of approval	28 March 2025
Approval no.	95301
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent topramezone for use in agricultural chemical products.

Application no.	145213
Active constituent	Malathion
Applicant name	Ningbo Sunjoy Agrosience Co., Ltd
Applicant ACN	N/A
Date of approval	31 March 2025
Approval no.	95299
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent malathion for use in agricultural chemical products.

Application no.	145243
Active constituent	Zinc sulphate monohydrate
Applicant name	Abbey Laboratories Pty Ltd
Applicant ACN	156 000 430
Date of approval	31 March 2025
Approval no.	95309
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent zinc sulphate monohydrate for use in veterinary chemical products.

Application no.	147164
Active constituent	Tranexamic acid
Applicant name	Probus Pharmaceuticals Pty Ltd
Applicant ACN	638 193 674
Date of approval	31 March 2025
Approval no.	95785
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent tranexamic acid for use in veterinary chemical products.

Application no.	145127
Active constituent	Amoxycillin trihydrate
Applicant name	Zoetis Australia Pty Ltd
Applicant ACN	156 476 425
Date of approval	1 April 2025
Approval no.	95259
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent amoxycillin trihydrate for use in veterinary chemical products.

Application no.	145222
Active constituent	Dinotefuran
Applicant name	Shanghai E-Tong Chemical Co Ltd
Applicant ACN	N/A
Date of approval	4 April 2025
Approval no.	95303
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent dinotefuran for use in agricultural chemical products.

Application no.	145266
Active constituent	Bicyclopyrone
Applicant name	Shandong Rainbow International Co Ltd
Applicant ACN	N/A
Date of approval	4 April 2025
Approval no.	95315
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent bicyclopyrone for use in agricultural chemical products.

Table 7: Variations of active constituent

Application no.	146328
Active constituent	Oxytetracycline dihydrate
Applicant name	Norbrook Laboratories Australia Pty Limited
Applicant ACN	080 972 596
Date of variation	25 March 2025
Approval no.	82923
Description of the application and its purpose, including the intended use of the active constituent	Variation of relevant particulars or conditions of an approved active constituent.

Agvet chemical voluntary recall: CaniPRBC - Canine Packed Red Blood Cells

Product name: CaniPRBC - Canine Packed Red Blood Cells

APVMA registration number: 81359

APVMA approved label number: 102893

Batch number: 14607 PRBC

Sold by: Plasvacc in Queensland on 14 March 2025

On 31 March 2025, Plasvacc Pty Ltd (ABN: 099 547 841) initiated a voluntary recall under section 106 of the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* (Cth) in relation to the chemical product described above.

Reason for voluntary recall

This product recall has been initiated as a precaution due to possible bacterial contamination of the product.

Hazard

Potential to cause bacterial infection of the recipient.

What to do if in possession of this chemical product

No action required as all the product from the affected batch has been located and reconciled.

More information

Visit the APVMA website to [view the notice](#) of voluntary recall for the chemical product described above.

The APVMA publishes a list of [agvet chemical recall notices](#) on its website and provides a [subscription option](#) to be notified by email when a new recall notice is published.

Agvet chemical voluntary recall: ilium Methadone Injection

Product name: ilium Methadone Injection

APVMA registration number: 63712

APVMA approved label number: 56141

Batch number: 241106

Sold by: Veterinary wholesalers in all states and territories between 13 December 2024 to 3 April 2025.

On 3 April 2025, Troy Laboratories Pty Ltd (ABN: 000 283 769) initiated a voluntary recall under section 106 of the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* (Cth) in relation to the chemical product described above.

Reason for voluntary recall

Some units of above-mentioned batch may not have a label on the bottle, although it is enclosed in a carton with all relevant product information.

Hazard

Unlabelled vials could potentially result in product being used for unintended purposes. However, vials without labels are easy to identify immediately and due to the strict regulations surrounding use and record keeping of schedule 8 drugs, the risk of unlabelled Methadone being used is very low. If the vial is labelled, there is no risk, and the product does not need to be returned.

What to do if in possession of this chemical product

Veterinary wholesalers and end users should check all stock on hand of batch 241106 for affected units (i.e. unlabelled vials). If any unlabelled vials are found, please isolate the product and place in quarantine. Troy (contact details included below) will provide advice on management of affected units and arrangements for replacement.

More information

Visit the APVMA website to [view the notice](#) of voluntary recall for the chemical product described above.

The APVMA publishes a list of [agvet chemical recall notices](#) on its website and provides a [subscription option](#) to be notified by email when a new recall notice is published.
