Agricultural and veterinary chemicals

No. APVMA 10, 13 May 2025

Published by the Australian Pesticides and Veterinary Medicines Authority

Australian Government

**Australian Pesticides and
Veterinary Medicines Authority**

The *Agricultural and Veterinary Chemical Code Act 1994* (the Act) commenced on 15 March 1995. The Agricultural and Veterinary Chemicals Code (the Agvet Code) scheduled to the Act requires notices to be published in the *Gazette* containing details of the registration of agricultural and veterinary chemical products and other approvals granted by the Australian Pesticides and Veterinary Medicines Authority. The Agvet Code and related legislation also requires certain other notices to be published in the *Gazette*. A reference to Agvet Codes in this publication is a reference to the Agvet Code in each state and territory jurisdiction.

General information

The APVMA Gazette is published fortnightly and contains details of the registration of agricultural and veterinary chemicals products and other approvals granted by the APVMA, notices as required by the Agricultural and Veterinary Chemicals Code (the Agvet Code) and related legislation and a range of regulatory material issued by the APVMA.

Pursuant to section 8J(1) of the Agvet Code, the APVMA has decided that it is unnecessary to publish details of applications made for the purpose of notifying minor variations to registration details. The APVMA will however report notifications activity in quarterly statistical reports.

Distribution and subscription

The APVMA Gazette is published in electronic format only and is available from the [APVMA website](#).

If you would like to subscribe to receive email notification when a new edition is published, please complete a [subscription form](#).

APVMA contacts

For enquiries regarding the publishing and distribution of the APVMA Gazette: Telephone: +61 2 6770 2300.

For enquiries on APVMA Gazette content, please refer to the individual APVMA contacts listed under each notice.

Agricultural chemical products and approved labels

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has registered or varied the relevant particulars or conditions of the registration in respect of the following products and has approved the label or varied the relevant particulars or conditions of the approval in respect of the containers for the chemical product, with effect from the dates shown.

Table 1: Agricultural products based on existing active constituents

Application no.	138340
Product name	MainMan 100 OD Insecticide
Active constituent	100 g/L flonicamid
Applicant name	Ishihara Sangyo Kaisha, Ltd
Applicant ACN	N/A
Date of registration	24 April 2025
Product registration no.	93218
Label approval no.	93218/138340
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 100 g/L flonicamid OD oil-based suspension concentrate product for the control of sucking insects in fruit and vegetable crops

Application no.	146952
Product name	Mandiva 250SC Fungicide
Active constituent	250 g/L mandipropamid
Applicant name	Grochem Australia Pty Ltd
Applicant ACN	169 400 033
Date of registration	29 April 2025
Product registration no.	95698
Label approval no.	95698/146952
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 250 g/L mandipropamid product, formulated as a suspension concentrate (SC) for the control of downy mildew in grapes, lettuce, leafy vegetables and oilseed poppies

Application no.	145700
Product name	Titan Snipa 750 WG Herbicide
Active constituent	750 g/kg picolinafen
Applicant name	Titan Ag Pty Ltd
Applicant ACN	122 081 574
Date of registration	30 April 2025
Product registration no.	95444
Label approval no.	95444/145700
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 750 g/kg picolinafen WG product for the control or suppression of certain broadleaved weeds in wheat, barley and narrowleaf lupins

Application no.	142189
Product name	Screen 2P Wear (non-perfumed)
Active constituent	40 g/L permethrin (40:60)
Applicant name	Callington Haven Pty Ltd
Applicant ACN	000 632 404
Date of registration	1 May 2025
Product registration no.	94355
Label approval no.	94355/142189
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 40 g/L of permethrin spray which turns clothes into a protective barrier against mosquito bites from species like aedes, culex, and anopheles, which can transmit vector-borne diseases

Application no.	143813
Product name	Titan Boonta 600 Herbicide
Active constituent	600 g/L glyphosate present as potassium and monomethylamine salts
Applicant name	Titan Ag Pty Ltd
Applicant ACN	122 081 574
Date of registration	2 May 2025
Product registration no.	94839
Label approval no.	94839/143813
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 600 g/L glyphosate soluble concentrate product for the control of a range of annual and perennial weeds

Application no.	143128
Product name	Gnaw Rodenticide
Active constituent	0.75 g/kg cholecalciferol contains denatonium benzoate (bittering agent)
Applicant name	Volmac Pty Ltd
Applicant ACN	604 389 282
Date of registration	2 May 2025
Product registration no.	94661
Label approval no.	94661/143128
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 0.75 g/kg cholecalciferol bait product for control of introduced rodents

Table 2: Variations of registration – agricultural chemical products

Application no.	N/A – variation under section 29A of the AgVet Code
Product name	Rid Australia Rid Outdoors Insect Repellent Spray 6 Hours
Active constituents	191 g/kg diethyltoluamide, 40 g/kg N-octyl bicycloheptene
Applicant name	Cavalieri Investing Pty Ltd
Applicant ACN	162 722 625
Date of variation	10 April 2025
Product registration no.	86617
Label approval no.	86617/116209v
Description of the application and its purpose, including the intended use of the chemical product	Variation of label approval to amend inconsistencies between the first aid instructions, safety directions, and how to use sections

Application no.	148182
Product name	Prolong Ultra Fly and Litter Beetle Insecticide
Active constituent	25 g/L beta-cyfluthrin
Applicant name	2022 Environmental Science AU Pty Ltd
Applicant ACN	656 513 923
Date of variation	15 April 2025
Product registration no.	66483
Label approval no.	66483/148182
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registrations and label approval to update the first aid instructions appearing on a label to reflect the current FAISD handbook

Application no.	148181
Product name	Prolong Fly and Litter Beetle Insecticide
Active constituent	100 g/kg cyfluthrin
Applicant name	2022 Environmental Science AU Pty Ltd
Applicant ACN	656 513 923
Date of variation	15 April 2025
Product registration no.	58460
Label approval no.	58460/148181
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registrations and label approval to update the first aid instructions appearing on a label to reflect the current FAISD handbook

Application no.	N/A – variation under section 29A of the AgVet Code
Product name	Community Co Shoo Tropical Strength Personal Insect Repellent 6 Hour Protection
Active constituents	191 g/kg diethyltoluamide, 40 g/kg N-octyl bicycloheptene dicarboximide
Applicant name	Aaron Laboratories Proprietary Limited
Applicant ACN	004 856 848
Date of variation	16 April 2025
Product registration no.	87804
Label approval no.	87804/129911v
Description of the application and its purpose, including the intended use of the chemical product	Variation of label approval to amend inconsistencies between the first aid instructions, safety directions, and how to use sections

Application no.	145776
Product name	CropSure Confidant 350SC Insecticide
Active constituent	350 g/L imidacloprid
Applicant name	CropSure Pty Ltd
Applicant ACN	643 829 190
Date of variation	23 April 2025
Product registration no.	90522
Label approval no.	90522/145776
Description of the application and its purpose, including the intended use of the chemical product	Variation to registration particulars and label particulars to add uses in sugarcane, peanuts, brassicas, potatoes, apples, bananas and citrus and add spray drift restraints

Application no.	146533
Product name	Titan Diafenthiuron 500 SC Miticide/Insecticide
Active constituent	500 g/L diafenthiuron
Applicant name	Titan Ag Pty Ltd
Applicant ACN	122 081 574
Date of variation	2 May 2025
Product registration no.	85579
Label approval no.	85579/146533
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to add uses on canola to the directions for use

Application no.	146996
Product name	Broadstrike Herbicide
Active constituent	800 g/kg flumetsulam
Applicant name	Corteva Agriscience Australia Pty Ltd
Applicant ACN	003 771 659
Date of variation	2 May 2025
Product registration no.	40714
Label approval no.	40714/146996
Description of the application and its purpose, including the intended use of the chemical product	Variation to registration particulars, particulars of label, to update directions for use statements and some relevant label particulars including mode of action, restraints, withholding periods, storage and disposal statements to align with the current FAISD handbook

Application no.	N/A – variation under section 29A of the AgVet Code
Product name	Bare Essentials Personal Insect Repellent Tropical Strength
Active constituents	191 g/kg diethyltoluamide, 40 g/kg N-octyl bicycloheptene dicarboximide
Applicant name	Pascoe's Pty Ltd
Applicant ACN	055 220 463
Date of variation	2 May 2025
Product registration no.	89993
Label approval no.	89993/126971v
Description of the application and its purpose, including the intended use of the chemical product	Variation of label approval to amend inconsistencies between the first aid instructions, safety directions, and how to use sections

Application no.	N/A – variation under section 29A of the Agvet Code
Product name	Sporekill Agricultural Disinfectant
Active constituent	120 g/L didecyl dimethyl ammonium chloride
Applicant name	Grochem Australia Pty Ltd
Applicant ACN	169 400 033
Date of variation	5 May 2025
Product registration no.	51141
Label approval no.	51141/123802v
Description of the application and its purpose, including the intended use of the chemical product	Variation of label to amend inconsistencies between safety directions and directions for use, and to move spray drift restraints from protections section to restraints section

Application no.	N/A – variation under section 29A of the AgVet Code
Product name	Repellex Outback Personal Insect Repellent Tropical Strength
Active constituents	191 g/kg diethyltoluamide, 40 g/kg N-octyl bicycloheptene dicarboximide
Applicant name	Pascoe's Pty Ltd
Applicant ACN	055 220 463
Date of variation	5 May 2025
Product registration no.	81294
Label approval no.	81294/111564v
Description of the application and its purpose, including the intended use of the chemical product	Variation of label approval to amend inconsistencies between the first aid instructions, safety directions, and how to use sections

Veterinary chemical products and approved labels

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has registered or varied the relevant particulars or conditions of the registration in respect of the following products and has approved the label or varied the relevant particulars or conditions of the approval in respect of the containers for the chemical product, with effect from the dates shown.

Table 3: Veterinary products based on new active constituents

Application no.	142149
Product name	Clevor 30 mg/mL Eye Drops Solution
Active constituent	30 mg/mL ropinirole (as hydrochloride)
Applicant name	Mavlab Animal Health Pty Ltd
Applicant ACN	164 339 637
Date of registration	30 April 2025
Product registration no.	94343
Label approval no.	94343/142149
Description of the application and its purpose, including the intended use of the chemical product	Approval of ropinirole hydrochloride and registration of a 30 mg/mL ropinirole hydrochloride eye drops solution product for the induction of vomiting in dogs

Table 4: Variations of registration – veterinary chemical products

Application no.	146738
Product name	Cobalife VB12 Plus Selenium for Sheep and Cattle
Active constituent/s	4 mg/mL selenium as sodium selenate, 2 mg/mL hydroxocobalamin acetate
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of variation	17 April 2025
Product registration no.	61465
Label approval no.	61465/146738
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the product registration and label by updating the label to align with the current Veterinary Labelling Code

Application no.	144501
Product name	Fostera Gold PCV Metastim
Active constituents	Inactivated Porcine Circovirus Type 1-Type 2a Chimera (RP \geq 1.0) Inactivated Porcine Circovirus Type 1-Type 2b Chimera (RP \geq 1.0)
Applicant name	Zoetis Australia Pty Ltd
Applicant ACN	156 476 425
Date of variation	22 April 2025
Product registration no.	88614
Label approval no.	88614/144501
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the product registration and label approval to add an alternative method of administration using needle free devices

Application no.	144502
Product name	Fostera Gold PCV MH
Active constituents	Inactivated Porcine Circovirus Type 1-Type 2a Chimera (RP \geq 1.0) Inactivated Porcine Circovirus Type 1-Type 2b Chimera (RP \geq 1.0) Inactivated Mycoplasma hyopneumoniae (RP \geq 1.5)
Applicant name	Zoetis Australia Pty Ltd
Applicant ACN	156 476 425
Date of variation	22 April 2025
Product registration no.	87927
Label approval no.	87927/144502
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the product registration and label approval to add an alternative method of administration using needle free devices

Application no.	144252
Product name	Vaxsafe ST Vaccine (Living)
Active constituent/s	\geq 107.0 CFU/dose* living, attenuated aroA deletion Salmonella Typhimurium Strain STM-1. *Colony Forming Unit
Applicant name	Bioproperties Pty. Ltd.
Applicant ACN	007 303 728
Date of variation	23 April 2025
Product registration no.	40728
Label approval no.	40728/144252
Description of the application and its purpose, including the intended use of the chemical product	Variation of relevant particulars of the product registration and label by reinstating a statement in the general directions section

Application no.	146851
Product name	Bayticol Cattle Dip and Spray
Active constituent	75 g/L flumethrin
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of variation	23 April 2025
Product registration no.	41037
Label approval no.	41037/146851
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the product registration and label by updating the label to align with the current Veterinary Labelling Code

Application no.	144689
Product name	Revolution Plus (selamectin/sarolaner) monthly topical solution for large cats 5.1 – 10 kg
Active constituents	60 mg/mL selamectin, 10 mg/mL sarolaner
Applicant name	Zoetis Australia Pty Ltd
Applicant ACN	156 476 425
Date of variation	30 April 2025
Product registration no.	87222
Label approval no.	87222/144689
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of product registration and label approval by extending the use and claim for the treatment and control of mild to moderate cases of notoedric mange (<i>Notoedres cati</i>) in cats

Application no.	144690
Product name	Revolution Plus (selamectin/sarolaner) monthly topical solution for medium cats 2.6 – 5 kg
Active constituents	60 mg/mL selamectin, 10 mg/mL sarolaner
Applicant name	Zoetis Australia Pty Ltd
Applicant ACN	156 476 425
Date of variation	30 April 2025
Product registration no.	87224
Label approval no.	87224/144690
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of product registration and label approval by extending the use and claim for the treatment and control of mild to moderate cases of notoedric mange (<i>Notoedres cati</i>) in cats

Application no.	144691
Product name	Revolution Plus (selamectin/sarolaner) monthly topical solution for small cats and kittens 1.25 – 2.5 kg
Active constituents	60 mg/mL selamectin, 10 mg/mL sarolaner
Applicant name	Zoetis Australia Pty Ltd
Applicant ACN	156 476 425
Date of variation	30 April 2025
Product registration no.	87225
Label approval no.	87225/144691
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of product registration and label approval by extending the use and claim for the treatment and control of mild to moderate cases of notoedric mange (<i>Notoedres cati</i>) in cats

Application no.	145209
Product name	Equipalazone Granules
Active constituent	Each sachet contains: 1 g phenylbutazone
Applicant name	Dechra Veterinary Products (Australia) Pty Ltd
Applicant ACN	614 716 700
Date of variation	30 April 2025
Product registration no.	35620
Label approval no.	35620/145209
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of both the product registration and label approval by updating the net contents

Application no.	147126
Product name	Tilmax 250 Tilmicosin Phosphate Aqueous Concentrate
Active constituent	250 mg/mL tilmicosin
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of variation	1 May 2025
Product registration no.	64769
Label approval no.	64769/147126
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the product registration and label by updating the label to align with the current Veterinary Labelling Code

Table 5: Variation of Label approval – veterinary chemical products

Application no.	148226
Product name	Bob Martin Clear Spot On Kittens and Cats Up to 4kg
Active constituents	100 g/L imidacloprid, 10 g/L moxidectin
Applicant name	Bob Martin (Australia) Pty Ltd
Applicant ACN	062 627 883
Date of variation	18 April 2025
Product registration no.	91022
Label approval no.	91022/148226
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the name that appears on the label from 'Bob Martin Clear Spot On Kittens and Cats up to 4kg' to 'Bob Martin Spot On Kittens and Cats up to 4kg'

Application no.	148227
Product name	Bob Martin Clear Spot On Cats Over 4Kg
Active constituents	100 g/L imidacloprid, 10 g/L moxidectin
Applicant name	Bob Martin (Australia) Pty Ltd
Applicant ACN	062 627 883
Date of variation	18 April 2025
Product registration no.	91019
Label approval no.	91019/148227
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the name that appears on the label from 'Bob Martin Clear Spot On Cats Over 4Kg' to 'Bob Martin Spot On Cats Over 4Kg'

Approved active constituents

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has approved or varied the relevant particulars or conditions of the approval of the following active constituents, with effect from the dates shown.

Table 6: Approved active constituents

Application no.	144565
Active constituent	Disodium Copper EDTA
Applicant name	Chemvet Australia Pty Ltd
Applicant ACN	138 711 289
Date of approval	23 April 2025
Approval no.	95056
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent disodium copper EDTA for use in veterinary chemical products

Application no.	145295
Active constituent	Chlorantraniliprole
Applicant name	Hextar Chemicals Pty Ltd
Applicant ACN	114 525 709
Date of approval	23 April 2025
Approval no.	95327
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent chlorantraniliprole for use in agricultural chemical products

Application no.	145353
Active constituent	Pyroxasulfone
Applicant name	Vision Fluorochem (Nanjing) Ltd.
Applicant ACN	N/A
Date of approval	23 April 2025
Approval no.	95359
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent pyroxasulfone for use in agricultural chemical products

Application no.	144566
Active constituent	Disodium zinc EDTA
Applicant name	Chemvet Australia Pty Ltd
Applicant ACN	138 711 289
Date of approval	24 April 2025
Approval no.	95057
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent disodium zinc EDTA for use in veterinary chemical products

Application no.	147148
Active constituent	Selamectin
Applicant name	Jiyu Biopharm Co Ltd
Applicant ACN	N/A
Date of approval	29 April 2025
Approval no.	95780
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent selamectin for use in veterinary chemical products

Application no.	147328
Active constituent	Milbemycin oxime
Applicant name	Jiyu Biopharm Co Ltd
Applicant ACN	N/A
Date of approval	29 April 2025
Approval no.	95838
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent milbemycin oxime for use in veterinary chemical products

Application no.	142148
Active constituent	Ropinirole hydrochloride
Applicant name	Mavlab Animal Health Pty Ltd
Applicant ACN	164 339 637
Date of approval	30 April 2025
Approval no.	94342
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent ropinirole hydrochloride for use in veterinary chemical products

Application no.	145709
Active constituent	Praziquantel
Applicant name	Aura Laboratories Limited
Applicant ACN	N/A
Date of approval	1 May 2025
Approval no.	95450
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent praziquantel for use in veterinary chemical products

Application no.	146463
Active constituent	Eprinomectin
Applicant name	Vetsense Pty Ltd
Applicant ACN	150 968 871
Date of approval	1 May 2025
Approval no.	95589
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent eprinomectin for use in veterinary chemical products

Application no.	140034
Active constituent	Homobrassinolide
Applicant name	Jiangxi Windeal Biotechnology Co., Ltd.
Applicant ACN	N/A
Date of approval	2 May 2025
Approval no.	93642
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent homobrassinolide for use in agricultural chemical products

Table 7: Variations of active constituent

Application no.	146393
Active constituent	Basic Cobalt (II) Carbonate
Applicant name	Agrimin Limited
Applicant ACN	N/A
Date of variation	2 May 2025
Approval no.	82677
Description of the application and its purpose, including the intended use of the active constituent	Variation of relevant particulars or conditions of an approved active constituent

Licensing of veterinary chemical manufacturers

Pursuant to Part 8 of the Agricultural and Veterinary Chemicals Code (Agvet Code), scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has taken action with respect to the licensing of the following veterinary chemical manufacturers with effect from the dates shown.

For a comprehensive listing of all licensed manufacturers please see the [APVMA website](#).

New licenses

The APVMA has issued the following licenses under subsection 123(1) of the Agvet Code:

Table 8: New licenses issued by the APVMA under subsection 123(1) of the Agvet Code

Company name	Licence number	Company ACN/ABN	Address	Product types Bookmark not defined.	Steps of manufacture	Date issued
Probiotec Multipack Pty Ltd	6229	100 109 019	22B Hanson Place Eastern Creek NSW 2766	Category 6: All dosage forms	Secondary packaging, secondary labelling, storage and release for supply	28 March 2025
The State of Queensland acting through the Department of Primary Industries	1018	66 934 348 189	Tick Fever Centre 280 Grindle Road Wacol QLD 4076	Category 1: Immunobiologicals	Quality assurance (QA) of raw materials, management and inoculation of donor animals, blood collection, formulation including blending, aseptic filling, filling, packaging, labelling, analysis and testing (physical, sterility, microbiological, and serological), storage, and release for supply	8 April 2025
Vetlab Sterile Pty Ltd	1112	616 832 010	41 Harris Street North St Marys NSW 2760	Category 1: Sterile products	Quality assurance (QA) of raw materials, formulation including blending, filling, aseptic filling, sterilisation (heat, and filtration), microbiological reduction treatment (heat and filtration), packaging, labelling, analysis and testing (physical), storage, and release for supply	14 April 2025
Padula Serums Pty. Ltd.	1123	167 348 610	100 Bosworth Road Bairnsdale VIC 3875	Category 1: Immunobiologicals and sterile products for injection	Quality assurance (QA) of raw materials, plasma collection, management and immunisation of donor animals, formulation including blending, aseptic filling, analysis and testing (physical, chemical, endotoxin, microbiological, sterility, serological and immunological), sterilisation (filtration), packaging, labelling, storage, release from manufacture only (partial release), release for supply	1 May 2025
BVAQ Pty Ltd	6259	004 319 171	3 Lennon Street West Melbourne VIC 3003	Category 6: Non-sterile dosage forms	Analysis and testing (microbiological)	2 May 2025

Amendments to the APVMA MRL Standard

The Australian Pesticides and Veterinary Medicines Authority (APVMA) approves maximum residue limits (MRLs) of agricultural and veterinary chemicals in agricultural produce, particularly produce entering the food chain. The MRLs approved by the APVMA are associated with a regulatory decision to register a product, grant a permit approval, or as an outcome from a review decision and are set out in the *Agricultural and Veterinary Chemicals (MRL Standard for Residues of Chemical Products) Instrument 2023*. The *MRL Standard* lists MRLs of substances that may arise from the approved use of agricultural and veterinary chemical products containing those substances on commodities used for human consumption as well as livestock feeds. The *MRL Standard* also provides the relevant residue definitions to which these MRLs apply. There may be situations where the residue definition for monitoring and enforcement is different to the definition used for dietary risk assessment purposes.

MRLs are set at levels which are not likely to be exceeded if the agricultural or veterinary chemicals are used in accordance with approved label instructions. In considering MRLs and variation to MRLs, the APVMA takes into account studies on chemistry, metabolism, analytical methodology, residues, toxicology, good agricultural practice and dietary exposure. In approving MRLs, the APVMA is satisfied, from dietary exposure assessment, that the levels set are not an undue hazard to human health.

The APVMA has amended the *MRL Standard* and the changes will take effect the day after the instrument is registered.

Details of the amendment can be found in the *Agricultural and Veterinary Chemicals (MRL Standard for Residues of Chemical Products) Amendment Instrument (No. 2) 2025*.

The amendments will be incorporated into the compilation of the *Agricultural and Veterinary Chemicals (MRL Standard for Residues of Chemical Products) Instrument 2023*.

The MRL Standard is accessible via the [Federal Register of Legislation website](#).

Proposal to amend Schedule 20 in the Australian New Zealand Food Standards Code

In the previous notice on page 18 of APVMA Gazette No. 10, the APVMA gazetted amendments which it has approved to vary maximum residue limits (MRLs) for substances contained in agricultural and veterinary chemical products as set out in the APVMA's MRL Standard.

Under section 82 of the *Food Standards Australia New Zealand Act 1991*, the APVMA is proposing to incorporate those variations (Agricultural and Veterinary Chemicals Code (*MRL Standard*) Amendment Instrument 2025 (No. 2)) to MRLs into Schedule 20 – Maximum residue limits in the Australia New Zealand Food Standards Code.

MRLs contained in Schedule 20 provide the limits for residues of agricultural and veterinary chemicals that may legitimately occur in foods. By this means Schedule 20 permits the sale of treated foods and protects public health and safety by minimising residues in foods consistent with the effective control of pests and diseases.

The APVMA and Food Standards Australia New Zealand (FSANZ) are satisfied, based on dietary exposure assessments and current health standards, that the proposed limits are not harmful to public health.

The agreement between the Australian Government and the New Zealand Government concerning a Joint Food Standards System excludes MRLs for agricultural and veterinary chemicals in food from the system setting joint food standards. Australia and New Zealand independently and separately develop MRLs for agricultural and veterinary chemicals in food.

A Sanitary and Phytosanitary (SPS) notification to the World Trade Organization (WTO) will be made.

The APVMA invites comment on these proposals. Details on how to make a submission appear near the end of this notice, below the details of the proposed amendment.

The APVMA will consider any public comments made in response to this proposal. If the APVMA decides to proceed with the proposal, it will further notify any variations it makes to Schedule 20 in the APVMA Gazette. The variations will take effect as from the date of that subsequent notice.

Proposed variation to Schedule 20 in the Australia New Zealand Food Standards Code

13 May 2025

Note: Subsection 82(2) of the *Food Standards Australia New Zealand Act 1991* provides that variations to standards are legislative instruments, but are not subject to disallowance or sunseting.

To commence: on gazettal of variation

Schedule 20 Maximum Residue Limits

[1] Section S20—3

Insert in alphabetical order the following chemicals, the corresponding permitted residue(s), food commodities and associated MRLs:

Agvet chemical: Cyclobutrifluram

Permitted residue: commodities of plant origin: Cyclobutrifluram

Commodities of animal origin: Sum of cyclobutrifluram and 2-trifluoromethyl-nicotinamide (SYN510275), expressed as cyclobutrifluram

All other foods except animal food commodities	0.05
Barley	*0.01
Edible offal (mammalian)	0.5
Eggs	*0.03
Meat (mammalian)	0.05
Milks	0.05
Poultry meat	*0.03
Poultry, edible offal of	*0.03
Wheat	*0.01

[2] Section S20—3 (table entry for Agvet chemical: Bifenthrin)

Insert in alphabetical order:

Pecan	T*0.05
-------	--------

[3] Section S20—3 (table entry for Agvet chemical: Chlorantraniliprole)

Insert in alphabetical order:

Rice bran, unprocessed	T5
------------------------	----

[4] Section S20—3 (table entry for Agvet chemical: Chlorantraniliprole)

Omit:

Rice 0.4

Substitute:

Rice T3

[5] Section S20—3 (table entry for Agvet chemical: Cyantraniliprole)

Omit:

Avocado T1

Macadamia nuts T*0.01

Substitute:

Avocado 0.5

Macadamia nuts *0.01

[6] Section S20—3 (table entry for Agvet chemical: Isoxaben)

Insert in alphabetical order:

Pulses *0.01

[7] Section S20—3 (table try for Agvet chemical: Metalaxyl)

Omit the following food commodities and associated MRLs:

Almonds T5

Chestnuts T0.05

Hazelnuts T*0.05

Macadamia nuts 1

Stone fruits [except jujube,
Chinese] 0.2

Walnuts T*0.01

[8] Section S20—3 (table entry for Agvet chemical: Metalaxyl)

Insert the following food commodities and associated MRLs in alphabetical order:

Peach 0.6

Stone fruits [except jujube,
Chinese; peach] 0.2

Tree nuts [except pecan] 2

[9] Section S20—3 (table entry for Agvet chemical: Propamocarb)

Insert in alphabetical order:

Ginger T50

[10] Section S20—3 (table entry for Agvet chemical: Trichlorfon)

Insert in alphabetical order:

Leafy vegetables 15

Invitation for submissions

Written submissions are invited from interested individuals and organisations to assist the APVMA in considering the proposal to vary Schedule 20 – Maximum residue limits in the Australia New Zealand Food Standards Code.

Submissions should be strictly confined to relevant matters that the APVMA must consider (such as public health and safety) which are associated with the occurrence of the proposed residues in foods. Comments received outside these grounds will not be considered by the APVMA.

Claims made in submissions should be supported wherever possible by referencing or including relevant studies, research findings, trials and surveys. Technical information should be in sufficient detail to allow independent scientific assessment.

Submissions must be made in writing and should be clearly marked as a 'submission on the proposed amendment to Schedule 20' and quote the correct amendment number.

Deadline for public submissions

Submissions must be received by 10 June 2025 (28 days from date Gazette published). Submissions received after this deadline will only be considered by prior arrangement or if agreement for an extension has been given prior to this closing date. Agreement to an extension of time will only be given if extraordinary circumstances warrant an extension to the submission period.

Please note: submissions will be published on the APVMA's website, unless you have asked for the submission to remain confidential, or if the APVMA chooses at its discretion not to publish any submissions received (refer to the [public consultation coversheet](#)).

Please lodge your submission using the [public consultation coversheet](#), which provides options for how your submission will be published.

Note that all APVMA documents are subject to the access provisions of the *Freedom of Information Act 1982* and may be required to be released under that Act should a request for access be made.

Agvet chemical voluntary recall: ilium Meloxicam Anti-Inflammatory Oral Suspension for Dogs

Product name: ilium Meloxicam Anti-Inflammatory Oral Suspension for Dogs

APVMA registration number: 60023

APVMA approved label numbers: 135339 or 136383 or 138430 or 139996

Batch numbers: All batches (Refer to Appendix A)

Sold by: Veterinary wholesalers in all states and territories between 8 June 2023 to 1 May 2025.

On 1 May 2025, Troy Laboratories Pty Ltd (ABN: 000 283 769) initiated a voluntary recall under section 106 of the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* (Cth) in relation to the chemical product described above.

Reason for voluntary recall

Some units of only the 10 mL and 30 mL pack sizes, still within the expiry date, may be leaking.

Hazard

Leaks can lead to wastage, contamination, or a reduced amount of the product available for use. If the tube is not leaking, there is no risk, and the product does not need to be returned.

What to do if in possession of this chemical product

Please isolate and place in quarantine, any leaking units of 10 mL and 30 mL pack sizes of the product. Troy Laboratories (contact details included below) will provide advice on the management of affected units and arrangements for replacement.

More information

Visit the APVMA website to [view the notice](#) of voluntary recall for the chemical product described above.

The APVMA publishes a list of [agvet chemical recall notices](#) on its website and provides a [subscription option](#) to be notified by email when a new recall notice is published.

Agvet chemical voluntary recall: CaniPRBC – Canine Packed Red Blood Cells

Product name: CaniPRBC – Canine Packed Red Blood Cells

APVMA registration number: 81359

APVMA approved label number: 102893

Batch number: 14785 A PRBC

Sold by: Plasvacc in New South Wales on 6 May 2025

On 9 May 2025, Plasvacc Pty Ltd (ABN: 099 547 841) initiated a voluntary recall under section 106 of the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* (Cth) in relation to the chemical product described above.

Reason for voluntary recall

This product recall has been initiated as a precaution due to possible bacterial contamination of the product.

Hazard

Potential to cause bacterial infection of the recipient.

What to do if in possession of this chemical product

No action required. All products have been located and reconciled.
