

Agvet chemical voluntary recall

Velocity Selective Herbicide (20 L)

APVMA registration number: 62444

APVMA approved label number: RV2024

Batch numbers: PAHE002684, PAHE002685, PAHE002686, PAHS007436, PAHS007437, PAHS007582, PAHS007587, PAHS007621, PAHS007625, PAHS007626, PAHS008097, PAHS008099, PAHS008100

Shipped to agricultural suppliers in Victoria, New South Wales, Queensland, South Australia and Western Australia between 03/06/2025 to 13/06/2025

On 13/06/2025, Bayer CropScience Pty Ltd (ACN 000 226 022) initiated a voluntary recall under section 106 of the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* (Cth) in relation to the chemical product described above.

Reason for voluntary recall:

The previously approved label for Velocity Selective Herbicide (approval number 62444/53867) has been used on some 20 L containers instead of the current approved label (approval number 62444/RV2024).

Hazard:

On 01/02/2025, Velocity Selective Herbicide, previously a Schedule 6 poison, became a Schedule 7 poison following the rescheduling of bromoxynil to Schedule 7. Schedule 7 products are identified with the signal heading "DANGEROUS POISON" and must be stored in a locked room or place away from children, animals, food, feedstuffs, seed and fertilisers. The label 62444/53867 does not include these instructions and will not inform handlers or users about the correct scheduling and storage of the product.

What to do:

Quarantine stock which has the Schedule 6 label (signal heading "POISON", label approval number 62444/53867), ensure product is stored locked up and contact Bayer Customer Service or your local supplier for return and replacement stock.

For further information

Please direct all calls and any queries concerning this voluntary recall to Bayer Customer Service at 1800 636 001 or aust.cs@bayer.com
