Agricultural and veterinary chemicals

APVMA Special Gazette, 15 July 2025

Published by the Australian Pesticides and Veterinary Medicines Authority

Australian Government

**Australian Pesticides and
Veterinary Medicines Authority**

The *Agricultural and Veterinary Chemical Code Act 1994* (the Act) commenced on 15 March 1995. The Agricultural and Veterinary Chemicals Code (the Agvet Code) scheduled to the Act requires notices to be published in the *Gazette* containing details of the registration of agricultural and veterinary chemical products and other approvals granted by the Australian Pesticides and Veterinary Medicines Authority. The Agvet Code and related legislation also requires certain other notices to be published in the *Gazette*. A reference to Agvet Codes in this publication is a reference to the Agvet Code in each state and territory jurisdiction.

General information

The APVMA Gazette is published fortnightly and contains details of the registration of agricultural and veterinary chemicals products and other approvals granted by the APVMA, notices as required by the Agricultural and Veterinary Chemicals Code (the Agvet Code) and related legislation and a range of regulatory material issued by the APVMA.

Pursuant to section 8J(1) of the Agvet Code, the APVMA has decided that it is unnecessary to publish details of applications made for the purpose of notifying minor variations to registration details. The APVMA will however report notifications activity in quarterly statistical reports.

Distribution and subscription

The APVMA Gazette is published in electronic format only and is available from the [APVMA website](http://apvma.gov.au).

If you would like to subscribe to receive email notification when a new edition is published, please complete a [subscription form](#).

APVMA contacts

Agvet chemical voluntary recall: Fel-O-Vax 3 Vaccine (Inactivated)

Product name: Fel-O-Vax 3 Vaccine (Inactivated)

APVMA registration number: 59315

APVMA approved label number: 57809

Batch number(s): 3254005

Sold by: Boehringer Ingelheim Animal Health Australia nationwide between 3 July 2024 to 7 July 2025

On 7 July 2025, Boehringer-Ingelheim Animal Health Australia Pty Ltd (ABN 53 071 187 285) initiated a voluntary recall under section 106 of the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* (Cth) in relation to the chemical product described above.

Reason for voluntary recall

The voluntary recall for batch 3254005 has been initiated due to trend data from routine stability monitoring that indicated this batch may not remain within the potency specification for Feline Calicivirus (FCV) for the duration of the shelf-life period. The recall is limited to batch 3254005 only.

Hazard

There is low hazard associated with this batch recall as this batch currently remains within its potency specification. Therefore, for animals vaccinated with this batch to date, there should be no impact on product safety or efficacy. This is a precautionary and proactive action only.

What to do if in possession of this chemical product

Veterinary clinics will be contacted to return any remaining inventory of batch 3254005 to their veterinary wholesaler. There is no action required to be taken by pet owners.

More information

Visit the APVMA website to [view the notice](#) of voluntary recall for the chemical product described above.

Contact

If you have any questions concerning this recall, please do not hesitate to contact the Boehringer Ingelheim Animal Health Customer Service Team on 1800 808 691 and select option 3.

Should you have questions with regard to animal welfare please contact our Customer Care team on the above number and select option 2, or email Boehringer Ingelheim Animal Health Customer Care on: customercare.australia@boehringer-ingelheim.com.

Agvet chemical voluntary recall: Ilium Dexapent Anti-Inflammatory and Glucogenic Steroid Injection

Product name: Ilium Dexapent Anti-Inflammatory and Glucogenic Steroid Injection

APVMA registration number: 50583

APVMA approved label number: 50399

Batch number(s): 230915A and 24061DA

Sold by: Troy Laboratories Pty Ltd in all states and territories between 11 December 2023 to 7 July 2025

On 7 July 2025, Troy Laboratories Pty Ltd (ABN: 000 283 769) initiated a voluntary recall under section 106 of the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* (Cth) in relation to the chemical product described above.

Reason for voluntary recall

Over the shelf life of the product, the active ingredient was found to be below specification for batches 230915A and 24061DA.

Hazard

The defect may result in reduced efficacy.

What to do if in possession of this chemical product

Cease use immediately and contact your supplier.

Agvet chemical voluntary recall: Covetrus Meloxicam Oral Suspension for Dogs

Product name: Covetrus Meloxicam Oral Suspension for Dogs

APVMA registration number: 90137

APVMA approved label number: 145801

Batch number(s): ALL25029

Sold by: Provet in all states and territories between 1 May 2025 to 2 July 2025.

On 8 July 2025, Headway Investments Pty Ltd (ABN 91 655 095 855) initiated a voluntary recall under section 106 of the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* (Cth) in relation to the chemical product described above.

Reason for voluntary recall

The active constituent statement on the common leaflet has a typographical error and incorrectly states 0.5 mg/mL of meloxicam rather than 1.5 mg/mL of meloxicam.

The immediate label and primary label are not affected and state the correct active constituent concentration.

Hazard

This is a printing error on the leaflet only. The product itself has been manufactured correctly and meets all quality and safety standards. The efficacy and safety of the product is unaffected. The dose rate remains unchanged, as per the instructions on the immediate and primary label.

What to do if in possession of this chemical product

Refer to the immediate label (bottle) and primary label (carton) for the correct active constituent concentration. Affected customers will be contacted.

More information

The APVMA publishes a list of [agvet chemical recall notices](#) on its website and provides a [subscription option](#) to be notified by email when a new recall notice is published.

Contact

Please direct all calls and any queries concerning this voluntary recall to your local Provet Distributor.

Alternatively, the Provet NSW Head Office can be contacted on (02) 8867 5144.

Agvet chemical voluntary recall: LEOPARD 200 Herbicide

Product name: LEOPARD 200 Herbicide

APVMA registration number: 68000

APVMA approved label number: 108485

Batch number(s): 56028, 56029, 56030, 56031, 56297, 56298, 56299, 56300, 56301, 56302, 56303, 56304, 56563, 56625 and 56626

Sold by: Agricultural Retailers in NSW, VIC and SA only between 19 January 2025 to 10 July 2025

On 10 July 2025, ADAMA Australia Pty Ltd (ACN 050 328 973) initiated a voluntary recall under section 106 of the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* (Cth) in relation to the chemical product described above.

Reason for voluntary recall

The presence of crystals following extended exposure to cold conditions has been detected in some batches of 20 L LEOPARD 200 Herbicide which may cause handling issues and blockages in application equipment but should not present any crop safety concern.

Hazard

The sediment formed by the crystals may impact the expected performance of LEOPARD 200 Herbicide and may lead to equipment blockages during application.

What to do if in possession of this chemical product

DO NOT use the product if the batch number is 56028, 56029, 56030, 56031, 56297, 56298, 56299, 56300, 56301, 56302, 56303, 56304, 56563, 56625 or 56626. Quarantine unopened or partially used containers of LEOPARD 200 Herbicide from the affected batches and contact ADAMA Australia for instructions for collection and refund.

Questions about this voluntary recall should be directed to:

ADAMA Australia – (02) 9431 7800

Agvet chemical voluntary recall: Prosaro 420 SC Foliar Fungicide

Product name: Prosaro 420 SC Foliar Fungicide

APVMA registration number: 63243

APVMA approved label number: 132620

Batch number(s): PAIS010451

Sold by: agricultural suppliers in Queensland and Western Australia between 4 June 2025 to 10 July 2025

On 10 July 2025, Bayer CropScience Ltd Pty (ACN, 000 226 022) initiated a voluntary recall under section 106 of the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* (Cth) in relation to the chemical product described above.

Reason for voluntary recall

An incorrect back label has been affixed on some 10 L containers instead of the current approved label (approval number 63243/132620).

Hazard

The incorrect back label provides Directions for Use for a registered Bayer herbicide product and if followed could result in harm to the crop treated.

What to do if in possession of this chemical product

Quarantine stock which has the incorrect back label, ensure product is stored locked up, and contact Bayer Customer Service or your local supplier for return and replacement stock.
