Agricultural and veterinary chemicals

No. APVMA 4, Tuesday 24 February 2026

Published by the Australian Pesticides and Veterinary Medicines Authority

Australian Government

**Australian Pesticides and
Veterinary Medicines Authority**

The *Agricultural and Veterinary Chemical Code Act 1994* (the Act) commenced on 15 March 1995. The Agricultural and Veterinary Chemicals Code (the Agvet Code) scheduled to the Act requires notices to be published in the *Gazette* containing details of the registration of agricultural and veterinary chemical products and other approvals granted by the Australian Pesticides and Veterinary Medicines Authority. The Agvet Code and related legislation also requires certain other notices to be published in the *Gazette*. A reference to Agvet Codes in this publication is a reference to the Agvet Code in each state and territory jurisdiction.

General information

The APVMA Gazette is published fortnightly and contains details of the registration of agricultural and veterinary chemicals products and other approvals granted by the APVMA, notices as required by the Agricultural and Veterinary Chemicals Code (the Agvet Code) and related legislation and a range of regulatory material issued by the APVMA.

Pursuant to section 8J(1) of the Agvet Code, the APVMA has decided that it is unnecessary to publish details of applications made for the purpose of notifying minor variations to registration details. The APVMA will however report notifications activity in quarterly statistical reports.

Distribution and subscription

The APVMA Gazette is published in electronic format only and is available from the [APVMA website](#).

If you would like to subscribe to receive email notification when a new edition is published, please complete a [subscription form](#).

APVMA contacts

For enquiries regarding the publishing and distribution of the APVMA Gazette: Telephone: +61 2 6770 2300.

For enquiries on APVMA Gazette content, please refer to the individual APVMA contacts listed under each notice.

Agricultural chemical products and approved labels	1
Veterinary chemical products and approved labels	11
Approved active constituents	18
Application for the approval of a new active constituent – Folpet.....	21
Application for registration of a new product – Folpan 800 WG Fungicide containing folpet.....	23
Application for registration of a new products – Basta Ultra Herbicide and Liberty Ultra Herbicide, containing 211 g/L Glufosinate-P-ammonium.....	25
Licensing of veterinary chemical manufacturers	28
Notice of proposed chemical products standard for chemical products containing fenitrothion.....	29
Agvet chemical voluntary recall: Frequency Herbicide	31
Recall Notice: Augustine Approved ACN 130 045 368.....	32
Notice of cancellation at the request of the holder	33

Agricultural chemical products and approved labels

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has registered or varied the relevant particulars or conditions of the registration in respect of the following products and has approved the label or varied the relevant particulars or conditions of the approval in respect of the containers for the chemical product, with effect from the dates shown.

Table 1: Agricultural products based on existing active constituents

Application no.	150599
Product name	QA MCPA + Picloram SL Herbicide
Active constituents	420 g/L MCPA present as potassium salt, 26 g/L picloram present as potassium salt
Applicant name	Quantum Agrosiences Holdings Pty Ltd
Applicant ACN	680 792 625
Date of registration	2 February 2026
Product registration no.	96758
Label approval no.	96758/150599
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 420 g/L MCPA present as potassium salt, and 26 g/L picloram present as potassium salt, soluble I concentrate (SL) product for the control of climbing buckwheat, common sowthistle, skeleton weed, capeweed, doublegee and other broadleaf weeds in winter cereals and linseed crops

Application no.	145164
Product name	Kilblat Cockroach Killer Spray
Active constituents	2.76 g/kg cyphenothrin, 0.94 g/kg D-tetramethrin
Applicant name	Callington Haven Pty Ltd
Applicant ACN	000 632 404
Date of registration	3 February 2026
Product registration no.	95274
Label approval no.	95274/145164
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 2.76 g/kg cyphenothrin and 0.94 g/kg D-tetramethrin product for control of household crawling insects

Application no.	150620
Product name	Quantum Prosulfocarb 800 EC Herbicide
Active constituent	800 g/L prosulfocarb
Applicant name	Quantum Agrosiences Holdings Pty Ltd
Applicant CAN	680 792 625
Date of registration	3 February 2026
Product registration no.	96764
Label approval no.	96764/150620
Description of the application and its purpose, including the intended use of the chemical product	Registration of an 800 g/L prosulfocarb product, formulated as an emulsifiable concentrate (EC) product for the control of annual ryegrass (<i>Lolium rigidum</i>) and other grass and broadleaf weeds in barley and wheat as specified in the directions for use table

Application no.	150173
Product name	NovaGuard Pyroxasulfone 850 WG Herbicide
Active constituent	850 g/kg pyroxasulfone
Applicant name	Novaguard Pty Ltd
Applicant ACN	153 121 156
Date of registration	3 February 2026
Product registration no.	96636
Label approval no.	96636/150173
Description of the application and its purpose, including the intended use of the chemical product	Registration of an 850 g/kg pyroxasulfone product, formulated as a water dispersible granule (WG) for pre-emergence control of annual ryegrass, barley grass, annual phalaris, silver grass and toad rush and suppression of certain grass weeds in wheat (not durum wheat), triticale and certain winter legume crops

Application no.	148130
Product name	Mozziedot Mosquito Repellent Patch
Active constituent	120 mg/patch citronella oil
Applicant name	Cubitt, Andrea Janine
Applicant ACN	30 923 507 053
Date of registration	4 February 2026
Product registration no.	96083
Label approval no.	96083/148130
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 120 mg/patch citronella oil, formulated as a solid (SO) for use as a household personal insect repellent

Application no.	150174
Product name	EasyFarm Pyroxasulfone 850 WG Herbicide
Active constituent	850 g/kg pyroxasulfone
Applicant name	Novaguard Pty Ltd
Applicant ACN	153 121 156
Date of registration	4 February 2026
Product registration no.	96637
Label approval no.	96637/150174
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 850 g/kg pyroxasulfone product, formulated as a water dispersible granule (WG) for pre-emergence control of annual ryegrass, barley grass, annual phalaris, silver grass and toad rush and suppression of certain grass weeds in wheat (not durum wheat), triticale and certain winter legume crops

Application no.	150597
Product name	QA Hexazinone 250 SL Herbicide
Active constituent	250 g/L hexazinone
Applicant name	Quantum Agrosiences Holdings Pty Ltd
Applicant ACN	680 792 625
Date of registration	6 February 2026
Product registration no.	96756
Label approval no.	96756/150597
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 250 g/L hexazinone product, formulated as a soluble concentrate (SL) for control of certain broadleaf weeds, perennial and annual grasses, woody weeds in pinus radiata plantations, pasture situations and commercial and industrial areas and rights-of-way as per the directions for use

Application no.	150660
Product name	AC Ringstar 920 Herbicide
Active constituents	800 g/L prosulfocarb, 120 g/L S-metolachlor
Applicant name	Axichem Pty Ltd
Applicant ACN	131 628 594
Date of registration	6 February 2026
Product registration no.	96783
Label approval no.	96783/150660
Description of the application and its purpose, including the intended use of the chemical product	Registration of an 800 g/L prosulfocarb and 120 g/L S-metolachlor product, formulated as an emulsifiable concentrate (EC) for control of annual ryegrass (<i>Lolium rigidum</i>) and other grass and broadleaf weeds in barley, chickpeas, faba beans, field peas, lentils, lupins, potatoes and wheat

Application no.	150598
Product name	QA Effect Wetter Surfactant
Active constituent	1040 g/L octyl phenol ethoxylate
Applicant name	Quantum Agrosiences Holdings Pty Ltd
Applicant ACN	680 792 625
Date of registration	9 February 2026
Product registration no.	96757
Label approval no.	96757/150598
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 1040 g/L octyl phenol ethoxylate product, formulated as a suspension concentrate (SC) for improvement of spray coverage when using agricultural chemicals

Application no.	148160
Product name	Kenso Agcare Amizon Herbicide
Active constituents	300 g/L triclopyr present as the butoxyethyl ester, 100 g/L picloram present as the hexyloxypropylamine salt, 8 g/L aminopyralid present as hexyloxypropylamine salt
Applicant name	Kenso Corporation (M) Sdn. Bhd.
Applicant ACN	N/A
Date of registration	9 February 2026
Product registration no.	96097
Label approval no.	96097/148160
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 300 g/L triclopyr present as butoxyethyl ester, 100 g/L picloram present as hexyloxypropylamine salt and 8 g/L aminopyralid present as hexyloxypropylamine salt in emulsifiable concentrate product for control of a range of environmental and noxious woody and herbaceous weeds

Application no.	150579
Product name	Swan Glufosinate 200 Herbicide
Active constituent	200 g/L glufosinate-ammonium
Applicant name	Swan Chemical Holdings Pty Ltd
Applicant ACN	669 863 067
Date of registration	10 February 2026
Product registration no.	96748
Label approval no.	96748/150579
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 200 g/L glufosinate-ammonium product, formulated as a soluble concentrate (SL) for the non-residual control of broadleaf and grass weeds in various situations

Application no.	150619
Product name	QA Flumioxazin 500 WG Herbicide
Active constituent	500 g/kg flumioxazin
Applicant name	Quantum Agrosiences Holdings Pty Ltd
Applicant ACN	680 792 625
Date of registration	11 February 2026
Product registration no.	96763
Label approval no.	96763/150619
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 500 g/kg flumioxazin product, formulated as a water dispersible granule (WG) for the control of fungal diseases on macadamia nuts, chickpeas, faba beans, lentils and vetch

Application no.	150594
Product name	QA MCPA + Picolinafen EC Herbicide
Active constituents	500 g/L MCPA present as the ethyl hexyl ester, 50 g/L picolinafen
Applicant name	Quantum Agrosiences Holdings Pty Ltd
Applicant CAN	680 792 625
Date of registration	11 February 2026
Product registration no.	96753
Label approval no.	96753/150594
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 500 g/L MCPA present as the ethyl hexyl ester 50 g/L picolinafen emulsifiable concentrate (EC) product for the control of certain broadleaf weeds in winter cereals

Application no.	150617
Product name	QA Propyzamide 500 SC Herbicide
Active constituent	500 g/L propyzamide
Applicant name	Quantum Agrosiences Holdings Pty Ltd
Applicant ACN	680 792 625
Date of registration	11 February 2026
Product registration no.	96762
Label approval no.	96762/150617
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 500 g/L propyzamide product, formulated as a suspension concentrate (SC) for selective control of certain grasses and broadleaf weeds in lettuce, sports turf, home lawns, legumes, seed crops and pastures, as per the direction for use

Application no.	144497
Product name	NAVADET Insecticide
Active constituents	45 g/L chlorantraniliprole, 18 g/L abamectin
Applicant name	United Cropscience PTE., Ltd.
Applicant ACN	N/A
Date of registration	11 February 2026
Product registration no.	95028
Label approval no.	95028/144497
Description of the application and its purpose, including the intended use of the chemical product	Registration and label approval of an 18 g/L abamectin, 45 g/L chlorantraniliprole suspension concentrate product for control of certain mites in pome fruit

Application no.	148658
Product name	NovaGuard Pyriproxyfen 100 Insect Growth Regulator
Active constituent	100 g/L pyriproxyfen
Applicant name	Novaguard Pty Ltd
Applicant ACN	153 121 156
Date of registration	12 February 2026
Product registration no.	96250
Label approval no.	96250/148658
Description of the application and its purpose, including the intended use of the chemical product	Registration of 100 g/L pyriproxyfen emulsifiable concentrate product for the control of silverleaf whitefly (<i>Bemisia tabaci</i> Biotype B) in cotton, rockmelon and capsicum, the control of silverleaf whitefly (<i>Bemisia tabaci</i> Biotype B) and greenhouse whitefly in tomatoes, and the control of various scale in citrus, mangoes and olives

Application no.	150621
Product name	QA Wetter 600
Active constituent	600 g/L nonyl phenol ethylene oxide condensate
Applicant name	Quantum Agrosiences Holdings Pty Ltd
Applicant ACN	680 792 625
Date of registration	13 February 2026
Product registration no.	96765
Label approval no.	96765/150621
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 600 g/L nonyl phenol ethylene oxide condensate for use with insecticides, fungicides and herbicides

Application no.	149644
Product name	QA Chlorpyrifos 500 EC Insecticide
Active constituent	500 g/L chlorpyrifos (an anti-cholinesterase compound)
Applicant name	Quantum Agrosiences Holdings Pty Ltd
Applicant ACN	680 792 625
Date of registration	13 February 2026
Product registration no.	96520
Label approval no.	96520/149644
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 500 g/L chlorpyrifos product, formulated as an emulsifiable concentrate (EC) for the control of certain insect pests in various situations as per the directions for use

Application no.	150304
Product name	ACP Interact 33-15 Herbicide
Active constituents	33 g/L imazamox as the ammonium salt, 15 g/L imazapyr present as the ammonium salt
Applicant name	Australis Crop Protection Pty Ltd
Applicant ACN	150 711 185
Date of registration	13 February 2026
Product registration no.	96656
Label approval no.	96656/150304
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 33 g/L imazamox as the ammonium salt and 15 g/L imazapyr as the ammonium salt, soluble concentrate product for the early post-emergence control of certain annual grass and broadleaf weeds in imidazolinone-tolerant wheat, barley, and canola

Table 2: Variations of registration – agricultural chemical products

Application no.	150568
Product name	Deltanox Duo 10SC Insecticide
Active constituents	80 g/L piperonyl butoxide, 10 g/L deltamethrin, 10 g/L D-tetramethrin (20:80)
Applicant name	Australian Agribusiness (Holdings) Pty Ltd
Applicant ACN	135 355 958
Date of variation	14 October 2025
Product registration no.	68900
Label approval no.	68900/150568
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'Pest Controller's Own Deltamethrin Tetramethrin 10 SC Insecticide' to 'Deltanox Duo 10SC Insecticide'

Application no.	151671
Product name	TITAN Glufosinate 400 Herbicide
Active constituent	400 g/L glufosinate-ammonium
Applicant name	Titan Ag Pty Ltd
Applicant ACN	122 081 574
Date of variation	20 January 2026
Product registration no.	83887
Label approval no.	83887/151671
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'Eureka! Patented Glufosinate 400 Herbicide' to 'TITAN Glufosinate 400 Herbicide'

Application no.	151754
Product name	AC Hussle Spray Adjuvant
Active constituents	700 g/L ethyl and methyl esters of vegetable oil, 116 g/L nonionic surfactants
Applicant name	Axichem Pty Ltd
Applicant ACN	131 628 594
Date of variation	29 January 2026
Product registration no.	69449
Label approval no.	69449/151754
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'AC Hassle Spray Adjuvant' to 'AC Hussle Spray Adjuvant'

Application no.	150484
Product name	Bollgard 3
Active constituents	Bacillus thuringiensis subsp. kurstaki delta endotoxins as produced by the Cry1Ac and Cry2Ab genes and their controlling sequences, bacillus thuringiensis strain AB88 exotoxin as produced by the Vip3A(a) gene and its controlling sequence
Applicant name	Monsanto Australia Pty Ltd
Applicant ACN	006 725 560
Date of variation	2 February 2026
Product registration no.	69656
Label approval no.	69656/106072
Description of the application and its purpose, including the intended use of the chemical product	Variation to registration particulars to amend the conditions of registration associated with the resistance management plan (RMP) for northern Australia

Application no.	150665
Product name	Yates Lawn Disease Fungicide Concentrate
Active constituent	125 g/L fludioxonil
Applicant name	Syngenta Australia Pty Ltd
Applicant ACN	002 933 717
Date of variation	3 February 2026
Product registration no.	94228
Label approval no.	94228/150665
Description of the application and its purpose, including the intended use of the chemical product	Variation to registration particulars and particulars of label to change product name from 'Munns Professional Lawn Fungicide Concentrate' to 'Yates Lawn Disease Fungicide Concentrate' and to update the statement of claims

Application no.	148206
Product name	BUSHMAN Repellent PERSONAL INSECT REPELLENT
Active constituent	400 g/kg diethyltoluamide
Applicant name	Juno Limited
Applicant ACN	N/A
Date of variation	9 February 2026
Product registration no.	60969
Label approval no.	60969/148206
Description of the application and its purpose, including the intended use of the chemical product	Variation to particulars of label, to extend use claims on nuisance flies

Application no.	150622
Product name	Escalate 500 SC Cotton Defoliant
Active constituent	500 g/L thidiazuron
Applicant name	ADAMA Australia Pty Limited
Applicant ACN	050 328 973
Date of variation	10 February 2026
Product registration no.	55126
Label approval no.	55126/150622
Description of the application and its purpose, including the intended use of the chemical product	Variation to registration and label particulars of the product 'Escalate 500 SC Cotton Defoliant' (500 g/L thidiazuron) to amend the adjuvant in the directions for use table

Application no.	149962
Product name	Genfarm Panzer 540 Herbicide
Active constituent	540 g/L glyphosate (present as the potassium salt)
Applicant name	Nutrien Ag Solutions Limited
Applicant ACN	008 743 217
Date of variation	11 February 2026
Product registration no.	89795
Label approval no.	89795/149962
Description of the application and its purpose, including the intended use of the chemical product	Variation to particulars of registration and label approval to add an alternative soluble concentrate, 540 glyphosate (as the potassium salt) formulation for non-selective herbicide control of many annual and perennial weeds and to decrease the pack size range

Table 3: Restricted product variation – agricultural chemical products

Application no.	141062
Product name	Eradicat 1080 Feral Cat Bait
Active constituent	0.18 g/kg sodium fluoroacetate / 4.5 mg sodium fluoroacetate (1080) per bait
Applicant name	Department of Biodiversity, Conservation and Attractions
Applicant ACN	38 052 249 024
Date of variation	9 February 2026
Product registration no.	65272
Label approval no.	65272/141062
Description of the application and its purpose, including the intended use of the chemical product	Variation to registration particulars, and particulars of label, to extend use to SA, NT and Qld and set the rate for all use patterns at 50 baits per square km

Veterinary chemical products and approved labels

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has registered or varied the relevant particulars or conditions of the registration in respect of the following products and has approved the label or varied the relevant particulars or conditions of the approval in respect of the containers for the chemical product, with effect from the dates shown.

Table 4: Veterinary products based on existing active constituents

Application no.	140896
Product name	Varenzin Oral Suspension for Cats
Active constituent	25 mg/mL molidustat sodium
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of registration	13 February 2026
Product registration no.	93914
Label approval no.	93914/140896
Description of the application and its purpose, including the intended use of the chemical product	Registration and approval of the label for 'Varenzin Oral Suspension for Cats' containing 25 mg/mL of molidustat sodium, as an aid in the control of nonregenerative anaemia associated with chronic kidney disease (CKD) in cats

Application no.	144720
Product name	Abatak Dual Combination Drench for Sheep
Active constituents	50 g/L closantel, 1 g/L abamectin
Applicant name	Abbey Laboratories Pty Ltd
Applicant ACN	156 000 430
Date of registration	3 February 2026
Product registration no.	95111
Label approval no.	95111/144720
Description of the application and its purpose, including the intended use of the chemical product	Registration of Abatak Dual Combination Drench for Sheep containing 1 g/L abamectin and 50 g/L closantel for the control and treatment of roundworms, nasal bot, itch mite and liver fluke in sheep

Application no.	150797
Product name	Owtbac Moxidone Long Acting Injection for Cattle
Active constituents	100 mg/mL moxidectin
Applicant name	The United Animal Healthcare (Inner Mongolia) Co Ltd
Applicant ACN	N/A
Date of registration	9 February 2026
Product registration no.	96833
Label approval no.	96833/150797
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 100 mg/mL moxidectin injectable product and label for the treatment and control of moxidectin sensitive internal and external parasites in cattle

Application no.	143998
Product name	Advocate Ultra Chew for Dogs 22.1 – 45 kg
Active constituents	Each chew contains 900 mg lotilaner, 228 mg praziquantel, 228 mg pyrantel (as embonate), 0.9 mg moxidectin
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of registration	16 February 2026
Product registration no.	94905
Label approval no.	94905/143998
Description of the application and its purpose, including the intended use of the chemical product	Registration and approval of the label of an oral chew containing 900 mg lotilaner, 228 mg pyrantel (as embonate), 228 mg praziquantel, and 0.9 mg moxidectin for the treatment and control of tick species, treatment and prevention of fleas, prevention of heartworm, treatment and control of intestinal worms

Application no.	143999
Product name	Advocate Ultra Chew for Dogs 5.6 – 11 kg
Active constituents	Each chew contains 225 mg lotilaner, 57 mg praziquantel, 57 mg pyrantel (as embonate), 0.225 mg moxidectin
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of registration	16 February 2026
Product registration no.	94906
Label approval no.	94906/143999
Description of the application and its purpose, including the intended use of the chemical product	Registration and approval of the label of an oral chew containing 225 mg lotilaner, 57 mg pyrantel (as embonate), 57 mg praziquantel, and 0.225 mg moxidectin for the treatment and control of tick species, treatment and prevention of fleas, prevention of heartworm, treatment and control of intestinal worms

Application no.	144000
Product name	Advocate Ultra Chew for Dogs 11.1 – 22 kg
Active constituents	Each chew contains 450 mg lotilaner, 114 mg praziquantel, 114 mg pyrantel (as embonate), 0.45 mg moxidectin
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of registration	16 February 2026
Product registration no.	94907
Label approval no.	94907/144000
Description of the application and its purpose, including the intended use of the chemical product	Registration and approval of the label of an oral chew containing 450 mg lotilaner, 114 mg pyrantel (as embonate), 114 mg praziquantel, and 0.45 mg moxidectin for the treatment and control of tick species, treatment and prevention of fleas, prevention of heartworm, treatment and control of intestinal worms

Application no.	144001
Product name	Advocate Ultra Chew for Dogs 2.9 – 5.5 kg
Active constituents	Each chew contains 112.5 mg lotilaner, 28.5 mg praziquantel, 28.5 mg pyrantel (as embonate), 0.11 mg moxidectin
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of registration	16 February 2026
Product registration no.	94908
Label approval no.	94908/144001
Description of the application and its purpose, including the intended use of the chemical product	Registration and approval of the label of an oral chew containing 112.50 mg lotilaner, 28.5 mg pyrantel (as embonate), 28.50 mg praziquantel, and 0.1125 mg moxidectin for the treatment and control of tick species, treatment and prevention of fleas, prevention of heartworm, treatment and control of intestinal worms

Application no.	144002
Product name	Advocate Ultra Chew for Dogs 2.0 – 2.8 kg
Active constituents	Each chew contains 56.25 mg lotilaner, 14.25 mg praziquantel, 14.25 mg pyrantel (as embonate), 0.056 mg moxidectin
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of registration	16 February 2026
Product registration no.	94909
Label approval no.	94909/144002
Description of the application and its purpose, including the intended use of the chemical product	Registration and approval of the label of an oral chew containing 56.25 mg lotilaner, 14.25 mg pyrantel (as embonate), 14.25 mg praziquantel, and 0.05625 mg moxidectin for the treatment and control of tick species, treatment and prevention of fleas, prevention of heartworm, treatment and control of intestinal worms

Table 5: Variations of registration – veterinary chemical products

Application no.	149288
Product name	Equipel Insect Repellent Conditioner
Active constituent	40 mg/mL permethrin (25:75)
Applicant name	Dermcare-Vet Pty Ltd
Applicant ACN	010 280 010
Date of variation	2 February 2026
Product registration no.	93339
Label approval no.	93339/149288
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the product and label by changing the instructions of use to increase the maximum dosage and align the label with the current Veterinary Labelling Code

Application no.	150766
Product name	Pexion 400 mg Tablets for Dogs
Active constituent	400 mg/tablet imepitoin
Applicant name	Boehringer Ingelheim Animal Health Australia Pty. Ltd.
Applicant ACN	071 187 285
Date of variation	2 February 2026
Product registration no.	67812
Label approval no.	67812/150766
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the product and label by changing the instructions of use to align the label with the current Veterinary Labelling Code

Application no.	150493
Product name	Simplseal
Active constituent	650 mg/g bismuth subnitrate
Applicant name	Alleeva Animal Health Ltd
Applicant ACN	N/A
Date of variation	5 February 2026
Product registration no.	91411
Label approval no.	91411/150493
Description of the application and its purpose, including the intended use of the chemical product	Variation of the relevant particulars of the product and label approval to vary the instructions for use and net contents

Application no.	151298
Product name	Jurox Domperidone Paste for Horses
Active constituent	600 mg domperidone
Applicant name	Zoetis Australia Pty Ltd
Applicant ACN	156 476 425
Date of variation	5 February 2026
Product registration no.	54030
Label approval no.	54030/151298
Description of the application and its purpose, including the intended use of the chemical product	Variation of relevant particulars of the chemical product and label approval to update the withholding period and align the label with the current Veterinary Labelling Code

Application no.	151146
Product name	Seresto for Kittens and Cats Fleas and Tick Collar
Active constituents	100 mg/g imidacloprid, 45 mg/g flumethrin
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of variation	6 February 2026
Product registration no.	80642
Label approval no.	80642/151146
Description of the application and its purpose, including the intended use of the chemical product	Variation of the relevant particulars of product registration and label approval to update the general directions of the label

Application no.	147903
Product name	Ovastim Injection for Sheep
Active constituent	600 mg/L polyandroalbumin
Applicant name	Virbac (Australia) Pty Ltd
Applicant ACN	003 268 871
Date of variation	9 February 2026
Product registration no.	51133
Label approval no.	51133/147903
Description of the application and its purpose, including the intended use of the chemical product	Variation of relevant particulars of the product registration and label to update the general direction statements on the label

Application no.	150585
Product name	Quadseal Teat Sealant for Dry Cows
Active constituent	650 mg/g bismuth subnitrate
Applicant name	Alleva Animal Health Ltd
Applicant ACN	N/A
Date of variation	9 February 2026
Product registration no.	92817
Label approval no.	92817/150585
Description of the application and its purpose, including the intended use of the chemical product	Variation of the relevant particulars of the product and label approval to vary the instructions for use and net contents

Application no.	150682
Product name	Biorelease Deslorelin (BRD)
Active constituent	1.25 mg/mL deslorelin (as deslorelin acetate)
Applicant name	Dechra Veterinary Products (Australia) Pty Ltd
Applicant ACN	614 716 700
Date of variation	11 February 2026
Product registration no.	64329
Label approval no.	64329/150682
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of a registered chemical product and label approval to update the label statements in accordance with the current Veterinary Labelling Code

Application no.	149350
Product name	Cortavance Cutaneous Spray Solution for Dogs
Active constituent	0.584 mg/mL hydrocortisone aceponate
Applicant name	Virbac (Australia) Pty Ltd
Applicant ACN	003 268 871
Date of variation	11 February 2026
Product registration no.	61129
Label approval no.	61129/149350
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the product and the label particulars and label approval by extending the product claims and the associated use pattern with the new claim

Table 6: Label approval – veterinary chemical products

Application no.	151335
Product name	Promin Plus B12 Injection for Cattle
Active constituents	40 g/L zinc (as disodium zinc EDTA), 15 g/L copper (as disodium copper EDTA), 10 g/L manganese (as disodium manganese EDTA), 5 g/L selenium (as sodium selenite), 1.4 g/L cyanocobalamin
Applicant name	Virbac (Australia) Pty Ltd
Applicant ACN	003 268 871
Date of registration	12 February 2026
Product registration no.	96294
Label approval no.	96294/151335
Description of the application and its purpose, including the intended use of the chemical product	Approval of a new label for a registered product Promin plus B12 Injection for Cattle with the new label name 'Nutriject with B12 Injection for Cattle'

Application no.	151341
Product name	Promin Plus B12 Injection for Cattle
Active constituents	40 g/L zinc (as disodium zinc EDTA), 15 g/L copper (as disodium copper EDTA), 10 g/L manganese (as disodium manganese EDTA), 5 g/L selenium (as sodium selenite), 1.4 g/L cyanocobalamin
Applicant name	Virbac (Australia) Pty Ltd
Applicant ACN	003 268 871
Date of registration	12 February 2026
Product registration no.	96294
Label approval no.	96294/151341
Description of the application and its purpose, including the intended use of the chemical product	Approval of a new label for a registered product Promin plus B12 Injection for Cattle with the new label name 'Acti-Trace Injection for Cattle with B12'

Approved active constituents

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has approved or varied the relevant particulars or conditions of the approval of the following active constituents, with effect from the dates shown.

Table 7: Approved active constituents

Application no.	149956
Active constituent	Pergolide mesylate
Applicant name	Abbey Laboratories Pty Ltd
Applicant ACN	156 000 430
Date of approval	3 February 2026
Approval no.	96585
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent pergolide mesylate for use in veterinary chemical products

Application no.	147100
Active constituent	Emodepside
Applicant name	Vetoquinol Australia Pty Ltd
Applicant ACN	006 949 480
Date of approval	4 February 2026
Approval no.	95767
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent emodepside for use in veterinary chemical products

Application no.	150073
Active constituent	Omeprazole
Applicant name	Bimeda (Australia) Pty. Limited
Applicant ACN	058 196 508
Date of approval	9 February 2026
Approval no.	96613
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent omeprazole for use in veterinary chemical products

Application no.	150473
Active constituent	Bismuth subnitrate
Applicant name	Alleva Animal Health Ltd
Applicant ACN	N/A
Date of approval	9 February 2026
Approval no.	96708
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent bismuth subnitrate for use in veterinary chemical products

Application no.	150106
Active constituent	Albendazole
Applicant name	Aarambh Life Science
Applicant ACN	N/A
Date of approval	10 February 2026
Approval no.	96615
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent albendazole for use in veterinary chemical products

Application no.	149177
Active constituent	Indaziflam
Applicant name	Ningxia Lamtin Agricultural Development Co., Ltd.
Applicant ACN	N/A
Date of approval	13 February 2026
Approval no.	96397
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent indaziflam for use in agricultural chemical products

Application no.	143103
Active constituent	Molidustat sodium
Applicant name	Bayer Cropscience Pty Ltd
Applicant ACN	000 226 022
Date of approval	13 February 2026
Approval no.	94656
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent molidustat sodium for use in veterinary chemical products

Application no.	142679
Active constituent	Fluopyram
Applicant name	Hebei Lansheng Biotech Co Ltd
Applicant ACN	N/A
Date of approval	2 February 2026
Approval no.	94533
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent fluopyram for use in agricultural chemical products

Table 8: Variations of active constituent

Application no.	149341
Active constituents	Bacitracin methylene disalicylate
Applicant name	Lifecome Biochemistry Co Ltd
Applicant ACN	N/A
Date of variation	11 February 2026
Approval no.	86765
Description of the application and its purpose, including the intended use of the active constituent	Variation of relevant particulars or conditions of an approved active constituent

Application for the approval of a new active constituent – Folpet

The APVMA has before it an application for the approval of a new active constituent, folpet, for use in agricultural chemical products.

Table 9: Particulars of the active constituent

Common name	Folpet
IUPAC name	2-[(trichloromethyl)sulfanyl]-1 <i>H</i> -isoindole-1,3(2 <i>H</i>)-dione
CAS registry number	133-07-3
Minimum purity	940 g/kg minimum.
Molecular formula	C ₉ H ₄ Cl ₃ NO ₂ S
Molecular weight	296.6 g/mol
Structure	
Chemical family	Phthalimides
Mode of action	Folpet's fungicide action relies on its ability to react with thiols, produce the reactive thiophosgene, and potentially induce cytotoxicity and regenerative proliferation, contributing to its broad-spectrum activity and role in disease control.

Summary of the APVMA's evaluation of folpet active constituent

The APVMA has evaluated the chemistry aspects of folpet (physico-chemical properties, stability, identification, manufacturing process, quality control procedures, batch analysis results and analytical methods) and found them to be acceptable.

The APVMA has considered the toxicological aspects of folpet and concluded that there are no toxicological concerns regarding the approval of this active constituent. An Acceptable Daily Intake (ADI) of 0.09 mg/kg bw/d has been set, based on a No-Observed Adverse Effect Level (NOAEL) of 9 mg/kg bw/d observed in a two-year rat dietary exposure study based on hyperkeratosis and/or acanthosis of the non-glandular gastric mucosa at the 37 mg/kg bw/day dose level (the LOAEL), after applying a safety factor of 100.

An Acute Reference Dose (ARfD) was considered unnecessary due to the low acute toxicity and the lack of evidence of acute neurotoxicity, acute developmental toxicity (in the absence of maternotoxicity) or any other toxicologically relevant effect that might be attributable to a single dose or exposure.

The APVMA's determination is that the impurities in the TGAC folpet above 1 g/kg (0.1%) are not considered to be of toxicological concern. Of interest, phthalimide is a mammalian metabolite of folpet, and therefore considered to be included in the parent compound of folpet for the Acceptable Daily Intake (ADI).

Based on the toxicity profile, the Scheduling Delegate has included folpet in Schedule 6 of the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP), with no concentration cut-off to a lower schedule.

The APVMA has considered the ecotoxicological aspects of folpet. Folpet is not persistent and the metabolites do not bioaccumulate to toxicologically relevant concentrations in terrestrial, aquatic or soil food chains. Folpet has high toxicity to

fish and aquatic invertebrates, moderate toxicity to algae and aquatic plants, and low toxicity to birds, mammals bees and soil macro-organisms. Environmental risks will be mitigated by label instructions the product.

On the basis of the data provided, and the toxicological and ecotoxicological assessments, it is proposed that the following active constituent standard be established for folpet:

Table 10: Proposed APVMA Active Constituent Standard for folpet

Constituent	Specification	Level
Folpet	Folpet	940 g/kg minimum

Impurities of toxicological significance are not expected to occur in folpet as a result of the raw materials and the synthetic route used.

Further information

A Public Release Summary (PRS) of the evaluation of this product is available from the [APVMA website](#) or from the contact listed below.

Making a submission

In accordance with section 12 of the Agvet Code, the APVMA invites any person to submit a relevant written submission as to whether folpet should be approved. Submissions should relate only to matters that are considered in determining whether the safety criteria set out in section 5A of the Agvet Code have been met. Submissions should state the grounds on which they are based.

Submissions must be received by the APVMA within 28 days of the date of this notice and be directed to the contact listed below. All submissions to the APVMA will be acknowledged in writing via email or by post.

Please note: Submissions will be published on the APVMA's website, unless you have asked for the submission to remain confidential (see [public submission coversheet](#)).

Please lodge your submission with a [public submission coversheet](#), which provides options for how your submission will be published.

Note that all APVMA documents are subject to the access provisions of the *Freedom of Information Act 1982* and may be required to be released under that Act should a request for access be made.

Please send your written submission and coversheet by email or post to:

Application for registration of a new product – Folpan 800 WG Fungicide containing folpet

The APVMA has before it an application for registration of a new product, Folpan 800 WG Fungicide, containing a new active constituent, folpet.

Table 11: Particulars of the application

Proposed product name	Folpan 800 WG Fungicide
Applicant company	Adama Australia Pty Limited
Name of active constituent	Folpet
Signal heading	Poison
Summary of proposed use	A preventative treatment for control of downy mildew, powdery mildew and grey mould in grapes.
Pack sizes	1 – 1000L
Withholding period	Harvest (H): DO NOT HARVEST FOR 7 DAYS AFTER APPLICATION. Grazing (G): TREATED CROPS ARE NOT TO BE GRAZED OR FED TO ANIMALS. DO NOT GRAZE VINEYARDS AFTER APPLICATION.

A summary of the APVMA's evaluation of Folpan 800 WG Fungicide in accordance with the requirements of section 14(1)(C) of the Agricultural and Veterinary Chemicals Code (the 'Agvet Code'), scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*:

- 1) The APVMA has evaluated the application and in its assessment in relation to whether the safety criteria have been met in accordance with the definition set out in section 5A of the Agvet Code, proposes to determine that:
 - i. The APVMA is satisfied that the proposed use of Folpan 800 WG Fungicide would not be an undue hazard to the safety of people exposed to it during its handling and use.
 - ii. The APVMA is satisfied that the proposed use of Folpan 800 WG Fungicide will not be an undue hazard to the safety of people using anything containing its residues.
 - iii. The APVMA is satisfied that the proposed use of Folpan 800 WG Fungicide is not likely to have an unintended effect that is harmful to animals, plants or the environment if used according to the product label directions.
- 2) The APVMA has evaluated the application and in its assessment in relation to whether the efficacy criteria have been met in accordance with the definition set out in section 5B of the Agvet Code, and proposes to determine that:
 - i. The APVMA is satisfied that when used in accordance with the label approved by APVMA the proposed use of Folpan 800 WG Fungicide would be effective for its proposed uses.
- 3) The APVMA has evaluated the application and in its assessment in relation to whether the trade criteria have been met in accordance with the definition set out in section 5C of the Agvet Code, proposes to determine that:
 - i. The APVMA is satisfied that when used in accordance with the label approved by APVMA the proposed use of Folpan 800 WG Fungicide would not adversely affect trade.

Further information

A Public Release Summary (PRS) of the evaluation of this product is available from the [APVMA website](#) or by contacting the APVMA as listed below.

Making a submission

In accordance with section 13 of the Agvet Code, the APVMA invites any person to submit a relevant written submission as to whether Folpan 800 WG Fungicide should be registered. Submissions should relate only to matters that are required by the APVMA to be taken into consideration in determining whether the safety, efficacy or trade criteria have been met. Submissions should state the grounds on which they are based.

Submissions must be received by the APVMA within 28 days of the date of this notice and be directed to the contact listed below. All submissions to the APVMA will be acknowledged in writing via email or by post.

Relevant comments will be taken into account by the APVMA in deciding whether the product should be registered and in determining appropriate conditions of registration and product labelling.

Please note: Submissions will be published on the APVMA's website, unless you have asked for the submission to remain confidential (see [public submission coversheet](#)).

Please lodge your submission with a [public submission coversheet](#), which provides options for how your submission will be published.

Note that all APVMA documents are subject to the access provisions of the *Freedom of Information Act 1982* and may be required to be released under that Act should a request for access be made.

Please send your written submission and coversheet by email or post to:

Application for registration of a new products – Basta Ultra Herbicide and Liberty Ultra Herbicide, containing 211 g/L Glufosinate-P-ammonium

The APVMA has before it an application for registration of a new products, Basta Ultra Herbicide and Liberty Ultra Herbicide, containing a new active constituent, Glufosinate-P-ammonium.

Table 12: Particulars of the application

Proposed product name	Basta Ultra Herbicide and Liberty Ultra Herbicide
Applicant company	BASF AUSTRALIA LTD
Name of active constituent	Glufosinate-P-ammonium
Signal heading	Schedule 5
Summary of proposed use	<p>Basta Ultra Herbicide: For non-residual control of broadleaf and grass weeds in various situations.</p> <p>Liberty Ultra Herbicide: For non-residual control of certain broadleaf and grass weeds in LibertyLink® Canola varieties (with tolerance to Liberty® Ultra Herbicide), fallow and optical spot spray technologies (OSST).</p>
Pack sizes	1 – 1000 L
Withholding period	<p>Basta Ultra Herbicide:</p> <p>Harvest:</p> <p>Blackberry, blackcurrants, blueberries, boysenberry, citrus fruit, grapes, loganberry, olives, raspberry, strawberries, tomatoes, tree nuts: NOT REQUIRED WHEN USED AS DIRECTED.</p> <p>Tropical and sub-tropical fruits – inedible peel, (avocado, banana, feijoa, guava, kiwifruit, litchi, mango, pawpaw, passionfruit, pineapple, pitaya (dragon fruit) and rambutan): NOT REQUIRED WHEN USED AS DIRECTED.</p> <p>Pome and stone fruit: DO NOT HARVEST FOR 21 DAYS AFTER APPLICATION.</p> <p>Sugarcane: DO NOT HARVEST FOR 16 WEEKS AFTER APPLICATION.</p> <p>Green Bean / French Bean: DO NOT HARVEST FOR 4 WEEKS AFTER APPLICATION.</p> <p>Date palms, green tea, native foods: DO NOT HARVEST FOR 1 DAY AFTER APPLICATION. DO NOT HARVEST LEAVES FROM NATIVE PEPPER OR WATTLES THAT ARE CLOSE TO THE GROUND FOR FOOD USES.</p> <p>Coffee: NOT REQUIRED WHEN USED AS DIRECTED.</p> <p>Grazing:</p> <p>Sugarcane: DO NOT GRAZE OR CUT FOR STOCK FOOD FOR 16 WEEKS AFTER APPLICATION.</p> <p>Green Bean / French Bean: DO NOT GRAZE OR CUT TREATED AREAS FOR STOCKFOOD FOR 4 WEEKS AFTER APPLICATION.</p> <p>All other crops: DO NOT GRAZE OR CUT TREATED AREAS FOR STOCK FOOD FOR 8 WEEKS AFTER APPLICATION.</p> <p>Liberty Ultra Herbicide:</p> <p>HARVEST (H):</p> <p>Not required when used as directed.</p> <p>GRAZING (G):</p> <p>CANOLA: DO NOT GRAZE OR CUT FOR STOCK FOOD FOR 6 WEEKS AFTER APPLICATION.</p> <p>CANOLA GROWN FOR SEED PRODUCTION: DO NOT GRAZE OR CUT FOR STOCK FEED.</p> <p>SUMMER FALLOW: (including optical spot spraying technology): DO NOT GRAZE OR CUT FOR STOCK FOOD A CROP SOWN FOLLOWING A FALLOW SPRAY FOR 6 WEEKS AFTER SOWING.</p> <p>All other situations: DO NOT GRAZE OR CUT TREATED AREAS FOR STOCK FOOD FOR 8 WEEKS AFTER APPLICATION</p>

A summary of the APVMA's evaluation of Basta Ultra Herbicide and Liberty Ultra Herbicide in accordance with the requirements of section 14(1)(C) of the Agricultural and Veterinary Chemicals Code (the 'Agvet Code'), scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*:

- 1) The APVMA has evaluated the application and in its assessment in relation to whether the safety criteria have been met in accordance with the definition set out in section 5A of the Agvet Code, proposes to determine that:
 - i. The APVMA is satisfied that the proposed use of Basta Ultra Herbicide and Liberty Ultra Herbicide would not be an undue hazard to the safety of people exposed to it during their handling and use.
 - ii. The APVMA is satisfied that the proposed use of Basta Ultra Herbicide and Liberty Ultra Herbicide will not be an undue hazard to the safety of people using anything containing their residues.
 - iii. The APVMA is satisfied that the proposed use of Basta Ultra Herbicide and Liberty Ultra Herbicide is not likely to have an unintended effect that is harmful to animals, plants or the environment if used according to the product label directions.
- 2) The APVMA has evaluated the application and in its assessment in relation to whether the efficacy criteria have been met in accordance with the definition set out in section 5B of the Agvet Code, and proposes to determine that:
 - i. The APVMA is satisfied that when used in accordance with the label approved by APVMA the proposed use of Basta Ultra Herbicide and Liberty Ultra Herbicide would be effective for their proposed uses.
- 3) The APVMA has evaluated the application and in its assessment in relation to whether the trade criteria have been met in accordance with the definition set out in section 5C of the Agvet Code, proposes to determine that:
 - i. The APVMA is satisfied that when used in accordance with the label approved by APVMA the proposed use of Basta Ultra Herbicide and Liberty Ultra Herbicide would not adversely affect trade.

Further information

A Public Release Summary (PRS) of the evaluation of this product is available from the [APVMA website](#) or by contacting the APVMA as listed below.

Making a submission

In accordance with section 13 of the Agvet Code, the APVMA invites any person to submit a relevant written submission as to whether Basta Ultra Herbicide and Liberty Ultra Herbicide should be registered. Submissions should relate only to matters that are required by the APVMA to be taken into consideration in determining whether the safety, efficacy or trade criteria have been met. Submissions should state the grounds on which they are based.

Submissions must be received by the APVMA within 28 days of the date of this notice and be directed to the contact listed below. All submissions to the APVMA will be acknowledged in writing via email or by post.

Relevant comments will be taken into account by the APVMA in deciding whether the product should be registered and in determining appropriate conditions of registration and product labelling.

Please note: Submissions will be published on the APVMA's website, unless you have asked for the submission to remain confidential (see [public submission coversheet](#)).

Please lodge your submission with a [public submission coversheet](#), which provides options for how your submission will be published.

Note that all APVMA documents are subject to the access provisions of the *Freedom of Information Act 1982* and may be required to be released under that Act should a request for access be made.

Licensing of veterinary chemical manufacturers

Pursuant to Part 8 of the Agricultural and Veterinary Chemicals Code (Agvet Code), scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has taken action with respect to the licensing of the following veterinary chemical manufacturers with effect from the dates shown.

For a comprehensive listing of all licensed manufacturers please see the [APVMA website](#).

New licenses

The APVMA has issued the following licenses under subsection 123(1) of the Agvet Code:

Table 13: New licenses issued by the APVMA under subsection 123(1) of the Agvet Code

Company name	Licence number	Company ACN	Address	Product types	Steps of manufacture	Date issued
International Animal Health Products Pty Ltd	2015	003 185 699	18 Healey Circuit Huntingwood NSW 2148	Category 2: Creams / lotions, ointments, pastes, powders, pellets, sprays, bolus, and liquids Category 3: Liquids, sprays, and powders Category 4: Premixes, supplements, and probiotics	Quality assurance (QA) of raw materials, formulation including blending, dry milling, granulation, filling, packaging, labelling, pellet extrusion, analysis and testing (physical), secondary packaging, secondary labelling, repackaging, relabelling, storage and release for supply.	19 December 2025
Mars Australia Pty Ltd	2106	008 454 313	1 Petcare Place Wodonga VIC 3690	Category 2: Palatable ingestible chews	Quality assurance (QA) of raw materials, formulation including blending, dry milling, filling, packaging, labelling, strip, blister or sachet packaging, microbiological reduction treatment (heat) analysis and testing (physical), storage, and release for supply.	20 January 2026

Licence cancellations

The APVMA has cancelled the following licenses under subsection 127(1) of the Agvet Code:

Table 14: Licenses cancelled by the APVMA under subsection 127(1) of the Agvet Code

Company name	Licence number	Company ACN	Address	Date cancelled
Advanced Feeds Pty Ltd	2117	009 403 623	13 Meliador Way Midvale WA 6056	10 February 2026

Notice of proposed chemical products standard for chemical products containing fenitrothion

The Australian Pesticides and Veterinary Medicines Authority (APVMA) is proposing a new standard for chemical products containing fenitrothion as an active constituent in the Agricultural and Veterinary Chemicals Code (Chemical Products) Standard 2026 (Chemical Products Standard).

The APVMA may make standards for chemical products by legislative instrument under section 6E of the Agricultural and Veterinary Chemicals Code (Agvet Code) scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* (Agvet Code Act).

Before making standards for chemical products, the APVMA must undertake the consultation and notice requirements set out in regulation 8AF of the Agricultural and Veterinary Chemicals Code Regulations 1995 (Regulations).

Statement as to why the APVMA determines that the standard for chemical products containing fenitrothion is necessary

In undertaking its recent reconsideration of fenitrothion, the APVMA identified a risk to safety of users, animals, the environment and trade from products containing fenitrothion as an active constituent. To manage this risk, the APVMA imposed several new controls including deciding to impose a standard to limit impurities in chemical products containing fenitrothion as an active constituent. Further information on the APVMA's final regulatory decision on fenitrothion can be found in the [APVMA Gazette No 17, Tuesday 19 August 2025](#).

The proposed standard for chemical products containing fenitrothion as an active constituent specifies the proposed acceptable levels (minimum, maximum or range as appropriate) for concentrations of fenitrothion active constituents and toxicologically significant impurities consistent with the scientific assessments conducted as part of the chemical review of fenitrothion. If the toxic impurities in chemical products containing fenitrothion as an active constituent exceed prescribed limits, they will pose an unacceptable risk to safety, particularly the safety of people using these products.

Due to the effect of the existing legislation, if the standard for chemical products containing fenitrothion as an active constituent is exceeded, a person may commit an offence or be liable to pay a civil penalty if the person then supplies the product, or causes or permits such a product to be supplied (see paragraph 87(2)(a) of the Agvet Code and subregulation 42(3) of the Regulations).

Accordingly, the standard for chemical products containing fenitrothion as an active constituent will help ensure that continued use of these products are safe for people, plants, animals and the environment by setting limits for toxic impurities.

In considering whether it is necessary to make a standard for chemical products containing fenitrothion as an active constituent, the APVMA has had regard to the FAO and WHO specification for fenitrothion as it related to relevant fenitrothion product formulation types, as required by regulation 8AF(a) of the Regulations. The proposed standard for chemical products containing fenitrothion as an active constituent is consistent with the FAO and WHO specification for fenitrothion. There are no differences between the FAO specifications and the proposed standard in the impurities specified and their limits. This is supported by the toxicological and stability data assessments conducted for the reconsideration of fenitrothion, as described in the [Fenitrothion Final Review Technical Report](#).

How to obtain more information

More information, including a copy of the [draft Agricultural and Veterinary Chemicals Code \(Chemical Products\) Amendment \(Fenitrothion\) Standard 2026](#) and [how to make a written submission](#) on the draft, is available on apvma.gov.au

Agvet chemical voluntary recall: Frequency Herbicide

Product name: Frequency Herbicide

APVMA registration number: 86267

APVMA approved label number: 131170, 145930

Batch numbers: 224V110001, 224V120002, 224V120006, 224V120008, 244V020001, 244V020003, 244V020005, 244V020006, 244V020007, 244V020009, 244V020010, 244V020011, 244V020012, 244V020013, 244V020014, 244V020015, 254V020001, 254V020002, 254V020003, 254V020004, 254V020005, 254V020006, 25E9040001, 25E9040002, 25E9040003, 25E9040004, 25E9050001, 25E9050002

Sold by: agricultural retailers nationally between 1 June 2023 to 16 February 2026

On 16 February 2026, BASF Australia Ltd (ACN 008 437 867) initiated a voluntary recall under section 106 of the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* (Cth) in relation to the chemical product described above.

Reason for voluntary recall

A number of Frequency Herbicide batches do not meet BASF's quality requirements.

Hazard

As the affected product does not meet BASF's quality requirements, it may not perform as per label directions.

What to do if in possession of this chemical product

DO NOT use the product if from an affected batch number (listed above). Contact your retailer to arrange return and credit for the product. Retailers should immediately quarantine all stock of the recalled product and contact your BASF Key Account Manager or BASF Australia Ltd Customer Service (1800 558 399) to organise a stock return.

Notice of cancellation at the request of the holder

At the request of the holder, in accordance with section 42(1) of the *Agricultural and Veterinary Chemicals Code Act 1994* (Agvet Code), the APVMA has cancelled the approvals and/or registrations set out in Table 15:

Table 15: Active constituent approval/product registration/label approval cancelled at the request of the holder

Approval or registration number	Name	Type of approval or registration	Holder	Reason for cancellation (if relevant pursuant to s45A(3))	Date of cancellation
69683/61437 69683/107601 69683/112417 69683/126178	Timbertreat A Azole Insecticide/Fungicide Wood Preservative	Label	Kop-Coat Australia Pty. Ltd.	May not meet labelling criteria	18 February 2026

In accordance with section 45A(1)(b) of the Agvet Code, the APVMA publishes this notice of the cancellation, including the following instructions which set out how a person can deal with the cancelled active constituent, cancelled product or product bearing a cancelled label referred to in Table 15.

Instructions

Instructions for persons who possess, have custody of or use the cancelled active constituent, cancelled product, or the product bearing a cancelled label under section 45B(3) of the Agvet Code.

A person who possesses, has custody of or uses the cancelled active constituent, cancelled product or product bearing a cancelled label referred to in Table 15 in accordance with the instructions contained in this notice, is taken to have been issued with a permit under section 45B(3) of the Agvet Code to possess, have custody of or use the cancelled active constituent, cancelled product or product bearing a cancelled label, in accordance with those instructions.

Possession or custody

A person may possess the cancelled active constituent, cancelled product or product bearing a cancelled label referred to in Table 15 in accordance with its label instructions for 12 months from the date of cancellation.

Use, supply or otherwise deal with

A person may use the cancelled active constituent, cancelled product or products bearing a cancelled label referred to in Table 15 according to its label instructions, including any conditions relating to shelf life or expiry date, for 12 months after the date of cancellation.

A person may supply or cause to be supplied at wholesale or retail level the cancelled active constituent, cancelled product, or product bearing a cancelled label referred to in Table 15, for 12 months after the date of cancellation.

Contraventions

After the day that is 12 months from the date of cancellation it will be an offence against the Agvet Code to have possession or custody of the cancelled active constituents, cancelled products or products bearing a cancelled label with the intention to supply, or to supply the cancelled active constituent, cancelled product, or product bearing a cancelled label.

It is an offence to possess, have custody of, use, or otherwise deal with the cancelled active constituents, cancelled products or products bearing the cancelled label listed in Table 15 in a manner that contravenes the above instructions.
