Veterinary Medicines Authority**

The *Agricultural and Veterinary Chemical Code Act 1994* (the Act) commenced on 15 March 1995. The Agricultural and Veterinary Chemicals Code (the Agvet Code) scheduled to the Act requires notices to be published in the *Gazette* containing details of the registration of agricultural and veterinary chemical products and other approvals granted by the Australian Pesticides and Veterinary Medicines Authority. The Agvet Code and related legislation also requires certain other notices to be published in the *Gazette*. A reference to Agvet Codes in this publication is a reference to the Agvet Code in each state and territory jurisdiction.

General information

The APVMA Gazette is published fortnightly and contains details of the registration of agricultural and veterinary chemicals products and other approvals granted by the APVMA, notices as required by the Agricultural and Veterinary Chemicals Code (the Agvet Code) and related legislation and a range of regulatory material issued by the APVMA.

Pursuant to section 8J(1) of the Agvet Code, the APVMA has decided that it is unnecessary to publish details of applications made for the purpose of notifying minor variations to registration details. The APVMA will however report notifications activity in quarterly statistical reports.

Distribution and subscription

The APVMA Gazette is published in electronic format only and is available from the [APVMA website](#).

Reason for voluntary recall

Testing of the above-mentioned batches has shown that the active ingredient (permethrin) is below the approved specification after 18 months. As a result, the product may not provide the expected level of insecticidal control.

Hazard

The out of out-of-specification batches may present a risk to efficacy of the product.

What to do if in possession of this chemical product

Instructions on how to identify and manage affected batches:

- 1) If in possession of one of the noted batches, DO NOT use the product.
- 2) Any person in possession of an affected batch should isolate the container, and place it in quarantine, then return to your place of purchase for a refund/replacement.
