Agricultural and veterinary chemicals

No. APVMA 16, Tuesday 11 August 2026

Published by the Australian Pesticides and Veterinary Medicines Authority

Australian Government
**Australian Pesticides and
Veterinary Medicines Authority**

The *Agricultural and Veterinary Chemical Code Act 1994* (the Act) commenced on 15 March 1995. The Agricultural and Veterinary Chemicals Code (the Agvet Code) scheduled to the Act requires notices to be published in the *Gazette* containing details of the registration of agricultural and veterinary chemical products and other approvals granted by the Australian Pesticides and Veterinary Medicines Authority. The Agvet Code and related legislation also requires certain other notices to be published in the *Gazette*. A reference to Agvet Codes in this publication is a reference to the Agvet Code in each state and territory jurisdiction.

Website: apvma.gov.au

General information

The APVMA Gazette is published fortnightly and contains details of the registration of agricultural and veterinary chemicals products and other approvals granted by the APVMA, notices as required by the Agricultural and Veterinary Chemicals Code (the Agvet Code) and related legislation and a range of regulatory material issued by the APVMA.

Pursuant to section 8J(1) of the Agvet Code, the APVMA has decided that it is unnecessary to publish details of applications made for the purpose of notifying minor variations to registration details. The APVMA will however report notifications activity in quarterly statistical reports.

Distribution and subscription

The APVMA Gazette is published in electronic format only and is available from the [APVMA website](http://apvma.gov.au).

If you would like to subscribe to receive email notification when a new edition is published, please complete a [subscription form](#).

APVMA contacts

For enquiries regarding the publishing and distribution of the APVMA Gazette: Telephone: +61 2 6770 2300.

For enquiries on APVMA Gazette content, please refer to the individual APVMA contacts listed under each notice.

Privacy

Agricultural chemical products and approved labels

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has registered or varied the relevant particulars or conditions of the registration in respect of the following products and has approved the label or varied the relevant particulars or conditions of the approval in respect of the containers for the chemical product, with effect from the dates shown.

The APVMA is implementing some changes to the way that we give this notice. While implementation occurs, there will be differences in how decisions appear in the tables below.

Table 1: Agricultural products based on existing active constituents

Application no.	153324
Chemical product name	Wrath 700WG Fungicide
Distinguishing number of the chemical product	97493
Active constituent	700 g/kg dithianon
Applicant name	Colin Campbell (Chemicals) Pty Ltd
Date of registration and label approval	22 July 2026
Distinguishing number of label.	97493/153324
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 700 g/kg dithianon water dispersible granule product for control of certain diseases in stone fruit, pome fruit and vines
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153340
Chemical product name	Concentrate Tough Roundup Weedkiller1
Distinguishing number of the chemical product	97501
Active constituents	143 g/L glyphosate present as the isopropylamine salt, 15.1 g/L triclopyr as the triethylamine salt
Applicant name	Evergreen Garden Care Australia Pty Ltd
Date of registration and label approval	24 July 2026
Distinguishing number of label.	97501/153340
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 143 g/L glyphosate and 15.1 g/L triclopyr soluble concentrate for weed control in the home garden
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	144401
Product name	Conquest Saffire Herbicide
Active constituents	250 g/L saflufenacil
Applicant name	Conquest Crop Protection Pty Ltd
Applicant ACN	098 814 932
Date of registration	24 July 2026
Product registration no.	94990
Label approval no.	94990/144401
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 250 g/L saflufenacil emulsifiable concentrate product, for the control of a range of broadleaf weeds prior to establishment of crops, fallows and around commercial, industrial, and agricultural buildings and yards, and harvest-aid application in pulse crops

Application no.	153602
Chemical product name	Shield Systemic SC Insecticide
Distinguishing number of the chemical product	97659
Active constituent	200 g/L clothianidin
Applicant name	Sumitomo Chemical Australia Pty. Limited
Date of registration and label approval	24 July 2026
Distinguishing number of label.	97659/153602
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 200 g/L clothianidin SC product for the control of different insects in cotton, bananas, sugarcane, eucalypt seedlings and young trees, Indian sandalwood and associated host trees, and approval of label
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153371
Chemical product name	Thiraflor Flowable Fungicide Red
Distinguishing number of the chemical product	97524
Active constituent	600 g/L thiram
Applicant name	Arysta Lifescience Australia Pty Ltd
Date of registration and label approval	27 July 2026
Distinguishing number of label.	97524/153371
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 600 g/L thiram suspension concentrate product and approval of label for use as a seed treatment to control various diseases of seeds and as a drench to control fungal disease in turf
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153353
Chemical product name	Tough Roundup Ready to Use Weedkiller1
Distinguishing number of the chemical product	97509
Active constituents	7.4 g/L glyphosate present as the isopropylamine salt, 0.72 g/L triclopyr present as the triethylamine salt
Applicant name	Evergreen Garden Care Australia Pty Ltd
Date of registration and label approval	28 July 2026
Distinguishing number of label.	97509/153353
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 7.4 g/L glyphosate 0.72 g/L triclopyr AL product for weed control in the home garden
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153204
Chemical product name	Enviromax Permethrin 500EC Residual Insecticide B
Distinguishing number of the chemical product	97449
Active constituent	500 g/L permethrin 40:60
Applicant name	Enviromax Technologies Pty Ltd
Date of registration and label approval	28 July 2026
Distinguishing number of label.	97449/153204
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of an agricultural product and label approval of an agricultural product containing 500 g/L permethrin for the control of a range of insect pests in various situations
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153424
Chemical product name	Antifouling Seavictor 50 Dark Red
Distinguishing number of the chemical product	97552
Active constituents	610 g/L copper (Cu) present as cuprous oxide, 35 g/L 4,5 dichloro-2-N-octyl-3(2H)-isothiazolone
Applicant name	Jotun Australia Pty Ltd
Date of registration and label approval	29 July 2026
Distinguishing number of label.	97552/153424
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 610 g/L copper (Cu) present as cuprous oxide, 35 g/L 4,5 dichloro-2-N-octyl-3(2H)-isothiazolone as an antifouling paint product
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153338
Chemical product name	Antifouling Seavictor 50 Blue
Distinguishing number of the chemical product	97499
Active constituents	610 g/L copper (Cu) present as cuprous oxide, 35 g/L 4,5 dichloro-2-N-octyl-3(2H)-isothiazolone
Applicant name	Jotun Australia Pty Ltd
Date of registration and label approval	29 July 2026
Distinguishing number of label.	97499/153338
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 610 g/L copper (Cu) present as cuprous oxide, 35 g/L 4,5 dichloro-2-N-octyl-3(2H)-isothiazolone as an antifouling paint product
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153394
Chemical product name	Vitavax 200FF Seed Treatment FB
Distinguishing number of the chemical product	97544
Active constituents	200 g/L carboxin, 200 g/L thiram
Applicant name	Arysta Lifescience Australia Pty Ltd
Date of registration and label approval	29 July 2026
Distinguishing number of label.	97544/153394
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 200 g/L carboxin and 200 g/L thiram suspension concentrate for seed treatment (FS) product for the treatment of cereals, maize, sweet corn & cotton seed for export
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153502
Chemical product name	Genfarm Glufosinate 200 Herbicide C
Distinguishing number of the chemical product	97595
Active constituent	200 g/L glufosinate-ammonium
Applicant name	Nutrien Ag Solutions Limited
Date of registration and label approval	29 July 2026
Distinguishing number of label.	97595/153502
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 200 g/L glufosinate-ammonium soluble concentrate (SL) formulation and approval of a label for the non-residual control of grass and broadleaf weeds in various situations
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153449
Chemical product name	Antifouling Seaquantum Ultra III Dark Red
Distinguishing number of the chemical product	97570
Active constituents	687 g/L copper present as cuprous oxide, 72.5 g/L copper pyrithione
Applicant name	Jotun Australia Pty Ltd
Date of registration and label approval	29 July 2026
Distinguishing number of label.	97570/153449
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 687 g/L copper present as cuprous oxide, 72.5 g/L copper pyrithione as an antifouling paint product and approval of a label
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153450
Chemical product name	Quickphos Fumigation Blanket FB
Distinguishing number of the chemical product	97571
Active constituents	334 g/kg phosphine (PH ₃) present as aluminium phosphide
Applicant name	UPL Australia Pty Ltd
Date of registration and label approval	30 July 2026
Distinguishing number of label.	97571/153450
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a fumigation blanket product containing 570 g/kg aluminium phosphide (334 g/kg phosphine) and approval of label for control of insect pests of stored products in certain situations
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153520
Chemical product name	Genfarm Glufosinate 200 Herbicide B
Distinguishing number of the chemical product	97606
Active constituent	200 g/L glufosinate-ammonium
Applicant name	Nutrien Ag Solutions Limited
Date of registration and label approval	30 July 2026
Distinguishing number of label.	97606/153520
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 200 g/L glufosinate-ammonium soluble concentrate (SL) formulation and approval of a label for the non-residual control of grass and broadleaf weeds in various situations
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Table 2: Variations of registration – agricultural chemical products

Application no.	152196
Product name	Amgrow Bin-Die Selective Lawn Weeder Ready to Use
Active constituents	12 g/L bromoxynil present as the octanoate ester, 12 g/L MCPA present as the 2-ethyl hexyl ester
Applicant name	Australian Agribusiness (Holdings) Pty Ltd
Applicant ACN	135 355 958
Date of variation	22 July 2026
Product registration no.	59176
Label approval no.	59176/152196
Description of the application and its purpose, including the intended use of the chemical product	Variation of label approval to update the applicator to include a child-resistant closure (CRC)

Application no.	N/A – Variation under s29A
Product name	Genfarm Bromoxynil 400 Herbicide
Active constituent	400 g/L bromoxynil present as the N-octanoyl ester
Applicant name	APVMA initiated variation
Date of variation	27 July 2026
Product registration no.	88731
Label approval no.	88731/RV2024V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of chemical product registration and label approval to update the constituent statements. A range of broadleaf weeds in cereals, linseed, clover, lucerne, turf, fallow and non-crop situation as per the directions for use table

Application no.	N/A – Variation under s29A
Product name	Farmalinx Floxor 200 EC Herbicide
Active constituent	200 g/L fluroxypyr present as the methylheptyl ester
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	64314
Label approval no.	64314/59682V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of chemical product registration and label approval to update the constituent statements. For the control of a wide range of broadleaf weeds in fallow, lucerne, maize, millets, pastures, poppies, sorghum, sugar cane, sweet corn, winter cereals also for the control of woody weeds in agricultural non-crop areas, commercial and industrial areas, forests, pastures and rights-of-way

Application no.	N/A – Variation under s29A
Product name	Enviromax Permethrin 500EC Residual Insecticide
Active constituent	500 g/L permethrin 25:75
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	63598
Label approval no.	63598/58905V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of chemical product registration and label approval to update constituent statements and safety directions of an agricultural product for the control of a range of insect pests in various situations

Application no.	N/A – Variation under s29A
Product name	Elevate 400 EC Herbicide
Active constituent	400 g/L carfentrazone-ethyl
Applicant name	APVMA initiated variation
Date of variation	29 July 2026
Product registration no.	90258
Label approval no.	90258/129897V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of chemical product registration and label approval to update constituent statement. Elevate 400 EC Herbicide is used for improvement in the control of marshmallow and certain other broadleaf weeds prior to establishment of broadacre crops, fallows or forest plantations, in commercial, industrial and public service areas, around agricultural buildings and yards, in tree fruits, nuts, grape vines in tank mixture with knockdown herbicides; control of marshmallow and annual nettles in grass pastures and rough grass/turf areas; and control of volunteer cotton seedlings including Roundup Ready cotton and desiccation of cotton re growth as per the directions for use table

Application no.	N/A – Variation under s29A
Product name	Titan DFF 25 + Brom 250 Selective Herbicide
Active constituents	250 g/L bromoxynil present as the octanoate, 25 g/L diflufenican
Applicant name	APVMA initiated variation
Date of variation	29 July 2026
Product registration no.	69416
Label approval no.	69416/151145V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of chemical product registration and label approval to update the constituent statements. For control of certain broadleaf weeds in winter cereals and pasture

Application no.	N/A – Variation under s29A
Product name	Smart Glyphosate 450 Herbicide
Active constituent	450 g/L glyphosate (present as the isopropylamine salt)
Applicant name	APVMA initiated variation
Date of variation	29 July 2026
Product registration no.	60952
Label approval no.	60952/131472V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of chemical product registration and label approval to update the constituent statement and sites of manufacture. Water soluble herbicide for non-selective control of many annual and perennial weeds

Application no.	N/A – Variation under s29A
Product name	Mirage Fungicide
Active constituent	450 g/L prochloraz
Applicant name	APVMA initiated variation
Date of variation	30 July 2026
Product registration no.	59676
Label approval no.	59676/133987V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of registered chemical product to change the label approval and sites of manufacture for Mirage Fungicide for use on avocado, banana, mango, pawpaw, pineapple, sugarcane and commercial turf controls including <i>Alternaria</i> rot, anthracnose, dollar spot, pineapple disease, stem end rot and water blister as per the Directions for Use

Application no.	N/A – Variation under s29A
Product name	Albaugh Altreflin 480 EC Herbicide
Active constituent	480 g/L trifluralin
Applicant name	APVMA initiated variation
Date of variation	30 July 2026
Product registration no.	96552
Label approval no.	96552/149847V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of chemical product registration and label approval to update the constituent statement on the label. Albaugh Altreflin 480 EC Herbicide is a pre-emergence herbicide for the control of annual grasses and broadleaf weeds in horticultural and agricultural crops as per the directions for use table

Application no.	N/A – Variation under s29A
Product name	Imtrade Onquit 825 WG Insecticide
Active constituents	825 g/kg chlorantraniliprole
Applicant name	Imtrade Australia Pty Ltd
Applicant ACN	090 151 134
Date of variation	31 July 2026
Product registration no.	91867
Label approval no.	91867/141326V
Description of the application and its purpose, including the intended use of the chemical product	Variation of Label particulars only to amend the label to include withholding periods for grazing summer and winter pulse crops

Application no.	N/A – Variation under s29A
Product name	Comite Miticide
Active constituent	600 g/L propargite
Applicant name	APVMA initiated variation
Date of variation	3 August 2026
Product registration no.	51293
Label approval no.	51293/0703V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars and label approval and label particulars and conditions of registration of registered chemical product used for the control of cotton mites in cotton to update the constituent statements

Table 3: Variation of label approval – agricultural chemical products

Application no.	154563
Product name	Farmalinx Bomber 750 SG Herbicide
Active constituent	750 g/kg imazapyr
Applicant name	Farmalinx Pty Ltd
Applicant ACN	134 353 245
Date of variation	20 July 2026
Product registration no.	70142
Label approval no.	70142/154563
Description of the application and its purpose, including the intended use of the chemical product	Variation to the name that appears on the secondary label from 'ProForce Clearpath 750 SG Herbicide' to 'ProForce Clearpath 750 SG Industrial Herbicide'

Veterinary chemical products and approved labels

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has registered or varied the relevant particulars or conditions of the registration in respect of the following products and has approved the label or varied the relevant particulars or conditions of the approval in respect of the containers for the chemical product, with effect from the dates shown.

Table 4: Veterinary products based on new active constituents

Application no.	147652
Product name	Protech Lepto 4 Inactivated Vaccine for Dogs
Active constituents	Each dose of 1 mL contains: inactivated <i>Leptospira interrogans</i> serogroup and serovar Canicola strain 16070 $\geq$ 130 FTU*, inactivated <i>Leptospira interrogans</i> serogroup and serovar Icterohaemorrhagiae strain 16069 $\geq$ 150 FTU*, inactivated <i>Leptospira interrogans</i> serogroup and serovar Grippotyphosa strain Grippo Mal 1540 $\geq$ 340 FTU*, inactivated <i>Leptospira interrogans</i> serogroup Australis and serovar Bratislava strain 16785 $\geq$ 150 FTU* FTU: Formazine Turbidity Unit *The active constituent concentrations align with Ph. Eur.0447; 2.3.1.
Applicant name	Boehringer Ingelheim Animal Health Australia Pty Ltd
Applicant ACN	071 187 285
Date of registration	31 July 2026
Product registration no.	95941
Label approval no.	95941/147652
Description of the application and its purpose, including the intended use of the chemical product	Registration of an inactivated leptospirosis vaccine for dogs, a suspension for injection containing <i>Leptospira interrogans</i> serogroup and serovar canicola strain 16070 $\geq$ 130 Formazine Turbidity Unit (FTU), <i>Leptospira interrogans</i> serogroup and serovar Icterohaemorrhagiae strain 16069 $\geq$ 150 FTU, <i>Leptospira interrogans</i> serogroup and serovar grippotyphosa strain grippo mal 1540 $\geq$ 340 FTU and <i>Leptospira interrogans</i> serogroup australis and serovar bratislava strain 16785 $\geq$ 150 FTU, in conjunction with approval of the four <i>Leptospira</i> antigens and the label approval. This is for active immunisation of dogs from 7 weeks of age to prevent or reduce mortality, clinical signs, infection, bacterial excretion, renal carriage and renal lesions caused by the <i>Leptospira interrogans</i> serogroup and serovar canicola, <i>Leptospira interrogans</i> serogroup and serovar icterohaemorrhagiae, <i>Leptospira kirschneri</i> serogroup and serovar grippotyphosa and <i>Leptospira interrogans</i> serogroup australis and serovar bratislava

Table 5: Veterinary products based on existing active constituents

Application no.	151963
Product name	Headway Amoxiclav 500 Mg Tablets
Active constituents	400 mg/tablet amoxicillin (as trihydrate), 100 mg/tablet clavulanic acid (as diluted potassium clavulanate)
Applicant name	Headway Investments Pty Ltd
Applicant ACN	655 095 855
Date of registration	23 July 2026
Product registration no.	97128
Label approval no.	97128/151963
Description of the application and its purpose, including the intended use of the chemical product	Registration and the approval of a label of an amoxiclav 500 mg tablet product for use in calves and dogs for bacterial infections

Application no.	151711
Product name	Ecovet All Wormer Tablets for Large Dogs
Active constituents	1084 mg/tablet oxantel embonate, 286 mg/tablet pyrantel embonate, 100 mg/tablet praziquantel
Applicant name	Vet Med IP Pty Ltd
Applicant ACN	623 869 723
Date of registration	30 July 2026
Product registration no.	97079
Label approval no.	97079/151711
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 1084 mg/tablet oxantel embonate, 286 mg/tablet pyrantel embonate, 100 mg/tablet praziquantel oral tablet product for the treatment of roundworm, hookworm, whipworm, tapeworm, plus hydatid tapeworm

Application no.	152728
Product name	Bob Martin Triple Action Spot On for Dogs 10-25kg
Active constituents	100 g/L imidacloprid, 25 g/L moxidectin
Applicant name	Bob Martin (Australia) Pty Ltd
Applicant ACN	062 627 883
Date of registration	31 July 2026
Product registration no.	97316
Label approval no.	97316/152728
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 100 g/L imidacloprid and 25 g/L moxidectin topical solution product and approval of labels for treatment of topical flea and worm for dogs weighing 10-25 kg

Application no.	152788
Product name	Lotimil Plus Chewable Tablets for Small Dogs
Active constituents	112.5 mg/tablet lotilaner, 4.22 mg/tablet milbemycin oxime
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of registration	3 August 2026
Product registration no.	97346
Label approval no.	97346/152788
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 112.5 mg/tablet lotilaner and 4.22 mg/tablet milbemycin oxime chewable tablet product and approval of a label for treatment/control/prevention of ticks, fleas, mites, heartworm and worms in small dogs

Application no.	152789
Product name	Lotimil Plus Chewable Tablets for Medium Dogs
Active constituents	225 mg/tablet lotilaner, 8.44 mg/tablet milbemycin oxime
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of registration	3 August 2026
Product registration no.	97347
Label approval no.	97347/152789
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 225 mg/tablet lotilaner and 8.44 mg/tablet milbemycin oxime chewable tablet product and approval of a label for treatment/control/ prevention of ticks, fleas, mites, heartworm and worms in medium dogs

Application no.	152790
Product name	Lotimil Plus Chewable Tablets for Large Dogs
Active constituents	450 mg/tablet lotilaner, 16.88 mg/tablet milbemycin oxime
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of registration	3 August 2026
Product registration no.	97348
Label approval no.	97348/152790
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 450 mg/tablet lotilaner and 16.88 mg/tablet milbemycin oxime chewable tablet product and approval of a label for treatment/control/prevention of ticks, fleas, mites, heartworm and worms in large dogs

Application no.	152791
Product name	Lotimil Plus Chewable Tablets for Very Large Dogs
Active constituents	900 mg/tablet lotilaner, 33.75 mg/tablet milbemycin oxime
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of registration	3 August 2026
Product registration no.	97349
Label approval no.	97349/152791
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 900 mg/tablet lotilaner and 33.75 mg/tablet milbemycin oxime chewable tablet product and approval of a label for treatment/control/prevention of ticks, fleas, mites, heartworm and worms in very large dogs

Application no.	152787
Product name	Lotimil Plus Chewable Tablets for Very Small Dogs
Active constituents	56.25 mg/tablet lotilaner, 2.11 mg/tablet milbemycin oxime
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of registration	3 August 2026
Product registration no.	97345
Label approval no.	97345/152787
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 56.25 mg/tablet lotilaner and 2.11 mg/tablet milbemycin oxime chewable tablet product and approval of a label for treatment/control/prevention of ticks, fleas, mites, heartworm and worms in very small dogs

Application no.	152727
Product name	Bob Martin Triple Action Spot On for Dogs 4-10kg
Active constituents	100 g/L imidacloprid, 25 g/L moxidectin
Applicant name	Bob Martin (Australia) Pty Ltd
Applicant ACN	062 627 883
Date of registration	31 July 2026
Product registration no.	97315
Label approval no.	97315/152727
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 100 g/L imidacloprid and 25 g/L moxidectin topical solution product and approval of labels for treatment of topical flea and worm for dogs weighing 4-10kg

Table 6: Variations of registration – veterinary chemical products

Application no.	154636
Product name	AVet Enrofloxacin Injection
Active constituent	50 mg/mL enrofloxacin
Applicant name	AVet Health Limited
Applicant ACN	616 838 101
Date of variation	23 July 2026
Product registration no.	90159
Label approval no.	90159/154636
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from '[Wagg & Purr] Enrofloxacin Injection' to 'AVet Enrofloxacin Injection'

Application no.	152573
Product name	Coxidox 50 Coccidiocide for Piglets and Cattle
Active constituent	50 g/L toltrazuril
Applicant name	PAH Australia Pty Ltd
Applicant ACN	643 835 698
Date of registration	24 July 2026
Product registration no.	95120
Label approval no.	95120/152573
Description of the application and its purpose, including the intended use of the chemical product	Variation of relevant particulars of a registered chemical product and label approval by updating the label in accordance with the Veterinary Labelling Code

Table 7: Variation of label approval – veterinary chemical products

Application no.	153233
Product name	Bomectin F Broad-Spectrum Antiparasitic Injection for Cattle
Active constituents	100 mg/mL clorsulon, 10 mg/mL ivermectin
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of registration	30 July 2026
Product registration no.	62967
Label approval no.	62967/153233
Description of the application and its purpose, including the intended use of the chemical product	Variation of relevant particulars of product registration and label approval by updating the label in accordance with the Veterinary Labelling Code

Approved active constituents

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has approved or varied the relevant particulars or conditions of the approval of the following active constituents, with effect from the dates shown.

Table 8: Approved active constituents

Application no.	154319
Active constituent	Cyantraniliprole
Applicant name	Zhejiang Xinan Chemical Industrial Group Co., Ltd
Applicant ACN	N/A
Date of approval	24 July 2026
Approval no.	98031
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent cyantraniliprole for use in agricultural chemical products

Application no.	139564
Active constituent	Live recombinant canine parvovirus 2c strain 630a
Applicant name	Intervet Australia Pty Limited
Applicant ACN	008 467 034
Date of approval	28 July 2026
Approval no.	93572
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent live recombinant canine parvovirus 2c strain 630a for use in veterinary chemical products.

Application no.	147648
Active constituent	Inactivated <i>Leptospira interrogans</i> serogroup australis and serovar Bratislava strain 16785
Applicant name	Boehringer Ingelheim Animal Health Australia Pty. Ltd.
Applicant ACN	071 187 285
Date of approval	31 July 2026
Approval no.	95937
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent inactivated <i>Leptospira interrogans</i> serogroup australis and serovar bratislava strain 16785 for use in veterinary chemical products

Application no.	147649
Active constituent	Inactivated <i>Leptospira interrogans</i> serogroup and serovar Grippotyphosa strain Grippo Mal 1540
Applicant name	Boehringer Ingelheim Animal Health Australia Pty. Ltd.
Applicant ACN	071 187 285
Date of approval	31 July 2026
Approval no.	95938
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent inactivated <i>Leptospira interrogans</i> serogroup and serovar Grippotyphosa strain Grippo Mal 1540 for use in veterinary chemical products

Application no.	147650
Active constituent	Inactivated <i>Leptospira interrogans</i> serogroup and serovar Icterohaemorrhagiae strain 16069
Applicant name	Boehringer Ingelheim Animal Health Australia Pty Ltd
Applicant ACN	071 187 285
Date of approval	31 July 2026
Approval no.	95939
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent inactivated <i>Leptospira interrogans</i> serogroup and serovar Icterohaemorrhagiae strain 16069 for use in veterinary chemical products

Application no.	147651
Active constituent	Inactivated <i>Leptospira interrogans</i> serogroup and serovar Canicola strain 16070
Applicant name	Boehringer Ingelheim Animal Health Australia Pty. Ltd.
Applicant ACN	071 187 285
Date of approval	31 July 2026
Approval no.	95940
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent inactivated <i>Leptospira interrogans</i> serogroup and serovar Canicola strain 16070 for use in veterinary chemical products

Licensing of veterinary chemical manufacturers

Pursuant to Part 8 of the Agricultural and Veterinary Chemicals Code (Agvet Code), scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has taken action with respect to the licensing of the following veterinary chemical manufacturers with effect from the dates shown.

For a comprehensive listing of all licensed manufacturers please see the [APVMA website](#).

New licenses

The APVMA has issued the following licenses under subsection 123(1) of the Agvet Code:

Table 9: New licenses issued by the APVMA under subsection 123(1) of the Agvet Code

Company name	Licence number	Company ACN	Address	Product typesError! Bookmark not defined.	Steps of manufacture	Date issued
Spectrum Sales Australia Pty Ltd	2272	624 186 965	1/2 Arunga Drive Beresfield NSW 2322	Category 2: Liquids, powders, gels, and pastes Category 4: powders	Quality assurance (QA) of raw materials, formulation including blending, filling, packaging, labelling, repackaging, storage, and release for supply.	9 July 2026
Pack and Fill Australia Pty Ltd	6264	685 439 954	23 Liverpool Street Ingleburn NSW 2565	Category 6: All dosage forms	Filling, packaging, labelling, storage and release from manufacturer only (partial release).	14 July 2026
Delta Laboratories Pty Limited	1056	050 324 742	8 Warringah Close Somersby NSW 2250	Category 1: Release for Supply only Category 2: Creams / lotions, ointments, pastes, sprays, liquids and gels	Quality assurance (QA) of raw materials, formulation including blending, filling, packaging, labelling, sterilisation (heat and filtration), microbiological reduction treatment (heat and filtration), analysis and testing (physical, chemical and microbiological), storage and release for supply.	4 August 2026

Licence cancellations

The APVMA has cancelled the following licenses under subsection 127(1) of the Agvet Code:

Table 10: Licenses cancelled by the APVMA under subsection 127(1) of the Agvet Code

Company name	Licence number	Company ACN	Address	Date cancelled
Alltech Lienert Australia Pty Ltd	2274	008 293 007	7 Durham Street Forbes NSW 2871	29 July 2026
Nutrien Ag Solutions Limited	6251	008 743 217	Door 13, 123 Boundary Road Rocklea QLD 4106	30 July 2026
Global Medical Solutions Australia Pty Limited	1073	072 147 561	53-57 Oatley Court Belconnen ACT 2617	31 July 2026

Licence suspensions

The APVMA has suspended the following licenses under subsection 127(1) of the Agvet code:

Table 11: Licenses suspended by the APVMA under subsection 127(1) of the Agvet Code

Company name	Licence number	Company ACN	Address	Period of suspension
Sydney Scientific Laboratories Pty Ltd	6253	169 611 456	71 Milperra Road Revesby NSW 2212	From 10 July 2026 to 10 January 2027

Notice of end of registration of chemical products

Pursuant to section 47C of the Agricultural and Veterinary Chemical Code scheduled to the *Agricultural and Veterinary Chemical Code Act 1994* (the **Agvet Code**), the APVMA hereby gives notice that the product registrations in Table 12 (**product registrations**) have ended without being renewed.

Date registration has ended

The product registrations ended on 1 July 2026. The products are no longer registered under the Agvet Code (**unregistered products**).¹

Instructions for possessing, having custody of or using the unregistered products

A person may use the unregistered products in accordance with their respective label instructions, including any conditions relating to shelf life or expiry date, until 30 June 2027.

A person may supply, or cause to be supplied, at wholesale or retail level, the unregistered products until 30 June 2027.

A person may possess or have custody of, the unregistered products, with the intention of supplying them, until 30 June 2027.

A person may not manufacture or import the unregistered products from 1 July 2026 onwards.

Permit taken to have been issued

Pursuant to subsection 47D(2) of the Agvet Code, a person who possesses, has custody of, or uses the unregistered products in accordance with the above instructions, is taken to have been issued with a permit to do so until either of the earliest of:

- a) 30 June 2027 (being 1 year after the day on which the registration ended); or
- b) The APVMA, by notice published in the Gazette, declares that subsection 47D(2) of the Agvet Code ceases to apply in respect of the specified unregistered product.

The permit taken to have been issued under s 47D(2) does not authorise a person to manufacture or import the unregistered product (subsection 47D(3)).

Warning – consequences for failure to comply with the above instructions

Potential contraventions under section 47E of the Agvet Code

From the date this notice is published, section 47E of the Agvet Code applies to a person that has possession or custody of an unregistered product with the intention of supplying it.

The person must not possess, have custody of or otherwise deal with the product, except in accordance with the instructions outlined above: subsection 47E(2).²

¹ The approval of the labels for containers for the unregistered products also ends as at 1 July 2026: subsection 47(4) of the Agvet Code.

² Subsection 47E(2) does not apply to a possession, custody or dealing if the product was registered when the possession, custody or dealing took place because of its having been registered or having become reserved after its previous registration ended: subsection 47E(3).

A person commits an offence if the person contravenes subsection 47E(2) (penalty: 300 penalty units).³

Evidently, it will be an offence against subsection 47E(2) if a person possesses or has custody of an unregistered product, with the intention of supplying it, after 30 June 2027. It will also be an offence to supply, or cause to be supplied, at wholesale or retail level, the unregistered products, after 30 June 2027.

A person may also be liable to a civil penalty for a contravention of subsection 47E(2).

Potential contraventions under section 78 of the Agvet Code

Subsection 78(1) provides that a person must not supply, or cause or permit to be supplied, a chemical product that is not a registered chemical product or a reserved chemical product unless:

- a) the supply is authorised by a permit; or
- b) the product is exempted by the APVMA from the operation of this section.

A person commits an offence if the person contravenes subsection 78(1) (penalty: 300 penalty units).⁴

A person may also be liable to a civil penalty for a contravention of subsection 78(1).

Evidently, it could also be an offence to: (i) supply the unregistered products prior to 30 June 2027 other than in accordance with the above instructions; or (ii) supply the unregistered products after 30 June 2027 or a notice is published in the Gazette under subsection 47D(2)(b) to declare that subsection 47D(2) does not apply to product (i.e., when the abovementioned permit taken to have been issued must expire).
