Agricultural and veterinary chemicals

No. APVMA 17, Tuesday 25 August 2026

Published by the Australian Pesticides and Veterinary Medicines Authority

Australian Government
**Australian Pesticides and
Veterinary Medicines Authority**

The *Agricultural and Veterinary Chemical Code Act 1994* (the Act) commenced on 15 March 1995. The Agricultural and Veterinary Chemicals Code (the Agvet Code) scheduled to the Act requires notices to be published in the *Gazette* containing details of the registration of agricultural and veterinary chemical products and other approvals granted by the Australian Pesticides and Veterinary Medicines Authority. The Agvet Code and related legislation also requires certain other notices to be published in the *Gazette*. A reference to Agvet Codes in this publication is a reference to the Agvet Code in each state and territory jurisdiction.

Website: apvma.gov.au

General information

The APVMA Gazette is published fortnightly and contains details of the registration of agricultural and veterinary chemicals products and other approvals granted by the APVMA, notices as required by the Agricultural and Veterinary Chemicals Code (the Agvet Code) and related legislation and a range of regulatory material issued by the APVMA.

Pursuant to section 8J(1) of the Agvet Code, the APVMA has decided that it is unnecessary to publish details of applications made for the purpose of notifying minor variations to registration details. The APVMA will however report notifications activity in quarterly statistical reports.

Distribution and subscription

The APVMA Gazette is published in electronic format only and is available from the [APVMA website](http://apvma.gov.au).

If you would like to subscribe to receive email notification when a new edition is published, please complete a [subscription form](#).

APVMA contacts

For enquiries regarding the publishing and distribution of the APVMA Gazette: Telephone: +61 2 6770 2300.

For enquiries on APVMA Gazette content, please refer to the individual APVMA contacts listed under each notice.

Privacy

For information on how the APVMA manages personal information when you contact us, see our [Privacy Policy](#).

Agricultural chemical products and approved labels

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has registered or varied the relevant particulars or conditions of the registration in respect of the following products and has approved the label or varied the relevant particulars or conditions of the approval in respect of the containers for the chemical product, with effect from the dates shown.

The APVMA is implementing some changes to the way that we give this notice. While implementation occurs, there will be differences in how decisions appear in the tables below.

Table 1: Agricultural products based on existing active constituents

Application no.	153517
Chemical product name	BUSHMAN Repellent PERSONAL INSECT REPELLENT B
Distinguishing number of the chemical product	97603
Active constituent	400 g/kg diethyltoluamide
Applicant name	Juno Limited
Date of registration and label approval	3 August 2026
Distinguishing number of label	97603/153517
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 400 g/kg diethyltoluamide aerosol product and approval of a label for use as a personal insect repellent
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153442
Chemical product name	BASF Sercadis Fungicide
Distinguishing number of the chemical product	97565
Active constituent	300 g/L fluxapyroxad
Applicant name	BASF Australia Ltd
Date of registration and label approval	4 August 2026
Distinguishing number of label.	97565/153442
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 300 g/L fluxapyroxad suspension concentrate (SC) product and approval of a label for the control of various fungal diseases in banana, apple and pear
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153630
Chemical product name	FARMOZINE 900 WG Herbicide A
Distinguishing number of the chemical product	97677
Active constituent	900 g/kg atrazine
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	4 August 2026
Distinguishing number of label	97677/153630
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 900 g/kg atrazine WG product and approval of a label for control of weeds and grasses in sorghum, maize, sugar cane, lucerne, TT-Canola and for fallow area maintenance and other situations
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153631
Chemical product name	FARMOZINE 900 WG Herbicide B
Distinguishing number of the chemical product	97678
Active constituent	900 g/kg atrazine
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	4 August 2026
Distinguishing number of label	97678/153631
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 900 g/kg atrazine WG product and label approval for control of weeds and grasses in sorghum, maize, sugar cane, lucerne, TT-Canola and for fallow area maintenance and other situations
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153632
Chemical product name	FARMOZINE 900 WG Herbicide C
Distinguishing number of the chemical product	97679
Active constituent	900 g/kg atrazine
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	4 August 2026
Distinguishing number of label	97679/153632
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 900 g/kg atrazine WG product and label approval for control of weeds and grasses in sorghum, maize, sugar cane, lucerne, TT-Canola and for fallow area maintenance and other situations
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153493
Chemical product name	BASF Maxtima Fungicide
Distinguishing number of the chemical product	97589
Active constituent	400 g/L mefentrifluconazole
Applicant name	BASF Australia Ltd
Date of registration and label approval	4 August 2026
Distinguishing number of label	97589/153493
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 400 g/L mefentrifluconazole suspension concentrate product and approval of a label for preventative and curative treatment of a range of fungal diseases in turf
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	154265
Chemical product name	Smart Haloxyfop 520 EC Herbicide B
Distinguishing number of the chemical product	97991
Active constituent	520 g/L haloxyfop present as haloxyfop-P methyl ester
Applicant name	Crop Smart Pty Ltd
Date of registration and label approval	4 August 2026
Distinguishing number of label	97991/154265
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 520 g/L haloxyfop present as the haloxyfop-P methyl ester emulsifiable concentrate product and approval of a label for the post-emergent control of a wide range of annual and perennial grass weeds in grain legume and oilseed crops, lucerne, medic and clover pasture and seed crops, forestry, bananas, citrus, grapes, pineapples, pome and stone fruit, pyrethrum, tropical fruit and nut crops
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153730
Chemical product name	DUAL GOLD 960 EC Herbicide
Distinguishing number of the chemical product	97733
Active constituent	960 g/L S-metolachlor
Applicant name	Syngenta Australia Pty Ltd
Date of registration and label approval	4 August 2026
Distinguishing number of label	97733/153730
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 960 g/L s-metolachlor emulsifiable concentrate product and approval of a label for the controls of certain annual grasses and broadleaf weeds in certain crops
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153496
Chemical product name	Dithane Rainshield Neo Tec Fungicide FB
Distinguishing number of the chemical product	97592
Active constituent	750 g/kg mancozeb
Applicant name	UPL Australia Pty Ltd
Date of registration and label approval	5 August 2026
Distinguishing number of label	97592/153496
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 750 g/kg Mancozeb WG product and approval of a label for the control of certain fungal diseases of fruit, field crops, tobacco, turf, vegetables and ornamentals
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153494
Chemical product name	Fist HydroCap Herbicide FB
Distinguishing number of the chemical product	97590
Active constituent	456 g/L pendimethalin
Applicant name	UPL Australia Pty Ltd
Date of registration and label approval	5 August 2026
Distinguishing number of label	97590/153494
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 456 g/L pendimethalin, capsule suspension product and approval of a label for the control of wireweed, annual grasses (including annual ryegrass) and certain broadleaf weeds in various crops
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153492
Chemical product name	Serenade Prime Biofungicide
Distinguishing number of the chemical product	97588
Active constituent	Not less than 1.0×10^{12} CFU/L <i>Bacillus amyloliquefaciens</i> strain QST 713
Applicant name	Bayer CropScience Pty Ltd
Date of registration and label approval	5 August 2026
Distinguishing number of label	97588/153492
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a <i>Bacillus amyloliquefaciens</i> SC product and approval of a label for use as a fungicide in various crops
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153608
Chemical product name	Scotts Lawn Builder Buffalo Weed, Feed & Green-Up1
Distinguishing number of the chemical product	97663
Active constituents	8.7 g/L bromoxynil present as the potassium salt, 8.7 g/L MCPA present as the potassium salt
Applicant name	Evergreen Garden Care Australia Pty Ltd
Date of registration and label approval	5 August 2026
Distinguishing number of label	97663/153608
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 8.7 g/L bromoxynil, 8.7 g/L MCPA SL product and approval of a label for the control of lawn weeds in the home garden
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	146677
Product name	ATEKA 480 SC Insecticide
Active constituent	480 g/L spirotetramat
Applicant name	ADAMA Australia Pty Limited
Applicant ACN	050 328 973
Date of registration	6 August 2026
Product registration no.	95641
Label approval no.	95641/146677
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 480 g/L spirotetramat suspension concentrate (SC) for the control of various insect pests in cotton and certain fruit and vegetable crops, and couch mite in couch grass

Application no.	147001
Product name	Sizzle 700 Dry Herbicide
Active constituent	700 g/kg saflufenacil
Applicant name	Shandong Rainbow International Co Ltd
Applicant ACN	N/A
Date of registration	6 August 2026
Product registration no.	95719
Label approval no.	95719/147001
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 700 g/kg saflufenacil water dispersible granule formulation (WG) product for the control of a range of broadleaf weeds prior to establishment of forestry plantations, fallows, established citrus, pome and almond orchards, and around commercial, industrial, and agricultural buildings and yards

Application no.	154035
Chemical product name	Titan CC & Dry OTT Gly 700 Herbicide B
Distinguishing number of the chemical product	97857
Active constituent	700 g/kg glyphosate present as the mono-ammonium salt
Applicant name	Titan Ag Pty Ltd
Date of registration and label approval	7 August 2026
Distinguishing number of label	97857/154035
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 700 g/kg glyphosate present as the mono-ammonium salt product for the control of annual and perennial weeds in Roundup Ready Flex cotton crops, Roundup Ready canola crops, TruFlex canola crops and for the control of annual and perennial weeds in agricultural areas, tree and vine crops, pasture, commercial, industrial and public service areas and approval of a label
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153495
Chemical product name	Unishield Fungicide, Miticide and Insecticide FB
Distinguishing number of the chemical product	97591
Active constituent	800 g/kg sulfur
Applicant name	UPL Australia Pty Ltd
Date of registration and label approval	7 August 2026
Distinguishing number of label	97591/153495
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 800 g/kg Sulphur WG product and approval of a label for the control of powdery mildew, rust and mites in pome fruit, citrus, grapevines, kiwifruit, strawberries and some vegetables
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	141132
Chemical product name	Imtrade Architect RMR Insecticide
Distinguishing number of the chemical product	93979
Active constituent	50 g/L emamectin present as emamectin benzoate, 150 g/L piperonyl butoxide
Applicant name	Imtrade Australia Pty Ltd
Date of registration and label approval	7 August 2026
Distinguishing number of label.	93979/141132
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 50 g/L emamectin present as emamectin benzoate + 150 g/L piperonyl butoxide emulsifiable concentrate product for the control of various lepidopteran pests in grapes
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153369
Chemical product name	CRUISER Extreme Seed Treatment
Distinguishing number of the chemical product	97522
Active constituent	600 g/L thiamethoxam
Applicant name	Syngenta Australia Pty Ltd
Date of registration and label approval	10 August 2026
Distinguishing number of label	97522/153369
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 600 g/L thiamethoxam suspension concentrate (FS) and approval of a label for the treatment of cotton to control thrips and various early season soil and sucking pests
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153523
Chemical product name	Roundup FNG Weedkiller1
Distinguishing number of the chemical product	97609
Active constituents	20 g/L nonanoic acid, 3 g/L fluroxypyr as the methyl heptyl ester, 0.95 g/L fluazifop-P present as the butyl ester
Applicant name	Evergreen Garden Care Australia Pty Ltd
Date of registration and label approval	10 August 2026
Distinguishing number of label	97609/153523
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 20 g/L nonanoic acid, 3 g/L fluroxypyr and 0.95 g/L fluazifop-p AL product and approval of a label for weed control in the home garden
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153528
Chemical product name	Sabakem Trifluralin 480 Herbicide
Distinguishing number of the chemical product	97614
Active constituents	480 g/L trifluralin
Applicant name	Sabakem Pty Ltd
Date of registration and label approval	10 August 2026
Distinguishing number of label	97614/153528
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a Trifluralin 480 g/L Emulsifiable Concentrate product for use as a pre-emergence herbicide and approval of a label for the control of annual grasses and broadleaf weeds in horticultural and agricultural crops
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153532
Chemical product name	Sabakem Trifluralin 480EC Herbicide
Distinguishing number of the chemical product	97617
Active constituent	480 g/L trifluralin
Applicant name	Sabakem Pty Ltd
Date of registration and label approval	10 August 2026
Distinguishing number of label	97617/153532
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a trifluralin 480 g/L emulsifiable concentrate (EC) product for use as a pre-emergence herbicide and approval of a label for the control of annual grasses and broadleaf weeds in horticultural and agricultural crops
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate to the use of the product

Application no.	153717
Chemical product name	Yates Lawn Weed Killer Bindii & Clover Concentrate A
Distinguishing number of the chemical product	97723
Active constituents	150 g/L MCPA present as the dimethylamine salt, 25 g/L dicamba present as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	11 August 2026
Distinguishing number of label	97723/153717
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 150 g/L MCPA (as the dimethylamine salt) and 25 g/L dicamba (as the dimethylamine salt) aqueous concentrate product and approval of a label for use as a home garden lawn herbicide
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153664
Chemical product name	Yates Weed 'n' Feed Weed Killer & Lawn Fertiliser Easy to Use Hose On A
Distinguishing number of the chemical product	97695
Active constituents	15 g/L MCPA, as the dimethylamine salt, 2.3 g/L dicamba as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	11 August 2026
Distinguishing number of label	97695/153664
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 15 g/L MCPA (as the dimethylamine salt) and 2.3 g/L dicamba (as the dimethylamine salt) soluble concentrate product and approval of label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153673
Chemical product name	Yates Weed 'n' Feed Weed Killer & Lawn Fertiliser Easy to Use Hose On B
Distinguishing number of the chemical product	97697
Active constituents	15 g/L MCPA, as the dimethylamine salt, 2.3 g/L dicamba as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	11 August 2026
Distinguishing number of label	97697/153673
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 15 g/L MCPA (as the dimethylamine salt) and 2.3 g/L dicamba (as the dimethylamine salt) soluble concentrate product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153678
Chemical product name	Yates Weed 'n' Feed Weed Killer & Lawn Fertiliser Easy to Use Hose On C
Distinguishing number of the chemical product	97699
Active constituents	15 g/L MCPA, as the dimethylamine salt, 2.3 g/L dicamba as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	11 August 2026
Distinguishing number of label	97699/153678
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 15 g/L MCPA (as the dimethylamine salt) and 2.3 g/L dicamba (as the dimethylamine salt) soluble concentrate product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153348
Chemical product name	Atlantis OD Selective Herbicide
Distinguishing number of the chemical product	97504
Active constituents	90 g/L mefenpyr-diethyl, 30 g/L mesosulfuron-methyl
Applicant name	Bayer CropScience Pty Ltd
Date of registration and label approval	12 August 2026
Distinguishing number of label	97504/153348
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 30 g/L mesosulfuron-methyl plus 90 g/L mefenpyr-diethyl oil-based suspension concentrate (OD) product and approval of a label for the control of certain grass weeds in wheat
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153704
Chemical product name	Hortico Weed & Green Lawn Weed Killer & Fertiliser Hose On A
Distinguishing number of the chemical product	97713
Active constituents	15 g/L MCPA present as the dimethylamine salt, 2.3 g/L dicamba present as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	12 August 2026
Distinguishing number of label	97713/153704
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 15 g/L MCPA (as the dimethylamine salt) and 2.3 g/L dicamba (as the dimethylamine salt) soluble concentrate product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153689
Chemical product name	Yates Weed 'n' Feed Weed Killer & Lawn Fertiliser Easy to Use Hose On D
Distinguishing number of the chemical product	97705
Active constituents	15 g/L MCPA as the dimethylamine salt, 2.3 g/L dicamba as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	12 August 2026
Distinguishing number of label	97705/153689
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 15 g/L MCPA (as the dimethylamine salt) and 2.3 g/L dicamba (as the dimethylamine salt) soluble concentrate product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153688
Chemical product name	Hortico Weed & Green Lawn Weed Killer & Fertiliser Hose On B
Distinguishing number of the chemical product	97704
Active constituents	15 g/L MCPA present as the dimethylamine salt, 2.3 g/L dicamba present as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	12 August 2026
Distinguishing number of label	97704/153688
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 15 g/L MCPA (as the dimethylamine salt) and 2.3 g/L dicamba (as the dimethylamine salt) soluble concentrate product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	149649
Product name	NO Pantry Moths Pheromone Traps Citrus
Active constituent	4.9 g/kg (Z,E)-9,12-tetradecadien-1-YL acetate
Applicant name	Amalgamated Hardware Merchants (Australia) Pty Limited
Applicant ACN	634 759 005
Date of registration	13 August 2026
Product registration no.	96525
Label approval no.	96525/149649
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 4.9 g/kg (Z,E)-9,12-tetradecadien-1-YL acetate ready to use bait formulation to attract and trap pantry moths

Application no.	147016
Product name	Quantum Triclopyr 600 EC Herbicide
Active constituent	600 g/L triclopyr present as butoxyethyl ester
Applicant name	Quantum Agrosiences Holdings Pty Ltd
Applicant ACN	680 792 625
Date of registration	13 August 2026
Product registration no.	95726
Label approval no.	95726/147016
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 600 g/L triclopyr (present as butoxyethyl ester) emulsifiable concentrate (EC) product for the control of various woody and broadleaf weeds

Application no.	153691
Chemical product name	Hortico Weed & Green Lawn Weed Killer & Fertiliser Hose On C
Distinguishing number of the chemical product	97707
Active constituents	15 g/L MCPA present as the dimethylamine salt, 2.3 g/L dicamba present as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	13 August 2026
Distinguishing number of label	97707/153691
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 15 g/L MCPA (as the dimethylamine salt) and 2.3 g/L dicamba (as the dimethylamine salt) soluble concentrate product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153693
Chemical product name	Hortico Weed & Green Lawn Weed Killer & Fertiliser Hose On D
Distinguishing number of the chemical product	97709
Active constituents	15 g/L MCPA present as the dimethylamine salt, 2.3 g/L dicamba present as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	13 August 2026
Distinguishing number of label	97709/153693
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 15 g/L MCPA (as the dimethylamine salt) and 2.3 g/L dicamba (as the dimethylamine salt) soluble concentrate product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	150273
Product name	Valor WG Herbicide
Active constituent	500 g/kg flumioxazin
Applicant name	Sumitomo Chemical Australia Pty Limited
Applicant ACN	081 096 255
Date of registration	13 August 2026
Product registration no.	96651
Label approval no.	96651/150273
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 500 g/kg flumioxazin product, formulated as a water dispersible granule (WG) for knockdown and residue control of broadleaf weeds and grasses in a range of broadacre crops, fallow, vineyards, orchards, irrigation channel banks, drainage ditches and non-crop situations

Application no.	153709
Chemical product name	Yates Weed 'n' Feed Weed Killer & Lawn Fertiliser Easy to Use Hose On E
Distinguishing number of the chemical product	97717
Active constituents	15 g/L MCPA as the dimethylamine salt, 2.3 g/L dicamba as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	13 August 2026
Distinguishing number of label	97717/153709
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 15 g/L MCPA (as the dimethylamine salt) and 2.3 g/L dicamba (as the dimethylamine salt) soluble concentrate product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153694
Chemical product name	Hortico Weed & Green Lawn Weed Killer & Fertiliser Hose On E
Distinguishing number of the chemical product	97710
Active constituents	15 g/L MCPA present as the dimethylamine salt, 2.3 g/L dicamba present as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	13 August 2026
Distinguishing number of label	97710/153694
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 15 g/L MCPA (as the dimethylamine salt) and 2.3 g/L dicamba (as the dimethylamine salt) soluble concentrate product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153703
Chemical product name	Hortico Weed & Green Lawn Weed Killer & Fertiliser Hose On F
Distinguishing number of the chemical product	97712
Active constituents	15 g/L MCPA present as the dimethylamine salt, 2.3 g/L dicamba present as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	13 August 2026
Distinguishing number of label	97712/153703
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 15 g/L MCPA (as the dimethylamine salt) and 2.3 g/L dicamba (as the dimethylamine salt) soluble concentrate product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153702
Chemical product name	Yates Weed 'n' Feed Weed Killer & Lawn Fertiliser Easy to Use Hose On F
Distinguishing number of the chemical product	97711
Active constituents	15 g/L MCPA as the dimethylamine salt, 2.3 g/L dicamba as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	14 August 2026
Distinguishing number of label	97711/153702
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 15 g/L MCPA (as the dimethylamine salt) and 2.3 g/L dicamba (as the dimethylamine salt) soluble concentrate product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153712
Chemical product name	Yates Weed 'n' Feed Weed Killer & Lawn Fertiliser Easy to Use Hose On G
Distinguishing number of the chemical product	97720
Active constituents	15 g/L MCPA as the dimethylamine salt, 2.3 g/L dicamba as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	14 August 2026
Distinguishing number of label	97720/153712
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 15 g/L MCPA (as the dimethylamine salt) and 2.3 g/L dicamba (as the dimethylamine salt) soluble concentrate product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153445
Chemical product name	BASF Xzemplar Fungicide
Distinguishing number of the chemical product	97567
Active constituent	300 g/L fluxapyroxad
Applicant name	BASF Australia Ltd
Date of registration and label approval	14 August 2026
Distinguishing number of label	97567/153445
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 300 g/L fluxapyroxad suspension concentrate (SC) product and approval of a label for the control of various fungal diseases in turf
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	149525
Product name	SC Johnson A Family Company Raid Max Cockroach Baits
Active constituent	6.7 g/kg indoxacarb (75:25) (equivalent to 5 g/kg active S-isomer)
Applicant name	S.C. Johnson & Son Pty Ltd
Applicant ACN	000 021 009
Date of registration	14 August 2026
Product registration no.	96490
Label approval no.	96490/149525
Description of the application and its purpose, including the intended use of the chemical product	Registration of 6.7 g/kg indoxacarb (75:25) (equivalent to 5 g/kg active S-isomer) ready-to-use bait (RB) product for the control of cockroaches in household situations

Application no.	153375
Chemical product name	Roundup Ultramax Herbicide
Distinguishing number of the chemical product	97527
Active constituent	570 g/L glyphosate present as the potassium salt
Applicant name	Monsanto Australia Pty Ltd
Date of registration and label approval	14 August 2026
Distinguishing number of label	97527/153375
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 570 g/L glyphosate soluble concentrate product and approval of a label for the control of many annual and perennial weeds
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153620
Chemical product name	Genfarm Ima-Gen 750 SG Herbicide B
Distinguishing number of the chemical product	97670
Active constituent	750 g/kg imazapyr
Applicant name	Nutrien Ag Solutions Limited
Date of registration and label approval	14 August 2026
Distinguishing number of label	97670/153620
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 750 g/kg imazapyr SG herbicide product and approval of a label for the control of various annual and perennial weeds in non-crop situations
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Table 2: Variations of registration – agricultural chemical products

Application no.	154621
Product name	Macan Herbicide
Active constituents	250 g/L MCPA present as the ethyl hexyl ester, 25 g/L diflufenican
Applicant name	Shandong Rainbow International Co Ltd
Applicant ACN	N/A
Date of variation	22 July 2026
Product registration no.	65662
Label approval no.	65662/154621
Description of the application and its purpose, including the intended use of the chemical product	To update the first aid instructions appearing on a label to reflect the current FAISD handbook

Application no.	N/A – Variation under s29A
Product name	Farmozine 900 WG Herbicide
Active constituent	900 g/kg atrazine
Applicant name	APVMA initiated variation
Date of variation	4 August 2026
Product registration no.	46810
Label approval no.	46810/57402V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of registered chemical product and label approval and label particulars to update safety directions and other label updates

Application no.	148650
Product name	Titan CC & Dry OTT Gly 700 Herbicide
Active constituent	700 g/kg glyphosate present as the mono-ammonium salt
Applicant name	Titan Ag Pty Ltd
Applicant ACN	122 081 574
Date of variation	6 August 2026
Product registration no.	63021
Label approval no.	63021/148650
Description of the application and its purpose, including the intended use of the chemical product	Variation of product registration and label approval to add claims for use of over the top applications of glyphosate on optimum gly canola and for pre-harvest application in canola

Application no.	145426
Product name	Versys Insecticide
Active constituent	100 g/L afidopyropen
Applicant name	BASF Australia Ltd
Applicant ACN	008 437 867
Date of variation	7 August 2026
Product registration no.	82738
Label approval no.	82738/145426
Description of the application and its purpose, including the intended use of the chemical product	Variation to particulars of product registration and label approval for extension of use into apple and pear

Application no.	N/A – Variation under s29A
Product name	Unishield Fungicide, Miticide and Insecticide
Active constituent	800 g/kg sulfur
Applicant name	APVMA initiated variation
Date of variation	7 August 2026
Product registration no.	62282
Label approval no.	62282/135333V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of chemical product registration and label approval to update the restraints and Directions for Use

Application no.	N/A – Variation under s29A
Product name	Axial 100 EC Selective Herbicide
Active constituents	100 g/L pinoxaden, 25 g/L cloquintocet-mexyl
Applicant name	APVMA initiated variation
Date of variation	7 August 2026
Product registration no.	59024
Label approval no.	59024/137453V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation to label approval to update the constituent statement for the product that controls key grass weeds and selective spray topping of wild oats in wheat and barley

Application no.	N/A – Variation under s29A
Product name	Roundup Herbicide
Active constituent	360 g/L glyphosate present as the isopropylamine salt
Applicant name	APVMA initiated variation
Date of variation	7 August 2026
Product registration no.	31393
Label approval no.	31393/145421V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of chemical product registration, conditions of registration and label approval to update the label constituent statements and include use in the home garden for this herbicide used for the non-selective control of many annual and perennial weeds

Application no.	N/A – Variation under s29A
Product name	Nufarm Triflurx Herbicide
Active constituent	480 g/L trifluralin
Applicant name	APVMA initiated variation
Date of variation	7 August 2026
Product registration no.	56421
Label approval no.	56421/143097V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of chemical product registration and label approval to update the constituent statements and first aid instructions of the label

Application no.	N/A – Variation under s29A
Product name	Sabakem Trifluralin 480EC Selective Herbicide
Active constituent	480 g/L trifluralin
Applicant name	APVMA initiated variation
Date of variation	10 August 2026
Product registration no.	67329
Label approval no.	67329/145260V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of registered chemical product and label approval to update label constituent statement and remove references to Label A, Label B and Label C

Application no.	N/A – Variation under s29A
Product name	Nufarm Bromoxynil 200 Herbicide
Active constituent	200 g/L bromoxynil present as bromoxynil octanoate
Applicant name	APVMA initiated variation
Date of variation	14 August 2026
Product registration no.	31614
Label approval no.	31614/RV2024V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of chemical product registration and label approval to update the constituent statement

Application no.	N/A – Variation under s29A
Product name	Titan Prosulfocarb 800 EC Herbicide
Active constituent	800 g/L prosulfocarb
Applicant name	APVMA initiated variation
Date of variation	14 August 2026
Product registration no.	84685
Label approval no.	84685/142715V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of chemical product registration and label approval to update the constituent statements on the label

Application no.	N/A – variation under s29A
Product name	Roban Rodenticide Pellets
Active constituent/s	0.05 g/kg difenacoum
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	65528
Label approval no.	65528/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of instructions for use to address the reasons for the suspension of second-generation anticoagulant rodenticides and to address other safety concerns identified in the proposed regulatory decision

Application no.	N/A – variation under s29A
Product name	Roban Rodenticide Placepacks
Active constituent/s	0.05 g/kg difenacoum
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	66399
Label approval no.	66399/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of instructions for use to address the reasons for the suspension of second-generation anticoagulant rodenticides and to address other safety concerns identified in the proposed regulatory decision

Application no.	N/A – variation under s29A
Product name	Cougar Rodenticide Paste Sachets
Active constituent/s	0.05 g/kg difenacoum
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	66587
Label approval no.	66587/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of instructions for use to address the reasons for the suspension of second-generation anticoagulant rodenticides and to address other safety concerns identified in the proposed regulatory decision

Application no.	N/A – variation under s29A
Product name	Cougar Rodenticide Wax Blocks
Active constituent/s	0.05 g/kg difenacoum
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	66588
Label approval no.	66588/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of instructions for use to address the reasons for the suspension of second-generation anticoagulant rodenticides and to address other safety concerns identified in the proposed regulatory decision

Application no.	N/A – variation under s29A
Product name	Roban Rat And Mouse Killer Paste
Active constituent/s	0.05 g/kg difenacoum
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	67484
Label approval no.	67484/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of instructions for use to address the reasons for the suspension of second-generation anticoagulant rodenticides and to address other safety concerns identified in the proposed regulatory decision

Application no.	N/A – variation under s29A
Product name	Time's Up Baited Mouse Kill Station
Active constituent/s	0.05 g/kg difenacoum
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	67681
Label approval no.	67681/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of instructions for use to address the reasons for the suspension of second-generation anticoagulant rodenticides and to address other safety concerns identified in the proposed regulatory decision

Application no.	N/A – variation under s29A
Product name	Brigand Rodenticide Paste
Active constituent/s	0.05 g/kg brodifacoum
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	68021
Label approval no.	68021/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of instructions for use to address the reasons for the suspension of second-generation anticoagulant rodenticides and to address other safety concerns identified in the proposed regulatory decision

Application no.	N/A – variation under s29A
Product name	Brigand Rodenticide Pellets
Active constituent/s	0.05 g/kg brodifacoum
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	68028
Label approval no.	68028/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of instructions for use to address the reasons for the suspension of second-generation anticoagulant rodenticides and to address other safety concerns identified in the proposed regulatory decision

Application no.	N/A – variation under s29A
Product name	Time's Up Fast Action Baited Mouse Station
Active constituent/s	0.05 g/kg brodifacoum
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	82233
Label approval no.	82233/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of instructions for use to address the reasons for the suspension of second-generation anticoagulant rodenticides and to address other safety concerns identified in the proposed regulatory decision

Application no.	N/A – variation under s29A
Product name	The Big Cheese Ultra Power Fast Action Disposable Mouse Kill Bait Station
Active constituent/s	0.05 g/kg brodifacoum
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	82234
Label approval no.	82234/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of instructions for use to address the reasons for the suspension of second-generation anticoagulant rodenticides and to address other safety concerns identified in the proposed regulatory decision

Application no.	N/A – variation under s29A
Product name	The Big Cheese Ultra Power Fast Action Block Bait Rodenticide
Active constituent/s	0.05 g/kg brodifacoum
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	86214
Label approval no.	86214/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of instructions for use to address the reasons for the suspension of second-generation anticoagulant rodenticides and to address other safety concerns identified in the proposed regulatory decision

Application no.	N/A – variation under s29A
Product name	The Big Cheese Ultra Power Block Bait Rodenticide
Active constituent/s	0.025 g/kg brodifacoum
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	88845
Label approval no.	88845/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of instructions for use to address the reasons for the suspension of second-generation anticoagulant rodenticides and to address other safety concerns identified in the proposed regulatory decision

Application no.	N/A – variation under s29A
Product name	The Big Cheese Ultra Power All Weather Block Bait
Active constituent/s	0.025 g/kg brodifacoum
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	88846
Label approval no.	88846/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of instructions for use to address the reasons for the suspension of second-generation anticoagulant rodenticides and to address other safety concerns identified in the proposed regulatory decision

Application no.	N/A – variation under s29A
Product name	The Big Cheese Ultra Power Rat and Mouse Kill Place Packs
Active constituent/s	0.025 g/kg brodifacoum
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	88847
Label approval no.	88847/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of instructions for use to address the reasons for the suspension of second-generation anticoagulant rodenticides and to address other safety concerns identified in the proposed regulatory decision

Application no.	N/A – variation under s29A
Product name	The Big Cheese Home Choice Rat & Mouse Killer Ready to Use Bait Station
Active constituent/s	0.025 g/kg difenacoum
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	89203
Label approval no.	89203/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of instructions for use to address the reasons for the suspension of second-generation anticoagulant rodenticides and to address other safety concerns identified in the proposed regulatory decision

Application no.	N/A – variation under s29A
Product name	The Big Cheese Home Choice Mouse Killer Bait Station
Active constituent/s	0.025 g/kg difenacoum
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	89204
Label approval no.	89204/RV2026, 89204/RV202610A
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of instructions for use to address the reasons for the suspension of second-generation anticoagulant rodenticides and to address other safety concerns identified in the proposed regulatory decision

Application no.	N/A – variation under s29A
Product name	The Big Cheese Home Choice Rat Killer Bait Station
Active constituent/s	0.025 g/kg difenacoum
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	89206
Label approval no.	89206/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of instructions for use to address the reasons for the suspension of second-generation anticoagulant rodenticides and to address other safety concerns identified in the proposed regulatory decision

Application no.	N/A – variation under s29A
Product name	The Big Cheese Ultra Power Disposable Mouse Kill Bait Station
Active constituent/s	0.025 g/kg brodifacoum
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	91393
Label approval no.	91393/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of instructions for use to address the reasons for the suspension of second-generation anticoagulant rodenticides and to address other safety concerns identified in the proposed regulatory decision

Application no.	N/A – variation under s29A
Product name	The Big Cheese Ultra Power Mouse Kill Bait Station Kit
Active constituent/s	0.025 g/kg brodifacoum
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	91394
Label approval no.	91394/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of instructions for use to address the reasons for the suspension of second-generation anticoagulant rodenticides and to address other safety concerns identified in the proposed regulatory decision

Application no.	N/A – variation under s29A
Product name	The Big Cheese Ultra Power Rat Kill Bait Station Kit
Active constituent/s	0.025 g/kg brodifacoum
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	91401
Label approval no.	91401/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of instructions for use to address the reasons for the suspension of second-generation anticoagulant rodenticides and to address other safety concerns identified in the proposed regulatory decision

Application no.	N/A – variation under s29A
Product name	The Big Cheese Ultra Power Bait Blocks Mouse Kill Kit
Active constituent/s	0.05 g/kg brodifacoum
Applicant name	APVMA initiated variation
Date of variation	28 July 2026
Product registration no.	95659
Label approval no.	95659/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of instructions for use to address the reasons for the suspension of second-generation anticoagulant rodenticides and to address other safety concerns identified in the proposed regulatory decision

Application no.	151430
Product name	X-VERMINATOR SINGLE FEED, LETHAL DOSE RODENT PELLETS
Active constituent/s	0.05 g/kg brodifacoum
Applicant name	Animal Control Products Ltd
Date of variation	13 August 2026
Product registration no.	63625
Label approval no.	63625 /151430
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of the product registration and label approval to amend conditions, instructions for use and pack size to address reasons for suspension of domestic second-generation anticoagulant rodenticides.

Veterinary chemical products and approved labels

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has registered or varied the relevant particulars or conditions of the registration in respect of the following products and has approved the label or varied the relevant particulars or conditions of the approval in respect of the containers for the chemical product, with effect from the dates shown.

Table 3: Veterinary products based on existing active constituents

Application no.	152743
Product name	Vets' Own Allwormer Tablets for Dogs
Active constituents	542 mg/tablet oxantel embonate, 143 mg/tablet pyrantel embonate, 50 mg/tablet praziquantel
Applicant name	Arrovet Pty Ltd
Applicant ACN	674 072 532
Date of registration	4 August 2026
Product registration no.	97327
Label approval no.	97327/152743
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 50 mg praziquantel, 542 mg oxantel embonate, 143 mg pyrantel embonate tablet and approval of a label for the treatment of roundworm, hookworm, whipworm and tapeworm in dogs and puppies

Application no.	152807
Product name	Cardisure 3.5 mg/ml Oral Solution for Dogs
Active constituent	3.5 mg/mL pimobendan
Applicant name	Luoda Pharma Pty Ltd
Applicant ACN	149 604 259
Date of registration	4 August 2026
Product registration no.	97358
Label approval no.	97358/152807
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 3.5 mg/mL oral solution product and label approval of pimobendan for administration to dogs for the treatment of congestive heart failure (CHF) originating from dilated cardiomyopathy (DCM) or valvular insufficiency (mitral and/or tricuspid regurgitation)

Application no.	150551
Product name	Moxivet Cattle Pour-On
Active constituent	5 g/L moxidectin
Applicant name	Vetpharm Pty Limited
Applicant ACN	626 894 086
Date of registration	5 August 2026
Product registration no.	96743
Label approval no.	96743/150551
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 5 g/L moxidectin pour-on product and approval of a label for the treatment and control of moxidectin-sensitive internal and external parasites of cattle and for the treatment and control of lungworm and gastrointestinal roundworms of red deer

Table 4: Variations of registration – veterinary chemical products

Application no.	154733
Product name	Primalox 40 Injection
Active constituent	40 mg/mL Meloxicam
Applicant name	PAH Australia Pty Ltd
Applicant ACN	643 835 698
Date of variation	30 July 2026
Product registration no.	94630
Label approval no.	94630/154733
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'Prime Meloxicam 40 Injection' to 'Primalox 40 Injection'

Application no.	154796
Product name	Catosal Injectable Phosphorus and B12 Solution
Active constituents	100 mg/mL butaphosphan, 50 µg/mL vitamin B12 (cyanocobalamin)
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of variation	6 August 2026
Product registration no.	50277
Label approval no.	50277/154796
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'Coforta 100 Injectable Phosphorus Solution' to 'Catosal Injectable Phosphorus and B12 Solution'

Application no.	152293
Product name	CTC 200 G Micro Granulate Feed Additive
Active constituent	200 g/kg chlortetracycline hydrochloride as calcium complex
Applicant name	PAH Australia Pty Ltd
Applicant ACN	643 835 698
Date of variation	7 August 2026
Product registration no.	64660
Label approval no.	64660/152293
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the product and the label by updating the label as per the current Veterinary Labelling Code

Application no.	153356
Product name	Baymec Gold Injection Broad Spectrum Endectocide for Dairy and Beef Cattle
Active constituent/s	100 mg/mL clorsulon, 10 mg/mL ivermectin
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of variation	10 August 2026
Product registration no.	64596
Label approval no.	64596/153356
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of a registered chemical product and label approval by updating instructions of use

Revocation of suspension of registration

Pursuant to section 46(2)(b) of the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has revoked the suspensions of the registrations listed below with effect from the dates shown.

Table 5. Product registrations that are no longer suspended

Product name	ROBAN RODENTICIDE PELLETS
Active constituent/s	0.05 g/kg DIFENACOU
Holder name	Pelgar International (Aus) Pty Ltd
Holder ACN	159 699 779
Date suspension revoked	11 August 2026
Product registration no.	65528
Label approval no.	65528/RV2026
Brief reasons	The APVMA suspended the registration of ROBAN RODENTICIDE PELLETS on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 28 July 2026, the APVMA varied the product registration and label approval to include additional instructions and conditions to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	ROBAN RODENTICIDE PLACEPACKS
Active constituent/s	0.05 g/kg DIFENACOU
Holder name	Pelgar International (Aus) Pty Ltd
Holder ACN	159 699 779
Date suspension revoked	11 August 2026
Product registration no.	66399
Label approval no.	66399/RV2026
Brief reasons	The APVMA suspended the registration of ROBAN RODENTICIDE PLACEPACKS on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 28 July 2026, the APVMA varied the product registration and label approval to include additional instructions and conditions to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	COUGAR RODENTICIDE PASTE SACHETS
Active constituent/s	0.05 g/kg DIFENACOU
Holder name	Pelgar International (Aus) Pty Ltd
Holder ACN	159 699 779
Date suspension revoked	11 August 2026
Product registration no.	66587
Label approval no.	66587/RV2026
Brief reasons	The APVMA suspended the registration of COUGAR RODENTICIDE PASTE SACHETS on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 28 July 2026, the APVMA varied the product registration and label approval to include additional instructions and conditions to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	COUGAR RODENTICIDE WAX BLOCKS
Active constituent/s	0.05 g/kg DIFENACOU
Holder name	Pelgar International (Aus) Pty Ltd
Holder ACN	159 699 779
Date suspension revoked	11 August 2026
Product registration no.	66588
Label approval no.	66588/RV2026
Brief reasons	The APVMA suspended the registration of COUGAR RODENTICIDE WAX BLOCKS on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 28 July 2026, the APVMA varied the product registration and label approval to include additional instructions and conditions to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	ROBAN RAT AND MOUSE KILLER PASTE
Active constituent/s	0.05 g/kg DIFENACOU
Holder name	Pelgar International (Aus) Pty Ltd
Holder ACN	159 699 779
Date suspension revoked	11 August 2026
Product registration no.	67484
Label approval no.	67484/RV2026
Brief reasons	The APVMA suspended the registration of ROBAN RAT AND MOUSE KILLER PASTE on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 28 July 2026, the APVMA varied the product registration and label approval to include additional instructions, conditions and pack size limits to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	TIME'S UP BAITED MOUSE KILL STATION
Active constituent/s	0.05 g/kg DIFENACOU
Holder name	Pelgar International (Aus) Pty Ltd
Holder ACN	159 699 779
Date suspension revoked	11 August 2026
Product registration no.	67681
Label approval no.	67681/RV2026
Brief reasons	The APVMA suspended the registration of TIME'S UP BAITED MOUSE KILL STATION on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 28 July 2026, the APVMA varied the product registration and label approval to include additional instructions, conditions and pack size limits to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	BRIGAND RODENTICIDE PASTE
Active constituent/s	0.05 g/kg BRODIFACOU
Holder name	Pelgar International (Aus) Pty Ltd
Holder ACN	159 699 779
Date suspension revoked	11 August 2026
Product registration no.	68021
Label approval no.	68021/RV2026
Brief reasons	The APVMA suspended the registration of BRIGAND RODENTICIDE PASTE on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 28 July 2026, the APVMA varied the product registration and label approval to include additional instructions and conditions to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	BRIGAND RODENTICIDE PELLETS
Active constituent/s	0.05 g/kg BRODIFACOU
Holder name	Pelgar International (Aus) Pty Ltd
Holder ACN	159 699 779
Date suspension revoked	11 August 2026
Product registration no.	68028
Label approval no.	68028/RV2026
Brief reasons	The APVMA suspended the registration of BRIGAND RODENTICIDE PELLETS on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 28 July 2026, the APVMA varied the product registration and label approval to include additional instructions and conditions to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	Time's Up Fast Action Baited Mouse Station
Active constituent/s	0.05 g/kg BRODIFACOUM
Holder name	Pelgar International (Aus) Pty Ltd
Holder ACN	159 699 779
Date suspension revoked	11 August 2026
Product registration no.	82233
Label approval no.	82233/RV2026
Brief reasons	The APVMA suspended the registration of Time's Up Fast Action Baited Mouse Station on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 28 July 2026, the APVMA varied the product registration and label approval to include additional instructions, conditions and pack size limits to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	THE BIG CHEESE ULTRA POWER FAST ACTION DISPOSABLE MOUSE KILL BAIT STATION
Active constituent/s	0.05 g/kg BRODIFACOUM
Holder name	Pelgar International (Aus) Pty Ltd
Holder ACN	159 699 779
Date suspension revoked	11 August 2026
Product registration no.	82234
Label approval no.	82234/RV2026
Brief reasons	The APVMA suspended the registration of THE BIG CHEESE ULTRA POWER FAST ACTION DISPOSABLE MOUSE KILL BAIT STATION on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 28 July 2026, the APVMA varied the product registration and label approval to include additional instructions, conditions and pack size limits to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	The Big Cheese Ultra Power Fast Action Block Bait Rodenticide
Active constituent/s	0.05 g/kg BRODIFACOUM
Holder name	Pelgar International (Aus) Pty Ltd
Holder ACN	159 699 779
Date suspension revoked	11 August 2026
Product registration no.	86214
Label approval no.	86214/RV2026
Brief reasons	The APVMA suspended the registration of The Big Cheese Ultra Power Fast Action Block Bait Rodenticide on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 28 July 2026, the APVMA varied the product registration and label approval to include additional instructions and conditions to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	The Big Cheese Ultra Power Block Bait Rodenticide
Active constituent/s	0.025 g/kg BRODIFACOU
Holder name	Pelgar International (Aus) Pty Ltd
Holder ACN	159 699 779
Date suspension revoked	11 August 2026
Product registration no.	88845
Label approval no.	88845/RV2026
Brief reasons	The APVMA suspended the registration of The Big Cheese Ultra Power Block Bait Rodenticide on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 28 July 2026, the APVMA varied the product registration and label approval to include additional instructions and conditions to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	The Big Cheese Ultra Power All Weather Block Bait
Active constituent/s	0.025 g/kg BRODIFACOU
Holder name	Pelgar International (Aus) Pty Ltd
Holder ACN	159 699 779
Date suspension revoked	11 August 2026
Product registration no.	88846
Label approval no.	88846/RV2026
Brief reasons	The APVMA suspended the registration of The Big Cheese Ultra Power All Weather Block Bait on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 28 July 2026, the APVMA varied the product registration and label approval to include additional instructions, conditions and pack size limits to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	The Big Cheese Ultra Power Rat and Mouse Kill Place Packs
Active constituent/s	0.025 g/kg BRODIFACOU
Holder name	Pelgar International (Aus) Pty Ltd
Holder ACN	159 699 779
Date suspension revoked	11 August 2026
Product registration no.	88847
Label approval no.	88847/RV2026
Brief reasons	The APVMA suspended the registration of The Big Cheese Ultra Power Rat and Mouse Kill Place Packs on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 28 July 2026, the APVMA varied the product registration and label approval to include additional instructions, conditions and pack size limits to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	The Big Cheese Home Choice Rat & Mouse Killer Ready to Use Bait Station
Active constituent/s	0.025 g/kg DIFENACOU
Holder name	Pelgar International (Aus) Pty Ltd
Holder ACN	159 699 779
Date suspension revoked	11 August 2026
Product registration no.	89203
Label approval no.	89203/RV2026
Brief reasons	The APVMA suspended the registration of The Big Cheese Home Choice Rat & Mouse Killer Ready to Use Bait Station on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 28 July 2026, the APVMA varied the product registration and label approval to include additional instructions, conditions and pack size limits to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	The Big Cheese Home Choice Mouse Killer Bait Station
Active constituent/s	0.025 g/kg DIFENACOU
Holder name	Pelgar International (Aus) Pty Ltd
Holder ACN	159 699 779
Date suspension revoked	11 August 2026
Product registration no.	89204
Label approval no.	89204/RV2026, 89204/RV202610A
Brief reasons	The APVMA suspended the registration of The Big Cheese Home Choice Mouse Killer Bait Station on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 28 July 2026, the APVMA varied the product registration and label approvals to include additional instructions, conditions and pack size limits to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	The Big Cheese Home Choice Rat Killer Bait Station
Active constituent/s	0.025 g/kg DIFENACOU
Holder name	Pelgar International (Aus) Pty Ltd
Holder ACN	159 699 779
Date suspension revoked	11 August 2026
Product registration no.	89206
Label approval no.	89206/RV2026
Brief reasons	The APVMA suspended the registration of The Big Cheese Home Choice Rat Killer Bait Station on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 28 July 2026, the APVMA varied the product registration and label approval to include additional instructions, conditions and pack size limits to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	The Big Cheese Ultra Power Disposable Mouse Kill Bait Station
Active constituent/s	0.025 g/kg BRODIFACOUM
Holder name	Pelgar International (Aus) Pty Ltd
Holder ACN	159 699 779
Date suspension revoked	11 August 2026
Product registration no.	91393
Label approval no.	91393/RV2026
Brief reasons	The APVMA suspended the registration of The Big Cheese Ultra Power Disposable Mouse Kill Bait Station on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 28 July 2026, the APVMA varied the product registration and label approval to include additional instructions, conditions and pack size limits to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	The Big Cheese Ultra Power Mouse Kill Bait Station Kit
Active constituent/s	0.025 g/kg BRODIFACOUM
Holder name	Pelgar International (Aus) Pty Ltd
Holder ACN	159 699 779
Date suspension revoked	11 August 2026
Product registration no.	91394
Label approval no.	91394/RV2026
Brief reasons	The APVMA suspended the registration of The Big Cheese Ultra Power Mouse Kill Bait Station Kit on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 28 July 2026, the APVMA varied the product registration and label approval to include additional instructions, conditions and pack size limits to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	The Big Cheese Ultra Power Rat Kill Bait Station Kit
Active constituent/s	0.025 g/kg BRODIFACOUM
Holder name	Pelgar International (Aus) Pty Ltd
Holder ACN	159 699 779
Date suspension revoked	11 August 2026
Product registration no.	91401
Label approval no.	91401/RV2026
Brief reasons	The APVMA suspended the registration of The Big Cheese Ultra Power Rat Kill Bait Station Kit on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 28 July 2026, the APVMA varied the product registration and label approval to include additional instructions, conditions and pack size limits to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	The Big Cheese Ultra Power Bait Blocks Mouse Kill Kit
Active constituent/s	0.05 g/kg BRODIFACOUM
Holder name	Pelgar International (Aus) Pty Ltd
Holder ACN	159 699 779
Date suspension revoked	11 August 2026
Product registration no.	95659
Label approval no.	95659/RV2026
Brief reasons	The APVMA suspended the registration of The Big Cheese Ultra Power Bait Blocks Mouse Kill Kit on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 28 July 2026, the APVMA varied the product registration and label approval to include additional instructions, conditions and pack size limits to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	X-VERMINATOR SINGLE FEED, LETHAL DOSE RODENT PELLETS
Active constituent/s	0.05 g/kg BRODIFACOUM
Holder name	Animal Control Products Ltd
Holder ACN	N/A
Date suspension revoked	11 August 2026
Product registration no.	63625
Label approval no.	63625/RV2026
Brief reasons	The APVMA suspended the registration of X-VERMINATOR SINGLE FEED, LETHAL DOSE RODENT PELLETS on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 13 August 2026, the APVMA varied the product registration and label approval to include additional instructions, and conditions to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Consultation on proposed chemical import and export controls

As detailed in [APVMA Gazette No. 14](#), published Tuesday 14 July 2026, the Department of Agriculture, Fisheries and Forestry is welcoming stakeholder feedback on proposed amendments to Australia's import and export controls for certain chemicals following decisions made at the 12th meetings of the Conferences of the Parties to the Rotterdam and Stockholm Conventions.

The amendments are being considered to support Australia's obligations under the Rotterdam and Stockholm Conventions and may require importers and exporters to obtain written authorisation from the department before importing or exporting specified chemicals.

Stakeholders wishing to provide feedback or make submissions regarding the proposed amendments are invited to contact the officer listed below.

Contact officer: Dr Joseph Morrall, Director International Policy – Forests and Agvet Chemicals Section

Phone: 02 6272 4442

Email: controlledchemicals@aff.gov.au

Submissions close at 5.00 pm AEST on Tuesday 8 September 2026.

Amendments to the APVMA MRL Standard

The Australian Pesticides and Veterinary Medicines Authority (APVMA) approves maximum residue limits (MRLs) of agricultural and veterinary chemicals in agricultural produce, particularly produce entering the food chain. The MRLs approved by the APVMA are associated with a regulatory decision to register a product, grant a permit approval, or as an outcome from a review decision and are set out in the *Agricultural and Veterinary Chemicals (MRL Standard for Residues of Chemical Products) Instrument 2023*. The *MRL Standard* lists MRLs of substances that may arise from the approved use of agricultural and veterinary chemical products containing those substances on commodities used for human consumption as well as livestock feeds. The *MRL Standard* also provides the relevant residue definitions to which these MRLs apply. There may be situations where the residue definition for monitoring and enforcement is different to the definition used for dietary risk assessment purposes.

MRLs are set at levels which are not likely to be exceeded if the agricultural or veterinary chemicals are used in accordance with approved label instructions. In considering MRLs and variation to MRLs, the APVMA takes into account studies on chemistry, metabolism, analytical methodology, residues, toxicology, good agricultural practice and dietary exposure. In approving MRLs, the APVMA is satisfied, from dietary exposure assessment, that the levels set are not an undue hazard to human health.

The APVMA has amended the *MRL Standard* and the changes will have effect the day after the instrument is registered.

Details of the amendment can be found in the *Agricultural and Veterinary Chemicals (MRL Standard for Residues of Chemical Products) Amendment Instrument (No. 4) 2026*.

The amendments will be incorporated into the compilation of the *Agricultural and Veterinary Chemicals (MRL Standard for Residues of Chemical Products) Instrument 2023*.

The MRL Standard is accessible via the [Federal Register of Legislation website](#).

Proposal to amend Schedule 20 in the Australian New Zealand Food Standards Code

In the previous notice on page 45 of APVMA Gazette No.17, the APVMA gazetted amendments which it has approved to vary maximum residue limits (MRLs) for substances contained in agricultural and veterinary chemical products as set out in the APVMA's MRL Standard.

Under section 82 of the *Food Standards Australia New Zealand Act 1991*, the APVMA is proposing to incorporate those variations Agricultural and Veterinary Chemicals (MRL Standard for Residues of Chemical Products) Amendment Instrument (No. 4) 2026 to MRLs into Schedule 20 – Maximum residue limits in the Australia New Zealand Food Standards Code.

MRLs contained in Schedule 20 provide the limits for residues of agricultural and veterinary chemicals that may legitimately occur in foods. By this means Schedule 20 permits the sale of treated foods and protects public health and safety by minimising residues in foods consistent with the effective control of pests and diseases.

The APVMA and Food Standards Australia New Zealand (FSANZ) are satisfied, based on dietary exposure assessments and current health standards, that the proposed limits are not harmful to public health.

The agreement between the Australian Government and the New Zealand Government concerning a Joint Food Standards System excludes MRLs for agricultural and veterinary chemicals in food from the system setting joint food standards. Australia and New Zealand independently and separately develop MRLs for agricultural and veterinary chemicals in food.

A Sanitary and Phytosanitary (SPS) notification to the World Trade Organization (WTO) will be made.

The APVMA invites comment on these proposals. Details on how to make a submission appear near the end of this notice, below the details of the proposed amendment.

The APVMA will consider any public comments made in response to this proposal. If the APVMA decides to proceed with the proposal, it will further notify any variations it makes to Schedule 20 in the APVMA Gazette. The variations will take effect as from the date of that subsequent notice.

Proposed variation to Schedule 20 in the Australia New Zealand Food Standards Code

25 August 2026

Note: Subsection 82(2) of the *Food Standards Australia New Zealand Act 1991* provides that variations to standards are legislative instruments, but are not subject to disallowance or sunseting.

To commence: on gazettal of variation

Schedule 20 Maximum Residue Limits

[1] Section S20—3

Repeal, the corresponding permitted residue(s), food commodities and associated MRLs:

Agvet chemical: 1,4-dimethylnaphthalene

Permitted residue—commodities of plant origin: 1,4-dimethylnaphthalene

Permitted maximum residue—commodities of animal origin, except milk: sum of 1,4-dimethylnaphthalene and metabolite 4-methyl-1-naphthoic acid (M23), expressed as 1,4-dimethylnaphthalene

Edible offal (mammalian)	0.5
Eggs	0.03
Mammalian fats (except milk fats)	0.03
Meat Mammalian	0.03
Milks	0.03
Potato	20
Poultry, edible offal of	0.2
Poultry fats	0.3
Poultry meat	0.3

Insert in alphabetical order the following chemicals, the corresponding permitted residue(s), food commodities and associated MRLs:

Agvet chemical: 1,4-dimethylnaphthalene

Permitted residue — commodities of plant origin: 1,4-dimethylnaphthalene

Permitted residue — commodities of animal origin, except milk: sum of 1,4-dimethylnaphthalene and metabolite 4-methyl-1-naphthoic acid (M23), expressed as 1,4-dimethylnaphthalene.

Milk: glycine conjugate of 4-methyl-1-naphthoic acid (Gly-M23).

Edible offal (mammalian)	0.5
Eggs	0.03
Mammalian fats (except milk fats)	0.03
Meat Mammalian	0.03
Milks	0.03
Potato	20

Poultry, edible offal of	0.2
Poultry fats	0.3
Poultry meat	0.3

[2] Section S20—3

Repeal, the corresponding permitted residue(s), food commodities and associated MRLs:

Agvet chemical: Carboxin

Permitted residue: Carboxin

Cereal grains [except sweet corns]	0.1
Peanut	0.2

Insert in alphabetical order the following chemicals, the corresponding permitted residue(s), food commodities and associated MRLs:

Agvet chemical: Carboxin

Permitted residue — Sum of carboxin and its metabolites carboxin sulfoxide and carboxin sulfone, expressed as carboxin

Cereal grains [except sweet corns]	0.1
Edible offal (mammalian)	T0.1
Eggs	*0.03
Meat (mammalian)	*0.03
Milks	*0.03
Peanut	0.2
Poultry meat	*0.03
Poultry, edible offal of	*0.03

[3] Section S20—3 (table entry for Agvet chemical: Cyantraniliprole)

Repeal:

Common beans (pods and/or immature seeds)	T1
Succulent seeds of Beans with pods	0.3
Succulent seeds of Peas with pods	0.3

[4] Section S20—3 (table entry for Agvet chemical: Cyantraniliprole)

Insert:

Leafy vegetables [except lettuce, head]	6
Legume vegetables [except peas with pods (subgroup)]	0.4
Lettuce, head	1.5
Psyllium sp.	*0.01

[5] Section S20—3 (table entry for Agvet chemical: Cyantraniliprole)

Repeal:

Edible offal (mammalian)	0.05
--------------------------	------

Meat (mammalian) (in the fat)	*0.01
-------------------------------	-------

Substitute:

Edible offal (mammalian)	0.1
Meat (mammalian) (in the fat)	0.03

Turmeric, root	T0.02

[15] Section S20—3 (table entry for Agvet chemical: Penthioopyrad)

Insert:

Fennel, bulb	15
Fennel, leaf	50
Fennel, Spanish	50

[16] Section S20—3 (table entry for Agvet chemical: Pydiflumetofen)

Repeal:

Beans with pods	0.7
Peas with pods (subgroup)	1.5
Potato	*0.01
Root and tuber vegetables [except potato]	0.3

[17] Section S20—3 (table entry for Agvet chemical: Pydiflumetofen)

Insert:

Dried herbs	150
Herbs	30
Legume vegetables	1.5
Root and tuber vegetables [except tuberous and corm vegetables]	0.3
Tuberous and corm vegetables	*0.01

[18] Section S20—3 (table entry for Agvet chemical: Spiromesifen)

Omit:

Papaya	0.7
--------	-----

Substitute:

Papaya (pawpaw)	0.7
-----------------	-----

Invitation for submissions

Written submissions are invited from interested individuals and organisations to assist the APVMA in considering the proposal to vary Schedule 20 – Maximum residue limits in the Australia New Zealand Food Standards Code.

Submissions should be strictly confined to relevant matters that the APVMA must consider (such as public health and safety) which are associated with the occurrence of the proposed residues in foods. Comments received outside these grounds will not be considered by the APVMA.

Claims made in submissions should be supported wherever possible by referencing or including relevant studies, research findings, trials and surveys. Technical information should be in sufficient detail to allow independent scientific assessment.

Submissions must be made in writing and should be clearly marked as a 'submission on the proposed amendment to Schedule 20' and quote the correct amendment number.

Deadline for public submissions

Submissions must be received by 22 September 2026 (28 days from date Gazette published). Submissions received after this deadline will only be considered by prior arrangement or if agreement for an extension has been given prior to this closing date. Agreement to an extension of time will only be given if extraordinary circumstances warrant an extension to the submission period.

Please note: submissions will be published on the APVMA's website, unless you have asked for the submission to remain confidential, or if the APVMA chooses at its discretion not to publish any submissions received (refer to the [public consultation coversheet](#)).

Please lodge your submission using the [public consultation coversheet](#), which provides options for how your submission will be published.

Note that all APVMA documents are subject to the access provisions of the *Freedom of Information Act 1982* and may be required to be released under that Act should a request for access be made.

Agvet chemical voluntary recall: Vaxsafe MG304

Product name: Vaxsafe MG304

APVMA registration number: 90403

APVMA approved label number: 149967

Batch number: MGC232661E

Sold by: Bioproperties Pty Ltd and Veterinary Distributors in VIC, NSW, QLD between 6 May 2026 to 11 August 2026

On 11 August 2026, Bioproperties Pty Ltd, (ACN: 007 303 728) initiated a voluntary recall under section 106 of the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* (Cth) in relation to the chemical product described above.

Reason for voluntary recall

The recall has been initiated due to recent stability data for storage at 2-8°C.

Product that has been stored at 2-8°C for greater than 3 months may no longer comply with the approved minimum titre specification and should not be used. Product that has been stored at -18°C is not affected, however, customers are requested to destroy remaining stock.

Hazard

A potential reduction in efficacy due to lack of potency if stored at 2-8°C for greater than 3 months.

What to do if in possession of this chemical product

Customers are requested to immediately quarantine the affected stock and notify Bioproperties Pty Ltd of quantities held. Please destroy remaining stock in accordance with the destruction instructions as per the leaflet. Customers will be reimbursed for the affected stock.

More information

Visit the APVMA website to [view the notice](#) of voluntary recall for the chemical product described above.

The APVMA publishes a list of [agvet chemical recall notices](#) on its website and provides a [subscription option](#) to be notified by email when a new recall notice is published.

Contact

Questions about this voluntary recall should be directed to:

Bioproperties Pty Ltd - Distribution Manager

Phone: +61 3 9871 2000

Email: Vaccine.Sales@bioproperties.com.au

Notice of cancellation at the request of the holder

At the request of the holder, in accordance with section 42(1) of the *Agricultural and Veterinary Chemicals Code Act 1994* (Agvet Code), the APVMA has cancelled the approvals and/or registrations set out in Table 6:

Table 6: Active constituent approval/product registration/label approval cancelled at the request of the holder

Approval or registration number	Name	Type of approval or registration	Holder	Reason for cancellation (if relevant pursuant to s45A(3))	Date of cancellation
37221	Covinan Progestagen for Subcutaneous Injection	Product	Intervet Australia Pty Ltd	Not applicable	18 August 2026
53781	Rumetrace Ezymin Cattle Selenium Pills	Product	Intervet Australia Pty Ltd	Not applicable	18 August 2026
53782	Rumetrace Ezymin Cattle Cobalt Pills	Product	Intervet Australia Pty Ltd	Not applicable	18 August 2026
53785	Rumetrace Ezymin Sheep Cobalt Pills	Product	Intervet Australia Pty Ltd	Not applicable	18 August 2026
63934	Purina Totalcare Flea Powder for Dogs	Product	Nestle Australia Ltd	Not applicable	18 August 2026
87457	Purina Totalcare Heartwormer and Allwormer for Large Dogs	Product	Nestle Australia Ltd	Not applicable	18 August 2026
87458	Purina Totalcare Heartwormer and Allwormer for Medium Dogs	Product	Nestle Australia Ltd	Not applicable	18 August 2026
87459	Purina Totalcare Heartwormer and Allwormer for Small Dogs	Product	Nestle Australia Ltd	Not applicable	18 August 2026

In accordance with section 45A(1)(b) of the Agvet Code, the APVMA publishes this notice of the cancellation, including the following instructions which set out how a person can deal with the cancelled active constituent, cancelled product or product bearing a cancelled label referred to in Table 6.

Instructions

Instructions for persons who possess, have custody of or use the cancelled active constituent, cancelled product, or the product bearing a cancelled label under section 45B(3) of the Agvet Code.

A person who possesses, has custody of or uses the cancelled active constituent, cancelled product or product bearing a cancelled label referred to in Table 6 in accordance with the instructions contained in this notice, is taken to have been issued with a permit under section 45B(3) of the Agvet Code to possess, have custody of or use the cancelled active constituent, cancelled product or product bearing a cancelled label, in accordance with those instructions.

Possession or custody

A person may possess the cancelled active constituent, cancelled product or product bearing a cancelled label referred to in Table 6 in accordance with its label instructions for 1 year from the date of cancellation.

Use, supply or otherwise deal with

A person may use the cancelled active constituent, cancelled product or products bearing a cancelled label referred to in Table 6 according to its label instructions, including any conditions relating to shelf life or expiry date, for 1 year after the date of cancellation.

A person may supply or cause to be supplied at wholesale or retail level the cancelled active constituent, cancelled product, or product bearing a cancelled label referred to in Table 6, for 1 year after the date of cancellation.

Contraventions

After the day that is 1 year from the date of cancellation it will be an offence against the Agvet Code to have possession or custody of the cancelled active constituents, cancelled products or products bearing a cancelled label with the intention to supply, or to supply the cancelled active constituent, cancelled product, or product bearing a cancelled label.

It is an offence to possess, have custody of, use, or otherwise deal with the cancelled active constituents, cancelled products or products bearing the cancelled label listed in Table 6 in a manner that contravenes the above instructions.
