Gazette

Agricultural and veterinary chemicals

No. APVMA 18, Tuesday 8 September 2026

Published by the Australian Pesticides and Veterinary Medicines Authority

Australian Government
**Australian Pesticides and
Veterinary Medicines Authority**

The *Agricultural and Veterinary Chemical Code Act 1994* (the Act) commenced on 15 March 1995. The Agricultural and Veterinary Chemicals Code (the Agvet Code) scheduled to the Act requires notices to be published in the *Gazette* containing details of the registration of agricultural and veterinary chemical products and other approvals granted by the Australian Pesticides and Veterinary Medicines Authority. The Agvet Code and related legislation also requires certain other notices to be published in the *Gazette*. A reference to Agvet Codes in this publication is a reference to the Agvet Code in each state and territory jurisdiction.

This work is copyright. Apart from any use as permitted under the *Copyright Act 1968*, no part may be reproduced by any process without prior written permission from the Australian Pesticides and Veterinary Medicines Authority (APVMA). Requests and inquiries concerning reproduction and rights should be addressed to:

Website: apvma.gov.au

General information

The APVMA Gazette is published fortnightly and contains details of the registration of agricultural and veterinary chemicals products and other approvals granted by the APVMA, notices as required by the Agricultural and Veterinary Chemicals Code (the Agvet Code) and related legislation and a range of regulatory material issued by the APVMA.

Pursuant to section 8J(1) of the Agvet Code, the APVMA has decided that it is unnecessary to publish details of applications made for the purpose of notifying minor variations to registration details. The APVMA will however report notifications activity in quarterly statistical reports.

Distribution and subscription

The APVMA Gazette is published in electronic format only and is available from the [APVMA website](http://apvma.gov.au).

If you would like to subscribe to receive email notification when a new edition is published, please complete a [subscription form](#).

APVMA contacts

For enquiries regarding the publishing and distribution of the APVMA Gazette: Telephone: +61 2 6770 2300.

For enquiries on APVMA Gazette content, please refer to the individual APVMA contacts listed under each notice.

Privacy

Agricultural chemical products and approved labels

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has registered or varied the relevant particulars or conditions of the registration in respect of the following products and has approved the label or varied the relevant particulars or conditions of the approval in respect of the containers for the chemical product, with effect from the dates shown.

The APVMA is implementing some changes to the way that we give this notice. While implementation occurs, there will be differences in how decisions appear in the tables below.

Table 1: Restricted product – agricultural chemical products

Application no.	153392
Chemical product name	ACTA 1080 Concentrate – Green
Distinguishing number of the chemical product	97542
Active constituent	30 g/L sodium fluoroacetate
Applicant name	Animal Control Technologies (Australia) Pty Ltd
Date of registration and label approval	18 August 2026
Distinguishing number of label.	97542/153392
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 30 g/L sodium fluoroacetate liquid concentrate (LC) product, containing a colour change as the sole variation from the existing product and approval of a label for the preparation of 1080 baits to control feral pigs, foxes, rabbits and wild dogs. To be supplied to or be used by persons authorized under the appropriate State and Territory legislation
Statement of the conditions of the registration that directly regulate the use of the product.	Restricted chemical product only to be supplied to or used by an authorised person. This product must be used in accordance with the label instructions and any relevant documentation issued with state/territory authorisation to use 1080 products

Table 2: Agricultural products based on existing active constituents

Application no.	153718
Chemical product name	Yates Lawn Weed Killer Bindii & Clover Concentrate B
Distinguishing number of the chemical product	97724
Active constituents	150 g/L MCPA present as the dimethylamine salt, 25 g/L dicamba present as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	17 August 2026
Distinguishing number of label.	97724/153718
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 150 g/L MCPA (as the dimethylamine salt) and 25 g/L dicamba (as the dimethylamine salt) aqueous concentrate product and approval of a label for use as a home garden lawn herbicide
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153716
Chemical product name	Yates Lawn Weed Killer Bindii & Clover Concentrate C
Distinguishing number of the chemical product	97722
Active constituents	150 g/L MCPA present as the dimethylamine salt, 25 g/L dicamba present as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	17 August 2026
Distinguishing number of label.	97722/153716
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 150 g/L MCPA (as the dimethylamine salt) and 25 g/L dicamba (as the dimethylamine salt) aqueous concentrate product and approval of a label for use as a home garden lawn herbicide
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153374
Chemical product name	Infinito SC Fungicide
Distinguishing number of the chemical product	97526
Active constituents	625 g/L propamocarb hydrochloride, 62.5 g/L fluopicolide
Applicant name	Bayer CropScience Pty Ltd
Date of registration and label approval	18 August 2026
Distinguishing number of label.	97526/153374
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 62.5 g/L fluopicolide and 625 g/L propamocarb hydrochloride suspension concentrate (SC) product for control of downy mildew, late blight, and white blister in various crops
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153357
Chemical product name	Momiji 480 SC Herbicide
Distinguishing number of the chemical product	97512
Active constituent	480 g/L pyroxasulfone
Applicant name	Bayer CropScience Pty Ltd
Date of registration and label approval	18 August 2026
Distinguishing number of label.	97512/153357
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 480 g/L pyroxasulfone suspension concentrate (SC) product and approval of a label for control of certain weeds in wheat (not durum wheat), triticale and certain winter legume crops
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153377
Chemical product name	Evergol Prime Seed Treatment and In-Furrow Fungicide
Distinguishing number of the chemical product	97529
Active constituent	240 g/L penflufen
Applicant name	Bayer CropScience Pty Ltd
Date of registration and label approval	18 August 2026
Distinguishing number of label.	97529/153377
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 240 g/L penflufen suspension concentrates for seed treatment (FS) product and approval of a label for control or suppression of certain diseases in wheat, barley and oats
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153785
Chemical product name	ADAMA 2,4-D LV Ester 680 Herbicide A
Distinguishing number of the chemical product	97756
Active constituent	680 g/L 2,4-D present as the 2-ethylhexyl ester
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	18 August 2026
Distinguishing number of label.	97756/153785
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 680 g/L 2,4-D emulsifiable concentrate (EC) product and approval of a label for use as proposed in the directions for use
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153828
Chemical product name	ADAMA 2,4-D LV Ester 680 Herbicide B
Distinguishing number of the chemical product	97790
Active constituent	680 g/L 2,4-D present as the 2-ethylhexyl ester
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	18 August 2026
Distinguishing number of label.	97790/153828
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 680 g/L 2,4-D emulsifiable concentrate (EC) product and approval of a label for use as proposed in the directions for use
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153895
Chemical product name	ADAMA 2,4-D LV Ester 680 Herbicide C
Distinguishing number of the chemical product	97836
Active constituent	680 g/L 2,4-D present as the 2-ethylhexyl ester
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	18 August 2026
Distinguishing number of label.	97836/153895
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 680 g/L 2,4-D emulsifiable concentrate (EC) product and approval of a label for the selective control of various weeds in crops, pastures and non-agricultural areas as specified in the directions for use
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153540
Chemical product name	Sabakem Propyzamide 500 Herbicide
Distinguishing number of the chemical product	97625
Active constituent	500 g/L propyzamide
Applicant name	Sabakem Pty Ltd
Date of registration and label approval	18 August 2026
Distinguishing number of label	97625/153540
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 500 g/L propyzamide suspension concentrate (SC) product and approval of a label for use as a herbicide to selective control of certain grasses and broad leaf weeds in chicory, endive and radicchio, pyrethrum, lettuce, canola, mustard, sports turf, home lawns and legume seed crops and pastures
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153378
Chemical product name	Uvasys Dual Release Blue Sulphur Dioxide Generators
Distinguishing number of the chemical product	97530
Active constituent	358.3 g/kg sodium metabisulphite
Applicant name	Tessara Pty Ltd
Date of registration and label approval	19 August 2026
Distinguishing number of label.	97530/153378
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 358.3 g/kg sodium metabisulphite slow-release generator product and approval of a label for grape preservation during cold storage
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153379
Chemical product name	Uvasys Slow Release Sulphur Dioxide Generators
Distinguishing number of the chemical product	97531
Active constituent	339.6 g/kg sodium metabisulphite
Applicant name	Tessara Pty Ltd
Date of registration and label approval	19 August 2026
Distinguishing number of label.	97531/153379
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 339.6 g/kg sodium metabisulfite slow-release generator product and approval of a label for grape preservation during cold storage
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153628
Chemical product name	Cavalier 500 SC Herbicide B
Distinguishing number of the chemical product	97675
Active constituent	500 g/L oxyfluorfen
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	19 August 2026
Distinguishing number of label.	97675/153628
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 500 g/L suspension concentrate (SC) oxyfluorfen product and approval of a label for control of certain grasses and broadleaf weeds control in tree and vine crops, fallow, brassicas, coffee, non-crop situations, pyrethrum and tobacco
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153426
Chemical product name	Genfarm Progen Plant Growth Regulator B
Distinguishing number of the chemical product	97554
Active constituent	100 g/kg prohexadione-calcium
Applicant name	Nutrien Ag Solutions Limited
Date of registration and label approval	19 August 2026
Distinguishing number of label.	97554/153426
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 100 g/kg prohexadione-calcium water dispersible granule (WG) product and approval of a label, for plant growth regulation by the reduction of shoot growth in apples and cherries
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	150354
Product name	UBUNTU 350 WG Insecticide
Active constituent	350 g/kg chlorantraniliprole
Applicant name	Parijat Industries (India) Limited
Applicant ACN	N/A
Date of registration	20 August 2026
Product registration no.	96672
Label approval no.	96672/150354
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 350 g/kg chlorantraniliprole product, formulated as a water dispersible granule (WG) for the control of Lepidopteran species of insect pests in cotton, certain fruit and almond crops; and pulse crops, as per the directions for use. for the control of African black beetle, Argentine stem weevil, Argentinian scarab, billbugs and other insect pests in turf

Application no.	153427
Chemical product name	Quickphos Fumigation Tablets FB
Distinguishing number of the chemical product	97555
Active constituent	334 g/kg phosphine (PH ₃) present as aluminium phosphide
Applicant name	UPL Australia Pty Ltd
Date of registration and label approval	20 August 2026
Distinguishing number of label.	97555/153427
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 334 g/kg phosphine (PH ₃) present as aluminium phosphide tablet product and approval of a label for the control of insect pests of stored products in certain situations and rabbits as per the Directions for Use table
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153784
Chemical product name	Genfarm Pyrox 480 SC Herbicide B
Distinguishing number of the chemical product	97755
Active constituent	480 g/L pyroxasulfone
Applicant name	Nutrien Ag Solutions Limited
Date of registration and label approval	20 August 2026
Distinguishing number of label.	97755/153784
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 480 g/L pyroxasulfone suspension concentrate (SC) product and approval of a label for the pre-emergence control of annual ryegrass, barley grass, annual Phalaris, silver grass and toad rush and suppression of certain grass weeds in wheat (not durum wheat), triticale and certain winter legume crops
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	148880
Product name	NovaGuard Organic Nonanoic Acid Herbicide
Active constituent	525 g/L nonanoic acid
Applicant name	NovaGuard Pty Ltd
Applicant ACN	153 121 156
Date of registration	21 August 2026
Product registration no.	96302
Label approval no.	96302/148880
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 525 g/L nonanoic acid emulsifiable concentrate (EC) product for non-selective control of seedling and young broadleaf and grass weeds, for suppression of established weeds and perennial species and for control of moss and algae

Application no.	147035
Product name	Quantum Atrazine 900 WG Herbicide
Active constituent	900 g/kg atrazine
Applicant name	Quantum Agrosiences Holdings Pty Ltd
Applicant ACN	680 792 625
Date of registration	21 August 2026
Product registration no.	95736
Label approval no.	95736/147035
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 900 g/kg atrazine water dispersible granule product for the control of annual weeds in broom millet, TT-canola, lupins, maize, saccaline, sorghum, sugarcane, sweet corn

Application no.	153561
Chemical product name	Priority Herbicide A
Distinguishing number of the chemical product	97640
Active constituent	200 g/L florasulam
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	21 August 2026
Distinguishing number of label.	97640/153561
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 200 g/L florasulam product and approval of a label for broadleaf weed control in wheat, barley, oats, triticale, ryegrass pastures (established) and fallow crops
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153539
Chemical product name	Legacy MA Herbicide A
Distinguishing number of the chemical product	97624
Active constituents	250 g/L MCPA present as the ethyl hexyl ester, 25 g/L diflufenican
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	24 August 2026
Distinguishing number of label.	97624/153539
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 250 g/L MCPA present as the ethyl hexyl ester and 25 g/L diflufenican product and approval of a label for control of a range of broadleaf weeds in winter cereals and clover crops
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	154061
Chemical product name	Seajet 034 Emperor Antifouling Bright Red
Distinguishing number of the chemical product	97875
Active constituents	215 g/L copper present as cuprous thiocyanate, 40.2 g/L zinc pyrithione
Applicant name	Chugoku Paints B.V.
Date of registration and label approval	25 August 2026
Distinguishing number of label.	97875/154061
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 215 g/L copper present as cuprous thiocyanate and 40.2 g/L zinc pyrithione antifouling paint product and approval of a label for yachts and motorboats, including those of aluminium, and suited to estuaries and other inshore environments
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153865
Chemical product name	Trilux 33 Hard Antifouling for Aluminium White
Distinguishing number of the chemical product	97823
Active constituent	139 g/L copper (Cu) present as cuprous thiocyanate, 56 g/L zinc pyrithione
Applicant name	Akzo Nobel Pty Limited
Date of registration and label approval	25 August 2026
Distinguishing number of label	97823/153865
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of an antifouling paint containing 139 g/L copper (as cuprous thiocyanate) and 56 g/L zinc pyrithione for the control of marine growth below the waterline
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153882
Chemical product name	Trilux 33 Hard Antifouling for Aluminium Black
Distinguishing number of the chemical product	97826
Active constituent	139 g/L copper (Cu) present as cuprous thiocyanate, 56 g/L zinc pyrithione
Applicant name	Akzo Nobel Pty Limited
Date of registration and label approval	25 August 2026
Distinguishing number of label	97826/153882
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of an antifouling paint containing 139 g/L copper (as cuprous thiocyanate) and 56 g/L zinc pyrithione for the control of marine growth below the waterline
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153885
Chemical product name	Trilux 33 Hard Antifouling for Aluminium Red
Distinguishing number of the chemical product	97829
Active constituent	137 g/L copper (Cu) present as cuprous thiocyanate, 57 g/L zinc pyrithione
Applicant name	Akzo Nobel Pty Limited
Date of registration and label approval	25 August 2026
Distinguishing number of label	97829/153885
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of an antifouling paint containing 137 g/L copper (as cuprous thiocyanate) and 57 g/L zinc pyrithione for the control of marine growth below the waterline
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153890
Chemical product name	Trilux 33 Hard Antifouling for Aluminium Blue
Distinguishing number of the chemical product	97832
Active constituent	139 g/L copper (Cu) present as cuprous thiocyanate, 57 g/L zinc pyrithione
Applicant name	Akzo Nobel Pty Limited
Date of registration and label approval	25 August 2026
Distinguishing number of label	97832/153890
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of an antifouling paint containing 139 g/L copper (as cuprous thiocyanate) and 57 g/L zinc pyrithione for the control of marine growth below the waterline
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153768
Chemical product name	Genfarm Diuron 900WG Herbicide B
Distinguishing number of the chemical product	97741
Active constituent	900 g/kg diuron
Applicant name	Nutrien Ag Solutions Limited
Date of registration and label approval	25 August 2026
Distinguishing number of label	97741/153768
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 900 g/kg diuron WG herbicide product and approval of a label for selective weed control in a number of situations
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153773
Chemical product name	Genfarm Diuron 900WG Herbicide C
Distinguishing number of the chemical product	97744
Active constituent	900 g/kg diuron
Applicant name	Nutrien Ag Solutions Limited
Date of registration and label approval	26 August 2026
Distinguishing number of label.	97744/153773
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 900 g/kg diuron water dispersible granule (WG) herbicide product and label approval for selective weed control in a number of situations
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	154275
Chemical product name	International Micron 99 Biolux SPC Premium SPC Antifouling for Ultimate Multi-Season Protection Blue
Distinguishing number of the chemical product	98001
Active constituents	832 g/L copper present as cuprous oxide, 96 g/L copper pyrithione
Applicant name	Akzo Nobel Pty Limited
Date of registration and label approval	26 August 2026
Distinguishing number of label.	98001/154275
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a TBT-free antifouling coating containing 832 g/L copper (as cuprous oxide) and 96 g/L copper pyrithione for marine growth control on craft 20 m in length and above
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	154276
Chemical product name	International Micron 99 Biolux SPC Premium SPC Antifouling for Ultimate Multi-Season Protection Navy
Distinguishing number of the chemical product	98002
Active constituents	844 g/L copper present as cuprous oxide, 97 g/L copper pyrithione
Applicant name	Akzo Nobel Pty Limited
Date of registration and label approval	26 August 2026
Distinguishing number of label.	98002/154276
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a TBT-Free antifouling coating containing 844 g/L copper (as cuprous oxide) and 97 g/L copper pyrithione for marine growth control on craft 20 m in length and above
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	154277
Chemical product name	International Micron 99 Biolux SPC Premium SPC Antifouling for Ultimate Multi-Season Protection Red
Distinguishing number of the chemical product	98003
Active constituents	844 g/L copper present as cuprous oxide, 100 g/L copper pyrithione
Applicant name	Akzo Nobel Pty Limited
Date of registration and label approval	26 August 2026
Distinguishing number of label.	98003/154277
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a TBT-free antifouling coating containing 844 g/L copper (as cuprous oxide) and 100 g/L copper pyrithione for marine growth control on craft 20 m in length and above
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	154278
Chemical product name	International Micron 99 Biolux SPC Premium SPC Antifouling for Ultimate Multi-season Protection Black
Distinguishing number of the chemical product	98004
Active constituents	881 g/L copper present as cuprous oxide, 101 g/L copper pyrithione
Applicant name	Akzo Nobel Pty Limited
Date of registration and label approval	26 August 2026
Distinguishing number of label	98004/154278
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a TBT-free antifouling coating containing 881 g/L copper (as cuprous oxide) 101 g/L copper pyrithione for marine growth Control on craft 20 m in length and above
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153839
Chemical product name	Prolectus SC Fungicide
Distinguishing number of the chemical product	97798
Active constituents	400 g/L fenpyrazamine
Applicant name	Sumitomo Chemical Australia Pty. Limited
Date of registration and label approval	26 August 2026
Distinguishing number of label.	97798/153839
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 400 g/L fenpyrazamine suspension concentrate (SC) product and approval of a label for control of grey mould in wine grapes
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	154161
Chemical product name	Sipcam Raze Herbicide
Distinguishing number of the chemical product	97927
Active constituents	510 g/L glyphosate present as the isopropylamine salt
Applicant name	Sipcam Pacific Australia Pty. Limited
Date of registration and label approval	27 August 2026
Distinguishing number of label.	97927/154161
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of and approval of label for a 510 g/L glyphosate soluble concentrate product for control of a wide range of annual and perennial weeds in a wide variety of situations
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153448
Chemical product name	Swan Acidifier Pro 700 Spray Adjuvant
Distinguishing number of the chemical product	97569
Active constituents	350 g/L soyal phospholipids, 350 g/L propionic acid
Applicant name	Swan Chemical Holdings Pty Ltd
Date of registration and label approval	27 August 2026
Distinguishing number of label.	97569/153448
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration and label approval of a 350 g/L soyal phospholipids & 350 g/L propionic acid dispersible concentrate product for acidifying and penetrating surfactant; reduces alkaline hydrolysis of dimethoate; assists with uptake of foliar fertilisers; assists in management of spray droplet size
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153842
Chemical product name	PestXpert DIY Pest Control Like The Professionals 2 in 1 Cockroach Bait 2
Distinguishing number of the chemical product	97801
Active constituents	5 g/kg pyriproxyfen, 0.5 g/kg abamectin
Applicant name	Sumitomo Chemical Australia Pty. Limited
Date of registration and label approval	27 August 2026
Distinguishing number of label.	97801/153842
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 0.5 g/kg abamectin and 5 g/kg pyriproxyfen bait product and approval of label for control of cockroaches in residential, commercial and industrial areas
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	154118
Chemical product name	International Biolux New Technology Micron AP High Strength Self Polishing Antifouling Black
Distinguishing number of the chemical product	97896
Active constituents	710 g/L copper present as cuprous oxide, 90 g/L zineb
Applicant name	Akzo Nobel Pty Limited
Date of registration and label approval	27 August 2026
Distinguishing number of label.	97896/154118
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 710 g/L copper present as cuprous oxide and 90 g/L zineb antifouling paint product and approval of a label to control marine growth below the waterline on vessels
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	154120
Chemical product name	International Biolux New Technology Micron AP High Strength Self Polishing Antifouling Blue
Distinguishing number of the chemical product	97898
Active constituents	710 g/L copper present as cuprous oxide, 90 g/L zineb
Applicant name	Akzo Nobel Pty Limited
Date of registration and label approval	27 August 2026
Distinguishing number of label.	97898/154120
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 710 g/L copper present as cuprous oxide and 90 g/L zineb antifouling paint product and approval of a label to control marine growth below the waterline on vessels
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	154051
Chemical product name	Seajet 034 Emperor Antifouling Black
Distinguishing number of the chemical product	97868
Active constituents	215 g/L copper present as cuprous thiocyanate, 40.2 g/L zinc pyrithione
Applicant name	Chugoku Paints B.V.
Date of registration and label approval	28 August 2026
Distinguishing number of label.	97868/154051
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 215 g/L copper present as cuprous thiocyanate, 40.2 g/L zinc pyrithione, antifouling paint product and approval of a label for yachts and motorboats, including those of aluminium, and suited to estuaries and other inshore environments
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	154053
Chemical product name	Seajet 034 Emperor Antifouling White
Distinguishing number of the chemical product	97870
Active constituents	176 g/L copper present as cuprous thiocyanate, 39.5 g/L zinc pyrithione
Applicant name	Chugoku Paints B.V.
Date of registration and label approval	28 August 2026
Distinguishing number of label.	97870/154053
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 176 g/L copper present as cuprous thiocyanate, 39.5 g/L zinc pyrithione antifouling paint product and approval of a label for yachts and motorboats, including those of aluminium, and suited to estuaries and other inshore environments
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	154055
Chemical product name	Seajet 034 Emperor Antifouling Navy Blue
Distinguishing number of the chemical product	97871
Active constituents	212 g/L copper present as cuprous thiocyanate, 39.8 g/L zinc pyrithione
Applicant name	Chugoku Paints B.V.
Date of registration and label approval	28 August 2026
Distinguishing number of label.	97871/154055
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 212 g/L copper present as cuprous thiocyanate, 39.8 g/L zinc pyrithione antifouling paint product and approval of a label for yachts and motorboats, including those of aluminium, and suited to estuaries and other inshore environments
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153349
Chemical product name	Antifouling Seavictor 40 Blue
Distinguishing number of the chemical product	97505
Active constituents	695 g/L copper (Cu) present as cuprous oxide
Applicant name	Jotun Australia Pty Ltd
Date of registration and label approval	28 August 2026
Distinguishing number of label.	97505/153349
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 695 g/L copper present as cuprous oxide product and approval of a label as an antifouling paint product
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	153851
Chemical product name	Ubeniq Rinskor active Herbicide 2
Distinguishing number of the chemical product	97809
Active constituent	300 g/L floryprauxifen-benzyl
Applicant name	Corteva Agriscience Australia Pty Ltd
Date of registration and label approval	28 August 2026
Distinguishing number of label.	97809/153851
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 300 g/L floryprauxifen-benzyl suspension concentrate product for use in-flood control of sedge and broadleaf weeds in rice, caltrop in sorghum and fallow and Navua sedge in pasture
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	154186
Chemical product name	Receptor Insecticide
Distinguishing number of the chemical product	97937
Active constituent	500 g/L diafenthiuron
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	28 August 2026
Distinguishing number of label.	97937/154186
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of and approval of label for an agricultural chemical product containing 500 g/L diafenthiuron for the control of two-spotted mite and cotton aphids in cotton and red-legged earth mite in canola and suppression of silverleaf whitefly in cotton and lucerne flea in canola
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	154663
Chemical product name	ADAMA Doxem Clear Ant and Cockroach Gel
Distinguishing number of the chemical product	98170
Active constituent	0.56 g/kg indoxacarb (90:10) (equivalent to 0.5 g/kg active s-isomer)
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	28 August 2026
Distinguishing number of label.	98170/154663
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of and approval of a label for gel product containing 0.5 g/kg S-indoxacarb for controlling ants and cockroaches
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	154542
Chemical product name	NuFarm TERRAIN Flow Herbicide
Distinguishing number of the chemical product	98128
Active constituent	480 g/L flumioxazin
Applicant name	Sumitomo Chemical Australia Pty. Limited
Date of registration and label approval	28 August 2026
Distinguishing number of label.	98128/154542
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 480 g/L flumioxazin suspension concentrate (SC) product and approval of a label for knockdown and residual control of broadleaf weeds and grasses in a range of broadacre crops and fallow, and in non-crop situations
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Table 3: Variations of registration – agricultural chemical products

Application no.	N/A – Variation under s29A
Product name	Nufarm Glyphosate 450 Herbicide
Active constituent	450 g/L glyphosate present as the isopropylamine salt
Applicant name	APVMA initiated variation
Date of variation	17 August 2026
Product registration no.	53868
Label approval no.	53868/134296V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of chemical product registration and label approval to update the constituent statement. A non-selective herbicide that will kill most emerged weeds and plants in situations as indicated in the directions for use

Application no.	N/A – Variation under s29A
Product name	Vacsol Azure Concentrate Wood Preservative
Active constituents	49.8 g/L tebuconazole, 49.8 g/L propiconazole, 35.4 g/L permethrin (25:75::cis:trans)
Applicant name	APVMA initiated variation
Date of variation	18 August 2026
Product registration no.	66725
Label approval no.	66725/106269V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars and label approval of chemical product registration used for the treatment of timber against attack by borers, termites and fungi in above ground situations to update the constituent statements

Application no.	N/A – Variation under s29A
Product name	CropSure Lannomyl 225 Insecticide
Active constituent	225 g/L methomyl (an anti-cholinesterase compound)
Applicant name	APVMA initiated variation
Date of variation	18 August 2026
Product registration no.	90455
Label approval no.	90455/149937V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of chemical product registration and label approval to update the constituent statement of the label CropSure Lannomyl 225 Insecticide is for the control of certain insect pests as recommended in the directions for use table

Application no.	N/A – Variation under s29A
Product name	Sabakem Propyzamide 500 SC Herbicide
Active constituent	500 g/L propyzamide
Applicant name	APVMA initiated variation
Date of variation	19 August 2026
Product registration no.	86707
Label approval no.	86707/135306V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of registered chemical product and label approval and label particulars to update the label and remove references to Label A and Label B

Application no.	154990
Product name	Imtrade Guerrilla Herbicide
Active constituents	300 g/L paraquat present as paraquat dichloride, 12 g/L amitrole
Applicant name	Imtrade Australia Pty Ltd
Applicant ACN	090 151 134
Date of variation	19 August 2026
Product registration no.	89484
Label approval no.	89484/154990
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the storage and disposal instructions

Application no.	154991
Product name	Imtrade Diquat 200 Non-Residual Herbicide
Active constituent	200 g/L diquat present as diquat dibromide
Applicant name	Imtrade Australia Pty Ltd
Applicant ACN	090 151 134
Date of variation	19 August 2026
Product registration no.	58411
Label approval no.	58411/154991
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the storage and disposal instructions

Application no.	154992
Product name	Imtrade Spraykill 250 Herbicide
Active constituents	135 g/L paraquat present as paraquat dichloride, 115 g/L diquat present as diquat dibromide
Applicant name	Imtrade Australia Pty Ltd
Applicant ACN	090 151 134
Date of variation	19 August 2026
Product registration no.	58412
Label approval no.	58412/154992
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the storage and disposal instructions

Application no.	154993
Product name	Imtrade Para-Trooper Herbicide
Active constituents	250 g/L paraquat present as paraquat dichloride, 10 g/L amitrole
Applicant name	Imtrade Australia Pty Ltd
Applicant ACN	090 151 134
Date of variation	19 August 2026
Product registration no.	67344
Label approval no.	67344/154993
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the storage and disposal instructions

Application no.	154994
Product name	Imtrade Paraquat 250 Herbicide
Active constituent	250 g/L paraquat present as paraquat dichloride
Applicant name	Imtrade Australia Pty Ltd
Applicant ACN	090 151 134
Date of variation	19 August 2026
Product registration no.	53381
Label approval no.	53381/154994
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the storage and disposal instructions

Application no.	N/A – Variation under s29A
Product name	Smart Clethodim 240EC Herbicide
Active constituent	240 g/L clethodim
Applicant name	APVMA initiated variation
Date of variation	19 August 2026
Product registration no.	62564
Label approval no.	62564/118515V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of chemical product registration and label approval to update the constituent statement and sites of manufacture For the control of certain grass weeds in beetroot, cabbage, canola, celery, chickpeas, cotton, faba beans, field peas, forestry, lentils, lettuce, lupins, mung beans, non-bearing fruit trees, onions, ornamentals, peanuts, potatoes and soybeans as per the directions for use table in the attached label

Application no.	N/A – Variation under s29A
Product name	Uvasys Dual Release Green Sulphur Dioxide Generators
Active constituent	375.5 g/kg sodium metabisulfite
Applicant name	APVMA initiated variation
Date of variation	20 August 2026
Product registration no.	52162
Label approval no.	52162/140644V
Description of application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of chemical product registration and label approval to update label details and change product name from 'Uvasys Sulphur Dioxide Generators' to 'Uvasys Dual Release Green Sulphur Dioxide Generators'

Application no.	154842
Product name	Sizzle 700 Dry Herbicide
Active constituent	700 g/kg saflufenacil
Applicant name	Shandong Rainbow International Co Ltd
Applicant ACN	N/A
Date of variation	21 August 2026
Product registration no.	95719
Label approval no.	95719/154842
Description of the application and its purpose, including the intended use of the chemical product	Variation to remove the uses involving a tank mix recommendation with glyphosate from the directions for use

Application no.	154849
Product name	Wet & Forget Moss & Mould Remover
Active constituent	99 g/L benzalkonium chloride
Applicant name	Wet And Forget Ltd
Applicant ACN	N/A
Date of variation	21 August 2026
Product registration no.	58102
Label approval no.	58102/154849
Description of the application and its purpose, including the intended use of the chemical product	Variation to update the safety directions appearing on a label to reflect the current FAISD handbook

Application no.	N/A – Variation under s29A
Product name	Flagship 400 EC Herbicide
Active constituent	400 g/L fluroxypyr present as the methylheptyl ester
Applicant name	APVMA initiated variation
Date of variation	21 August 2026
Product registration no.	81272
Label approval no.	81272/126355V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of registered chemical product and label approval to update the constituent statement and sites of manufacture For a wide range of broadleaf and woody weeds as per the directions for use

Application no.	N/A – Variation under s29A
Product name	Wipe-Out 450 Non-Residual Herbicide
Active constituent	450 g/L glyphosate present as the isopropylamine salt
Applicant name	APVMA initiated variation
Date of variation	24 August 2026
Product registration no.	39264
Label approval no.	39264/57251V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of registered chemical product and label approval and label particulars to update the label For non-selective control of most perennial and annual weeds

Application no.	N/A – Variation under s29A
Product name	Legacy MA Herbicide
Active constituent	250 g/L MCPA present as the ethyl hexyl ester, 25 g/L diflufenican
Applicant name	APVMA initiated variation
Date of variation	24 August 2026
Product registration no.	63317
Label approval no.	63317/140899V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of chemical product registration and label approval to update the constituent and solvent statements on the label

Application no.	154878
Product name	Gro-Boost SOA Herbicide Adjuvant
Active constituent	980 g/kg ammonium sulphate
Applicant name	Gro-sure Pty Ltd
Applicant ACN	682 012 808
Date of variation	11 August 2026
Product registration no.	82785
Label approval no.	82785/154878
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'Agritrading Spray Grade Ammonium Sulphate 980 Herbicide Adjuvant' to 'Gro-Boost SOA Herbicide Adjuvant'

Application no.	154879
Product name	Ligna No-Rot Inject Wood Preservative
Active constituents	111 g/L boron (B) present as disodium octaborate tetrahydrate, 13.2 g/L benzalkonium chloride
Applicant name	Preschem Pty. Ltd.
Applicant ACN	006 867 929
Date of variation	25 August 2026
Product registration no.	61856
Label approval no.	61856/154879
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'TWA Woodcare Diffusible Wood Preservative No-Rot Gel Injection Grade' to 'Ligna No-Rot Inject Wood Preservative' and update the first aid instructions to reflect the current FAISD handbook

Application no.	154880
Product name	Ligna No-Rot Rods Wood Preservative
Active constituents	124 g/kg boron (B) present as disodium octaborate tetrahydrate, 110 g/kg fluorine (F) as sodium fluoride
Applicant name	Preschem Pty. Ltd.
Applicant ACN	006 867 929
Date of variation	11 August 2026
Product registration no.	39652
Label approval no.	39652/154880
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'Preschem No-Rot Ready to Use Wood Preservative' to 'Ligna No-Rot Rods Wood Preservative'

Application no.	144431
Chemical product name	Transform Isoclast active Insecticide
Distinguishing number of the chemical product	64101
Active constituent	240 g/L sulfoxaflor
Applicant name	Corteva Agriscience Australia Pty Ltd
Date of variation	25 August 2026
Distinguishing number of label.	64101/144431
Description of the application and its purpose, including the way the in which intended use of the chemical product	Variation to registration particulars, particulars of label, and label approval to add new situations and new pests

Application no.	N/A – Variation under s29A
Product name	Apparent Mach Two Adjuvant
Active constituent	712 g/L methyl & ethyl esters of free fatty acids derived from refined canola oil
Applicant name	APVMA initiated variation
Date of variation	25 August 2026
Product registration no.	67213
Label approval no.	67213/63141V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars and label approval and label particulars to update the constituent statements of registered chemical product used to enhance the effectiveness of certain herbicides

Application no.	N/A – Variation under s29A
Product name	Genfarm Diuron 900WG Herbicide
Active constituent	900 g/kg diuron
Applicant name	APVMA initiated variation
Date of variation	26 August 2026
Product registration no.	60286
Label approval no.	60286 / 145565V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of registered chemical product, label approval and label particulars to remove non-supported uses based on chemical review outcomes

Application no.	155100
Product name	Terbutrina MA Herbicide
Active constituents	275 g/L terbutryn, 160 g/L MCPA present as the potassium salt
Applicant name	Shandong Rainbow International Co Ltd
Applicant ACN	N/A
Date of variation	28 August 2026
Product registration no.	81541
Label approval no.	81541/155100
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'Terbupac Herbicide' to 'Terbutrina MA Herbicide' and update the first aid instructions to reflect the current FAISD handbook

Application no.	N/A – Variation under s29A
Product name	Accensi Glyphosate 450 Herbicide
Active constituent	450 g/L glyphosate present as the isopropylamine salt
Applicant name	APVMA initiated variation
Date of variation	28 August 2026
Product registration no.	40522
Label approval no.	40522/135442V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation.	Variation of relevant particulars of chemical product registration and label approval to update the constituent statements of the label Accensi Glyphosate 450 Herbicide is a water-soluble herbicide for non-selective control of many annual and perennial weeds in the situations stated in the directions for use table

Table 4: Label approval – agricultural chemical products

Application no.	152552
Product name	Lo-Chlor Spa Sanitiser
Active constituent	504 g/kg available chlorine (Cl) present as sodium dichloroisocyanurate
Applicant name	M I International Pty Ltd
Applicant ACN	002 869 089
Date of registration	19 August 2026
Product registration no.	85547
Label approval no.	85547/152552
Description of the application and its purpose, including the intended use of the chemical product	Registration of a new label for the existing product 'Lo-Chlor Spa Sanitiser' with the label name 'Clear as Ice by Lo-Chlor Sanitiser'

Table 5: Variation of label approval – agricultural chemical products

Application no.	N/A – Variation under s29A
Product name	Titan Titanium Herbicide
Active constituent	570 g/L glyphosate present as the potassium salt
Applicant name	Titan Ag Pty Ltd
Applicant ACN	122 081 574
Date of variation	28 August 2026
Product registration no.	92218
Label approval no.	92218/148638
Description of the application and its purpose, including the intended use of the chemical product	Variation of label particulars only to amend label to include the general instructions section

Veterinary chemical products and approved labels

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has registered or varied the relevant particulars or conditions of the registration in respect of the following products and has approved the label or varied the relevant particulars or conditions of the approval in respect of the containers for the chemical product, with effect from the dates shown.

Table 6: Veterinary products based on new active constituents

Application no.	142671
Product name	Numelvi 31.6 mg Tablets for Dogs
Active constituent	31.6 mg/tablet atinivicitinib
Applicant name	Intervet Australia Pty Limited
Applicant ACN	008 467 034
Date of registration	28 August 2026
Product registration no.	94528
Label approval no.	94528/142671
Description of the application and its purpose, including the intended use of the chemical product	Registration of 31.6 mg Atinivicitinib Oral Tablets for Dogs for the symptomatic treatment of pruritus, inflammation and clinical signs associated with allergic skin conditions including atopic dermatitis in dogs in conjunction with approval of the active constituent atinivicitinib

Application no.	142673
Product name	Numelvi 21.6 mg Tablets for Dogs
Active constituent	21.6 mg/tablet atinivicitinib
Applicant name	Intervet Australia Pty Limited
Applicant ACN	008 467 034
Date of registration	28 August 2026
Product registration no.	94530
Label approval no.	94530/142673
Description of the application and its purpose, including the intended use of the chemical product	Registration of 21.6 mg Atinivicitinib Oral Tablets for Dogs for the symptomatic treatment of pruritus, inflammation and clinical signs associated with allergic skin conditions including atopic dermatitis in dogs in conjunction with approval of the active constituent atinivicitinib

Application no.	142674
Product name	Numelvi 7.2 mg Tablets for Dogs
Active constituent	7.2 mg/tablet atinivicitinib
Applicant name	Intervet Australia Pty Limited
Applicant ACN	008 467 034
Date of registration	28 August 2026
Product registration no.	94531
Label approval no.	94531/142674
Description of the application and its purpose, including the intended use of the chemical product	Registration of 7.2 mg Atinivicitinib Oral Tablets for Dogs for the symptomatic treatment of pruritus, inflammation and clinical signs associated with allergic skin conditions including atopic dermatitis in dogs in conjunction with approval of the active constituent atinivicitinib

Application no.	142676
Product name	Numelvi 4.8 mg Tablets for Dogs
Active constituent	4.8 mg/tablet atinivicitinib
Applicant name	Intervet Australia Pty Limited
Applicant ACN	008 467 034
Date of registration	28 August 2026
Product registration no.	94532
Label approval no.	94532/142676
Description of the application and its purpose, including the intended use of the chemical product	Registration of 4.8 mg Atinivicitinib Oral Tablets for Dogs for the symptomatic treatment of pruritus, inflammation and clinical signs associated with allergic skin conditions including atopic dermatitis in dogs in conjunction with approval of the active constituent atinivicitinib

Table 7: Veterinary products based on existing active constituents

Application no.	152793
Product name	Millot Plus Chewable Tablets for Very Small Dogs
Active constituents	56.25 mg/tablet lotilaner, 2.11 mg milbemycin oxime
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of registration	26 August 2026
Product registration no.	97350
Label approval no.	97350/152793
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 56.25 mg/tablet lotilaner and 2.11 mg/tablet milbemycin oxime chewable tablet product and approval of label for the treatment and control of Paralysis ticks (<i>Ixodes holocyclus</i>), Brown dog ticks (<i>Rhipicephalus sanguineus</i>) and Bush ticks (<i>Haemaphysalis longicornis</i>), treatment and prevention of fleas (<i>Ctenocephalides felis</i>), prevention of heartworm (<i>Dirofilaria immitis</i>) disease, treatment and control of gastrointestinal nematodes (adult and larval <i>Toxocara canis</i> , <i>Toxascaris leonina</i> (adult), adult and larval (L4), immature adult (L5) stages of <i>Ancylostoma caninum</i> , <i>Ancylostoma braziliense</i> , <i>Ancylostoma ceylanicum</i> and adult <i>Trichuris vulpis</i>) and prevention of flea tapeworm (<i>Dipylidium caninum</i>) infestations in very small dogs

Application no.	152502
Product name	Vets' Own Clindamycin 25 mg/mL Oral Solution
Active constituent/s	25 mg/mL clindamycin (as hydrochloride)
Applicant name	Chanelle Pharmaceuticals Manufacturing Limited
Applicant ACN	N/A
Date of registration	26 August 2026
Product registration no.	97261
Label approval no.	97261/152502
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 25 mg/mL clindamycin oral antibiotic solution product and approval of a label for the treatment of infected wounds, abscesses, dental infections and osteomyelitis caused by aerobic and anaerobic bacteria susceptible to clindamycin in dogs and cats

Application no.	152795
Product name	Millot Plus Chewable Tablets for Small Dogs
Active constituents	112.5 mg/tablet lotilaner, 4.22 mg/tablet milbemycin oxime
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of registration	26 August 2026
Product registration no.	97351
Label approval no.	97351/152795
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 112.5 mg/tablet lotilaner and 4.22 mg/tablet milbemycin oxime chewable tablet product and approval of label for the treatment and control of Paralysis ticks (<i>Ixodes holocyclus</i>), Brown dog ticks (<i>Rhipicephalus sanguineus</i>) and Bush ticks (<i>Haemaphysalis longicornis</i>), treatment and prevention of fleas (<i>Ctenocephalides felis</i>), prevention of heartworm (<i>Dirofilaria immitis</i>) disease, treatment and control of gastrointestinal nematodes (adult and larval <i>Toxocara canis</i> , <i>Toxascaris leonina</i> (adult), adult and larval (L4), immature adult (L5) stages of <i>Ancylostoma caninum</i> , <i>Ancylostoma braziliense</i> , <i>Ancylostoma ceylanicum</i> and adult <i>Trichuris vulpis</i>) and prevention of flea tapeworm (<i>Dipylidium caninum</i>) infestations in small dogs

Application no.	152796
Product name	Millot Plus Chewable Tablets for Medium Dogs
Active constituents	225 mg/tablet lotilaner, 8.44 mg/tablet milbemycin oxime
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of registration	26 August 2026
Product registration no.	97352
Label approval no.	97352/152796
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 225 mg/tablet lotilaner and 8.44 mg/tablet milbemycin oxime chewable tablet product and approval of label for the treatment and control of Paralysis ticks (<i>Ixodes holocyclus</i>), Brown dog ticks (<i>Rhipicephalus sanguineus</i>) and Bush ticks (<i>Haemaphysalis longicornis</i>), treatment and prevention of fleas (<i>Ctenocephalides felis</i>), prevention of heartworm (<i>Dirofilaria immitis</i>) disease, treatment and control of gastrointestinal nematodes (adult and larval <i>Toxocara canis</i> , <i>Toxascaris leonina</i> (adult), adult and larval (L4), immature adult (L5) stages of <i>Ancylostoma caninum</i> , <i>Ancylostoma braziliense</i> , <i>Ancylostoma ceylanicum</i> and adult <i>Trichuris vulpis</i>) and prevention of flea tapeworm (<i>Dipylidium caninum</i>) infestations in medium dogs

Application no.	152797
Product name	Millot Plus Chewable Tablets for Large Dogs
Active constituents	450 mg/tablet lotilaner, 16.88 mg/tablet milbemycin oxime
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of registration	26 August 2026
Product registration no.	97353
Label approval no.	97353/152797
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 450 mg/tablet lotilaner and 16.88 mg/tablet milbemycin oxime chewable tablet product and approval of label for the treatment and control of Paralysis ticks (<i>Ixodes holocyclus</i>), Brown dog ticks (<i>Rhipicephalus sanguineus</i>) and Bush ticks (<i>Haemaphysalis longicornis</i>), treatment and prevention of fleas (<i>Ctenocephalides felis</i>), prevention of heartworm (<i>Dirofilaria immitis</i>) disease, treatment and control of gastrointestinal nematodes (adult and larval <i>Toxocara canis</i> , <i>Toxascaris leonina</i> (adult), adult and larval (L4), immature adult (L5) stages of <i>Ancylostoma caninum</i> , <i>Ancylostoma braziliense</i> , <i>Ancylostoma ceylanicum</i> and adult <i>Trichuris vulpis</i>) and prevention of flea tapeworm (<i>Dipylidium caninum</i>) infestations in large dogs

Application no.	152799
Product name	Millot Plus Chewable Tablets for Very Large Dogs
Active constituents	900 mg/tablet lotilaner, 33.75 mg/tablet milbemycin oxime
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of registration	26 August 2026
Product registration no.	97355
Label approval no.	97355/152799
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 900 mg/tablet lotilaner and 33.75 mg/tablet milbemycin oxime chewable tablet product and approval of label for the treatment and control of Paralysis ticks (<i>Ixodes holocyclus</i>), Brown dog ticks (<i>Rhipicephalus sanguineus</i>) and Bush ticks (<i>Haemaphysalis longicornis</i>), treatment and prevention of fleas (<i>Ctenocephalides felis</i>), prevention of heartworm (<i>Dirofilaria immitis</i>) disease, treatment and control of gastrointestinal nematodes (adult and larval <i>Toxocara canis</i> , <i>Toxascaris leonina</i> (adult), adult and larval (L4), immature adult (L5) stages of <i>Ancylostoma caninum</i> , <i>Ancylostoma braziliense</i> , <i>Ancylostoma ceylanicum</i> and adult <i>Trichuris vulpis</i>) and prevention of flea tapeworm (<i>Dipylidium caninum</i>) infestations in very large dogs.

Table 8: Variations of registration – veterinary chemical products

Application no.	145569
Product name	Milbemax Tablets for Dogs
Active constituents	125 mg/tablet praziquantel, 12.5 mg/tablet milbemycin oxime
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of variation	20 August 2026
Product registration no.	54266
Label approval no.	54266/145569
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the registered chemical product and approved label by updating the dosage and administration instructions and changing the instructions of use to align the label to the current Veterinary Labelling Code (VLC)

Application no.	145570
Product name	Milbemax Tablets for Small Dogs and Puppies
Active constituents	25 mg/tablet praziquantel, 2.5 mg/tablet milbemycin oxime
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of variation	20 August 2026
Product registration no.	59225
Label approval no.	59225/145570
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the registered chemical product and approved label by updating the dosage and administration instructions and changing the instructions of use to align the label to the current Veterinary Labelling Code (VLC)

Application no.	150389
Product name	Exzolt Fluralaner Oral Solution for Chickens
Active constituent	10 g/L fluralaner
Applicant name	Intervet Australia Pty Limited
Applicant ACN	008 467 034
Date of variation	24 August 2026
Product registration no.	85688
Label approval no.	85688/150389
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of a registered chemical product and label approval by adding a 4 mL pack size to the registered product

Application no.	145747
Product name	Milbemax Tasty Chews for Dogs
Active constituent/s	125 mg/chew praziquantel, 12.5 mg/chew milbemycin oxime
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of variation	26 August 2026
Product registration no.	66277
Label approval no.	66277/145747
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the registered chemical product and approved label by updating the dosage and administration instructions and changing the instructions of use to align the label to the current Veterinary Labelling Code (VLC)

Application no.	145751
Product name	Milbemax Tasty Chews for Small Dogs and Puppies
Active constituent/s	25 mg/chew praziquantel, 2.5 mg/chew milbemycin oxime
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of variation	26 August 2026
Product registration no.	66278
Label approval no.	66278/145751
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the registered chemical product and approved label by updating the dosage and administration instructions and changing the instructions of use to align the label to the current Veterinary Labelling Code (VLC)

Application no.	147806
Product name	Elevet+ U-Seal
Active constituent/s	650 mg/g bismuth subnitrate
Applicant name	Avet Health Limited
Applicant ACN	616 838 101
Date of variation	26 August 2026
Product registration no.	86556
Label approval no.	86556/147806
Description of the application and its purpose, including the intended use of the chemical product	Variation of relevant particulars of product registration and label approval by aligning the label with the current Veterinary Labelling Code

Application no.	151243
Product name	Credelio Plus Chewable Tablets for Very Large Dogs
Active constituent/s	900 mg/tablet lotilaner, 33.75 mg/tablet milbemycin oxime
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of variation	26 August 2026
Product registration no.	89319
Label approval no.	89319/151243
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of a registered chemical product and label approval by extending the use to include the treatment and control of sarcoptes mites (<i>Sarcoptes scabiei</i>)

Application no.	151249
Product name	Credelio Plus Chewable Tablets for Large Dogs
Active constituent/s	450 mg/tablet lotilaner, 16.88 mg/tablet milbemycin oxime
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of variation	26 August 2026
Product registration no.	89318
Label approval no.	89318/151249
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of a registered chemical product and label approval by extending the use to include the treatment and control of sarcoptes mites (<i>Sarcoptes scabiei</i>)

Application no.	151250
Product name	Credelio Plus Chewable Tablets for Medium Dogs
Active constituent/s	225 mg/tablet lotilaner, 8.44 mg/tablet milbemycin oxime
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of variation	26 August 2026
Product registration no.	89317
Label approval no.	89317/151250
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of a registered chemical product and label approval by extending the use to include the treatment and control of sarcoptes mites (<i>Sarcoptes scabiei</i>)

Application no.	151252
Product name	Credelio Plus Chewable Tablets for Small Dogs
Active constituent/s	112.5 mg/tablet lotilaner, 4.22 mg/tablet milbemycin oxime
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of variation	26 August 2026
Product registration no.	89316
Label approval no.	89316/151252
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of a registered chemical product and label approval by extending the use to include the treatment and control of sarcoptes mites (<i>Sarcoptes scabiei</i>)

Application no.	151253
Product name	Credelio Plus Chewable Tablets for Very Small Dogs
Active constituent/s	56.25 mg/tablet lotilaner, 2.11 mg/tablet milbemycin oxime
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of variation	26 August 2026
Product registration no.	89315
Label approval no.	89315/151253
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of a registered chemical product and label approval by extending the use to include the treatment and control of sarcoptes mites (<i>Sarcoptes scabiei</i>)

Approved active constituents

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has approved or varied the relevant particulars or conditions of the approval of the following active constituents, with effect from the dates shown.

Table 9: Approved active constituents

Application no.	147780
Active constituents	Saflufenacil
Applicant name	Tagros Chemicals India Private Limited
Applicant ACN	N/A
Date of approval	18 August 2026
Approval no.	95974
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent saflufenacil for use in agricultural chemical products

Application no.	148372
Active constituent	Flupyradifurone
Applicant name	Shanghai E-Tong Chemical Co Ltd
Applicant ACN	N/A
Date of approval	18 August 2026
Approval no.	96154
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent flupyradifurone for use in agricultural chemical products

Application no.	149250
Active constituent	Pencycuron
Applicant name	Gowan Crop Protection Australia Pty Ltd
Applicant ACN	637 927 765
Date of approval	18 August 2026
Approval no.	96422
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent pencycuron for use in agricultural chemical products

Application no.	150261
Active constituent	Fluxapyroxad
Applicant name	Zhejiang Zhongshan Chemical Industry Group Co Ltd
Applicant ACN	N/A
Date of approval	18 August 2026
Approval no.	96650
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent fluxapyroxad for use in agricultural chemical products

Application no.	150328
Active constituent	2,4-D 2-ethylhexyl ester
Applicant name	Agro-Alliance (Australia) Pty Ltd
Applicant ACN	130 864 603
Date of approval	18 August 2026
Approval no.	96666
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent 2,4-D 2-ethylhexyl ester for use in agricultural chemical product

Application no.	150666
Active constituent	Penflufen
Applicant name	Kingtai Chemicals Co Limited
Applicant ACN	N/A
Date of approval	18 August 2026
Approval no.	96785
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent penflufen for use in agricultural chemical products

Application no.	150692
Active constituent	Tebuthiuron
Applicant name	Jiangxi Zhonghe Biotechnology Co Ltd
Applicant ACN	N/A
Date of approval	18 August 2026
Approval no.	96793
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent tebuthiuron for use in agricultural chemical products

Application no.	150460
Active constituent	Fluazinam
Applicant name	Hextar Chemicals Pty Ltd
Applicant ACN	114 525 709
Date of approval	19 August 2026
Approval no.	96704
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent fluazinam for use in agricultural chemical products

Application no.	151301
Active constituent	Haloxyp-P-methyl
Applicant name	Jiamusi Heilong Agricultural & Industrial Chemical
Applicant ACN	N/A
Date of approval	25 August 2026
Approval no.	96938
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent haloxyp-P-methyl for use in agricultural chemical products

Application no.	142670
Active constituent	Atinvcitinib
Applicant name	Intervet Australia Pty Limited
Applicant ACN	008 467 034
Date of approval	28 August 2026
Approval no.	94527
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent atinvcitinib for use in veterinary chemical products

Application no.	148475
Active constituent	S-metolachlor
Applicant name	Nantong Jiangshan Agrochemical & Chemicals Ltd Liab Co
Applicant ACN	N/A
Date of approval	31 August 2026
Approval no.	96186
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent S-metolachlor for use in agricultural chemical products

Application no.	149966
Active constituent	Saflufenacil
Applicant name	Max (Rudong) Chemicals Co Ltd
Applicant ACN	N/A
Date of approval	31 August 2026
Approval no.	96588
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent saflufenacil for use in agricultural chemical products

Application no.	154008
Active constituent	Warfarin
Applicant name	DuluxGroup (Australia) Pty Ltd
Applicant ACN	000 049 427
Date of approval	31 August 2026
Approval no.	97845
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent warfarin for use in agricultural chemical products

Licensing of veterinary chemical manufacturers

Pursuant to Part 8 of the Agricultural and Veterinary Chemicals Code (Agvet Code), scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has taken action with respect to the licensing of the following veterinary chemical manufacturers with effect from the dates shown.

For a comprehensive listing of all licensed manufacturers please see the [APVMA website](#).

The APVMA has issued the following licenses under subsection 123(1) of the Agvet Code:

Table 10: New licenses issued by the APVMA under subsection 123(1) of the Agvet Code

Company name	Licence number	Company ACN	Address	Product types	Steps of manufacture	Date issued
Bioproperties Pty Ltd	1061	007 303 728	11-15 Moores Road Glenorie NSW 2157	Category 1: Immunobiologicals, and sterile diluents	Quality assurance (QA) of raw materials, management of donor animals, virus cultivation, mycoplasma cultivation, bacterial fermentation, oocyst antigen production, oocyst processing, formulation including blending, aseptic filling, filling, packaging, labelling, microbiological reduction treatment (heat, chemical, filtration), sterilisation (heat, chemical, filtration), freeze-drying, analysis and testing (physical, immunobiological, microbiological, oocyst counts), storage and release for supply.	10 August 2026
Eimeria Pty Limited	6157	075 153 472	University of Melbourne, School of Veterinary Sciences, Gate 1, Building 450-451, 250 Princes Highway Werribee VIC 3030	Category 6: Immunobiologicals	Analysis and testing (Immunobiological)	10 August 2026
Kato Laboratories Pty Ltd	2119	000 397 240	61 Chivers Road Somersby NSW 2250	Category 2: Tablets, pastes, liquids and suspensions	Quality assurance (QA) of raw materials, formulation including blending, dry milling, wet milling, granulation, filling, packaging, labelling, tableting, analysis and testing (physical and chemical), storage and release from manufacturing.	13 August 2026

Company name	Licence number	Company ACN	Address	Product types	Steps of manufacture	Date issued
Virbac (Australia) Pty Ltd	2188	003 268 871	18-22 Denison Street Crookwell NSW 2583	Category 2: Tablets, pastes, sprays, liquids, suspensions, creams/lotions, gels, granules and powders Category 3: Liquids and sprays Category 4: Premixes and supplements	Quality assurance (QA) of raw materials, formulation including blending, granulation, wet milling of powders, dry milling, filling, packaging, labelling, strip, blister and sachet packaging, tableting, analysis and testing (physical and chemical) and storage.	18 August 2026
Dasco Proprietary Limited	2066	004 581 113	24-26 Helen Street Heidelberg Heights VIC 3081	Category 2: Pastes, powders, and liquids Category 4: Premixes liquid, and premixes powder	Quality assurance (QA) of raw materials, formulation including blending, filling, packaging, labelling, analysis and testing (physical and chemical), storage and release for supply.	25 August 2026

Licence cancellations

The APVMA has cancelled the following licenses under subsection 127(1) of the Agvet Code:

Table 11: Licenses cancelled by the APVMA under subsection 127(1) of the Agvet Code

Company name	Licence number	Company ACN	Address	Date cancelled
Pack and Fill Australia Pty Ltd	6262	685 439 954	Unit 3, 30 Heathcote Road Moorebank NSW 2170	11 August 2026
