Gazette

Agricultural and veterinary chemicals

No. APVMA 20, Tuesday 6 October 2026

Published by the Australian Pesticides and Veterinary Medicines Authority

Australian Government
**Australian Pesticides and
Veterinary Medicines Authority**

The *Agricultural and Veterinary Chemical Code Act 1994* (the Act) commenced on 15 March 1995. The Agricultural and Veterinary Chemicals Code (the Agvet Code) scheduled to the Act requires notices to be published in the *Gazette* containing details of the registration of agricultural and veterinary chemical products and other approvals granted by the Australian Pesticides and Veterinary Medicines Authority. The Agvet Code and related legislation also requires certain other notices to be published in the *Gazette*. A reference to Agvet Codes in this publication is a reference to the Agvet Code in each state and territory jurisdiction.

Website: apvma.gov.au

General information

The APVMA Gazette is published fortnightly and contains details of the registration of agricultural and veterinary chemicals products and other approvals granted by the APVMA, notices as required by the Agricultural and Veterinary Chemicals Code (the Agvet Code) and related legislation and a range of regulatory material issued by the APVMA.

Pursuant to section 8J(1) of the Agvet Code, the APVMA has decided that it is unnecessary to publish details of applications made for the purpose of notifying minor variations to registration details. The APVMA will however report notifications activity in quarterly statistical reports.

Distribution and subscription

The APVMA Gazette is published in electronic format only and is available from the [APVMA website](http://apvma.gov.au).

If you would like to subscribe to receive email notification when a new edition is published, please complete a [subscription form](#).

APVMA contacts

For enquiries regarding the publishing and distribution of the APVMA Gazette: Telephone: +61 2 6770 2300.

For enquiries on APVMA Gazette content, please refer to the individual APVMA contacts listed under each notice.

Privacy

For information on how the APVMA manages personal information when you contact us, see our [Privacy Policy](#).

Variations to the Maximum Residue Limits Standard under the Australian New Zealand Food Standards Code	43

Agricultural chemical products and approved labels

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has registered or varied the relevant particulars or conditions of the registration in respect of the following products and has approved the label or varied the relevant particulars or conditions of the approval in respect of the containers for the chemical product, with effect from the dates shown.

The APVMA is implementing some changes to the way that we give this notice. While implementation occurs, there will be differences in how decisions appear in the tables below.

Table 1: Agricultural products based on existing active constituents

Application no.	153581
Chemical product name	Advion Fire Ant Control Bait
Distinguishing number of the chemical product	97647
Active constituent	0.6 g/kg indoxacarb (75:25) (equivalent to 0.45 g/kg active S-isomer)
Applicant name	Syngenta Australia Pty Ltd
Date of registration and label approval	2 September 2026
Distinguishing number of label	97647/153581
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 0.6 g/kg indoxacarb (75:25) GR product and approval of label for control of fire ants
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154290
Chemical product name	Accensi Glyphosate 360 Herbicide
Distinguishing number of the chemical product	98014
Active constituent	360 g/L glyphosate as the isopropylamine salt
Applicant name	Australian Agribusiness (Holdings) Pty Ltd
Date of registration and label approval	14 September 2026
Distinguishing number of label	98014/154290
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 360 g/L glyphosate present as isopropylamine salt aqueous concentrate herbicide product for non-selective control of many annual, aquatic and perennial weeds in the situations stated in the directions for use and approval of a label
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	155129
Chemical product name	Accensi Glyphosate 360 Herbicide B
Distinguishing number of the chemical product	98379
Active constituent	360 g/L glyphosate as the isopropylamine salt
Applicant name	Australian Agribusiness (Holdings) Pty Ltd
Date of registration and label approval	14 September 2026
Distinguishing number of label	98379/155129
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 360 g/L glyphosate present as isopropylamine salt aqueous concentrate herbicide product for non-selective control of many annual, aquatic and perennial weeds in the situations stated in the directions for use and approval of a label
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154014
Chemical product name	Devrinol-C 500WG Herbicide (Formulation B)
Distinguishing number of the chemical product	97849
Active constituent	500 g/kg napropamide
Applicant name	UPL Australia Pty Ltd
Date of registration and label approval	15 September 2026
Distinguishing number of label.	97849/154014
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of and approval of a label for a 500 g/kg napropamide water dispersible granule product for pre-emergence control of certain weeds in canola, direct seeded and transplanted tomatoes, almonds, grapevines and stone fruit
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	154750
Chemical product name	Apparent Superhero 850 WG Herbicide B
Distinguishing number of the chemical product	98228
Active constituent	850 g/kg pyroxasulfone
Applicant name	Titan Ag Pty Ltd
Date of registration and label approval	15 September 2026
Distinguishing number of label	98228/154750
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of Apparent Superhero 850 WG Herbicide B and approval of label for the pre-emergence control of annual ryegrass, barley grass, annual phalaris, silver grass and toad rush and suppression of certain grass weeds in wheat (not durum wheat), triticale and certain winter legume crops as specified in the Directions for Use table
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154724
Chemical product name	Yates Home Pest Cockroach Killer Gel Bait
Distinguishing number of the chemical product	98213
Active constituent	8 g/kg indoxacarb (75:25) (equivalent to 6 g/kg active S-isomer)
Applicant name	Syngenta Australia Pty Ltd
Date of registration and label approval	15 September 2026
Distinguishing number of label	98213/154724
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of an 8 g/kg indoxacarb (75:25) ready to use bait formulation product and approval of label for the control of cockroaches
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154707
Chemical product name	Titan Amine 625 Selective Herbicide B
Distinguishing number of the chemical product	98200
Active constituent	625 g/L 2,4-D present as the dimethylamine and diethanolamine salt
Applicant name	Titan Ag Pty Ltd
Date of registration and label approval	16 September 2026
Distinguishing number of label	98200/154707
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of and approval of a label for an agricultural chemical product containing 625 g/L 2,4-D present as the dimethylamine and diethanolamine salts for the control of broadleaved weeds in fallow before direct drilling or sowing of cereals and pastures, and in cereal crops, pastures, sugar cane, peanuts and non-agricultural areas
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153737
Chemical product name	Genfarm 2,4-D Ester Herbicide
Distinguishing number of the chemical product	97737
Active constituent	680 g/L 2,4-D present as the 2-ethylhexyl ester
Applicant name	Nutrien Ag Solutions Limited
Date of registration and label approval	16 September 2026
Distinguishing number of label	97737/153737
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 680 g/L 2,4-D emulsifiable concentrate (EC) product and approval of a label for the selective control of various weeds in crops, pastures and non-agricultural areas
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153766
Chemical product name	Genfarm 2,4-D Ester Herbicide B
Distinguishing number of the chemical product	97739
Active constituent	680 g/L 2,4-D present as the 2-ethylhexyl ester
Applicant name	Nutrien Ag Solutions Limited
Date of registration and label approval	16 September 2026
Distinguishing number of label	97739/153766
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 680 g/L 2,4-D emulsifiable concentrate (EC) product and approval of a label for the selective control of various weeds in crops, pastures and non-agricultural areas
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154105
Chemical product name	Hempel's Antifouling Globic 9000 78900-51110 Red
Distinguishing number of the chemical product	97884
Active constituents	609 g/L copper present as cuprous oxide, 57 g/L copper pyrrhione
Applicant name	Hempel (Wattyl) Australia Pty Ltd
Date of registration and label approval	16 September 2026
Distinguishing number of label	97884/154105
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of, and approval of label for a 609 g/L copper present as cuprous oxide and 57 g/L copper pyrrhione antifouling paint product for the prevention of marine biofouling on vessel hulls
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154713
Chemical product name	Banner Fairway Turf Fungicide
Distinguishing number of the chemical product	98205
Active constituent	250 g/L propiconazole
Applicant name	Syngenta Australia Pty Ltd
Date of registration and label approval	16 September 2026
Distinguishing number of label	98205/154713
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 250 g/L propiconazole, emulsifiable concentrate formulation product and approval of label for control of spring dead spot in couch, and dollar spot in bent grass and queensland blue couch
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154107
Chemical product name	Hempel's Antifouling Globic 9000 78900-30170 Blue
Distinguishing number of the chemical product	97886
Active constituents	594 g/L copper present as cuprous oxide, 53 g/L copper pyrrhione
Applicant name	Hempel (Wattyl) Australia Pty Ltd
Date of registration and label approval	17 September 2026
Distinguishing number of label	97886/154107
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of, and approval of label for a 594 g/L copper present as cuprous oxide and 53 g/L copper pyrrhione antifouling paint product for the prevention of marine biofouling on vessel hulls
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153389
Chemical product name	Seeker Duo EC Fungicide
Distinguishing number of the chemical product	97539
Active constituents	375 g/L fenpropidin, 100 g/L difenoconazole
Applicant name	Syngenta Australia Pty Ltd
Date of registration and label approval	17 September 2026
Distinguishing number of label	97539/153389
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 375 g/L fenpropidin and 100 g/L difenoconazole emulsifiable concentrate product and approval of label for use as a fungicide in wine grapes
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154508
Chemical product name	Seeker Duo Fungicide
Distinguishing number of the chemical product	98111
Active constituents	375 g/L fenpropidin, 100 g/L difenoconazole
Applicant name	Syngenta Australia Pty Ltd
Date of registration and label approval	17 September 2026
Distinguishing number of label	98111/154508
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 375 g/L fenpropidin and 100 g/L difenoconazole emulsifiable concentrate product and approval of label for use as a fungicide in wine grapes
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154108
Chemical product name	Hempel's Antifouling Globic 9000 78900-19990 Black
Distinguishing number of the chemical product	97887
Active constituents	592 g/L copper present as cuprous oxide, 54 g/L copper pyrithione
Applicant name	Hempel (Wattyl) Australia Pty Ltd
Date of registration and label approval	17 September 2026
Distinguishing number of label	97887/154108
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of, and approval of label for a 592 g/L copper present as cuprous oxide and 54 g/L copper pyrithione antifouling paint product for the prevention of marine biofouling on vessel hulls
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154209
Chemical product name	CropSure Greenshield 750 Fungicide
Distinguishing number of the chemical product	97952
Active constituent	750 g/kg mancozeb
Applicant name	CropSure Pty Ltd
Date of registration and label approval	18 September 2026
Distinguishing number of label	97952/154209
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 750 g/kg mancozeb water dispersible granule (WG) product and approval of a label for the control of certain fungus diseases of field crops, vegetables, fruit, tobacco, turf and ornamentals as indicated in the directions for use table
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154163
Chemical product name	Agroxone 750 Herbicide
Distinguishing number of the chemical product	97929
Active constituent	750 g/L MCPA present as the dimethylamine salt
Applicant name	Sipcam Pacific Australia Pty. Limited
Date of registration and label approval	18 September 2026
Distinguishing number of label	97929/154163
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of and approval of label for a 750 g/L MCPA soluble concentrate product for control of broadleaf weeds in cereals, linseed, pastures, rice, sugar cane and turf
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	142031
Chemical product name	Barricade GR Herbicide
Distinguishing number of the chemical product	94295
Active constituent	20 g/kg prodiamine
Applicant name	Syngenta Australia Pty Ltd
Date of registration and label approval	18 September 2026
Distinguishing number of label	94295/142031
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 20 g/kg prodiamine granular product and approval of label for use in garden beds and nursery pots for pre-emergent control of weeds
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154570
Chemical product name	QA Buffer 700 Surfactant
Distinguishing number of the chemical product	98143
Active constituents	350 g/L soya phospholipid, 350 g/L propionic acid
Applicant name	Quantum Agrosiences Holdings Pty Ltd
Date of registration and label approval	18 September 2026
Distinguishing number of label	98143/154570
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of and approval of a label for a 350 g/L soya phospholipid, 350 g/L propionic acid dispersible concentrate (DC) product as an acidifying and penetrating surfactant; which reduces alkaline hydrolysis of dimethoate, assists with uptake sprays, and assists in management of spray droplet size
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154768
Chemical product name	Micropro Copper Based Timber Preservative
Distinguishing number of the chemical product	98239
Active constituent	585 g/L copper as copper carbonate
Applicant name	Koppers Performance Chemicals Australia Pty Ltd
Date of registration and label approval	18 September 2026
Distinguishing number of label	98239/154768
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of Micropro Copper Based Timber Preservative and approval of label for protection of timber against fungal decay, wood borers and termites when mixed with lonza carboquat timber preservative or micronised tebuconazole timber preservative
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	152017
Product name	Colosome 400 Herbicide
Active constituents	300 g/L triclopyr, 100 g/L picloram
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	18 September 2026
Product registration no.	97153
Label approval no.	97153/152017
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 300 g/L triclopyr present as the butoxyethyl ester and 100 g/L picloram present as hexyloxypropylamine salt emulsifiable concentrate (EC) for control of a range of environmental and noxious woody and herbaceous weeds

Application no.	152020
Product name	Verdeline 240 SL Herbicide
Active constituent	240 g/L imazapic present as the ammonium salt
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	18 September 2026
Product registration no.	97156
Label approval no.	97156/152020
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 240 g/L imazapic product, formulated as a soluble concentrate (SL) for the pre-emergence control of certain annual grass and broadleaf weeds in fallow situations, sugarcane and peanuts and early post-emergence control of certain annual grass and broadleaf weeds in peanuts and sugarcane

Application no.	152023
Product name	Krum 800 EC Herbicide
Active constituent	800 g/L prosulfocarb
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	18 September 2026
Product registration no.	97159
Label approval no.	97159/152023
Description of the application and its purpose, including the intended use of the chemical product	Registration of an 800 g/L prosulfocarb, emulsifiable concentrate for control of annual ryegrass (<i>lolium rigidum</i>) and other grass and broadleaf weeds in barley and wheat as specified in the directions for use table

Application no.	152026
Product name	Verdalux Selective Herbicide
Active constituents	340 g/L MCPA (present as the dimethylamine salt) 80 g/L dicamba (present as the dimethylamine salt)
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	18 September 2026
Product registration no.	97162
Label approval no.	97162/152026
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 340 g/L MCPA (present as the dimethylamine salt) and 80 g/L dicamba (present as the dimethylamine salt) aqueous concentrate for the control of certain broadleaf weeds in winter cereals, pastures, turf and non-crop areas as per the directions for use

Application no.	154471
Product name	Pure Repellent Outdoors by Rid 8hr Deet-free Protection Bare Skin Feel Dermatologically Tested Insect Repellent Spray
Active constituent	196.5 g/L picaridin
Applicant name	Cavalieri Investing Pty Ltd
Applicant ACN	162 722 625
Date of registration	18 September 2026
Product registration no.	98093
Label approval no.	98093/154471
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 196.5 g/L picaridin product, formulated as other liquids to be applied undiluted (AL) for repelling mosquitoes, flies, sandflies, ticks and other biting insects

Application no.	152020
Product name	Verdeline 240 SL Herbicide
Active constituent	240 g/L imazapic present as the ammonium salt
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	18 September 2026
Product registration no.	97156
Label approval no.	97156/152020
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 240 g/L imazapic product, formulated as a soluble concentrate (SL) for the pre-emergence control of certain annual grass and broadleaf weeds in fallow situations, sugarcane and peanuts and early post-emergence control of certain annual grass and broadleaf weeds in peanuts and sugarcane

Application no.	154659
Chemical product name	Advion Evolution Cockroach Gel
Distinguishing number of the chemical product	98169
Active constituent	8 g/kg indoxacarb (75:25) (equivalent to 6 g/kg active S-isomer)
Applicant name	Syngenta Australia Pty Ltd
Date of registration and label approval	21 September 2026
Distinguishing number of label	98169/154659
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of Advion Evolution Cockroach Gel and approval of label for the control of cockroaches in the situations specified in the directions for use table
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154184
Chemical product name	Plemax Insecticide A
Distinguishing number of the chemical product	97936
Active constituents	320 g/L indoxacarb (75:25) (equivalent to 240 g/L active S-isomer), 80 g/L novaluron
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	21 September 2026
Distinguishing number of label	97936/154184
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of and approval of a label for a 320 g/L indoxacarb (75:25) plus 80 g/L novaluron suspension concentrate (SC) product for the control of certain lepidopteran insect pests in broccoli, brussels sprouts, cabbage, cauliflower, eggplant, leafy vegetables, peppers and tomatoes
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153835
Chemical product name	Pennmag Turf EC Herbicide
Distinguishing number of the chemical product	97794
Active constituent	960 g/L s-metolachlor
Applicant name	Syngenta Australia Pty Ltd
Date of registration and label approval	21 September 2026
Distinguishing number of label	97794/153835
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 960 g/L S-metolachlor emulsifiable concentrate product and approval of label for the pre-emergent control of weeds in turf
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	151990
Product name	AgriSynth 250 SC Fungicide
Active constituent	250 g/L azoxystrobin
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	21 September 2026
Product registration no.	97142
Label approval no.	97142/151990
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 250 g/L azoxystrobin product, formulated as a suspension concentrate (SC) for the control of various diseases of avocados, grapes, mangoes, passionfruit, cucurbits, poppies, potatoes and tomatoes

Application no.	152010
Product name	FluroForce 400 Herbicide
Active constituent	400 g/L fluroxypyr
Applicant name	Australian Agvet Registration Solutions Pty Ltd
Applicant ACN	675 381 530
Date of registration	21 September 2026
Product registration no.	97150
Label approval no.	97150/152010
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 400 g/L fluroxypyr, present as the methyl heptyl ester, emulsifiable concentrate (EC) for the control of a wide range of broadleaf weeds in fallow, lucerne, maize, millets, pastures, sorghum, sugar cane, sweetcorn and winter cereals. Also, for the control of woody weeds in agricultural non-crop areas, commercial and industrial areas, pastures and rights-of-way

Application no.	152087
Product name	Duloc 500 SC Selective Herbicide
Active constituent	500 g/L diflufenican
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	21 September 2026
Product registration no.	97163
Label approval no.	97163/152087
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 500 g/L diflufenican product, formulated as a suspension concentrate (SC) for control of certain weeds in clover-based pasture, field peas, lentils, lupins and oilseed poppy

Application no.	152089
Product name	Cultivaris 200 Herbicide
Active constituent	200 g/L glufosinate-ammonium
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	21 September 2026
Product registration no.	97165
Label approval no.	97165/152089
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 200 g/L glufosinate soluble concentrate for the non-residual control of broadleaf and grass weeds in various situations

Application no.	152090
Product name	PhytoNexis 250 SL Herbicide
Active constituent	250 g/L hexazinone
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	21 September 2026
Product registration no.	97166
Label approval no.	97166/152090
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 250 g/L hexazinone product, formulated as a soluble concentrate (SL) for the control of certain broadleaf weeds, perennial and annual grasses, woody weeds in Pinus radiata plantations, pasture situations and commercial and industrial areas and rights-of-way

Application no.	152092
Product name	Sylviora 250 EC Fungicide
Active constituent	250 g/L propiconazole
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	21 September 2026
Product registration no.	97168
Label approval no.	97168/152092
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 250g/L propiconazole product, formulated as an emulsifiable concentrate (EC) for the control of certain fungal diseases of bananas, oats, peanuts, perennial ryegrass, pineapples, stone fruit, sugar cane, wheat and other crops as specified in the directions for use

Application no.	152094
Product name	Tessavine 500 Selective Herbicide
Active constituent	500 g/L dicamba (present as the dimethylamine salt)
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	21 September 2026
Product registration no.	97170
Label approval no.	97170/152094
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 500g/L dicamba present as the dimethylamine salt soluble concentrate (SL) for the control of certain broadleaf weeds in winter cereals, pastures, conservation tillage, sugar cane, turf, rice, grain sorghum and non-crop areas

Application no.	153287
Product name	Conquest Montane Insecticide
Active constituent	500 g/kg flonicamid
Applicant name	Conquest Crop Protection Pty Ltd
Applicant ACN	098 814 932
Date of registration	21 September 2026
Product registration no.	97480
Label approval no.	97480/153287
Description of the application and its purpose, including the intended use of the chemical product	A 500 g/kg flonicamid wettable granule (WG) product for the control of aphids and mirids in cotton as per the directions for use table

Application no.	154207
Chemical product name	Smart Carfentrazone 400 EC Herbicide B
Distinguishing number of the chemical product	97950
Active constituent	400 g/L carfentrazone-ethyl
Applicant name	Crop Smart Pty Ltd
Date of registration and label approval	21 September 2026
Distinguishing number of label.	97950/154207
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a new product Smart Carfentrazone 400 EC Herbicide B and approval of a label for improvement in the control of marshmallow and certain other broadleaf weeds prior to establishment of broadacre crops, fallows or forest plantations, in commercial, industrial and public service areas, around agricultural buildings and yards, in tree fruits, nuts, grape vines in tank mixture with knockdown herbicides; for the control of marshmallow and annual nettles in grass pastures and rough grass/turf areas; and control of volunteer cotton seedlings including Roundup Ready cotton and desiccation of cotton re-growth as per the directions for use table
Statement of the conditions of the registration that directly regulate the use of the product.	No conditions apply that directly regulate use of the product

Application no.	151984
Product name	Provenceal 18 EC Insecticide
Active constituent	18 g/L abamectin
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	22 September 2026
Product registration no.	97136
Label approval no.	97136/151984
Description of the application and its purpose, including the intended use of the chemical product	Registration of an 18 g/L abamectin EC formulation product for the control of pest mites and native budworm on cotton. For the control of pest mites on pears, apples, capsicums, tomatoes, strawberries and ornamentals as per the directions for use

Application no.	151985
Product name	CropXcel Selective Herbicide
Active constituents	300 g/L MCPA present as the potassium salt, 20 g/L clopyralid present as the olamine salt, 15 g/L diflufenican
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	22 September 2026
Product registration no.	97137
Label approval no.	97137/151985
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 300 g/L MCPA present as the potassium salt, 20 g/L clopyralid present as the olamine salt and 15 g/L diflufenican suspension concentrate for the control of certain broadleaf weeds in turf

Application no.	151986
Product name	Proterrax 480 SC Herbicide
Active constituent	480g/L pyroxasulfone
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	22 September 2026
Product registration no.	97138
Label approval no.	97138/151986
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 480g/L pyroxasulfone product, formulated as a suspension concentrate (SC) for the pre-emergence control of annual ryegrass, barley grass, annual phalaris, silver grass and toad rush and suppression of certain grass weeds in wheat (not durum wheat), triticale and certain winter legume crops

Application no.	152009
Product name	F.S.A. Picolinafen 750 WG Herbicide
Active constituent	750 g/kg picolinafen
Applicant name	Four Seasons Agribusiness Pty Ltd
Applicant ACN	115 133 189
Date of registration	22 September 2026
Product registration no.	97149
Label approval no.	97149/152009
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 750 g/kg water dispersible granule formulation of picolinafen for the suppression of wild radish in wheat and barley and the control of wild radish and the suppression of capeweed in narrowleaf lupins

Application no.	152011
Product name	AzoCypro 280 Fungicide
Active constituents	200 g/L azoxystrobin, 80 g/L cyproconazole
Applicant name	Australian Agvet Registration Solutions Pty Ltd
Applicant ACN	675 381 530
Date of registration	22 September 2026
Product registration no.	97151
Label approval no.	97151/152011
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 200 g/L azoxystrobin and 80 g/L cyproconazole suspension concentrate (SC) for the control of certain fungal diseases in barley, wheat and peanuts

Application no.	152015
Product name	Silvanta Selective Herbicide
Active constituents	250 g/L bromoxynil present as the octanoate, 25 g/L diflufenican
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	22 September 2026
Product registration no.	97152
Label approval no.	97152/152015
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 250 g/L bromoxynil and 25 g/L diflufenican emulsifiable concentrate for the control of certain broadleaf weeds in winter cereals and pasture as specified in the directions for use

Application no.	152088
Product name	Leafara 200 EC Herbicide
Active constituent	200 g/L quizalofop-P-ethyl
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	22 September 2026
Product registration no.	97164
Label approval no.	97164/152088
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 200 g/L quizalofop, emulsifiable concentrate for the control of certain grass weeds in broadleaf crops as per directions for use

Application no.	152755
Product name	Swan Isoxaflutole 750 WG Herbicide
Active constituent	750 g/kg isoxaflutole
Applicant name	Swan Chemical Holdings Pty Ltd
Applicant ACN	669 863 067
Date of registration	22 September 2026
Product registration no.	97333
Label approval no.	97333/152755
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 750g/kg isoxaflutole product, formulated as a water dispersible granule (WG) for the control and suppression of various broadleaf weeds and grasses in sugarcane and chickpeas

Application no.	153265
Product name	Bishamon 800 WG Fungicide
Active constituent	800 g/kg fosetyl-aluminium
Applicant name	Parijat Industries (India) Limited
Applicant ACN	N/A
Date of registration	22 September 2026
Product registration no.	97468
Label approval no.	97468/153265
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 800 g/kg fosetyl-aluminium product, formulated as a water dispersible granule (WG) for the prevention and control of phytophthora rots in apples, avocados, ornamentals, peaches and pineapples

Application no.	154211
Chemical product name	Smart Ester 680 Herbicide (Label B)
Distinguishing number of the chemical product	97954
Active constituent	680 g/L 2,4-D present as the 2-ethylhexyl ester
Applicant name	Crop Smart Pty Ltd
Date of registration and label approval	22 September 2026
Distinguishing number of label	97954/154211
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of and approval of a label for a 680 g/L 2,4-D present as the 2-ethylhexyl ester emulsifiable concentrate product for selective control of various weeds in crops, pastures and non-agricultural areas
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154262
Chemical product name	Smart Diuron 900 WG Herbicide B
Distinguishing number of the chemical product	97988
Active constituent	900 g/kg diuron
Applicant name	Crop Smart Pty Ltd
Date of registration and label approval	22 September 2026
Distinguishing number of label	97988/154262
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 900 g/kg Diuron water dispersible granule (WG) herbicide product and approval of a label for selective weed control in asparagus, cereals, cotton, lupins, sugar cane as specified in the Directions for Use
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154264
Chemical product name	Smart Diuron 900 WG Herbicide C
Distinguishing number of the chemical product	97990
Active constituent	900 g/kg diuron
Applicant name	Crop Smart Pty Ltd
Date of registration and label approval	22 September 2026
Distinguishing number of label	97990/154264
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 900 g/kg Diuron water dispersible granule (WG) herbicide product and approval of a label for selective weed control in asparagus, cereals, cotton, lupins, sugar cane as specified in the Directions for Use
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	144369
Product name	Emissary Fungicide
Active constituent	500 g/L fludioxonil
Applicant name	ADAMA Australia Pty Limited
Applicant ACN	050 328 973
Date of registration	23 September 2026
Product registration no.	94978
Label approval no.	94978/144369
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 500 g/L fludioxonil suspension concentrate (SC) product for the control of certain fungal diseases in grapes, green beans, strawberries and turf

Application no.	143224
Product name	Solaris 500 Fungicide
Active constituent	500 g/L cyprodinil
Applicant name	ADAMA Australia Pty Limited
Applicant ACN	050 328 973
Date of registration	23 September 2026
Product registration no.	94698
Label approval no.	94698/143224
Description of the application and its purpose, including the intended use of the chemical product	Registration of 500 g/L cyprodinil suspension concentrate product for the control of various fungal diseases in almonds, apples, apricots, green beans, grapes, nectarines, peaches, pears, plums and strawberries crops

Application no.	152021
Product name	Cropique 100 EC Insecticide
Active constituent	100 g/L bifenthrin
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	23 September 2026
Product registration no.	97157
Label approval no.	97157/152021
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 100 g/L bifenthrin product, formulated as an emulsifiable concentrate (EC) for the control of <i>Helicoverpa</i> spp. in cotton, tomatoes, lucerne seed crops, navy beans; carpophilus beetle in stone fruit (except cherries); certain species of mites in bananas, cotton and tomatoes; longtailed mealy bug in pears; banana weevil borer and banana rust thrips in bananas; mirids in cotton; whitefly in tomatoes; and redlegged earth mite, blue oat mite, bryobia mite, webworm and brown pasture looper in faba beans, subterranean clover, clover, canola, wheat, barley, field peas, lupins and lucerne; and certain species of wireworms in cotton and sugarcane; fig longicorn in grapes and citrus leafeating weevil in citrus

Application no.	152091
Product name	Danubrix Selective Herbicide
Active constituents	250 g/L MCPA present as the ethyl hexyl ester, 25 g/L diflufenican
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	22 September 2026
Product registration no.	97167
Label approval no.	97167/152091
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 250 g/L MCPA plus 25 g/L diflufenican product, formulated as an emulsifiable concentrate (EC) for the control of certain broadleaf weeds in winter cereals and clover

Application no.	152093
Product name	CropSentra 125 SC Fungicide
Active constituent	125 g/L epoxiconazole
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	23 September 2026
Product registration no.	97169
Label approval no.	97169/152093
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 125 g/L epoxiconazole product, formulated as a suspension concentrate (SC) for the control of leaf rust, stripe rust, and septoria nodorum blotch of wheat and leaf rust of barley

Application no.	152873
Product name	NC Isoxaflutole 750 WG Herbicide
Active constituent	750 g/kg isoxaflutole
Applicant name	Australian Agvet Registration Solutions Pty Ltd
Applicant ACN	675 381 530
Date of registration	23 September 2026
Product registration no.	97371
Label approval no.	97371/152873
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 750 g/kg isoxaflutole product formulated as a water dispersible granule (WG) for the control and suppression of various broadleaf weeds and grasses in sugarcane and chickpeas

Application no.	152156
Product name	Binnong TRIO 480 EC Herbicide
Active constituent	480 g/L triflurali
Applicant name	Shandong Binnong Technology Co Ltd
Applicant ACN	N/A
Date of registration	23 September 2026
Product registration no.	97431
Label approval no.	97431/152156
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 480 g/L trifluralin product, formulated as an emulsifiable concentrate (EC) for use in horticultural and agricultural crops

Application no.	154246
Chemical product name	No-Rot Gel Insecticide/Fungicide
Distinguishing number of the chemical product	97974
Active constituents	52 g/L boron (B) present as disodium octaborate tetrahydrate, 12 g/L benzalkonium chloride
Applicant name	Preschem Pty. Ltd.
Date of registration and label approval	23 September 2026
Distinguishing number of label	97974/154246
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 52 g/L boron and 12 g/L benzalkonium chloride liquid (LD) ready to use product and approval of a label for industrial and domestic use in pretreatment and remedial treatment of timber against decay and insects and also for the treatment of other surfaces that have been in contact with affected timber
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154113
Chemical product name	Smart Trifluralin 480 EC Herbicide (label B)
Distinguishing number of the chemical product	97892
Active constituent	480 g/L trifluralin
Applicant name	Crop Smart Pty Ltd
Date of registration and label approval	23 September 2026
Distinguishing number of label	97892/154113
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 480 g/L trifluralin emulsifiable concentrate pre-emergence herbicide product and label approval for the control of annual grasses and certain broadleaf weeds in certain horticultural and agricultural crops
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154711
Chemical product name	Titan Duelling Spray Adjuvant B
Distinguishing number of the chemical product	98204
Active constituents	704 g/L ethyl and methyl esters of canola oil, 196 g/L non-ionic surfactant
Applicant name	Titan Ag Pty Ltd
Date of registration and label approval	24 September 2026
Distinguishing number of label	98204/154711
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 704 g/L ethyl and methyl esters of canola oil and 196 g/L non-ionic surfactants biodegradable penetrator adjuvant to enhance the effectiveness of certain herbicides, pyrethroid insecticides, defoliant and desiccants and approval of a label
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	151478
Product name	Kingtai Pyroxasulfone 850 WG Herbicide
Active constituent	850g/kg pyroxasulfone
Applicant name	Kingtai Chemicals Co., Limited
Applicant ACN	N/A
Date of registration	24 September 2026
Product registration no.	97006
Label approval no.	97006/151478
Description of the application and its purpose, including the intended use of the chemical product	Registration of an 850 g/kg pyroxasulfone product, formulated as a water dispersible granule (WG) for the pre-emergence control of annual ryegrass, barley grass, annual phalaris, silver grass and toad rush and suppression of certain grass weeds in wheat (not durum wheat), triticale and certain winter legume crops as specified in the directions for use table

Application no.	153804
Chemical product name	Kenso Agcare Thidiazuron 500SC Cotton Defoliant
Distinguishing number of the chemical product	97772
Active constituent	500 g/L thidiazuron
Applicant name	Kenso Corporation (M) Sdn. Bhd.
Date of registration and label approval	24 September 2026
Distinguishing number of label	97772/153804
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of Kenso Agcare Thidiazuron 500SC Cotton Defoliant for the defoliation of cotton prior to harvest
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	152392
Product name	Blindside 200 SC Insecticide
Active constituent	200 g/L chlorantraniliprole
Applicant name	Crop Culture Pty Ltd
Applicant ACN	142 860 473
Date of registration	24 September 2026
Product registration no.	97228
Label approval no.	97228/152392
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 200g/L Chlorantraniliprole suspension concentrate (SC) product for the control of lepidopteran species of insect pests in certain vegetables and strawberries

Application no.	153840
Chemical product name	Sumi-Alpha Flex EC Insecticide
Distinguishing number of the chemical product	97799
Active constituent	50 g/L esfenvalerate
Applicant name	Sumitomo Chemical Australia Pty. Limited
Date of registration and label approval	24 September 2026
Distinguishing number of labels	97799/153840
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 50 g/L Esfenvalerate product and approval of a label for control of certain insect pests on field crops, pasture, vegetable crops and turf
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154255
Chemical product name	Smart Sayonara 850 WG Herbicide B
Distinguishing number of the chemical product	97981
Active constituent	850 g/kg pyroxasulfone
Applicant name	Crop Smart Pty Ltd
Date of registration and label approval	24 September 2026
Distinguishing number of label	97981/154255
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 850 g/kg pyroxasulfone water dispersible granule product for the pre-emergence control of annual ryegrass, barley grass, annual phalaris, silver grass and toad rush and suppression of certain grass weeds in wheat (not durum wheat) and triticale
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154271
Chemical product name	CropSure Trifluralin 480 Herbicide
Distinguishing number of the chemical product	97997
Active constituent	480 g/L trifluralin
Applicant name	CropSure Pty Ltd
Date of registration and label approval	24 September 2026
Distinguishing number of label	97997/154271
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 480 g/L trifluralin emulsifiable concentrate product, a pre-emergence herbicide for the control of annual grasses and certain broadleaf weeds in certain horticultural and agricultural crops and approval of label
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154781
Chemical product name	Titan Treflan Herbicide B
Distinguishing number of the chemical product	98246
Active constituent	480 g/L trifluralin
Applicant name	Titan Ag Pty Ltd
Date of registration and label approval	25 September 2026
Distinguishing number of label	98246/154781
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 480 g/L trifluralin EC product and approval of label for pre-emergence control of annual grasses and broadleaf weeds in horticultural and agricultural crops
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154722
Chemical product name	Esta 680 Herbicide
Distinguishing number of the chemical product	98211
Active constituent	680 g/L 2,4-D present as the 2-ethylhexyl ester
Applicant name	Nufarm Australia Limited
Date of registration and label approval	25 September 2026
Distinguishing number of label	98211/154722
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 680 g/L 2,4-D as the 2-ethylhexyl ester emulsifiable concentrate product and approval of a label for selective weed control in cereal weed crops, pastures and fallow land
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154306
Chemical product name	CropSure Clethodim 360 Herbicide
Distinguishing number of the chemical product	98022
Active constituent	360 g/L clethodim
Applicant name	CropSure Pty Ltd
Date of registration and label approval	25 September 2026
Distinguishing number of label	98022/154306
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 360 g/L clethodim emulsifiable concentrate product and approval of label for the control of certain grass weeds in beetroot, cabbage, canola, celery, cotton, forestry, lettuce, non-bearing fruit trees, onions, ornamentals, peanuts, pulses, potatoes, soybeans and some pasture legume and seed crops
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Table 2: Variations of registration – agricultural chemical products

Application no.	N/A - Variation under s29A
Product name	Spraytop 250 SL Herbicide
Active constituent	250 g/L paraquat present as paraquat dichloride
Applicant name	APVMA initiated variation
Date of variation	14 September 2026
Product registration no.	54522
Label approval no.	54522/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of relevant particulars of registered chemical product and label approval and label particulars to update label to comply with the outcomes of the paraquat final regulatory decision

Application no.	155427
Product name	Glymac 450 Herbicide
Active constituent	450 g/L glyphosate present as the isopropylamine salt
Applicant name	Syngenta Australia Pty Ltd
Applicant ACN	002 933 717
Date of variation	15 September 2026
Product registration no.	52780
Label approval no.	52780/155427
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'Macspred Glymac 450 Herbicide' to 'Glymac 450 Herbicide'

Application no.	N/A - Variation under s29A
Product name	Accensi Paraquat/Diquat 250 Herbicide
Active constituents	135 g/L paraquat present as paraquat dichloride, 115 g/L diquat present as diquat dibromide
Applicant name	APVMA initiated variation
Date of variation	16 September 2026
Product registration no.	62631
Label approval no.	62631/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of relevant particulars of registered chemical product and label approval and label particulars to update label to comply with the outcomes of the paraquat final regulatory decision

Application no.	N/A – Variation under s29A
Product name	4Farmers Brown Out 250 Herbicide
Active constituents	135 g/L paraquat present as paraquat dichloride ,115 g/L diquat present as diquat dibromide
Applicant name	APVMA initiated variation
Date of variation	18 September 2026
Product registration no.	58733
Label approval no.	62631/RV2026
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of relevant particulars of registered chemical product and label approval and label particulars to update label to comply with the outcomes of the paraquat final regulatory decision

Application no.	N/A – Variation under s29A
Product name	HomeGuard Total Termite Management System and Damp Proof Course
Active constituent	1 g/kg bifenthrin
Applicant name	APVMA initiated variation
Date of variation	18 September 2026
Product registration no.	83370
Label approval no.	83370/108139V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of relevant particulars of chemical product registration and label approval to update the statement of claims and resistance warning on the label. HomeGuard Total Termite Management System and Damp Proof Course is for the protection of structures from concealed termite entry

Application no.	146937
Product name	Revystar Fungicide
Active constituents	100 g/L mefentrifluconazole, 50 g/L fluxapyroxad
Applicant name	BASF Australia Ltd.
Applicant ACN	008 437 867
Date of variation	21 September 2026
Product registration no.	93947
Label approval no.	93947/146937
Description of the application and its purpose, including the intended use of the chemical product	Variation to registration particulars, particulars of label, to add an additional use for the control of early blight and white mould in potatoes

Application no.	N/A – Variation under s29A
Product name	Smart Carfentrazone 400 EC Herbicide
Active constituent	400 g/L carfentrazone-ethyl
Applicant name	APVMA initiated variation
Date of variation	21 September 2026
Product registration no.	91753
Label approval no.	91753/146341V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of relevant particulars of chemical product registration and label approval to update the constituent statements

Application no.	N/A – Variation under s29A
Product name	Smart Diuron 900 WG Herbicide
Active constituent	900 g/kg diuron
Applicant name	APVMA initiated variation
Date of variation	22 September 2026
Product registration no.	84857
Label approval no.	84857/133817V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of relevant particulars of registered chemical product, label approval and label particulars to remove non-supported uses based on chemical review outcomes

Application no.	N/A – Variation under s29A
Product name	AC Growler 450 Herbicide
Active constituent	450 g/L glyphosate present as the isopropylamine salt
Applicant name	APVMA initiated variation
Date of variation	22 September 2026
Product registration no.	63852
Label approval no.	63582/50766V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of relevant particulars of registered chemical product to update the constituent statement of the label

Application no.	N/A – Variation under 29A
Product name	Proterra Paraquat 250 Herbicide
Active constituent	250 g/L paraquat present as paraquat dichloride
Applicant name	Proterra Pty Ltd
Applicant ACN	120 507 182
Date of variation	23 September 2026
Product registration no.	65524
Label approval no.	65524/RV2026
Description of the application and its purpose, including the intended use of the chemical product	Variation of registration and label approval to comply with the outcomes of the paraquat reconsideration

Application no.	N/A – Variation under s29A
Product name	ALLITRON Systemic Fungicide
Active constituent	375 g/L triadimenol
Applicant name	APVMA initiated variation
Date of variation	23 September 2026
Product registration no.	63023
Label approval no.	63023/0510V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of relevant particulars and label approval of chemical product used for the control of white rot in onions and powdery mildew in grapevines to update the constituent statements

Application no.	N/A – Variation under s29A
Product name	Apparent Bromoxynil + MCPA Selective Herbicide
Active constituents	200 g/L bromoxynil present as the n-octanoyl ester, 200 g/L MCPA present as the ethyl hexyl ester
Applicant name	APVMA initiated variation
Date of variation	24 September 2026
Product registration no.	68401
Label approval no.	68401/RV2024V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of relevant particulars and label approval of a registered chemical product used for the control of weeds in wheat, oats, barley, cereal rye, triticale, linseed, grass pastures, and turf

Application no.	N/A – variation under 29A
Product name	Gramoxone 250 Herbicide
Active constituent	250 g/L paraquat present as paraquat dichloride
Applicant name	Syngenta Australia Pty Ltd
Applicant ACN	002 933 717
Date of variation	24 September 2026
Product registration no.	46531
Label approval no.	46531/RV2026
Description of the application and its purpose, including the intended use of the chemical product	Variation of registration and label approval to comply with the outcomes of the paraquat reconsideration

Application no.	N/A – Variation under s29A
Product name	Titan Treflan Herbicide
Active constituent	480 g/L trifluralin
Applicant name	APVMA initiated variation
Date of variation	25 September 2026
Product registration no.	87108
Label approval no.	87108/144338V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of relevant particulars of registered chemical product and label approval and label particulars to update constituent details and remove references to Label A and Label B from the label

Application no.	N/A – Variation under s29A
Product name	CropSure Clethodim 360EC Herbicide
Active constituent	360 g/L clethodim
Applicant name	APVMA initiated variation
Date of variation	25 September 2026
Product registration no.	91580
Label approval no.	91580/147584V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation to the particulars of registration and label approval to amend the constituent statement

Application no.	153651
Product name	BROMAKIL KILLS RATS AND MICE!
Active constituent	0.05 g/kg bromadiolone
Applicant name	De Sangosse Australia Pty. Ltd.
Date of variation	29 September 2026
Product registration no.	61668
Label approval no.	61668/153651
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of registration and label approval to address the reasons for the suspension of this second-generation anticoagulant rodenticide

Application no.	155089
Product name	IMTRADE ALLEY CAT RODENTICIDE WAX BLOCKS
Active constituent	0.05 g/kg bromadiolone
Applicant name	IMTRADE AUSTRALIA PTY LTD
Date of variation	29 September 2026
Product registration no.	65675
Label approval no.	65675/155089
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of product registration and label approval to address the reasons for suspension of this second-generation anticoagulant rodenticide

Application no.	154539
Product name	4Farmers Rat and Mouse Blocks
Active constituent	0.05 g/kg brodifacoum
Applicant name	4 FARMERS AUSTRALIA PTY LTD
Date of variation	29 September 2026
Product registration no.	94213
Label approval no.	94213/154539
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of product registration and label approval to address the reasons for suspension of this second-generation anticoagulant rodenticide

Veterinary chemical products and approved labels

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has registered or varied the relevant particulars or conditions of the registration in respect of the following products and has approved the label or varied the relevant particulars or conditions of the approval in respect of the containers for the chemical product, with effect from the dates shown.

Table 3: Veterinary products based on existing active constituents

Application no.	153235
Product name	Fluraguard Oral Solution for Chickens
Active constituent/s	10 g/L fluralaner
Applicant name	Allvita Animal Health Pty Ltd
Applicant ACN	625 603 876
Date of registration	21 September 2026
Product registration no.	97458
Label approval no.	97458/153235
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 10 g/L fluralaner oral solution and approval of a label for the treatment and control of poultry red mite (<i>Dermanyssus gallinae</i>) infestation in pullets, breeders and layer hens

Table 4: Variations of registration – veterinary chemical products

Application no.	150656
Product name	Elanco AH0498 Extinosad Aerosol for Wounds
Active constituents	2.8 g/kg spinosad, 0.39 g/kg chlorhexidine digluconate minimum
Applicant name	Elanco Australasia Pty Ltd
Applicant ACN	076 745 198
Date of variation	18 September 2026
Product registration no.	56734
Label approval no.	56734/150656
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the registered chemical product and label approval by updating constituent statements

Table 5: Label approval – veterinary chemical products

Application no.	154468
Product name	RWR Mor-N-Mectin Oral Horse Worming Paste
Active constituents	167 mg/g morantel tartrate, 4 mg/g abamectin
Applicant name	Abbey Laboratories Pty Ltd
Applicant ACN	156 000 430
Date of registration	16 September 2026
Product registration no.	69678
Label approval no.	69678/154468
Description of the application and its purpose, including the intended use of the chemical product	Approve a new Label for the existing product RWR Mor-N-Mectin Oral Horse Worming Paste with the label name “Equavetz Dual Action Broadpectrum Oral Paste Wormer Plus Boticide”

Approved active constituents

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has approved or varied the relevant particulars or conditions of the approval of the following active constituents, with effect from the dates shown.

Table 6: Approved active constituents

Application no.	152767
Active constituent	Pyroxasulfone
Applicant name	Parijat Industries (India) Limited
Applicant ACN	N/A
Date of approval	24 September 2026
Approval no.	97338
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent pyroxasulfone for use in agricultural chemical products

Revocation of suspension of registration

Pursuant to section 46(2)(b) of the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has revoked the suspensions of the registrations listed below with effect from the dates shown.

Table 7. Product registrations that are no longer suspended

Product name	IMTRADE ALLEY CAT RODENTICIDE WAX BLOCKS
Active constituent	0.05 g/kg bromadiolone
Holder name	IMTRADE AUSTRALIA PTY LTD
Holder ACN	090 151 134
Date suspension revoked	29 September 2026
Product registration no.	65675
Label approval no.	65675/155089
Brief reasons	The APVMA suspended the registration of IMTRADE ALLEY CAT RODENTICIDE WAX BLOCKS on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 29 September 2026, the APVMA varied the product registration and label approval to include additional instructions, and conditions to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	BROMAKIL KILLS RATS AND MICE!
Active constituent	0.05 g/kg bromadiolone
Holder name	De Sangosse Australia Pty. Ltd.
Holder ACN	601 609 545
Date suspension revoked	29 September 2026
Product registration no.	61668
Label approval no.	61668/153651
Brief reasons	The APVMA suspended the registration of BROMAKIL KILLS RATS AND MICE! on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 29 September 2026, the APVMA varied the product registration and label approval to include additional instructions and conditions to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

Product name	4Farmers Rat and Mouse Blocks
Active constituent	0.05 g/kg brodifacoum
Holder name	4 FARMERS AUSTRALIA PTY LTD
Holder ACN	160 092 428
Date suspension revoked	29 September 2026
Product registration no.	94213
Label approval no.	94213/154539
Brief reasons	The APVMA suspended the registration of 4Farmers Rat and Mouse Blocks on 24 March 2026 on the basis that use of the product may have presented an unintended effect that was harmful to non-target animals and therefore may not meet the safety criteria. On 29 September 2026, the APVMA varied the product registration and label approval to include additional instructions, and conditions to manage the unintended effects to non-target animals. Therefore, the reason for the APVMA's decision to suspend the product registration has been addressed.

New standard established for products containing fenitrothion

The APVMA has made a new standard under section 6E of the Agricultural and Veterinary Chemicals Code (Agvet Code) scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* for certain agricultural chemical products containing fenitrothion as an active constituent.

This standard was made through the Agricultural and Veterinary Chemicals Code (Chemical Products) Amendment (Fenitrothion) Standard 2026 (Fenitrothion Standard) and commences from 15 September 2026.

The Fenitrothion Standard establishes prescribed limits on impurities in products containing fenitrothion by amending the Agricultural and Veterinary Chemicals Code (Chemical Products) Standard 2025 (Chemical Product Standard).

As set out in section 87(2)(a) of the Agvet Code, a person may commit an offence or be liable to pay a civil penalty if they supply a product containing fenitrothion, or cause or permit such a product to be supplied, if the product does not conform with the prescribed limits.

Reasons for making this standard

The APVMA considered it was necessary to establish this standard to give effect to conditions imposed following the completion of the fenitrothion reconsideration. Further information on the APVMA's final regulatory decision on fenitrothion can be found in the APVMA Gazette No 17, 19 August 2025, and the Final Review Technical Report.

In considering whether it is necessary to make a standard for chemical products containing fenitrothion as an active constituent, the APVMA has had regard to the Food and Agriculture Organisation of the United Nations (FAO) Specifications and evaluations for agricultural pesticides. The standard for chemical products containing fenitrothion as an active constituent specifies the acceptable levels (minimum, maximum or range as appropriate) for concentrations of fenitrothion active constituents and toxicologically significant impurities consistent with the scientific assessments conducted as part of the chemical review of fenitrothion. If the toxic impurities in chemical products containing fenitrothion as an active constituent exceed prescribed limits, they will pose an unacceptable risk to safety, particularly the safety of people using these products.

The standard is consistent with the FAO/WHO specification for fenitrothion and is supported by the toxicological assessments conducted as part of the reconsideration of fenitrothion, as described in the Fenitrothion Final Review Technical Report.

Variations to the Maximum Residue Limits Standard under the Australian New Zealand Food Standards Code

The APVMA has previously gazetted particular amendments which it had made to the APVMA MRL Standard and which have been proposed as variations to maximum residue limits (MRLs) for substances contained in agricultural and veterinary chemical products as set out as in Schedule 20 – Maximum residue limits of the Australia New Zealand Food Standards Code. This notice pertains to proposals gazetted on 14 July 2026 (No. APVMA 14).

Submissions have been sought on these proposals. No submissions were received.

Under subsection 82(1) of the *Food Standards Australia New Zealand Act 1991*, the APVMA has, by legislative instrument, incorporated these variations to MRLs into Schedule 20. A copy of the Amendment Instrument (No. APVMA 5, 2026) accompanies this notice. For a complete and up-to-date version of Schedule 20, including these amendments together with their Explanatory Statement, please refer to the [Federal Register of Legislation](#).

Based on dietary exposure assessments and current health standards, the APVMA and Food Standards Australia New Zealand (FSANZ) are satisfied that these MRLs are not harmful to public health. MRLs contained in Schedule 20 provide the limits for residues of agricultural and veterinary chemicals that may legitimately occur in foods. By this means, Schedule 20 permits the sale of treated foods and protects public health by minimising residues in foods consistent with the effective control of pests and diseases.

The agreement between the Australian Government and the New Zealand Government concerning a Joint Food Standards System, excludes MRLs for agricultural and veterinary chemicals in food from the system setting joint food standards. Australia and New Zealand independently and separately develop MRLs for agricultural and veterinary chemicals in food.

A Sanitary and Phytosanitary notification to the World Trade Organization (WTO) was also made in relation to the variations to MRLs in Schedule 20 and comment was received in response to that notice which has been addressed.

A copy of these variations have been given to FSANZ.

The variations take effect as from the date of this notice.

This notice is published in accordance with subsection 82(7) of the *Food Standards Australia New Zealand Act 1991*.

Australian Government

**Australian Pesticides and
Veterinary Medicines Authority**

***Australia New Zealand
Food Standards Code —
Schedule 20 — Maximum residue limits Variation
Instrument No. APVMA 5, 2026***

I, Edward Cram, delegate of the Australian Pesticides and Veterinary Medicines Authority, acting in accordance with my powers under subsection 11(1) of the *Agricultural and Veterinary Chemicals (Administration) Act 1992*, make this instrument for the purposes of subsection 82(1) of the *Food Standards Australia New Zealand Act 1991*.

Edward Cram

Delegate of the Chief Executive Officer of the Australian Pesticides and Veterinary Medicines Authority

Dated this twenty ninth day of September 2026

Part 1 Preliminary

1 Name of instrument

This instrument is the *Australia New Zealand Food Standards Code — Schedule 20 – Maximum residue limits Variation Instrument No. APVMA 5, 2026* (Amendment Instrument).

2 Commencement

In accordance with subsection 82(8) of the *Food Standards Australia New Zealand Act 1991*, this instrument commences on the day it is published in the *Gazette*.

Note: A copy of the variations made by the Amendment Instrument was published in the Commonwealth of Australia Agricultural and Veterinary Chemicals Gazette.

3 Object

The object of this instrument is for the APVMA to make variations to Schedule 20 – Maximum residue limits in the *Australia New Zealand Food Standards Code* to include or change maximum residue limits pertaining to agricultural and veterinary chemical products.

4 Interpretation

In this instrument: —

APVMA means the Australian Pesticides and Veterinary Medicines Authority established by section 6 of the *Agricultural and Veterinary Chemicals (Administration) Act 1992*; and

Principal Instrument means Schedule 20—Maximum residue limits in the Australia New Zealand Food Standard Code as defined in Section 4 of the *Food Standards Australia New Zealand Act 1991* being the Code published in *Gazette* No. P 27 on 27 August 1987 together with any amendments of the standards in that Code. Schedule 20 was published in the *Food Standards Gazette* FSC 96 on Thursday 10 April 2015 and was registered as a legislative instrument on 1 April 2015 (F2015L00468).

Part 2 Variations to Schedule 20— Maximum Residue Limits

5 Variations to Schedule 20

The Schedule to this instrument sets out the variations made to the Principal Instrument by this instrument.

Schedule

Variations to Schedule 20 – Maximum residue limits

[1] Section S20—3 (table entry for Agvet chemical: Benzovindiflupyr)

Repeal:

Barley	0.2
Edible offal (mammalian)	*0.01
Meat (mammalian) [in the fat]	*0.01
Wheat (subgroup)	0.01

Substitute:

Barley	0.4
Edible offal (mammalian)	0.07
Meat (mammalian) [in the fat]	0.02
Wheat (subgroup)	0.3

[2] Section S20—3 (table entry for Agvet chemical: Buprofezin)

Insert:

Papaya (pawpaw)	T1
-----------------	----

[3] Section S20—3 (table entry for Agvet chemical: Cyclobutrifluram)

Insert:

Brassica (cole or cabbage) vegetables, head cabbages, flowerhead brassicas	T0.1
Brassica leafy vegetables	T0.2

[4] Section S20—3 (table entry for Agvet chemical: Fluopyram)

Repeal:

Peppers, sweet	0.3
Tomatoes (subgroup)	T1.5

[5] Section S20—3 (table entry for Agvet chemical: Fluopyram)

Insert:

Fruiting vegetables, other than cucurbits [except peppers, chilli, dried]	0.5
---	-----

[6] Section S20—3 (table entry for Agvet chemical: Fomesafen)

Insert:

Beans with pods	T*0.01
Succulent peas without pods	T*0.01

[7] Section S20—3 (table entry for Agvet chemical: Indaziflam)

Insert:

Pome fruits	*0.01
Stone fruits	*0.01

[8] Section S20—3 (table entry for Agvet chemical: Oxathiapiprolin)

Repeal:

Basil, dry	T90
------------	-----

[9] Section S20—3 (table entry for Agvet chemical: Oxathiapiprolin)

Insert:

Chives	T2
Chives, Chinese	T2
Dried herbs (except hops, dry)	T90
Galangal, rhizome	T*0.01
Garlic chives	T2
Herbs	T10
Lemon verbena (dry leaves)	T90
Turmeric, root	T*0.01

[10] Section S20—3 (table entry for Agvet chemical: Tebuconazole)

Repeal:

Avocado	0.2
Custard apple	2
Papaya (pawpaw)	0.2
Persimmon, American	2
Tomato	0.5

[11] Section S20—3 (table entry for Agvet chemical: Tebuconazole)

Insert:

Assorted tropical and sub-tropical fruits – inedible peel [except banana; passionfruit; pineapple]	2
Fruiting vegetables, other than cucurbits [except peppers, chilli, dried; peppers, sweet]	0.5
