Gazette

Agricultural and veterinary chemicals

No. APVMA 21, Tuesday 20 October 2026

Published by the Australian Pesticides and Veterinary Medicines Authority

Australian Government
Australian Pesticides and
Veterinary Medicines Authority

The *Agricultural and Veterinary Chemical Code Act 1994* (the Act) commenced on 15 March 1995. The Agricultural and Veterinary Chemicals Code (the Agvet Code) scheduled to the Act requires notices to be published in the *Gazette* containing details of the registration of agricultural and veterinary chemical products and other approvals granted by the Australian Pesticides and Veterinary Medicines Authority. The Agvet Code and related legislation also requires certain other notices to be published in the *Gazette*. A reference to Agvet Codes in this publication is a reference to the Agvet Code in each state and territory jurisdiction.

This work is copyright. Apart from any use as permitted under the *Copyright Act 1968*, no part may be reproduced by any process without prior written permission from the Australian Pesticides and Veterinary Medicines Authority (APVMA). Requests and inquiries concerning reproduction and rights should be addressed to:

Canberra ACT 2601

Email: communications@apvma.gov.au

Website: apvma.gov.au

General information

The APVMA Gazette is published fortnightly and contains details of the registration of agricultural and veterinary chemicals products and other approvals granted by the APVMA, notices as required by the Agricultural and Veterinary Chemicals Code (the Agvet Code) and related legislation and a range of regulatory material issued by the APVMA.

Pursuant to section 8J(1) of the Agvet Code, the APVMA has decided that it is unnecessary to publish details of applications made for the purpose of notifying minor variations to registration details. The APVMA will however report notifications activity in quarterly statistical reports.

Distribution and subscription

The APVMA Gazette is published in electronic format only and is available from the [APVMA website](http://apvma.gov.au).

If you would like to subscribe to receive email notification when a new edition is published, please complete a [subscription form](#).

APVMA contacts

For enquiries regarding the publishing and distribution of the APVMA Gazette: Telephone: +61 2 6770 2300.

For enquiries on APVMA Gazette content, please refer to the individual APVMA contacts listed under each notice.

Privacy

For information on how the APVMA manages personal information when you contact us, see our [Privacy Policy](#).

Contents

Agricultural chemical products and approved labels	1
Veterinary chemical products and approved labels	44
Approved active constituents	49
Licensing of veterinary chemical manufacturers	50
Prescribed date for payment of levy	52
Amendments to the APVMA MRL Standard.....	53
Proposal to amend Schedule 20 in the Australian New Zealand Food Standards Code.....	54
Agvet chemical voluntary safety recall: COUNTER 150G Granular Soil Insecticide/Nematicide (20 kg)	57
Agvet chemical voluntary safety recall: THIMET 200G Systemic Granular Insecticide (20 kg)	58

Agricultural chemical products and approved labels

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has registered or varied the relevant particulars or conditions of the registration in respect of the following products and has approved the label or varied the relevant particulars or conditions of the approval in respect of the containers for the chemical product, with effect from the dates shown.

The APVMA is implementing some changes to the way that we give this notice. While implementation occurs, there will be differences in how decisions appear in the tables below.

Table 1: Agricultural products based on existing active constituents

Application no.	155124
Chemical product name	FMC Magister Command 480 EC Herbicide
Distinguishing number of the chemical product	98376
Active constituent	480 g/L clomazone
Applicant name	FMC Australasia Pty Ltd
Date of registration and label approval	28 September 2026
Distinguishing number of label	98376/155124
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 480 g/L clomazone emulsifiable concentrate product and approval of label for the control of certain annual broad leaf weeds in cucurbits, green beans, navy beans, potatoes, poppies, rice and tobacco as per the directions for use table
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154736
Chemical product name	Kelpie GLY 540 SL Herbicide
Distinguishing number of the chemical product	98219
Active constituent	540 g/L glyphosate present as the potassium salt
Applicant name	Sinochem International Australia Pty. Ltd.
Date of registration and label approval	28 September 2026
Distinguishing number of label	98219/154736
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 540 g/L glyphosate present as the potassium salt, soluble concentrate (SL), product for non-selective herbicide for the control of many annual and perennial weeds
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154248
Chemical product name	Albaugh Circinus 900 WG Herbicide B
Distinguishing number of the chemical product	97976
Active constituent	900 g/kg atrazine
Applicant name	Albaugh Australia Pty Ltd
Date of registration and label approval	28 September 2026
Distinguishing number of label	97976/154248
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 900 g/kg atrazine water dispersible granule product for the control of annual grasses and broadleaf weeds in sorghum, maize, sugarcane, TT canola, lucerne and for fallow area maintenance and other situations
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154115
Chemical product name	Farmalinx Trifluralin 480 Herbicide
Distinguishing number of the chemical product	97894
Active constituent	480 g/L trifluralin
Applicant name	Farmalinx Pty Ltd
Date of registration and label approval	28 September 2026
Distinguishing number of label	97894/154115
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration and label approval of a 480 g/L trifluralin emulsifiable concentrate product and approval of a label for the control of annual grasses and certain broadleaf weeds in certain horticultural and agricultural crops
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154038
Chemical product name	OH2 Ornamental Herbicide B
Distinguishing number of the chemical product	97860
Active constituents	20 g/kg oxyfluorfen, 10 g/kg pendimethalin
Applicant name	Everris Australia Pty Ltd
Date of registration and label approval	28 September 2026
Distinguishing number of label	97860/154038
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 20 g/kg oxyfluorfen and 10 g/kg pendimethalin granular formulation product and approval of label for the pre-emergent control of weeds in container and in-ground ornamental plants
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	151303
Product name	Submarino Paraquat 360 SL Herbicide
Active constituent	360 g/L paraquat presents as paraquat dichloride
Applicant name	Submarino Pty Ltd
Applicant ACN	616 055 559
Date of registration	29 September 2026
Product registration no.	96940
Label approval no.	96940/151303
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 360 g/L paraquat, present as paraquat dichloride product, formulated as a soluble concentrate (SL) for the control of a wide range of grasses and broadleaf weeds

Application no.	151988
Product name	TerraNoble 480 Selective Herbicide
Active constituent	480 g/L trifluralin
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	29 September 2026
Product registration no.	97140
Label approval no.	97140/151988
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 480 g/L trifluralin emulsifiable concentrate for the pre-emergence control of annual grasses and certain broadleaf weeds in certain horticultural and agricultural crops

Application no.	152018
Product name	Verdantis 625 Selective Herbicide
Active constituent	625 g/L 2,4-D present as the dimethylamine and diethanolamine salts
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	29 September 2026
Product registration no.	97154
Label approval no.	97154/152018
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 625 g/L 2,4-D soluble concentrate for the control of broadleaf weeds in fallow before direct drilling or sowing of cereals and pastures and in cereal crops, pastures, sugarcane, peanuts, and non-agricultural areas

Application no.	152096
Product name	Castillon 720 SC Fungicide
Active constituent	720 g/L chlorothalonil
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	29 September 2026
Product registration no.	97172
Label approval no.	97172/152096
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 720 g/L chlorothalonil suspension concentrate for the control of fungal diseases on almonds, bananas, cucurbits, grapes, ornamentals, peanuts, pulses, stone fruit, tobacco, turf and vegetables as specified in the directions for use

Application no.	155115
Chemical product name	Spotlight Plus Herbicide
Distinguishing number of the chemical product	98372
Active constituent	60 g/L carfentrazone-ethyl
Applicant name	FMC Australasia Pty Ltd
Date of registration and label approval	29 September 2026
Distinguishing number of label	98372/155115
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 60 g/L carfentrazone ethyl product and approval of label for use as a standalone treatment for the control of suckers in various crops; in tank mixtures with knockdown herbicides for the improvement in the control of marshmallow and certain other broadleaf weeds prior to establishment of certain crops and situations; and for haulm desiccation in potatoes
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153585
Chemical product name	Hometeam Eco-Bor Timber Preservative & Fungicide
Distinguishing number of the chemical product	97650
Active constituents	52 g/L boron (B) present as borax pentahydrate, 12 g/L benzalkonium chloride
Applicant name	Nowra Chemical Manufacturers Pty Ltd
Date of registration and label approval	29 September 2026
Distinguishing number of label	97650/153585
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 52 g/L boron present as borax pentahydrate and 12 g/L benzalkonium chloride liquid product and approval of label for industrial/domestic use in pre-treatment and remedial treatment of timber against decay and insects. Also, for the treatment of other surfaces that have been in contact with affected timber
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154509
Chemical product name	Safari 750 EC Herbicide A
Distinguishing number of the chemical product	98112
Active constituent	750 g/L triclopyr present as the butoxyethyl ester
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	29 September 2026
Distinguishing number of label	98112/154509
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 750 g/L triclopyr present as the butoxyethyl ester emulsifiable concentrate product and approval of label for the control of a range of woody weeds and melons in cropping/fallow, agricultural non-crop areas, commercial and industrial areas, fallow, fence lines, fire breaks, fire trails, forests, pastures, rights-of-way, sorghum and stubble as specified in the directions for use table
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154047
Chemical product name	Koppers H2F Timber Preservative 2
Distinguishing number of the chemical product	97866
Active constituent	100 g/L bifenthrin
Applicant name	Koppers Performance Chemicals Australia Pty Ltd
Date of registration and label approval	29 September 2026
Distinguishing number of label	97866/154047
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 100 g/L bifenthrin emulsifiable concentrate product and approval of label for the protection of timber and timber-based products from damage by borers
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154147
Chemical product name	Seajet 039 Platinum 2-Components Antifouling Navy Blue
Distinguishing number of the chemical product	97919
Active constituents	55.7 g/L zinc pyrithione (Component A), 960 g/kg cuprous oxide (Component B)
Applicant name	Chugoku Paints B.V.
Date of registration and label approval	29 September 2026
Distinguishing number of label	97919/154147A (Component A) 97919/154147B (Component B)
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 55.7 g/L zinc pyrithione (Component A) and 960 g/kg cuprous oxide (Component B) as a 2-components antifouling paint product and approval of a label for the prevention of biofouling on vessel hulls
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154250
Chemical product name	Smart Trifluralin 480 EC Herbicide C
Distinguishing number of the chemical product	97978
Active constituent	480 g/L trifluralin
Applicant name	Crop Smart Pty Ltd
Date of registration and label approval	29 September 2026
Distinguishing number of label	97978/154250
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 480 g/L trifluralin emulsifiable concentrate pre-emergence herbicide product and label approval for the control of annual grasses and certain broadleaf weeds in certain horticultural and agricultural crops
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154557
Chemical product name	Farmalinx Ethon 720 Growth Regulator
Distinguishing number of the chemical product	98135
Active constituent	720 g/L ethephon (an anti-cholinesterase compound)
Applicant name	Farmalinx Pty Ltd
Date of registration and label approval	29 September 2026
Distinguishing number of label	98135/154557
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 720 g/L ethephon soluble concentrate product for crop thinning, loosening or ripening in various crops and for accelerating boll opening, defoliation and pre-conditioning before defoliation of cotton
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153705
Chemical product name	Munns Professional Weed Control Winter Grass Killer A
Distinguishing number of the chemical product	97714
Active constituent	6 g/L propyzamide
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	29 September 2026
Distinguishing number of label	97714/153705
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 6 g/L propyzamide suspension concentrate product and approval of a label for use as a home garden herbicide
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154149
Chemical product name	Seajet 039 Platinum 2-Components Antifouling Black
Distinguishing number of the chemical product	97920
Active constituents	54 g/L zinc pyrithione (Component A), 960 g/kg cuprous oxide (Component B)
Applicant name	Chugoku Paints B.V.
Date of registration and label approval	29 September 2026
Distinguishing number of label	97920/154149A (Component A) 97920/154149B (Component B)
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 54 g/L Zinc pyrithione (Component A) and 960 g/kg cuprous oxide (Component B) as a 2-components antifouling paint product and approval of a label for the prevention of biofouling on vessel hulls
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153429
Chemical product name	Simanex 900 WG Herbicide B
Distinguishing number of the chemical product	97557
Active constituent	900 g/kg simazine
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	30 September 2026
Distinguishing number of label	97557/153429
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 900 g/kg simazine product and approval of label for the control of weeds in a range of horticultural and broadacre crops, forestry and in non-crop situations
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153423
Chemical product name	Spraytop 250 SL Herbicide B
Distinguishing number of the chemical product	97551
Active constituent	250 g/L paraquat present as paraquat dichloride
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	30 September 2026
Distinguishing number of label	97551/153423
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 250 g/L paraquat present as paraquat dichloride soluble concentrate product for control of certain range of grasses and broadleaf weeds
Statement of the conditions of the registration that directly regulate the use of the product	This product must be supplied in a container that is sealed with a fitting compatible with enclosed mixing and loading systems capable of preventing contact between the contents of the container and users of the product during loading of the chemical into the application mechanism

Application no.	153527
Chemical product name	Simanex 900 WG Herbicide C
Distinguishing number of the chemical product	97613
Active constituent	900 g/kg simazine
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	30 September 2026
Distinguishing number of label	97613/153527
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 900 g/kg simazine product and approval of label for the control of weeds in a range of horticultural and broadacre crops, forestry and in non-crop situations
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154477
Chemical product name	Stadium Turf Selective Herbicide B
Distinguishing number of the chemical product	98096
Active constituents	300 g/L MCPA present as the potassium salt, 20 g/L clopyralid present as the potassium salt, 15 g/L diflufenican
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	30 September 2026
Distinguishing number of label	98096/154477
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 300 g/L MCPA, 20 g/L clopyralid and 15 g/L diflufenican suspension concentrate (SC) product for broadleaf weed control in turf
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153624
Chemical product name	Genfarm Flumioxazin 500 WG Herbicide B
Distinguishing number of the chemical product	97673
Active constituent	500 g/kg flumioxazin
Applicant name	Nutrien Ag Solutions Limited
Date of registration and label approval	30 September 2026
Distinguishing number of label	97673/153624
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of, and approval of a label for a 500 g/kg flumioxazin water dispersible product for the rapid knockdown and control of various grass and broadleaf weeds when mixed with certain glyphosate or paraquat/diquat herbicides, and for control of volunteer cotton when applied alone, prior to sowing cotton and its rotation crops, or for rapid knockdown and control of various broadleaved weeds when applied as a directed spray in cotton
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153825
Chemical product name	F.S.A. Vixin Herbicide B
Distinguishing number of the chemical product	97788
Active constituents	33 g/L imazamox present as the ammonium salt, 15 g/L imazapyr present as the ammonium salt
Applicant name	Four Seasons Agribusiness Pty Ltd
Date of registration and label approval	30 September 2026
Distinguishing number of label	97788/153825
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of and approval of label for a 33 g/L imazamox present as the ammonium salt, and 15 g/L imazapyr present as the ammonium salt soluble concentrate product for the early post-emergence control of certain annual grass and broadleaf weeds as part of the Clearfield Production System
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154649
Chemical product name	F.S.A. Vixin Herbicide
Distinguishing number of the chemical product	98164
Active constituents	33 g/L imazamox present as the ammonium salt, 15 g/L imazapyr present as the ammonium salt
Applicant name	Four Seasons Agribusiness Pty Ltd
Date of registration and label approval	30 September 2026
Distinguishing number of label	98164/154649
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of and approval of label for a 33 g/L imazamox present as the ammonium salt, and 15 g/L imazapyr present as the ammonium salt soluble concentrate product for the early post-emergence control of certain annual grass and broadleaf weeds as part of the clearfield production system
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153521
Chemical product name	Spraytop 250 SL Herbicide C
Distinguishing number of the chemical product	97607
Active constituent	250 g/L paraquat present as paraquat dichloride
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	30 September 2026
Distinguishing number of label	97607/153521
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 250 g/L paraquat present as paraquat dichloride, soluble concentrate product and approval of label for the control of certain grasses and broadleaf weeds
Statement of the conditions of the registration that directly regulate the use of the product	This product must be supplied in a container that is sealed with a fitting compatible with enclosed mixing and loading systems capable of preventing contact between the contents of the container and users of the product during loading of the chemical into the application mechanism

Application no.	153447
Chemical product name	Swan Glyphosate 540 K Herbicide
Distinguishing number of the chemical product	97568
Active constituent	540 g/L glyphosate present as the potassium salt
Applicant name	Swan Chemical Holdings Pty Ltd
Date of registration and label approval	30 September 2026
Distinguishing number of label	97568/153447
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 540 g/L glyphosate present as the potassium salt soluble concentrate non-selective herbicide product and approval of label for the control of many annual and perennial weeds
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154270
Chemical product name	CropSure Amigo 625 Selective Herbicide
Distinguishing number of the chemical product	97996
Active constituent	625 g/L 2,4-D present as the dimethylamine and diethanolamine salts
Applicant name	CropSure Pty Ltd
Date of registration and label approval	30 September 2026
Distinguishing number of label	97996/154270
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 625 g/L 2,4-D soluble concentrate product and approval of label for the control of broadleaf weeds in fallow before direct drilling or sowing of cereals and pastures; and in cereal crops, pastures, sugar cane, peanuts and non-agricultural areas
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153822
Chemical product name	SpiroSec 240 SC Insecticide B
Distinguishing number of the chemical product	97785
Active constituent	240 g/L spirotetramat
Applicant name	Anovitech Pty Ltd
Date of registration and label approval	30 September 2026
Distinguishing number of label	97785/153822
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 240 g/L spirotetramat suspension concentrate product for the control of certain insect pests in cotton and certain fruit and vegetable crops
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153467
Chemical product name	Spraytop 250 SL Herbicide D
Distinguishing number of the chemical product	97581
Active constituent	250 g/L paraquat present as paraquat dichloride
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	30 September 2026
Distinguishing number of label	97581/153467
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 250 g/L paraquat present as paraquat dichloride, soluble concentrate product and approval of label for the control of certain grasses and broadleaf weeds
Statement of the conditions of the registration that directly regulate the use of the product	This product must be supplied in a container that is sealed with a fitting compatible with enclosed mixing and loading systems capable of preventing contact between the contents of the container and users of the product during loading of the chemical into the application mechanism

Application no.	153821
Chemical product name	F.S.A. Amine 625 Herbicide B
Distinguishing number of the chemical product	97784
Active constituent	625 g/L 2,4-D present as the dimethylamine and diethanolamine salts
Applicant name	Four Seasons Agribusiness Pty Ltd
Date of registration and label approval	1 October 2026
Distinguishing number of label	97784/153821
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 625 g/L soluble concentrate of 2,4-D (present as the dimethylamine and diethanolamine salts) and label approval for the control of broadleaf weeds in fallow before direct drilling or sowing of cereals and pastures, and in cereal crops, pastures, sugarcane, peanuts, and non-agricultural areas
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154268
Chemical product name	Cropsure Esstane LV Ester 680 Herbicide
Distinguishing number of the chemical product	97994
Active constituent	680 g/L 2,4-D present as the 2-ethylhexyl ester
Applicant name	CropSure Pty Ltd
Date of registration and label approval	1 October 2026
Distinguishing number of label	97994/154268
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 680 g/L 2,4-D present as the 2-ethylhexyl ester emulsifiable concentrate product, a specially formulated low volatile herbicide for selective control of various weeds in crops, pastures and non-agricultural areas
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153560
Chemical product name	Conquest Atraquest 900 WG Herbicide
Distinguishing number of the chemical product	97639
Active constituent	900 g/kg atrazine
Applicant name	Conquest Crop Protection Pty Ltd
Date of registration and label approval	1 October 2026
Distinguishing number of label	97639/153560
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 900 g/kg atrazine water dispersible granule product and approval of a label for control of annual weeds in sorghum, maize, sweetcorn, saccaline, broom millet, sugarcane, TT canola and other crops
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153853
Chemical product name	Conquest Knockout Pro 540 Herbicide
Distinguishing number of the chemical product	97811
Active constituent	540 g/L glyphosate present as the potassium salt
Applicant name	Conquest Crop Protection Pty Ltd
Date of registration and label approval	1 October 2026
Distinguishing number of label	97811/153853
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 540 g/L glyphosate present as the potassium salt soluble concentrate product and approval of a label for use as a non-selective herbicide for the control of many annual and perennial weeds
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154703
Chemical product name	Accensi 2,4-D Ester 680 Herbicide
Distinguishing number of the chemical product	98196
Active constituent	680 g/L 2,4-D (present as the 2-ethylhexyl ester)
Applicant name	Australian Agribusiness (Holdings) Pty Ltd
Date of registration and label approval	1 October 2026
Distinguishing number of label	98196/154703
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration and approval of label for a 680 g/L 2,4-D (present as the 2-ethylhexyl ester) emulsifiable concentrate product, for selective control of various weeds in crops, pastures and non-agricultural areas
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154336
Chemical product name	Eraze Pro K 450 Herbicide
Distinguishing number of the chemical product	98042
Active constituent	450 g/L glyphosate present as the potassium salt
Applicant name	Australian Agribusiness (Holdings) Pty Ltd
Date of registration and label approval	1 October 2026
Distinguishing number of label	98042/154336
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 450 g/L glyphosate present as the potassium salt product and approval of label for the control of many annual and perennial weeds
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153599
Chemical product name	CropSure Parashot 250SL Herbicide
Distinguishing number of the chemical product	97656
Active constituent	250 g/L paraquat present as paraquat dichloride
Applicant name	CropSure Pty Ltd
Date of registration and label approval	1 October 2026
Distinguishing number of label	97656/153599
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 250 g/L paraquat present as paraquat dichloride soluble concentrate product for the control of a certain range of grasses and broadleaf weeds
Statement of the conditions of the registration that directly regulate the use of the product	This product must be supplied in a container that is sealed with a fitting compatible with enclosed mixing and loading systems capable of preventing contact between the contents of the container and users of the product during loading of the chemical into the application mechanism

Application no.	154243
Chemical product name	Nufarm Slugout Molluscicide B
Distinguishing number of the chemical product	97971
Active constituent	18 g/kg metaldehyde
Applicant name	Nufarm Australia Limited
Date of registration and label approval	2 October 2026
Distinguishing number of label	97971/154243
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of and approval of label for 18g/kg metaldehyde granule product for the control of slugs and snails in gardens, fruit and vegetable crops, winter cereals, oilseeds, (including poppies), pulses and pastures
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154165
Chemical product name	Sipcam LVE MCPA 570 Herbicide
Distinguishing number of the chemical product	97930
Active constituent	570 g/L MCPA present as the 2-ethyl hexyl ester
Applicant name	Sipcam Pacific Australia Pty. Limited
Date of registration and label approval	2 October 2026
Distinguishing number of label	97930/154165
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of and approval of a label for a 570 g/L MCPA 2-ethylhexyl ester emulsifiable concentrate product for the selective control of certain weeds in agricultural crops
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154618
Chemical product name	QA Safeguard 700 Surfactant
Distinguishing number of the chemical product	98149
Active constituents	350 g/L soyal phosholipid, 350 g/L propionic acid
Applicant name	Quantum Agrosiences Holdings Pty Ltd
Date of registration and label approval	2 October 2026
Distinguishing number of label	98149/154618
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of and approval of a label for 350 g/L soyal phosholipid, 350 g/L propionic acid dispersible concentrate (DC) product as an acidifying and penetrating surfactant; and reduces alkaline hydrolysis of dimethoate assists with uptake of foliar fertilisers; assists in management of spray droplet size
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154748
Chemical product name	Kenso Agcare Bifenthrin Termiticide & Insecticide
Distinguishing number of the chemical product	98227
Active constituent	100 g/L bifenthrin
Applicant name	Kenso Corporation (M) SDN. BHD.
Date of registration and label approval	2 October 2026
Distinguishing number of label	98227/154748
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 100 g/L bifenthrin as emulsifiable concentrate and approval of label, for the protection of structures from subterranean termite damage, for the control of termites and a range of other urban pests, and for the control of various insect and mite pests in a variety of crops, including turf
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154284
Chemical product name	Bayonet In-Furrow and Foliar Fungicide
Distinguishing number of the chemical product	98010
Active constituent	250 g/L flutriafol
Applicant name	Conquest Crop Protection Pty Ltd
Date of registration and label approval	2 October 2026
Distinguishing number of label	98010/154284
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 250 g/L flutriafol suspension concentrate product and approval of label for the control of certain fungal diseases on wheat, barley and canola when mixed with fertiliser or applied as a foliar spray
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154562
Chemical product name	F.S.A. ProTeb 420 SC Foliar Fungicide
Distinguishing number of the chemical product	98138
Active constituents	210 g/L prothioconazole, 210 g/L tebuconazole
Applicant name	Four Seasons Agribusiness Pty Ltd
Date of registration and label approval	2 October 2026
Distinguishing number of label	98138/154562
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 210 g/L prothioconazole, 210 g/L tebuconazole suspension concentrate product and approval of a label for the control of various diseases in wheat, barley, oats, triticale, canola and pyrethrum
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154464
Chemical product name	Hortico Weed Killer 360 Concentrate
Distinguishing number of the chemical product	98091
Active constituent	360 g/L glyphosate present as the isopropylamine salt
Applicant name	Duluxgroup (Australia) Pty Ltd
Date of registration and label approval	2 October 2026
Distinguishing number of label	98091/154464
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 60 g/L glyphosate present as the isopropylamine salt aqueous concentrate product and approval of a label for killing weeds and grasses
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	151987
Product name	Coyote 240 EC Selective Herbicide
Active constituents	240 g/L clodinafop-propargyl, 60 g/L cloquintocet-mexyl
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	6 October 2026
Product registration no.	97139
Label approval no.	97139/151987
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 240 g/L clodinafop, 60 g/L cloquintocet-mexyl product, formulated as an emulsifiable concentrate (EC) for the control of wild oats, paradoxa grass (annual phalaris), canary grass, and annual ryegrass in wheat

Application no.	152019
Product name	Paclot 250 SC Plant Growth Regulator
Active constituent	250 g/L paclobutrazol
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	6 October 2026
Product registration no.	97155
Label approval no.	97155/152019
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 250 g/L paclobutrazol suspension concentrate to reduce vegetative growth in mango, stone fruit and apple trees

Application no.	152753
Product name	Swan Thiamethoxam 350 FS Insecticide Seed Treatment
Active constituent	350 g/L thiamethoxam
Applicant name	Swan Chemical Holdings Pty Ltd
Applicant ACN	669 863 067
Date of registration	6 October 2026
Product registration no.	97331
Label approval no.	97331/152753
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 350 g/L thiamethoxam suspension concentrate for seed treatment (FS) for the treatment of cereal seed (barley and wheat) and canola for the control of aphids and stored grain pests in stored cereal planting seed (barley, oats, triticale and wheat), and in cotton, maize, sweet corn, sorghum and sunflower seed to control various early season soil and sucking pests

Application no.	152754
Product name	Swan Ammonium Sulphate Spray Adjuvant
Active constituent	980 g/kg ammonium sulphate
Applicant name	Swan Chemical Holdings Pty Ltd
Applicant ACN	669 863 067
Date of registration	6 October 2026
Product registration no.	97332
Label approval no.	97332/152754
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 980 g/kg ammonium sulphate product, formulated as a granular formulation (GR) for to be used with glyphosate-based herbicides to minimise antagonism when tank mixed with flowable herbicides and to improve performance under adverse environmental conditions

Application no.	152869
Product name	Genfarm Clethodim 480 EC Herbicide
Active constituent	480 g/L clethodim
Applicant name	Nutrien Ag Solutions Limited
Applicant ACN	008 743 217
Date of registration	6 October 2026
Product registration no.	97367
Label approval no.	97367/152869
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 480 g/L clethodim product, formulated as an emulsifiable concentrate (EC) for the control of certain grass weeds in beetroot, cabbage, canola, celery, cotton, forestry, lettuce, non-bearing fruit trees, onions, ornamentals, peanuts, pulses (including adzuki beans, broad beans, chickpeas, faba beans, field peas, lentils, lupins and mung beans), potatoes, soybeans, and pasture legume (lucerne, clover and medic) seed crops and pastures (including pastures containing chicory and plantain)

Application no.	154247
Chemical product name	ALBAUGH SPERTO 680 EC Herbicide B
Distinguishing number of the chemical product	97975
Active constituent	680 g/L 2,4-D present as the 2-ethylhexyl ester
Applicant name	Albaugh Australia Pty Ltd
Date of registration and label approval	6 October 2026
Distinguishing number of label	97975/154247
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 680 g/L 2,4-D present as the 2-ethylhexyl ester emulsifiable concentrate (EC) product and approval of a label for selective control of various weeds in crops, pastures and non-agricultural areas
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153719
Chemical product name	Yates Lawn Weed Killer Buffalo Bindii & Clover A
Distinguishing number of the chemical product	97725
Active constituents	15 g/L bromoxynil as the n-octanoyl ester, 15 g/L MCPA as the ethyl hexyl ester
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	6 October 2026
Distinguishing number of label	97725/153719
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 15 g/L bromoxynil (as the n-octanoyl ester) and 15 g/L MCPA (as the ethyl hexyl ester) liquid product and approval of a label for use as a home garden lawn herbicide
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153720
Chemical product name	Yates Lawn Weed Killer Buffalo Bindii & Clover B
Distinguishing number of the chemical product	97726
Active constituents	15 g/L bromoxynil as the n-octanoyl ester, 15 g/L MCPA as the ethyl hexyl ester
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	6 October 2026
Distinguishing number of label	97726/153720
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 15 g/L bromoxynil (as the n-octanoyl ester) and 15 g/L MCPA (as the ethyl hexyl ester) liquid product and approval and approval of label for use as a home garden lawn herbicide
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154986
Chemical product name	Farmalinx Parquat 250 Herbicide
Distinguishing number of the chemical product	98293
Active constituents	250 g/L paraquat present as paraquat dichloride
Applicant name	Farmalinx Pty Ltd
Date of registration and label approval	6 October 2026
Distinguishing number of label	98293/154986
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 250 g/L paraquat present as paraquat dichloride soluble concentrate product for control of certain range of grasses and broadleaf weeds
Statement of the conditions of the registration that directly regulate the use of the product	This product must be supplied in a container that is sealed with a fitting compatible with enclosed mixing and loading systems capable of preventing contact between the contents of the container and users of the product during loading of the chemical into the application mechanism

Application no.	154111
Chemical product name	Genero 600 Flowable Seed Dressing Insecticide
Distinguishing number of the chemical product	97890
Active constituent	600 g/L imidacloprid
Applicant name	Echem (Aust) Pty Limited
Date of registration and label approval	6 October 2026
Distinguishing number of label	97890/154111
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 600 g/L imidacloprid and approval of a label for a suspension concentrate for seed treatment (FS) product for the control of thrips, aphids, brown flea beetle and wireworms on cotton, protection of canola, pastures and lupins from damage by red legged earth mite and blue oat mite; control of aphids and prevention of spread of barley yellow dwarf virus in cereal crops; control of some soil pests of summer crops
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154522
Chemical product name	Kelpie Promix 550 Gly Herbicide
Distinguishing number of the chemical product	98115
Active constituent	550 g/L glyphosate as the potassium and monoethanolamine salts
Applicant name	Sinochem International Australia Pty. Ltd.
Date of registration and label approval	6 October 2026
Distinguishing number of label	98115/154522
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 550 g/L glyphosate (present as the potassium salt and monoethanolamine salts) soluble concentrate (SL) product for the control of many annual and perennial weeds
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154433
Chemical product name	Yates Home Pest BLITZEM! Ant Flea & Tick Killer Fast Action
Distinguishing number of the chemical product	98075
Active constituent	2 g/kg bifenthrin
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	6 October 2026
Distinguishing number of label	98075/154433
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 2 g/kg bifenthrin granular formulation (GR) product and approval of a label for the control of ants, fleas and ticks in domestic situations
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154564
Chemical product name	Brunnings Glyphosate 360 Weed Kill
Distinguishing number of the chemical product	98139
Active constituents	360 g/L glyphosate present as the isopropylamine salt
Applicant name	Brunnings Garden Products Pty Ltd
Date of registration and label approval	6 October 2026
Distinguishing number of label	98139/154564
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 360 g/L glyphosate present as the isopropylamine salt soluble concentrate and approval of label to control weeds and grasses in the home garden and in commercial areas
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153721
Chemical product name	Galigan 500 SC Herbicide B
Distinguishing number of the chemical product	97727
Active constituent	500 g/L oxyfluorfen
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	6 October 2026
Distinguishing number of label	97727/153721
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration and approval of a label for a 500 g/L oxyfluorfen product for control of certain grasses and broadleaf weeds in Duboisia, forestry, industrial areas, non-crop situations, ornamental trees, roadside, rail and rights-of-way
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154559
Chemical product name	CropSure Imi-Duo Herbicide
Distinguishing number of the chemical product	98137
Active constituents	33 g/L imazamox as the ammonium salt, 15 g/L imazapyr present as the ammonium salt
Applicant name	CropSure Pty Ltd
Date of registration and label approval	6 October 2026
Distinguishing number of label	98137/154559
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 33 g/L imazamox present as the ammonium salt and 15 g/L imazapyr present as the ammonium salt, soluble concentrate product for the early post-emergence control of certain annual grass and broadleaf weeds in imidazolinone herbicide tolerant wheat, barley and approval of a label
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153794
Chemical product name	F.S.A. LV Ester 680 Herbicide B
Distinguishing number of the chemical product	97764
Active constituent	680 g/L 2,4-D present as the 2 ethylhexyl ester
Applicant name	Four Seasons Agribusiness Pty Ltd
Date of registration and label approval	6 October 2026
Distinguishing number of label	97764/153794
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 680 g/L 2,4-D present as the 2 ethylhexyl ester emulsifiable concentrate product and approval of a label for selective control of various weeds in crops, pastures and non-agricultural areas
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153815
Chemical product name	F.S.A. MCPA 750 Herbicide B
Distinguishing number of the chemical product	97781
Active constituent	750 g/L MCPA present as the dimethylamine salt
Applicant name	Four Seasons Agribusiness Pty Ltd
Date of registration and label approval	6 October 2026
Distinguishing number of label	97781/153815
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 750 g/L MCPA (present as the dimethylamine salt) product and approval of a label for the control of broadleaf weeds in cereals, linseed, pastures, rice, sugar cane and turf
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154036
Chemical product name	SPRAY.SEED 250 Herbicide
Distinguishing number of the chemical product	97858
Active constituents	135 g/L paraquat present as paraquat dichloride, 115 g/L diquat present as diquat dibromide
Applicant name	Syngenta Australia Pty Ltd
Date of registration and label approval	7 October 2026
Distinguishing number of label	97858/154036
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 135 g/L paraquat present as paraquat dichloride and 115 g/L diquat present as diquat dibromide soluble concentrate product for control of a range of grasses and broadleaf weeds
Statement of the conditions of the registration that directly regulate the use of the product	This product must be supplied in a container that is sealed with a fitting compatible with enclosed mixing and loading systems capable of preventing contact between the contents of the container and users of the product during loading of the chemical into the application mechanism

Application no.	153818
Chemical product name	F.S.A. MCPA LVE 570 Herbicide B
Distinguishing number of the chemical product	97783
Active constituent	570 g/L MCPA present as the 2-ethylhexyl ester
Applicant name	Four Seasons Agribusiness Pty Ltd
Date of registration and label approval	7 October 2026
Distinguishing number of label	97783/153818
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 570 g/L MCPA (present as the 2-ethylhexyl ester) product and approval of a label for selective control of certain weeds in agricultural crops
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153722
Chemical product name	F.S.A. 2,4DB Herbicide B
Distinguishing number of the chemical product	97728
Active constituent	500 g/L 2,4-DB present as the dimethylamine salt
Applicant name	Four Seasons Agribusiness Pty Ltd
Date of registration and label approval	7 October 2026
Distinguishing number of label	97728/153722
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 500 g/L 2,4DB soluble concentrate product for the control of broadleaf weeds in seedling and established lucerne, medic and clover pastures, peanuts and cereal crops under-sown with lucerne, medic or clover
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153350
Chemical product name	Scotts Lawn Builder + Weed Kill
Distinguishing number of the chemical product	97506
Active constituents	10.3 g/kg 2,4-D as acid, 10.3 g/kg mecoprop, 0.7 g/kg dicamba
Applicant name	Evergreen Garden Care Australia Pty Ltd
Date of registration and label approval	7 October 2026
Distinguishing number of label	97506/153350
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 10.3 g/kg 2,4-D, 10.3 g/kg mecoprop and 0.7 g/kg dicamba granular product and approval of label for control of common broadleaf weeds in home garden lawns
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153783
Chemical product name	Yates Weed 'n' Feed Weed Killer & Lawn Fertiliser Concentrate A
Distinguishing number of the chemical product	97754
Active constituents	15 g/L MCPA as the dimethylamine salt, 2.3 g/L dicamba as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	7 October 2026
Distinguishing number of label	97754/153783
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 15 g/L MCPA (as the dimethylamine salt) and 2.3 g/L dicamba (as the dimethylamine salt) soluble concentrate product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153786
Chemical product name	Yates Weed 'n' Feed Weed Killer & Lawn Fertiliser Concentrate B
Distinguishing number of the chemical product	97757
Active constituents	15 g/L MCPA as the dimethylamine salt, 2.3 g/L dicamba as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	7 October 2026
Distinguishing number of label	97757/153786
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 15 g/L MCPA (as the dimethylamine salt) and 2.3 g/L dicamba (as the dimethylamine salt) soluble concentrate product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153734
Chemical product name	Yates Weed 'n' Feed Weed Killer & Lawn Fertiliser Concentrate C
Distinguishing number of the chemical product	97736
Active constituents	15 g/L MCPA as the dimethylamine salt, 2.3 g/L dicamba as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	7 October 2026
Distinguishing number of label	97736/153734
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 15 g/L MCPA (as the dimethylamine salt) and 2.3 g/L dicamba (as the dimethylamine salt) soluble concentrate product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153790
Chemical product name	Yates Weed 'n' Feed Weed Killer & Lawn Fertiliser Concentrate D
Distinguishing number of the chemical product	97761
Active constituents	15 g/L MCPA as the dimethylamine salt, 2.3 g/L dicamba as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	7 October 2026
Distinguishing number of label	97761/153790
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 15 g/L MCPA (as the dimethylamine salt) and 2.3 g/L dicamba (as the dimethylamine salt) soluble concentrate product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153749
Chemical product name	Yates Weed 'n' Feed Weed Killer & Lawn Fertiliser Concentrate E
Distinguishing number of the chemical product	97738
Active constituents	15 g/L MCPA as the dimethylamine salt, 2.3 g/L dicamba as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	7 October 2026
Distinguishing number of label	97738/153749
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 15 g/L MCPA (as the dimethylamine salt) and 2.3 g/L dicamba (as the dimethylamine salt) soluble concentrate product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153767
Chemical product name	Yates Weed 'n' Feed Weed Killer & Lawn Fertiliser Concentrate F
Distinguishing number of the chemical product	97740
Active constituents	15 g/L MCPA as the dimethylamine salt, 2.3 g/L dicamba as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	7 October 2026
Distinguishing number of label	97740/153767
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 15 g/L MCPA (as the dimethylamine salt) and 2.3 g/L dicamba (as the dimethylamine salt) soluble concentrate product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153770
Chemical product name	Yates Weed 'n' Feed Weed Killer & Lawn Fertiliser Concentrate G
Distinguishing number of the chemical product	97742
Active constituents	15 g/L MCPA as the dimethylamine salt, 2.3 g/L dicamba as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	7 October 2026
Distinguishing number of label	97742/153770
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 15 g/L MCPA (as the dimethylamine salt) and 2.3 g/L dicamba (as the dimethylamine salt) soluble concentrate product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154568
Chemical product name	Ranman Fungicide
Distinguishing number of the chemical product	98141
Active constituent	400 g/L cyazofamid
Applicant name	Ishihara Sangyo Kaisha, Ltd
Date of registration and label approval	8 October 2026
Distinguishing number of label	98141/154568
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of and approval of a label for a 400 g/L cyazofamid suspension concentrate (SC) product for the control of various fungal diseases in certain crops
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153538
Chemical product name	Sabakem MCPA 750SL Herbicide
Distinguishing number of the chemical product	97623
Active constituent	750 g/L MCPA present as the dimethylamine salt
Applicant name	Sabakem Pty Ltd
Date of registration and label approval	8 October 2026
Distinguishing number of label	97623/153538
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 750 g/L MCPA present as the dimethylamine salt soluble concentrate product for the selective control of broadleaf weeds in cereals, linseed, pastures, rice, sugar cane and turf
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	155050
Chemical product name	Pestxpert DIY Pest Control Like the Professionals Pro-Spray Flying Multi-Insect Power Spray
Distinguishing number of the chemical product	98333
Active constituents	1.5 g/kg cyphenothrin, 1.5 g/kg d-tetramethrin
Applicant name	Sumitomo Chemical Australia Pty. Limited
Date of registration and label approval	8 October 2026
Distinguishing number of label	98333/155050
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 1.5 g/kg cyphenothrin and 1.5 g/kg d-tetramethrin aerosol product and approval of label for the control of flying insects
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154110
Chemical product name	Enforcer 75-D Herbicide A
Distinguishing number of the chemical product	97889
Active constituents	300 g/L 2,4-D as the triisopropanolamine salt, 75 g/L picloram as the triisopropanolamine salt
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	8 October 2026
Distinguishing number of label	97889/154110
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of and approval of label for a 300 g/L 2,4-D as the triisopropanolamine salt and 75 g/L picloram as the triisopropanolamine salt product for the control of a wide range of annual and perennial broadleaf weeds
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154664
Chemical product name	Apparent TebuPro 420 SC Fungicide
Distinguishing number of the chemical product	98171
Active constituents	210 g/L prothioconazole, 210 g/L tebuconazole
Applicant name	Titan Ag Pty Ltd
Date of registration and label approval	8 October 2026
Distinguishing number of label	98171/154664
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 210 g/L prothioconazole and 210 g/L tebuconazole suspension concentrate product for the control of various diseases in wheat, barley, oats, triticale, canola and pyrethrum
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153623
Chemical product name	Genfarm MCPA 750 Selective Herbicide B
Distinguishing number of the chemical product	97672
Active constituent	750 g/L MCPA present as the dimethylamine salt
Applicant name	Nutrien Ag Solutions Limited
Date of registration and label approval	8 October 2026
Distinguishing number of label	97672/153623
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of and approval of a label for 750 g/L MCPA dimethylamine salt product, formulated as a soluble concentrate herbicide, for the selective control of broadleaf weeds in cereals, linseed, pastures, sugar cane, rice, flax, turf and poppies
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154388
Chemical product name	Kelpie MCPA LVE 570 Herbicide
Distinguishing number of the chemical product	98061
Active constituent	570 g/L MCPA present as the 2-ethylhexyl ester
Applicant name	Sinochem International Australia Pty. Ltd.
Date of registration and label approval	9 October 2026
Distinguishing number of label	98061/154388
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 570 g/L MCPA present as the 2-ethylhexyl ester, emulsifiable concentrate (EC) product for the selective control of certain weeds in agricultural crops
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154341
Chemical product name	Kelpie Cleth-D 240 Herbicide
Distinguishing number of the chemical product	98046
Active constituent	240 g/L clethodim
Applicant name	Sinochem International Australia Pty Ltd
Date of registration and label approval	9 October 2026
Distinguishing number of label	98046/154341
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 240 g/L clethodim and emulsifiable concentrate product for the control of certain grass weeds in beetroot, cabbage, canola, celery, cotton, forestry, lettuce, non-bearing fruit trees, onions, ornamentals, peanuts, pulses (including azuki beans, broad beans, chickpeas, faba beans, field peas, lentils, lupins, and mung beans), potatoes, soybeans and pasture legume (lucerne, clover and medic), seed crops and pastures
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153637
Chemical product name	Palmero 750 WG Herbicide B
Distinguishing number of the chemical product	97683
Active constituent	750 g/kg isoxaflutole
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	9 October 2026
Distinguishing number of label	97683/153637
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration and approval of label for a 750 g/kg isoxaflutole product, for the control of various broadleaf weeds and grasses in sugarcane, chickpeas and fallow
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154216
Chemical product name	Devastate Glyphosate 550 Herbicide
Distinguishing number of the chemical product	97958
Active constituent	550 g/L glyphosate (present as the potassium and monoethanolamine salts)
Applicant name	Tollman Pty Ltd
Date of registration and label approval	9 October 2026
Distinguishing number of label	97958/154216
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of, and approval of a label for a 550 g/L glyphosate present as the potassium and monoethanolamine salts, soluble concentrate (SL) product for control of many annual and perennial weeds
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Table 2: Variations of registration – agricultural chemical products

Application no.	N/A – Variation under s29A
Product name	Simanex 900 WG Herbicide A
Active constituent	900 g/kg simazine
Applicant name	APVMA initiated variation
Date of variation	1 October 2026
Product registration no.	62917
Label approval no.	62917/107619V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of relevant particulars of a registered chemical product and label approval and label particulars for the control of weeds in a range of horticultural and broadacre crops, forestry and in non-crop situations

Application no.	N/A – Variation under s29A
Product name	Genfarm Flumioxazin 500 WG Herbicide
Active constituent	500 g/kg flumioxazin
Applicant name	APVMA initiated variation
Date of variation	1 October 2026
Product registration no.	88121
Label approval no.	88121/147171V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of relevant particulars of chemical product registration and label approval for a 400 g/L flumioxazin product, used for rapid knockdown and residual control of various grass and broadleaf weeds in a range of broadacre crops and fallow, to update the label to remove precautions relating to use in grapes

Application no.	152923
Product name	Bollgard 3
Active constituents	<i>Bacillus thuringiensis</i> subsp. <i>kurstaki</i> delta endotoxins as produced by the cry1ac and cry2ab genes and their controlling sequences <i>Bacillus thuringiensis</i> strain ab88 exotoxin as produced by the vip3a(a) gene and its controlling sequence
Applicant name	Monsanto Australia Pty Ltd
Applicant ACN	006 725 560
Date of variation	1 October 2026
Product registration no.	69656
Label approval no.	69656/152923
Description of the application and its purpose, including the intended use of the chemical product	Variation to product registration to amend the Bollgard 3 southern resistance Management Plan (Southern RMP) associated with the conditions of registration

Application no.	152497
Product name	Fulltec Max Spray Adjuvant
Active constituents	123.3 g/L phosphoric acid, 71.0 g/L anionic surfactant, 60.4 g/L non-ionic surfactant
Applicant name	Spraytec Australia Pty Ltd
Applicant ACN	633 431 964
Date of variation	2 October 2026
Product registration no.	93181
Label approval no.	93181/152497
Description of the application and its purpose, including the intended use of the chemical product	Variation to registration and label particulars to update directions for use and protection statements

Application no.	143102
Product name	Retain Plant Growth Regulator Soluble Powder
Active constituent	150 g/kg aminoethoxyvinylglycine present as the hydrochloride salt (avg)
Applicant name	Valent Biosciences a div of Sumitomo Chemical Australia
Applicant ACN	081 096 255
Date of variation	6 October 2026
Product registration no.	52453
Label approval no.	52453/143102
Description of the application and its purpose, including the intended use of the chemical product	Variation to particulars of label to include the use in avocado in Qld only for the increase of fruit set and fruit retention

Application no.	N/A – Variation under s29A
Product name	F.S.A. LV Ester 680 Herbicide
Active constituent	680 g/L 2,4-D present as the 2-ethylhexyl ester
Applicant name	APVMA initiated variation
Date of variation	7 October 2026
Product registration no.	87250
Label approval no.	87250/128405V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of a 680 g/L emulsifiable concentrate formulation of 2,4-D present as the 2 ethylhexyl ester and label approval for selective control of various weeds in crops, pastures and non-agricultural areas

Application no.	N/A – Variation under s29A
Product name	F.S.A. 24DB Herbicide
Active constituent	500 g/L 2,4-DB present as the dimethylamine salt
Applicant name	APVMA initiated variation
Date of variation	7 October 2026
Product registration no.	87501
Label approval no.	87501/118532V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of relevant particulars of registered chemical product and label approval and label particulars to update the Mode of Action and storage and disposal instructions for this product for the control of broadleaf weeds in seedling and established Lucerne, medic and clover pastures, peanuts and cereal crops undersown with Lucerne, medic or clover

Application no.	N/A – variation under section 29A of the AgVet Code
Product name	ACCENSI PARAQUAT 250 HERBICIDE
Active constituent	250 g/L paraquat present as paraquat dichloride
Applicant name	Australian Agribusiness (Holdings) Pty Ltd
Applicant ACN	135 355 958
Date of variation	14 October 2026
Product registration no.	51958
Label approval no.	51958/RV2026
Description of the application and its purpose, including the intended use of the chemical product	Variation of registration and label approval to comply with the outcomes of the paraquat reconsideration

Application no.	N/A – variation under section 29A of the AgVet Code
Product name	CHOICE PARAQUAT 250 HERBICIDE
Active constituent	250 g/L paraquat present as paraquat dichloride
Applicant name	GROW CHOICE PTY LTD
Applicant ACN	161 264 884
Date of variation	16 October 2026
Product registration no.	62096
Label approval no.	62096/RV2026
Description of the application and its purpose, including the intended use of the chemical product	Variation of registration and label approval to comply with the outcomes of the paraquat reconsideration

Veterinary chemical products and approved labels

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has registered or varied the relevant particulars or conditions of the registration in respect of the following products and has approved the label or varied the relevant particulars or conditions of the approval in respect of the containers for the chemical product, with effect from the dates shown.

Table 3: Veterinary products based on existing active constituents

Application no.	153040
Product name	Headway Amoxiclav 250 mg Tablets
Active constituents	Each tablet contains 200 mg amoxicillin (as trihydrate) and 50 mg clavulanic acid (as diluted potassium clavulanate)
Applicant name	Headway Investments Pty Ltd
Applicant ACN	655 095 855
Date of registration	1 October 2026
Product registration no.	97402
Label approval no.	97402/153040
Description of the application and its purpose, including the intended use of the chemical product	Registration and the approval of a label of an Amoxiclav 250 mg tablet product for use in cats and dogs for bacterial infections

Application no.	153364
Product name	DeltaX Pour-on for Cattle Lice and Fly Treatment
Active constituent	15 g/L deltamethrin
Applicant name	Abbey Laboratories Pty Ltd
Applicant ACN	156 000 430
Date of registration	2 October 2026
Product registration no.	97518
Label approval no.	97518/153364
Description of the application and its purpose, including the intended use of the chemical product	Registration and label approval of a 15 g/L deltamethrin pour-on solution product for the control of Stable Fly (<i>Stomoxys calcitrans</i>), House Fly (<i>Musca domestica</i>) and Lice (<i>Boophilus microplus</i> , <i>Linognathus vituli</i> and <i>Haematopinus eurysternus</i>) and synthetic pyrethroid susceptible Buffalo Fly (<i>Haematobia irritans exigua</i>) on beef and dairy cattle. For the control of synthetic pyrethroid susceptible Buffalo Fly (<i>Haematobia irritans exigua</i>) for up to 3 weeks and for the control of Stable Fly (<i>Stomoxys calcitrans</i>) for up to 1 week on horses

Application no.	154280
Product name	Swift Pour-on Lice Treatment for Sheep
Active constituents	35 mg/mL imidacloprid, 4 mg/mL abamectin
Applicant name	Nutrien Ag Solutions Limited
Applicant ACN	008 743 217
Date of registration	2 October 2026
Product registration no.	98006
Label approval no.	98006/154280
Description of the application and its purpose, including the intended use of the chemical product	Registration and label approval of a 35 mg/mL imidacloprid, 4 mg/mL abamectin pour-on solution product for the treatment and control of susceptible strains of lice (<i>Bovicola ovis</i>) on sheep, including synthetic pyrethroid resistant lice, when applied up to 7 days after shearing

Application no.	145184
Product name	Feliway Optimum Diffuser
Active constituent	16.2 mg/mL of a feline pheromones analogue complex
Applicant name	Ceva Animal Health Pty Ltd
Applicant ACN	002 692 426
Date of registration	8 October 2026
Product registration no.	95282
Label approval no.	95282/145184
Description of the application and its purpose, including the intended use of the chemical product	Registration of product Feliway Optimum Diffuser, containing 16.2 mg/mL of a feline pheromones analogue complex, to aid in reducing signs associated with fear, stress, tension, and conflict in kittens and cats

Application no.	152505
Product name	Abaplas Plus Pour-On Roundworm, Liver Fluke and External Parasiticide for Cattle
Active constituents	300 mg/mL triclabendazole, 5 mg/mL abamectin
Applicant name	Nutrien Ag Solutions Limited
Applicant ACN	008 743 217
Date of registration	8 October 2026
Product registration no.	97263
Label approval no.	97263/152505
Description of the application and its purpose, including the intended use of the chemical product	Registration and label approval of a 300 mg/mL triclabendazole, 5 mg/mL abamectin pour-on suspension product for the treatment and control of roundworms, liver fluke (all 3 stages) and external parasites of beef cattle

Table 4: Variations of registration – veterinary chemical products

Application no.	155369
Product name	Flockstar Lousicide Pour-on For Sheep
Active constituent	35 g/L imidacloprid
Applicant name	Alleva Animal Health Ltd
Applicant ACN	N/A
Date of variation	14 September 2026
Product registration no.	93236
Label approval no.	93236/155369
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'Flockstar Lousicide for Sheep Spray-On Pour-On' to 'Flockstar Lousicide Pour-On for Sheep'

Application no.	155426
Product name	Fusion Dual Active Pour-on For Cattle
Active constituents	200 mg/mL levamisole, 10 mg/mL abamectin
Applicant name	Alleva Animal Health Ltd
Applicant ACN	633216396
Date of variation	17 September 2026
Product registration no.	91495
Label approval no.	91495/155426
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'Beefboss Fusion Combination Pour-On for Cattle' to 'Fusion Dual Active Pour-on For Cattle'

Application no.	153454
Product name	Depo-Medrol 40 mg/mL Injectable Corticosteroid
Active constituent	40 mg/mL methylprednisolone acetate
Applicant name	Zoetis Australia Pty Ltd
Applicant ACN	156 476 425
Date of variation	29 September 2026
Product registration no.	38689
Label approval no.	38689/153454
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of product and label approval by updating the contraindications and side effects

Application no.	155633
Product name	Abbeyflor Premix Concentrate
Active constituent	1000 g/kg florfenicol
Applicant name	Abbey Laboratories Pty Ltd
Applicant ACN	156 000 430
Date of variation	29 September 2026
Product registration no.	81128
Label approval no.	81128/155633
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from 'Abbeyflor Premix Concentrate for Pigs' to 'Abbeyflor Premix Concentrate'

Application no.	149301
Product name	Paracox-5 Anticoccidial Vaccine for Chickens
Active constituents	Each dose of 0.004 mL vaccine contains the following numbers of live sporulated oocysts derived from five precocious lines of coccidia: ≥ 500 oocysts/dose <i>Eimeria acervulina</i> HP, ≥ 200 oocysts/dose <i>Eimeria maxima</i> CP, ≥ 100 oocysts/dose <i>Eimeria maxima</i> MFP, ≥ 1000 oocysts/dose <i>Eimeria mitis</i> HP, ≥ 500 oocysts/dose <i>Eimeria tenella</i> HP
Applicant name	Intervet Australia Pty Limited
Applicant ACN	008 467 034
Date of variation	8 October 2026
Product registration no.	62055
Label approval no.	62055/149301
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the product registration and label approval by updating the label to align with the current Veterinary Labelling Code

Application no.	149290
Product name	Paracox -8 Anticoccidial Vaccine for Chickens
Active constituents	Each dose of 0.004 mL vaccine contains the following numbers of live sporulated oocysts derived from eight precocious lines of coccidia: ≥ 500 oocysts <i>Eimeria acervulina</i> HP, ≥ 100 oocysts <i>Eimeria brunetti</i> HP, ≥ 200 oocysts <i>Eimeria maxima</i> CP, ≥ 100 oocysts <i>Eimeria maxima</i> MFP, ≥ 1000 oocysts <i>Eimeria mitis</i> HP, ≥ 500 oocysts <i>Eimeria necatrix</i> HP, ≥ 100 oocysts <i>Eimeria praecox</i> HP, ≥ 500 oocysts <i>Eimeria tenella</i> HP
Applicant name	Intervet Australia Pty Limited
Applicant ACN	008 467 034
Date of variation	8 October 2026
Product registration no.	61990
Label approval no.	61990/149290
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the product registration and label approval by updating the label to align with the current Veterinary Labelling Code

Application no.	153484
Product name	Ilium Gentam 100 Injectable Gentamicin Solution
Active constituent	100 mg/mL gentamicin (as the gentamicin sulfate)
Applicant name	Troy Laboratories Pty Ltd
Applicant ACN	000 283 769
Date of variation	9 October 2026
Product registration no.	46373
Label approval no.	46373/153484
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of a registered chemical product and label approval by updating the side effects

Approved active constituents

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has approved or varied the relevant particulars or conditions of the approval of the following active constituents, with effect from the dates shown.

Table 5: Approved active constituents

Application no.	150006
Active constituent	Fipronil
Applicant name	BASF Australia Ltd
Applicant ACN	008 437 867
Date of approval	30 September 2026
Approval no.	96604
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent fipronil for use in agricultural chemical products

Licensing of veterinary chemical manufacturers

Pursuant to Part 8 of the Agricultural and Veterinary Chemicals Code (Agvet Code), scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has taken action with respect to the licensing of the following veterinary chemical manufacturers with effect from the dates shown.

For a comprehensive listing of all licensed manufacturers please see the [APVMA website](#).

New licenses

The APVMA has issued the following licenses under subsection 123(1) of the Agvet Code:

Table 6: New licenses issued by the APVMA under subsection 123(1) of the Agvet Code

Company name	Licence number	Company ACN	Address	Product types	Steps of manufacture	Date issued
SD & TM Pty Ltd acting as trustee for Chem-Chrom Laboratories and Services	6208	605 216 840	Unit 15, 10-12 Montore Road Minto NSW 2566	Category 6: All dosage forms	Analysis and testing (physical, and chemical).	26 August 2026
Troy Laboratories Pty Ltd	1092	000 283 769	37 Glendenning Road Glendenning NSW 2761	Category 1: Sterile products and terminally sterilised ointment Category 2: Tablets, creams / lotions, ointments, gels, pastes, sprays, suspensions and liquids Category 3: Liquids and sprays	Quality assurance (QA) of raw materials, formulation including blending, granulation, dry milling, wet milling, aseptic filling, filling, packaging, secondary packaging, labelling, secondary labelling, tableting, sterilisation (heat and filtration), microbiological reduction treatment (filtration and chemical), analysis and testing (physical, chemical, microbiological, and endotoxin), storage, and release for supply.	25 September 2026
Summerland Serums Pty Ltd	1083	122 400 908	192 Dalwood Road Alstonville NSW 2477	Category 1: Immunobiologicals	Quality assurance (QA) of raw materials, management and immunisation of donor animals, serum collection, formulation including blending, aseptic filling, packaging, labelling, sterilisation (heat, and filtration), microbiological reduction treatment (heat, and filtration), analysis and testing (physical), storage, and release for supply.	30 September 2026

Licence cancellations

The APVMA has cancelled the following licenses under subsection 127(1) of the Agvet Code:

Table 7: Licenses cancelled by the APVMA under subsection 127(1) of the Agvet Code

Company name	Licence number	Company ACN	Address	Date cancelled
MPV Packaging Pty Ltd	6190	162 981 973	Unit 4/4 Skyline Place Frenchs Forest NSW 2086	8 October 2026

Prescribed date for payment of levy

Pursuant to section 6(1)(c) of the *Agricultural and Veterinary Chemical Products (Collection of Levy) Act 1994* notice is hereby given that for the financial years specified below, the prescribed date for payment of any levy that is payable is the one provided in column 2.

Pursuant to section 6(1)(d) of the *Agricultural and Veterinary Chemical Products (Collection of Levy) Act 1994* notice is hereby given, that the levy amount payable is the levy amount generated from the leviable disposal in respect of the specified financial year.

Further, it is directed under section 6(1)(d) that interested persons have the option to make payment of the entire levy payable in full by the date provided in column 2 or nominate to pay the levy amount in two instalments of 50% of the total levy, with the first instalment amount payable by the date provided in column 2 or and the second instalment amount payable by the date provided in column 3. If payment of the levy is made by instalments by the specified dates, then the levy will be taken to have been paid by the prescribed date for payment for specified financial year.

Item	Column 1 Financial year	Column 2 Date for payment	Column 3 Date for payment by instalments of balance of levy
1	Financial year beginning on 1 July 2025	15 January 2027	15 March 2027
2	Financial year beginning on 1 July 2026	15 January 2028	15 March 2028
3	Financial year beginning on 1 July 2027	15 January 2029	15 March 2029

Amendments to the APVMA MRL Standard

The Australian Pesticides and Veterinary Medicines Authority (APVMA) approves maximum residue limits (MRLs) of agricultural and veterinary chemicals in agricultural produce, particularly produce entering the food chain. The MRLs approved by the APVMA are associated with a regulatory decision to register a product, grant a permit approval, or as an outcome from a review decision and are set out in the *Agricultural and Veterinary Chemicals (MRL Standard for Residues of Chemical Products) Instrument 2023*. The *MRL Standard* lists MRLs of substances that may arise from the approved use of agricultural and veterinary chemical products containing those substances on commodities used for human consumption as well as livestock feeds. The *MRL Standard* also provides the relevant residue definitions to which these MRLs apply. There may be situations where the residue definition for monitoring and enforcement is different to the definition used for dietary risk assessment purposes.

MRLs are set at levels which are not likely to be exceeded if the agricultural or veterinary chemicals are used in accordance with approved label instructions. In considering MRLs and variation to MRLs, the APVMA takes into account studies on chemistry, metabolism, analytical methodology, residues, toxicology, good agricultural practice and dietary exposure. In approving MRLs, the APVMA is satisfied, from dietary exposure assessment, that the levels set are not an undue hazard to human health.

The APVMA has amended the *MRL Standard* and the changes will have affect the day after the instrument is registered.

Details of the amendment can be found in the *Agricultural and Veterinary Chemicals (MRL Standard for Residues of Chemical Products) Amendment Instrument (No. 5) 2026*.

The amendments will be incorporated into the compilation of the *Agricultural and Veterinary Chemicals (MRL Standard for Residues of Chemical Products) Instrument 2023*.

The MRL Standard is accessible via the [Federal Register of Legislation website](#).

Proposal to amend Schedule 20 in the Australian New Zealand Food Standards Code

In the previous notice on page 53 of APVMA Gazette No. 21, the APVMA gazetted amendments which it has approved to vary maximum residue limits (MRLs) for substances contained in agricultural and veterinary chemical products as set out in the APVMA's MRL Standard.

Under section 82 of the *Food Standards Australia New Zealand Act 1991*, the APVMA is proposing to incorporate those variations Agricultural and Veterinary Chemicals (MRL Standard for Residues of Chemical Products) Amendment Instrument (No. 5) 2026 to MRLs into Schedule 20 – Maximum residue limits in the Australia New Zealand Food Standards Code.

MRLs contained in Schedule 20 provide the limits for residues of agricultural and veterinary chemicals that may legitimately occur in foods. By this means Schedule 20 permits the sale of treated foods and protects public health and safety by minimising residues in foods consistent with the effective control of pests and diseases.

The APVMA and Food Standards Australia New Zealand (FSANZ) are satisfied, based on dietary exposure assessments and current health standards, that the proposed limits are not harmful to public health.

The agreement between the Australian Government and the New Zealand Government concerning a Joint Food Standards System excludes MRLs for agricultural and veterinary chemicals in food from the system setting joint food standards. Australia and New Zealand independently and separately develop MRLs for agricultural and veterinary chemicals in food.

A Sanitary and Phytosanitary (SPS) notification to the World Trade Organization (WTO) will be made.

The APVMA invites comment on these proposals. Details on how to make a submission appear near the end of this notice, below the details of the proposed amendment.

The APVMA will consider any public comments made in response to this proposal. If the APVMA decides to proceed with the proposal, it will further notify any variations it makes to Schedule 20 in the APVMA Gazette. The variations will take effect as from the date of that subsequent notice.

Proposed variation to Schedule 20 in the Australia New Zealand Food Standards Code

20 October 2026

Note: Subsection 82(2) of the *Food Standards Australia New Zealand Act 1991* provides that variations to standards are legislative instruments, but are not subject to disallowance or sunseting.

To commence: on gazettal of variation

Schedule 20 Maximum Residue Limits

[1] Section S20—3 (table entry for Agvet chemical: Cyazofamid)

Repeal:	
Ginger, root	T*0.01

Substitute:	
Ginger, root	T0.1

[2] Section S20—3 (table entry for Agvet chemical: Metalaxyl)

Repeal:	
Strawberry	0.6

Substitute:	
Strawberry	T2

Invitation for submissions

Written submissions are invited from interested individuals and organisations to assist the APVMA in considering the proposal to vary Schedule 20 – Maximum residue limits in the Australia New Zealand Food Standards Code.

Submissions should be strictly confined to relevant matters that the APVMA must consider (such as public health and safety) which are associated with the occurrence of the proposed residues in foods. Comments received outside these grounds will not be considered by the APVMA.

Claims made in submissions should be supported wherever possible by referencing or including relevant studies, research findings, trials and surveys. Technical information should be in sufficient detail to allow independent scientific assessment.

Submissions must be made in writing and should be clearly marked as a 'submission on the proposed amendment to Schedule 20' and quote the correct amendment number.

Deadline for public submissions

Submissions must be received by 17 November 2026 (28 days from date Gazette published). Submissions received after this deadline will only be considered by prior arrangement or if agreement for an extension has been given prior to this closing date. Agreement to an extension of time will only be given if extraordinary circumstances warrant an extension to the submission period.

Please note: submissions will be published on the APVMA's website, unless you have asked for the submission to remain confidential, or if the APVMA chooses at its discretion not to publish any submissions received (refer to the [public consultation coversheet](#)).

Please lodge your submission using the [public consultation coversheet](#), which provides options for how your submission will be published.

Note that all APVMA documents are subject to the access provisions of the *Freedom of Information Act 1982* and may be required to be released under that Act should a request for access be made.

Agvet chemical voluntary safety recall: COUNTER 150G Granular Soil Insecticide/Nematicide (20 kg)

Product name: COUNTER 150G Granular Soil Insecticide/Nematicide

APVMA registration number: 33300

APVMA approved label number: 106323

Batch numbers: C003R20260401, C003R20260402, C002R20260402, C001R20260402, C003R20260413, C004R20260413, C002R20260414, C003R20260414, C003R20260529, SEPCLNL1509261

Sold by: AgNova Technologies Pty Ltd in New South Wales and Queensland between 10 April 2026 to 14 October 2026.

On 14 October 2026, AgNova Technologies Pty Ltd, (ACN: 097 705 158) initiated a voluntary safety recall under section 106 of the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* (Cth) in relation to the chemical product described above.

Reason for voluntary safety recall

Some Lock'N Load 20 kg containers have been found to have loose closure (connection) valves, which may dislodge during handling of the product.

Hazard

The closure (connection) valves on the affected Lock'N Load 20 kg containers may dislodge with handling, especially when inverting the container to attach to application machinery. Therefore, there is a risk of spillage and may present an exposure hazard to persons handling the product.

What to do if in possession of this chemical product

DO NOT use any Lock'N Load 20 kg containers of COUNTER 150G Granular Soil Insecticide/Nematicide from the above-mentioned batches.

Wearing PPE as stated on the label, quarantine any containers in a locked pesticide storage area and contact AgNova Technologies for instructions for collection and refund or replacement of product.

More information

Visit the APVMA website to [view the notice](#) of voluntary safety recall for the chemical product described above.

The APVMA publishes a list of [agvet chemical recall notices](#) on its website and provides a [subscription option](#) to be notified by email when a new recall notice is published.
