Agricultural and veterinary chemicals

No. APVMA 23, Tuesday 17 November 2026

Published by the Australian Pesticides and Veterinary Medicines Authority

Australian Government

Australian Pesticides and Veterinary Medicines Authority

The *Agricultural and Veterinary Chemical Code Act 1994* (the Act) commenced on 15 March 1995. The Agricultural and Veterinary Chemicals Code (the Agvet Code) scheduled to the Act requires notices to be published in the *Gazette* containing details of the registration of agricultural and veterinary chemical products and other approvals granted by the Australian Pesticides and Veterinary Medicines Authority. The Agvet Code and related legislation also requires certain other notices to be published in the *Gazette*. A reference to Agvet Codes in this publication is a reference to the Agvet Code in each state and territory jurisdiction.

General information

The APVMA Gazette is published fortnightly and contains details of the registration of agricultural and veterinary chemicals products and other approvals granted by the APVMA, notices as required by the Agricultural and Veterinary Chemicals Code (the Agvet Code) and related legislation and a range of regulatory material issued by the APVMA.

Pursuant to section 8J(1) of the Agvet Code, the APVMA has decided that it is unnecessary to publish details of applications made for the purpose of notifying minor variations to registration details. The APVMA will however report notifications activity in quarterly statistical reports.

Distribution and subscription

The APVMA Gazette is published in electronic format only and is available from the APVMA website.

If you would like to subscribe to receive email notification when a new edition is published, please complete a subscription form.

APVMA contacts

For enquiries regarding the publishing and distribution of the APVMA Gazette: Telephone: +61 2 6770 2300.

For enquiries on APVMA Gazette content, please refer to the individual APVMA contacts listed under each notice.

Notice of end of registration of chemical products 62

Agricultural chemical products and approved labels

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has registered or varied the relevant particulars or conditions of the registration in respect of the following products and has approved the label or varied the relevant particulars or conditions of the approval in respect of the containers for the chemical product, with effect from the dates shown.

The APVMA is implementing some changes to the way that we give this notice. While implementation occurs, there will be differences in how decisions appear in the tables below.

Table 1: Agricultural products based on existing active constituents

Application no.	150821
Product name	Agro-Essence Diuron 900 WG Herbicide
Active constituent	900 g/kg diuron
Applicant name	Agro-Alliance (Australia) Pty Ltd
Applicant ACN	130 864 603
Date of registration	21 October 2026
Product registration no.	96849
Label approval no.	96849/150821
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 900 g/kg diuron product, formulated as a water-dispersible granule (WG) for control of weeds in asparagus, bananas, cereals, cotton, lupins, sugar cane, fallow and non-crop situations

Application no.	149558
Chemical product name	Pool Flow Lithium Core - Liquid Lithium
Distinguishing number of the chemical product	96505
Active constituent	50 g/L chlorine present as lithium hypochlorite
Applicant name	Bond Chemicals Pty Ltd
Date of registration and label approval	26 October 2026
Distinguishing number of label	96505/149558
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of an aqueous solution formulation for control of bacteria, viruses, and protozoa in swimming pools and spas
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153852
Chemical product name	Sumitomo Status 240 EC Herbicide
Distinguishing number of the chemical product	97810
Active constituent	240 g/L clethodim
Applicant name	Sumitomo Chemical Australia Pty. Limited
Date of registration and label approval	27 October 2026
Distinguishing number of label	97810/153852
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 240 g/L clethodim EC product for the control of certain grass weeds in beetroot, cabbage, canola, celery, cotton, forestry, lettuce, non-bearing fruit trees, onions, ornamentals, peanuts, pulses (including adzuki beans, broad beans, chickpeas, faba beans, field peas, lentils, lupins and mung beans), potatoes, soybeans and pasture legume (lucerne, clover and medic) seed crops (and pastures)
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154362
Chemical product name	Status 240 EC Herbicide
Distinguishing number of the chemical product	98057
Active constituents	240 g/L clethodim
Applicant name	Sumitomo Chemical Australia Pty. Limited
Date of registration and label approval	27 October 2026
Distinguishing number of label	98057/154362
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 240 g/L clethodim EC product for the control of certain grass weeds in beetroot, cabbage, canola, celery, cotton, forestry, lettuce, non-bearing fruit trees, onions, ornamentals, peanuts, pulses (including adzuki beans, broad beans, chickpeas, faba beans, field peas, lentils, lupins and mung beans), potatoes, soybeans and pasture legume (lucerne, clover and medic) seed crops (and pastures)
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154644
Chemical product name	Sumitomo Status EC Herbicide
Distinguishing number of the chemical product	98160
Active constituent	240 g/L clethodim
Applicant name	Sumitomo Chemical Australia Pty. Limited
Date of registration and label approval	27 October 2026
Distinguishing number of label	98160/154644
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 240 g/L clethodim EC product for the control of certain grass weeds in beetroot, cabbage, canola, celery, cotton, forestry, lettuce, non-bearing fruit trees, onions, ornamentals, peanuts, pulses (including adzuki beans, broad beans, chickpeas, faba beans, field peas, lentils, lupins and mung beans), potatoes, soybeans and pasture legume (lucerne, clover and medic) seed crops (and pastures)
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153798
Chemical product name	Wyn Pinoxaden 100EC Herbicide
Distinguishing number of the chemical product	97768
Active constituents	100 g/L pinoxaden, 25 g/L cloquintocet-mexyl
Applicant name	Zhejiang Xinan Chemical Industrial Group Co., Ltd
Date of registration and label approval	27 October 2026
Distinguishing number of label	97768/153798
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 100 g/L EC pinoxaden product and approval of a label for herbicide application on wheat and barley
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154260
Chemical product name	Homeguard DPC Termite Moisture Barrier Red
Distinguishing number of the chemical product	97986
Active constituent	1 g/kg bifenthrin
Applicant name	2022 Environmental Science AU Pty Ltd
Date of registration and label approval	27 October 2026
Distinguishing number of label	97986/154260
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration and approval of label for a 1 g/kg bifenthrin solid product for protection of structures from concealed termite entry
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154311
Chemical product name	Roundup Selective Lawn Weedkiller for Lawns A
Distinguishing number of the chemical product	98025
Active constituents	2.14 g/L MCPA present as the dimethylamine salt, 0.5 g/L fluroxypyr present as the methyl heptyl ester, 0.18 g/L dicamba present as the dimethylamine salt
Applicant name	Evergreen Garden Care Australia Pty Ltd
Date of registration and label approval	27 October 2026
Distinguishing number of label	98025/154311
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 2.14 g/L MCPA present as the dimethylamine salt, 0.5 g/L fluroxypyr present as the methyl heptyl ester, 0.18 g/L dicamba present as the dimethylamine salt AL product and approval of a label for lawn weed control in the home garden
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154312
Chemical product name	Roundup Selective Lawn Weedkiller for Lawns B
Distinguishing number of the chemical product	98026
Active constituents	2.14 g/L MCPA present as the dimethylamine salt, 0.5 g/L fluroxypyr present as the methyl heptyl ester, 0.18 g/L dicamba present as the dimethylamine salt
Applicant name	Evergreen Garden Care Australia Pty Ltd
Date of registration and label approval	27 October 2026
Distinguishing number of label	98026/154312
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 2.14 g/L MCPA present as the dimethylamine salt, 0.5 g/L fluroxypyr present as the methyl heptyl ester, 0.18 g/L dicamba present as the dimethylamine salt AL product and approval of a label for lawn weed control in the home garden
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154324
Chemical product name	Platinum Xtra 360 Herbicide - B
Distinguishing number of the chemical product	98035
Active constituent	360 g/L clethodim
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	27 October 2026
Distinguishing number of label	98035/154324
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of Platinum Xtra 360 Herbicide - B and approval of label for the control of certain grass weeds in beetroot, cabbage, canola, celery, cotton, forestry, lettuce, non-bearing fruit trees, onions, ornamentals, peanuts, pulses (including adzuki beans, broad beans, chickpeas, faba beans, field peas, lentils, lupins and mung beans), potatoes, soybeans and pasture legume (lucerne, clover and medic), seed crops (and pastures) as per the Directions for Use table
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153827
Chemical product name	Valor Eze SC Herbicide
Distinguishing number of the chemical product	97789
Active constituent	480 g/L flumioxazin
Applicant name	Sumitomo Chemical Australia Pty Limited
Date of registration and label approval	27 October 2026
Distinguishing number of label	97789/153827
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 480 g/L flumioxazin SC product and approval of label for knockdown and residual control of broadleaf weeds and grasses in a range of broadacre crops and fallow, and in non-crop situations
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	155046
Chemical product name	Uragan WG Herbicide A
Distinguishing number of the chemical product	98329
Active constituent	800 g/kg bromacil
Applicant name	ADAMA Australia Pty Limited
Date of registration and label approval	27 October 2026
Distinguishing number of label	98329/155046
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of an 800 g/kg bromacil WG product and approval of label for the control of certain annual broadleaved weeds and grasses in citrus, pineapples, asparagus and in commercial and industrial areas, rights of way and around agricultural buildings
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	155539
Chemical product name	Surefire Multi Turf Herbicide
Distinguishing number of the chemical product	98519
Active constituents	300 g/L MCPA present as the potassium salt, 20 g/L clopyralid present as the potassium salt 15 g/L diflufenican
Applicant name	PCT Holdings Pty Ltd
Date of registration and label approval	27 October 2026
Distinguishing number of label	98519/155539
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 300 g/L MCPA present as the potassium salt, 20 g/L clopyralid present as the potassium salt, 15 g/L diflufenican soluble concentrate product and approval of a label for control of certain broadleaf weeds in turf
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154673
Chemical product name	Black Goodthings Mosquito Band
Distinguishing number of the chemical product	98175
Active constituent	0.75 g per band citronella oil
Applicant name	3 P Pty Ltd
Date of registration and label approval	27 October 2026
Distinguishing number of label	98175/154673
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 0.75 g per band citronella oil infused mosquito band and approval of a label for use in repelling mosquitos
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154677
Chemical product name	Pink Goodthings Mosquito Band
Distinguishing number of the chemical product	98177
Active constituent	0.75 g per band citronella oil
Applicant name	3 P Pty Ltd
Date of registration and label approval	27 October 2026
Distinguishing number of label	98177/154677
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 0.75 g per band citronella oil infused mosquito band and approval of a label for use in repelling mosquitos
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154678
Chemical product name	Red Goodthings Mosquito Band
Distinguishing number of the chemical product	98178
Active constituent	0.75 g per band citronella oil
Applicant name	3 P Pty Ltd
Date of registration and label approval	27 October 2026
Distinguishing number of label	98178/154678
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 0.75 g per band citronella oil infused mosquito band and approval of a label for use in repelling mosquitos
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154681
Chemical product name	Yellow Goodthings Mosquito Band
Distinguishing number of the chemical product	98179
Active constituent	0.75 g per band citronella oil
Applicant name	3 P Pty Ltd
Date of registration and label approval	27 October 2026
Distinguishing number of label	98179/154681
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 0.75 g per band citronella oil infused mosquito band and approval of a label for use in repelling mosquitos
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154682
Chemical product name	Green Goodthings Mosquito Band
Distinguishing number of the chemical product	98180
Active constituent	0.75 g per band citronella oil
Applicant name	3 P Pty Ltd
Date of registration and label approval	27 October 2026
Distinguishing number of label	98180/154682
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 0.75 g per band citronella oil infused mosquito band and approval of a label for use in repelling mosquitos
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154683
Chemical product name	Purple Goodthings Mosquito Band
Distinguishing number of the chemical product	98181
Active constituent	0.75 g per band citronella oil
Applicant name	3 P Pty Ltd
Date of registration and label approval	27 October 2026
Distinguishing number of label	98181/154683
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 0.75 g per band citronella oil infused mosquito band and approval of a label for use in repelling mosquitos
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154684
Chemical product name	Navy Goodthings Mosquito Band
Distinguishing number of the chemical product	98182
Active constituent	0.75 g per band citronella oil
Applicant name	3 P Pty Ltd
Date of registration and label approval	27 October 2026
Distinguishing number of label	98182/154684
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 0.75 g per band citronella oil infused mosquito band and approval of a label for use in repelling mosquitos
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154687
Chemical product name	White Goodthings Mosquito Band
Distinguishing number of the chemical product	98185
Active constituent	0.75 g per band citronella oil
Applicant name	3 P Pty Ltd
Date of registration and label approval	27 October 2026
Distinguishing number of label	98185/154687
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 0.75 g per band citronella oil infused mosquito band and approval of a label for use in repelling mosquitos
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154686
Chemical product name	Orange Goodthings Mosquito Band
Distinguishing number of the chemical product	98184
Active constituent	0.75 g per band citronella oil
Applicant name	3 P Pty Ltd
Date of registration and label approval	27 October 2026
Distinguishing number of label	98184/154686
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 0.75 g per band citronella oil infused mosquito band and approval of a label for use in repelling mosquitos
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154688
Chemical product name	Light Blue Goodthings Mosquito Band
Distinguishing number of the chemical product	98186
Active constituent	0.75 g per band citronella oil
Applicant name	3 P Pty Ltd
Date of registration and label approval	27 October 2026
Distinguishing number of label	98186/154688
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 0.75 g per band citronella oil infused mosquito band and approval of a label for use in repelling mosquitos
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153554
Chemical product name	Pest Control Insecticide Plus (Type C) Ready to Use
Distinguishing number of the chemical product	97636
Active constituents	4.5 g/L propiconazole, 4.5 g/L tebuconazole, 3.2 g/L permethrin (25:75)
Applicant name	Hyne & Son Pty Limited
Date of registration and label approval	28 October 2026
Distinguishing number of label	97636/153554
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 3.2 g/L permethrin, 4.5 g/L propiconazole and 4.5 g/L tebuconazole ready to use product for the treatment of timber against attack by borers, termites and fungi in above ground situations and approval of label
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153553
Chemical product name	Pest Control Insecticide Plus (Type E) Ready to Use
Distinguishing number of the chemical product	97635
Active constituents	4.5 g/L propiconazole, 4.5 g/L tebuconazole, 3.2 g/L permethrin (25:75)
Applicant name	Hyne & Son Pty Limited
Date of registration and label approval	28 October 2026
Distinguishing number of label	97635/153553
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 3.2 g/L permethrin, 4.5 g/L propiconazole and 4.5 g/L tebuconazole ready to use product for the treatment of timber against attack by borers, termites and fungi in above ground situations and approval of label
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154685
Chemical product name	Conquest Defcon 500 SC Selective Herbicide
Distinguishing number of the chemical product	98183
Active constituent	500 g/L diflufenican
Applicant name	Conquest Crop Protection Pty Ltd
Date of registration and label approval	28 October 2026
Distinguishing number of label	98183/154685
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 500 g/L diflufenican suspension concentrate (SC) product and approval of a label for control of certain weeds in clover-based pasture, field peas, lentils, lupins and oilseed poppy
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154160
Chemical product name	SIGMA ECOFLEET 290 ANTIFOULING REDBROWN
Distinguishing number of the chemical product	97926
Active constituents	565 g/L copper present as cuprous oxide, 71.5 g/L diuron
Applicant name	PPG Industries Australia Pty Limited
Date of registration and label approval	28 October 2026
Distinguishing number of label	97926/154160
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 565 g/L copper present as cuprous oxide and 71.5 g/L diuron antifouling product and approval of label for control of general marine fouling on vessels
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	155075
Chemical product name	Altex Yacht & Boat Paint No.5 Plus Antifouling Red
Distinguishing number of the chemical product	98356
Active constituents	764 g/L copper present as cuprous oxide, 44 g/L thiram
Applicant name	Resene Paints (Australia) Limited
Date of registration and label approval	28 October 2026
Distinguishing number of label	98356/155075
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 764 g/L copper present as cuprous oxide, 44 g/L thiram antifouling paint (pt) product and approval of a label for the control of marine growth below the waterline
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	155073
Chemical product name	Altex Yacht & Boat Paint No.5 Plus Antifouling Blue
Distinguishing number of the chemical product	98354
Active constituents	764 g/L copper present as cuprous oxide, 44 g/L thiram
Applicant name	Resene Paints (Australia) Limited
Date of registration and label approval	28 October 2026
Distinguishing number of label	98354/155073
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 764 g/L copper present as cuprous oxide, 44 g/L thiram antifouling paint (PT) product and approval of a label for the control of marine growth below the waterline
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	155059
Chemical product name	Pettit Marine Paint Vivid Antifouling Paint Red
Distinguishing number of the chemical product	98342
Active constituents	226 g/L copper present as cuprous thiocyanate, 44.6 g/L zinc pyrithione
Applicant name	Resene Paints (Australia) Limited
Date of registration and label approval	28 October 2026
Distinguishing number of label	98342/155059
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 226 g/L copper present as cuprous thiocyanate, 44.6 g/L zinc pyrithione, antifouling paint product for the control of marine growth below the waterline
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	155535
Chemical product name	Titan Propyzamide 500 SC Herbicide B
Distinguishing number of the chemical product	98517
Active constituent	500 g/L propyzamide
Applicant name	Titan Ag Pty Ltd
Date of registration and label approval	28 October 2026
Distinguishing number of label	98517/155535
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 500 g/L propyzamide product for selective control of certain grasses and broadleaf weeds in canola and mustard, grain legumes, legume pasture, lettuce, turf, chicory, endive and radicchio, and pyrethrum crops and approval of a label
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154162
Chemical product name	SIGMA ECOFLEET 290 ANTIFOULING BLACK
Distinguishing number of the chemical product	97928
Active constituents	565 g/L copper present as cuprous oxide, 71.5 g/L diuron
Applicant name	PPG Industries Australia Pty Limited
Date of registration and label approval	28 October 2026
Distinguishing number of label	97928/154162
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 565 g/L copper present as cuprous oxide and 71.5 g/L diuron antifouling product and approval of label for control of general marine fouling on vessels
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	155069
Chemical product name	Altex Yacht & Boat Paint No.5 Plus Antifouling Black
Distinguishing number of the chemical product	98351
Active constituents	764 g/L copper present as cuprous oxide, 44 g/L thiram
Applicant name	Resene Paints (Australia) Limited
Date of registration and label approval	29 October 2026
Distinguishing number of label	98351/155069
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 764 g/L copper present as cuprous oxide, 44 g/L thiram antifouling paint (PT) product and approval of a label for the control of marine growth below the waterline
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	152203
Product name	No Ants Super Nest Killer Insecticide Sand
Active constituent	7.3 g/kg hydramethylnon
Applicant name	Animal Control Technologies (Australia) Pty Ltd
Applicant ACN	137 868 449
Date of registration	29 October 2026
Product registration no.	97184
Label approval no.	97184/152203
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 7.3 g/kg hydramethylnon product, formulated as a granular formulation (GR) for the control of Singapore ant (*Monomorium destructor*), coastal brown ant (*Pheidole megacephala*), tropical fire ant or ginger ant (*Solenopsis geminata*), red imported fire ant (*Solenopsis invicta*) and greenhead ant (*Rhytidoponera* spp.)

Application no.	152207
Product name	NO Bugs Super Barrier Insecticide Concentrate
Active constituent	60 g/L alpha-cypermethrin
Applicant name	Animal Control Technologies (Australia) Pty Ltd
Applicant ACN	137 868 449
Date of registration	29 October 2026
Product registration no.	97185
Label approval no.	97185/152207
Description of the application and its purpose, including the intended use of the chemical product	Registration of 60 g/L alpha-cypermethrin suspension concentrate for control of ants, cockroaches, silverfish, fleas, flies, mosquitos bed bugs, meal moths and spiders in domestic, industrial, commercial and public health situations and for the control of litter beetles in poultry sheds

Application no.	152022
Product name	Cropelle 300 Herbicide
Active constituent	300 g/L clopyralid present as the triisopropylamine salt
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	29 October 2026
Product registration no.	97158
Label approval no.	97158/152022
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 300 g/L clopyralid present as the triisopropylamine salt soluble concentrate for the control of a wide range of broadleaf weeds in wheat, barley, triticale, oats, pastures, canola, fallow land, forests and industrial situations as specified in the Directions for Use

Application no.	152737
Product name	Milestone Fly Spray Fast Knockdown Flying Insect Spray
Active constituents	1.0 g/kg esbiothrin, 0.5 g/kg permethrin, 0.2 g/kg imiprothrin
Applicant name	Aaron Laboratories Proprietary Limited
Applicant ACN	004 856 848
Date of registration	29 October 2026
Product registration no.	97323
Label approval no.	97323/152737
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 1.0 g/kg esbiothrin, 0.5 g/kg permethrin and 0.2 g/kg imiprothrin product formulated as an aerosol (AE) for control of most flying insects, such as flies, bees, wasps, and mosquitoes and crawling insects, including ants, spiders, and cockroaches

Application no.	152738
Product name	Eurochem Zippo 500 Fungicide
Active constituent	500 g/kg trifloxystrobin
Applicant name	Eurochem Pty. Ltd.
Applicant ACN	N/A
Date of registration	29 October 2026
Product registration no.	97324
Label approval no.	97324/152738
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 500 g/kg trifloxystrobin product, formulated as a water dispersible granule (WG) for the control of certain diseases of apples, grapevines, pears and strawberries

Application no.	153788
Chemical product name	Yates Weed 'n' Feed Weed Killer & Lawn Fertiliser A
Distinguishing number of the chemical product	97759
Active constituents	85.6 g/L MCPA as the dimethylamine salt, 13.1 g/L dicamba as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	29 October 2026
Distinguishing number of label	97759/153788
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of an 85.6 g/L MCPA (as the dimethylamine salt) and 13.1 g/L dicamba (as the dimethylamine salt) liquid product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153774
Chemical product name	Yates Weed 'n' Feed Weed Killer & Lawn Fertiliser B
Distinguishing number of the chemical product	97745
Active constituents	85.6 g/L MCPA as the dimethylamine salt, 13.1 g/L dicamba as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	29 October 2026
Distinguishing number of label	97745/153774
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of an 85.6 g/L MCPA (as the dimethylamine salt) and 13.1 g/L dicamba (as the dimethylamine salt) liquid product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153775
Chemical product name	Yates Weed 'n' Feed Weed Killer & Lawn Fertiliser C
Distinguishing number of the chemical product	97746
Active constituents	85.6 g/L MCPA, as the dimethylamine salt, 13.1 g/L dicamba, as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	29 October 2026
Distinguishing number of label	97746/153775
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of an 85.6 g/L MCPA (as the dimethylamine salt) and 13.1 g/L dicamba (as the dimethylamine salt) liquid product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153778
Chemical product name	Yates Weed 'n' Feed Weed Killer & Lawn Fertiliser D
Distinguishing number of the chemical product	97749
Active constituents	85.6 g/L MCPA, as the dimethylamine salt, 13.1 g/L dicamba, as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	29 October 2026
Distinguishing number of label	97749/153778
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of an 85.6 g/L MCPA (as the dimethylamine salt) and 13.1 g/L dicamba (as the dimethylamine salt) liquid product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153780
Chemical product name	Yates Weed 'n' Feed Weed Killer & Lawn Fertiliser E
Distinguishing number of the chemical product	97751
Active constituents	85.6 g/L MCPA, as the dimethylamine salt, 13.1 g/L dicamba, as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	29 October 2026
Distinguishing number of label	97751/153780
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of an 85.6 g/L MCPA (as the dimethylamine salt) and 13.1 g/L dicamba (as the dimethylamine salt) liquid product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153791
Chemical product name	Yates Weed 'n' Feed Weed Killer & Lawn Fertiliser F
Distinguishing number of the chemical product	97762
Active constituents	85.6 g/L MCPA, as the dimethylamine salt, 13.1 g/L dicamba, as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	29 October 2026
Distinguishing number of label	97762/153791
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of an 85.6 g/L MCPA (as the dimethylamine salt) and 13.1 g/L dicamba (as the dimethylamine salt) liquid product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153782
Chemical product name	Yates Weed 'n' Feed Weed Killer & Lawn Fertiliser G
Distinguishing number of the chemical product	97753
Active constituents	85.6 g/L MCPA, as the dimethylamine salt, 13.1 g/L dicamba, as the dimethylamine salt
Applicant name	DuluxGroup (Australia) Pty Ltd
Date of registration and label approval	29 October 2026
Distinguishing number of label	97753/153782
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of an 85.6 g/L MCPA (as the dimethylamine salt) and 13.1 g/L dicamba (as the dimethylamine salt) liquid product and approval of a label for use as a home garden lawn herbicide and fertiliser
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	155602
Chemical product name	Barmac Javelin Selective Herbicide
Distinguishing number of the chemical product	98545
Active constituents	300 g/L MCPA present as the potassium salt, 20 g/L clopyralid present as the potassium salt, 15 g/L diflufenican
Applicant name	Australian Agribusiness (Holdings) Pty Ltd
Date of registration and label approval	29 October 2026
Distinguishing number of label	98545/155602
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 300 g/L MCPA present as the potassium salt, 20 g/L clopyralid present as the potassium salt, 15 g/L diflufenican soluble concentrate product for control of certain broadleaf weeds in turf and approval of a label
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	153534
Chemical product name	Titan Leftin Spray Adjuvant
Distinguishing number of the chemical product	97619
Active constituents	334 g/L non-ionic surfactant blend, 300 g/L ammonium sulphate, 136 g/L vegetable oil ester
Applicant name	Titan Ag Pty Ltd
Date of registration and label approval	29 October 2026
Distinguishing number of label	97619/153534
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a surfactant blend with ammonium sulphate and vegetable oil ester product and approval of a label for use as an adjuvant with knockdown herbicides
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154726
Chemical product name	Rocky Point Lawn Weed Killer
Distinguishing number of the chemical product	98215
Active constituents	150 g/L MCPA present as the dimethylamine salt, 25 g/L dicamba present as the dimethylamine salt
Applicant name	Rocky Point Pty Ltd
Date of registration and label approval	29 October 2026
Distinguishing number of label	98215/154726
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 150 g/L MCPA and 25 g/L dicamba soluble concentrate product and approval of a label for control of bindii, clover, dandelion, creeping oxalis and other broadleaf weeds
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	155061
Chemical product name	Pettit Marine Paint Vivid Antifouling Paint Blue
Distinguishing number of the chemical product	98343
Active constituents	228 g/L copper present as cuprous thiocyanate, 43.7 g/L zinc pyrithione
Applicant name	Resene Paints (Australia) Limited
Date of registration and label approval	29 October 2026
Distinguishing number of label	98343/155061
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 228 g/L copper present as cuprous thiocyanate, 43.7 g/L zinc pyrithione, Antifouling Paint product for the control of marine growth below the waterline
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	155062
Chemical product name	Pettit Marine Paint Vivid Antifouling Paint Black
Distinguishing number of the chemical product	98344
Active constituents	247 g/L copper present as cuprous thiocyanate, 48.5 g/L zinc pyrithione
Applicant name	Resene Paints (Australia) Limited
Date of registration and label approval	29 October 2026
Distinguishing number of label	98344/155062
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 247 g/L copper present as cuprous thiocyanate, 48.5 g/L zinc pyrithione, Antifouling Paint product for the control of marine growth below the waterline
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	155064
Chemical product name	Pettit Marine Paint Vivid Antifouling Paint White
Distinguishing number of the chemical product	98346
Active constituents	251 g/L copper present as cuprous thiocyanate, 49.5 g/L zinc pyrithione
Applicant name	Resene Paints (Australia) Limited
Date of registration and label approval	29 October 2026
Distinguishing number of label	98344/155064
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 251 g/L copper present as cuprous thiocyanate, 49.5 g/L zinc pyrithione, Antifouling Paint product for the control of marine growth below the waterline
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	155067
Chemical product name	Pettit Marine Paint Vivid Antifouling Paint Bright Red
Distinguishing number of the chemical product	98349
Active constituents	247 g/L copper present as cuprous thiocyanate, 48.5 g/L zinc pyrithione
Applicant name	Resene Paints (Australia) Limited
Date of registration and label approval	29 October 2026
Distinguishing number of label	98349/155067
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 247 g/L copper present as cuprous thiocyanate, 48.5 g/L zinc pyrithione, Antifouling Paint product for the control of marine growth below the waterline
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154740
Chemical product name	Titan Besuto 480 SC Herbicide
Distinguishing number of the chemical product	98222
Active constituent	480 g/L pyroxasulfone
Applicant name	Titan Ag Pty Ltd
Date of registration and label approval	30 October 2026
Distinguishing number of label	98222/154740
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 480 g/L pyroxasulfone suspension concentrate and approval of label for the pre-emergence control of annual ryegrass, barley grass, annual phalaris, silver grass and toad rush and suppression of certain grass weeds in wheat (not durum wheat), triticale and certain winter legume crops as specified in the directions for use
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154761
Chemical product name	Titan Besuto 480 SC Herbicide B
Distinguishing number of the chemical product	98236
Active constituent	480 g/L pyroxasulfone
Applicant name	Titan Ag Pty Ltd
Date of registration and label approval	30 October 2026
Distinguishing number of label	98236/154761
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 480 g/L pyroxasulfone suspension concentrate and approval of label for the pre-emergence control of annual ryegrass, barley grass, annual phalaris, silver grass and toad rush and suppression of certain grass weeds in wheat (not durum wheat), triticale and certain winter legume crops as specified in the directions for use
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	155048
Chemical product name	Apparent Clobbertime 400 Herbicide B
Distinguishing number of the chemical product	98331
Active constituent	400 g/L carfentrazone-ethyl
Applicant name	Titan Ag Pty Ltd
Date of registration and label approval	30 October 2026
Distinguishing number of label	98331/155048
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 400 g/L carfentrazone-ethyl emulsifiable concentrate product, for improvement in the control of marshmallow and certain other broadleaf weeds prior to establishment of broadacre crops, fallows or forest plantations, in commercial, industrial and public service areas, around agricultural buildings and yards, in tree fruits, nuts, grape vines in tank mixture with knockdown herbicides; control of marshmallow and annual nettles in grass pastures and rough grass/turf areas; and control of volunteer cotton seedlings including Roundup Ready cotton and desiccation of cotton re-growth and approval of a label
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154739
Chemical product name	Apparent Concussion 540 K Salt Herbicide
Distinguishing number of the chemical product	98221
Active constituent	540 g/L glyphosate present as the potassium salt
Applicant name	Titan Ag Pty Ltd
Date of registration and label approval	30 October 2026
Distinguishing number of label	98221/154739
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 540 g/L glyphosate as the potassium salt soluble liquid non-selective herbicide for the control of many annual and perennial weeds
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	152511
Product name	Kenso Agcare Caimen 480 EC Herbicide
Active constituent	480 g/L clomazone
Applicant name	Kenso Corporation (M) SDN. BHD.
Applicant ACN	N/A
Date of registration	30 October 2026
Product registration no.	97266
Label approval no.	97266/152511
Description of the application and its purpose, including the intended use of the chemical product	Registration of 480 g/L clomazone in the form of an emulsifiable concentrate for the control of certain annual grasses in rice and certain annual broadleaf weeds in cucurbits, green beans, navy beans, poppies, potatoes and tobacco as per directions for use table

Application no.	155070
Chemical product name	Carboline Sea - Barrier 3000 Antifouling Black
Distinguishing number of the chemical product	98352
Active constituents	764 g/L copper present as cuprous oxide, 44 g/L thiram
Applicant name	Resene Paints (Australia) Limited
Date of registration and label approval	30 October 2026
Distinguishing number of label	98352/155070
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 764 g/L copper present as cuprous oxide, 44 g/L thiram antifouling paint (PT) product and approval of a label for the control of marine growth below the waterline
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	155126
Chemical product name	Carboline Sea - Barrier 3000 Antifouling Mid Blue
Distinguishing number of the chemical product	98377
Active constituents	764 g/L copper present as cuprous oxide, 44 g/L thiram
Applicant name	Resene Paints (Australia) Limited
Date of registration and label approval	30 October 2026
Distinguishing number of label	98377/155126
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 764 g/L copper present as cuprous oxide, 44 g/L thiram antifouling paint (PT) product and approval of a label for the control of marine growth below the waterline
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	155065
Chemical product name	Carboline Sea - Barrier 3000 Antifouling Green
Distinguishing number of the chemical product	98347
Active constituents	764 g/L copper present as cuprous oxide, 44 g/L thiram
Applicant name	Resene Paints (Australia) Limited
Date of registration and label approval	30 October 2026
Distinguishing number of label	98347/155065
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 764 g/L copper present as cuprous oxide, 44 g/L thiram antifouling paint (PT) product and approval of a label for the control of marine growth below the waterline
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	155068
Chemical product name	Carboline Sea - Barrier 3000 Antifouling Blue
Distinguishing number of the chemical product	98350
Active constituents	764 g/L copper present as cuprous oxide, 44 g/L thiram
Applicant name	Resene Paints (Australia) Limited
Date of registration and label approval	30 October 2026
Distinguishing number of label	98350/155068
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 764 g/L copper present as cuprous oxide, 44 g/L thiram antifouling paint (PT) product and approval of a label for the control of marine growth below the waterline
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	155063
Chemical product name	Carboline Sea - Barrier 3000 Antifouling Grey
Distinguishing number of the chemical product	98345
Active constituents	764 g/L copper present as cuprous oxide, 44 g/L thiram
Applicant name	Resene Paints (Australia) Limited
Date of registration and label approval	30 October 2026
Distinguishing number of label	98345/155063
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 764 g/L copper present as cuprous oxide, 44 g/L thiram antifouling paint (pt) product and approval of a label for the control of marine growth below the waterline
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	155066
Chemical product name	Carboline Sea - Barrier 3000 Antifouling Red
Distinguishing number of the chemical product	98348
Active constituents	764 g/L copper present as cuprous oxide, 44 g/L thiram
Applicant name	Resene Paints (Australia) Limited
Date of registration and label approval	30 October 2026
Distinguishing number of label	98348/155066
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 764 g/L copper present as cuprous oxide, 44 g/L thiram antifouling paint (PT) product and approval of a label for the control of marine growth below the waterline
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	155421
Chemical product name	MCPA LV Esta 570 Herbicide
Distinguishing number of the chemical product	98498
Active constituent	570 g/L MCPA present as the 2-ethyl hexyl ester
Applicant name	Nufarm Australia Limited
Date of registration and label approval	30 October 2026
Distinguishing number of label	98498/155421
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 570 g/L MCPA present as 2-ethyl hexyl ester as an emulsifiable concentrate product and approval of a label for use as a selective herbicide
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	147765
Chemical product name	Weed Force Skittle Herbicide
Distinguishing number of the chemical product	95973
Active constituents	670 g/kg clopyralid (as the potassium salt), 40 g/kg sulfometuron-methyl
Applicant name	Weed Force Pty Ltd
Date of registration and label approval	2 November 2026
Distinguishing number of label	95973/147765
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration and label approval of a water dispersible granule formulation containing 670 g/kg clopyralid and 40 g/kg sulfometuron-methyl for control of a range of weeds in commercial and industrial areas, around agricultural areas and rights of way
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	152473
Product name	Avilive Triclopyr 600 EC Herbicide
Active constituent	600 g/L triclopyr presents as butoxyethyl ester
Applicant name	Zhejiang Avilive Chemical Imp. & Exp. Co., Ltd.
Applicant ACN	N/A
Date of registration	2 November 2026
Product registration no.	97249
Label approval no.	97249/152473
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 600 g/L triclopyr emulsifiable concentrate EC product for the control of a range of woody weeds and melons

Application no.	152756
Product name	The Mosquito & Midge Outdoor Barrier Professional Mosquito Outdoor Solution
Active constituent	100 g/L bifenthrin
Applicant name	Vectora Australis Pty Ltd
Applicant ACN	95 861 557
Date of registration	2 November 2026
Product registration no.	97334
Label approval no.	97334/152756
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 100 g/L bifenthrin product, formulated as a suspension concentrate (SC) for the control of adult mosquitoes and midges

Application no.	153070
Product name	Agro-Essence ClearEdge Duo Herbicide
Active constituents	33 g/L imazamox presents as the ammonium salt, 15 g/L imazapyr presents as the ammonium salt
Applicant name	Agro-Alliance (Australia) Pty Ltd
Applicant ACN	130 864 603
Date of registration	2 November 2026
Product registration no.	97416
Label approval no.	97416/153070
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 33 g/L imazamox present as the ammonium salt and 15 g/L imazapyr present as the ammonium salt product, formulated as a soluble concentrate (SL) for the early post-emergence control of certain annual grass and broadleaf weeds in imidazolinone-tolerant wheat, imidazolinone-tolerant barley, imidazolinone-tolerant canola

Application no.	141670
Chemical product name	Restrain Plant Growth Regulator
Distinguishing number of the chemical product	94136
Active constituent	450 g ethylene, in-situ produced from 1 L ethanol
Applicant name	Restrain Company Limited
Date of registration and label approval	2 November 2026
Distinguishing number of label	94136/141670
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 450 g ethylene product produced in-situ from 1 L ethanol for use as a plant growth regulator for enhancing the pre-harvest ripening of tomatoes and bell peppers, and the post-harvest anti sprouting treatment of potatoes and onions during extended storage
Statement of the conditions of the registration that directly regulate the use of the product	No conditions that directly regulate the use of the product

Application no.	144305
Chemical product name	Yukon Flow Fungicide
Distinguishing number of the chemical product	94958
Active constituents	640 g/L sulfur, 80 g/L copper present as tribasic copper sulfate
Applicant name	UPL Australia Pty Ltd
Date of registration and label approval	3 November 2026
Distinguishing number of label	94958/144305
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of an 80 g/L copper (CU) present as tribasic copper sulphate and 640 g/L sulfur as a suspension concentrate (SC) product for the control of powdery mildew (Erysiphe Necator) and downy mildew (Plasmopara Viticola) in grapevines
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	144770
Chemical product name	Navicon Intrinsic Brand Fungicide
Distinguishing number of the chemical product	95133
Active constituents	200 g/L mefentrifluconazole, 200 g/L pyraclostrobin
Applicant name	BASF Australia Ltd.
Date of registration and label approval	4 November 2026
Distinguishing number of label	95133/144770
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 200 g/L mefentrifluconazole and 200 g/L pyraclostrobin suspension concentrate product for preventative and curative disease treatment for turf
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	155536
Chemical product name	Speedy Eco Spray Adjuvant
Distinguishing number of the chemical product	98518
Active constituent	704 g/L ethyl and methyl esters of fatty acids derived from refined canola oil
Applicant name	Grow Choice Pty Ltd
Date of registration and label approval	4 November 2026
Distinguishing number of label	98518/155536
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 704 g/L ethyl and methyl esters of fatty acids derived from refined canola oil as soluble concentrate and approval of label for use to enhance the penetrating properties of certain herbicides and pyrethroid insecticides
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	152095
Product name	Verdevia 400 Herbicide
Active constituent	400 g/L fluroxypyr present as the methyl heptyl ester
Applicant name	Qemetica Agricultural Solutions Poland S.A.
Applicant ACN	N/A
Date of registration	4 November 2026
Product registration no.	97171
Label approval no.	97171/152095
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 400 g/L fluroxypyr product, formulated as an emulsifiable concentrate (EC) for the control of a wide range of broadleaf weeds in fallow, lucerne, maize, millets, pastures, poppies, sorghum, sugar cane, sweet corn, winter cereals. also, for the control of woody weeds in agricultural non-crop areas, commercial and industrial areas, forests, pastures and rights-of-way, as specified in the directions for use

Application no.	144832
Chemical product name	Stamina F3 Seed Treatment Fungicide
Distinguishing number of the chemical product	95160
Active constituents	17 g/L pyraclostrobin, 17 g/L triticonazole, 10 g/L metalaxyl
Applicant name	BASF Australia Ltd.
Date of registration and label approval	4 November 2026
Distinguishing number of label	95160/144832
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 17 g/L pyraclostrobin, 17 g/L triticonazole and 10 g/L metalaxyl product, formulated as a Suspension concentrates for seed treatment in cereals
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	145577
Chemical product name	Double Nozzle Technology Raid Max Multi-Insect Killer
Distinguishing number of the chemical product	95419
Active constituents	1.0 g/kg transfluthrin, 0.3 g/kg imiprothrin
Applicant name	S.C. Johnson & Son Pty Ltd
Date of registration and label approval	4 November 2026
Distinguishing number of label	95419/145577
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 1.0 g/kg transfluthrin and 0.3 g/kg imiprothrin for the control of flying and crawling insects in household situations
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	144969
Chemical product name	Fluenta Aquatic Herbicide
Distinguishing number of the chemical product	95204
Active constituent	750 g/kg flumioxazin
Applicant name	Sumitomo Chemical Australia Pty Limited
Date of registration and label approval	5 November 2026
Distinguishing number of label	95204/144969
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 750 g/kg flumioxazin water dispersible granule product for knockdown and residual control of various grass and broadleaved weeds in irrigation infrastructure areas, irrigation channel banks, tracks and drainage ditches and for the control of floating, emergent and submerged aquatic weeds in irrigation channels, dams and drains
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	147733
Product name	JiuYi Pyroxasulfone 500 SC Herbicide
Active constituent	500 g/L pyroxasulfone
Applicant name	Anhui JiuYi Agriculture Co., Ltd.
Applicant ACN	N/A
Date of registration	5 November 2026
Product registration no.	95972
Label approval no.	95972/147733
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 500 g/L pyroxasulfone suspension concentrate (SC) product for the pre-emergence control of annual ryegrass, barley grass, annual phalaris, silver grass and toad rush and suppression of certain grass weeds in wheat (not durum wheat), triticale and certain winter legume crops

Application no.	146788
Chemical product name	Farmalinx Dinomite Insecticide
Distinguishing number of the chemical product	95675
Active constituent	200 g/kg dinotefuran
Applicant name	Farmalinx Pty Ltd
Date of registration and label approval	6 November 2026
Distinguishing number of label	95675/146788
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of 200 g/kg Dinotufuran Water Soluble Granule (SG) product for the control of Argentine stem weevil, caterpillars including armyworm and cutworm and suppression of ground pearl in turf
Statement of the conditions of the registration that directly regulate the use of the product	Registration/approval is granted on the condition that it is subject to the relevant outcomes of the reconsideration referred to at page 39 of APVMA Gazette No. 23, 19 November 2019 – Reconsideration of Neonicotinoid Approvals and Registrations* **Explanatory Note: you should be aware that the APVMA will take steps to apply the outcomes of that reconsideration to this registration/approval as it thinks fit*

Application no.	154436
Chemical product name	Titan Wetter 1040 TX Surfactant
Distinguishing number of the chemical product	98077
Active constituent	1040 g/L octyl phenol ethoxylate
Applicant name	Titan Ag Pty Ltd
Date of registration and label approval	6 November 2026
Distinguishing number of label	98077/154436
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 1040 g/L octyl phenol ethoxylate product, formulated as a liquid (LD) for use with glyphosate herbicides when treating annual ryegrass, silvergrass and perennial grasses
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154627
Product name	Genfarm MCPA 750 Selective Herbicide C
Active constituent	750 g/L MCPA presents as the dimethylamine salt
Applicant name	Nutrien Ag Solutions Limited
Applicant ACN	008 743 217
Date of registration	6 November 2026
Product registration no.	98151
Label approval no.	98151/154627
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 750 g/L MCPA herbicide product, formulated as a soluble concentrate (SC) for the selective control of broadleaf weeds in cereals, linseed, oilseed poppies, pastures, rice, sugarcane and turf

Application no.	154628
Product name	Genfarm LV MCPA 570 Herbicide C
Active constituent	570 g/L MCPA present as the 2-ethyl hexyl ester
Applicant name	Nutrien Ag Solutions Limited
Applicant ACN	008 743 217
Date of registration	6 November 2026
Product registration no.	98152
Label approval no.	98152/154628
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 570 g/L MCPA herbicide product, formulated as a EC for the selective control of certain weeds in agricultural crops

Application no.	148209
Chemical product name	Genfarm Diafenthiuron 500 SC Insecticide
Distinguishing number of the chemical product	96116
Active constituent	500 g/L diafenthiuron
Applicant name	Nutrien Ag Solutions Limited
Date of registration and label approval	6 November 2026
Distinguishing number of label	96116/148209
Description of the application and its purpose, including the way the in which intended use of the chemical product	Registration of a 500 g/L diafenthiuron suspension concentrate insecticide for the control of two-spotted mite and cotton aphids in cotton, suppression of silverleaf whitefly in cotton, control of red-legged earth mite in canola and suppression of lucerne flea in canola
Statement of the conditions of the registration that directly regulate the use of the product	No conditions apply that directly regulate use of the product

Application no.	154437
Product name	Yates Home Pest Organic Cockroach Gel with Natural Spinosad
Active constituent	10 g/kg spinosad
Applicant name	Sundew Solutions Pty Ltd
Applicant ACN	135 400 261
Date of registration	6 November 2026
Product registration no.	98078
Label approval no.	98078/154437
Description of the application and its purpose, including the intended use of the chemical product	Registration of a 10 g/kg spinosad product, formulated as a ready to use bait (RB) for the control of cockroaches in domestic situations

Table 2: Variations of registration – agricultural chemical products

Application no.	155907
Product name	Phostoxin Tablet
Active constituent	330 g/kg phosphine (PH_3) present as aluminium phosphide
Applicant name	Detia Freyberg GmbH
Applicant ACN	N/A
Date of variation	15 October 2026
Product registration no.	32066
Label approval no.	32066/155907
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from ‘Phostoxin Round Fumigation Tablets’ to ‘Phostoxin Tablet’

Application no.	155908
Product name	Imtrade Defend 400 EC Fungicide
Active constituent	400 g/L difenoconazole
Applicant name	Imtrade Australia Pty Ltd
Applicant ACN	090 151 134
Date of variation	16 October 2026
Product registration no.	63825
Label approval no.	63825/155908
Description of the application and its purpose, including the intended use of the chemical product	Variation to update the first aid instructions appearing on a label to reflect the current FAISD handbook

Application no.	155910
Product name	Irazu Insecticide
Active constituent	100 g/L cyantraniliprole
Applicant name	FMC Australasia Pty Ltd
Applicant ACN	095 326 891
Date of variation	16 October 2026
Product registration no.	64103
Label approval no.	64103/155910
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from ‘Exirel Insecticide’ to ‘Irazu Insecticide' and remove the uses of this product in citrus, canola, cotton and forage brassicas from the Directions for Use

Application no.	155981
Product name	Imtrade Ordnance 250 SL Herbicide
Active constituent	250 g/L imazapyr present as isopropylamine salt
Applicant name	Imtrade Australia Pty Ltd
Applicant ACN	090 151 134
Date of variation	20 October 2026
Product registration no.	68366
Label approval no.	68366/155981
Description of the application and its purpose, including the intended use of the chemical product	Variation to update the first aid instructions appearing on a label to reflect the current FAISD handbook

Application no.	155982
Product name	Acelepryn Insecticide
Active constituent	200 g/L chlorantraniliprole
Applicant name	Albaugh Australia Pty Ltd
Applicant ACN	676 890 994
Date of variation	20 October 2026
Product registration no.	95431
Label approval no.	95431/155982
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to change the distinguishing product name and the name that appears on the label from ‘Albaugh Portento 200 SC Insecticide’ to ‘Acelepryn Insecticide’

Application no.	155986
Product name	Imtrade Eradicator 540 Herbicide
Active constituent	540 g/L glyphosate present as the isopropylamine salt
Applicant name	Imtrade Australia Pty Ltd
Applicant ACN	090 151 134
Date of variation	21 October 2026
Product registration no.	63930
Label approval no.	63930/155986
Description of the application and its purpose, including the intended use of the chemical product	Variation to update the first aid instructions appearing on a label to reflect the current FAISD handbook

Application no.	156032
Product name	Nufarm Tri-Base Blue Fungicide
Active constituent	190 g/L copper (CU) present as tribasic copper sulphate
Applicant name	Nufarm Australia Limited
Applicant ACN	004 377 780
Date of variation	21 October 2026
Product registration no.	53568
Label approval no.	53568/156032
Description of the application and its purpose, including the intended use of the chemical product	Variation to the particulars of registration and label approval to remove the use for tobacco seed beds from the instructions

Application no.	155987
Product name	Imtrade Cyborg 25 EC Insecticide
Active constituent	25 g/L beta-cyfluthrin
Applicant name	Imtrade Australia Pty Ltd
Applicant ACN	090 151 134
Date of variation	21 October 2026
Product registration no.	84822
Label approval no.	84822/155987
Description of the application and its purpose, including the intended use of the chemical product	Variation to update the first aid instructions appearing on a label to reflect the current FAISD handbook

Application no.	N/A – Variation under s29A
Product name	ADAMA Indoxacarb 150 Insecticide
Active constituent	167 g/L indoxacarb (90:10)
Applicant name	APVMA initiated variation
Date of variation	26 October 2026
Product registration no.	84357
Label approval no.	84357/146716V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of relevant particulars of chemical product registration and label approval to update the constituent statements of the label Adama Indoxacarb 150 Insecticide is for crops: apricot, adzuki beans, broccoli, brussels sprouts, cabbage, capsicum, cauliflower, chickpeas, chinese leafy vegetables, cotton, eggplant, faba beans, leafy vegetables, mungbeans, nectarine, peaches, peppers, plums, soybeans and tomatoes and controls of various insect pests as per the directions for use

Application no.	N/A – Variation under s29A
Product name	Valor EZE 480 SC Herbicide
Active constituent	480 g/L flumioxazin
Applicant name	APVMA initiated variation
Date of variation	27 October 2026
Product registration no.	92955
Label approval no.	No Change
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of relevant particulars of registered chemical product

Application no.	N/A – Variation under s29A
Product name	Pest Control Insecticide Plus Ready to Use
Active constituents	4.5 g/L propiconazole, 4.5 g/L tebuconazole, 3.2 g/L permethrin
Applicant name	APVMA initiated variation
Date of variation	28 October 2026
Product registration no.	66281
Label approval no.	66281/59430V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of relevant particulars of chemical product registration and label approval to update the constituent statement and safety directions

Application no.	N/A – Variation under s29A
Product name	Sumi-alpha Flex Insecticide
Active constituent	50 g/L esfenvalerate
Applicant name	APVMA initiated variation
Date of variation	28 October 2026
Product registration no.	53047
Label approval no.	53047/135751V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of relevant particulars of registered chemical product and label approval to update the solvent details and remove references to solvent statement A and solvent statement B

Application no.	156094
Product name	Pymatic Metered Insecticide
Active constituents	60 g/kg piperonyl butoxide, 14 g/kg pyrethrins
Applicant name	C. Rudduck Proprietary Limited
Applicant ACN	004 411 312
Date of variation	28 October 2026
Product registration no.	32713
Label approval no.	32713/156094
Description of the application and its purpose, including the intended use of the chemical product	Variation to update the first aid instructions and safety directions appearing on a label to reflect the current FAISD handbook

Application no.	149219
Chemical product name	Luximax Herbicide
Distinguishing number of the chemical product	86413
Active constituent	750 g/L cinmethylin
Applicant name	BASF Australia Ltd.
Date of variation	29 October 2026
Distinguishing number of label	86413/149219
Description of the application and its purpose, including the way the in which intended use of the chemical product	Variation to particulars of label to vary product registration and label approval to add use in canola

Application no.	N/A – Variation under s29A
Product name	Smart Trifluralin 480 EC Herbicide
Active constituent	480 g/L trifluralin
Applicant name	APVMA initiated variation
Date of variation	29 October 2026
Product registration no.	61325
Label approval no.	61325/139506V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of registration particulars and label particulars and label approval to update the active constituent statements and remove references to Label A, Label B and Label C on the label

Application no.	N/A – Variation under s29A
Product name	Bronco 400 Herbicide
Active constituent	400 g/L bromoxynil present as the N-octanoyl ester
Applicant name	APVMA initiated variation
Date of variation	4 November 2026
Product registration no.	80801
Label approval no.	80801/RV2024V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	For use on cereals, linseed, clover, lucerne, turf, fallow and non-crop situations to control a range of broadleaf weeds as per the directions for use table. Variation of relevant particulars of chemical product registration and label approval to update the constituent statements

Application no.	N/A – Variation under s29A
Product name	Apparent Clobbertime 400 Herbicide
Active constituent	400 g/L carfentrazone-ethyl
Applicant name	APVMA initiated variation
Date of variation	4 November 2026
Product registration no.	86549
Label approval no.	86549/132208V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of relevant particulars of chemical product registration and label approval to update the constituent statement of a 400 g/L carfentrazone-ethyl emulsifiable concentrate product for the control of a range of weeds in various situations

Application no.	N/A – Variation under s29A
Product name	Colt Herbicide
Active constituents	250 g/L bromoxynil present as the octanoate, 25 g/L diflufenican
Applicant name	APVMA initiated variation
Date of variation	5 November 2026
Product registration no.	63316
Label approval no.	63316/RV2024V
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of label approval to include mintweed in the weed table

Application no.	N/A – Variation under s29A
Product name	Colt Herbicide D
Active constituents	250 g/L bromoxynil present as the octanoate, 25 g/L diflufenican
Applicant name	APVMA initiated variation
Date of variation	5 November 2026
Product registration no.	97658
Label approval no.	97658/153601
Description of the application and its purpose, including the intended use of the chemical product and the nature of and reasons for the variation	Variation of label approval to include mintweed in the weed table

Application no.	152632
Chemical product name	Scotts Lawn Builder Buffalo Weed, Feed & Green-Up
Distinguishing number of the chemical product	82584
Active constituents	8.7 g/L bromoxynil present as the potassium salt, 8.7 g/L MCPA present as the potassium salt
Applicant name	Evergreen Garden Care Australia Pty Ltd
Date of variation	5 November 2026
Distinguishing number of label	82584/152632
Description of the application and its purpose, including the way the in which intended use of the chemical product	Variation to particulars of label approval to include new directions for use

Veterinary chemical products and approved labels

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has registered or varied the relevant particulars or conditions of the registration in respect of the following products and has approved the label or varied the relevant particulars or conditions of the approval in respect of the containers for the chemical product, with effect from the dates shown.

Table 3: Veterinary products based on existing active constituents

Application no.	154359
Product name	PetShield Spot-On for Dogs over 25 kg
Active constituent/s	100 g/L imidacloprid, 25 g/L moxidectin
Applicant name	Australian AgVet Registration Solutions Pty Ltd
Applicant ACN	675 381 530
Date of registration	4 November 2026
Product registration no.	98055
Label approval no.	98055/154359
Description of the application and its purpose, including the intended use of the chemical product	Registration and approval of a label of a 100 g/L imidacloprid and 25 g/L moxidectin topical solution for fleas and worms in dogs over 25 kg

Application no.	154358
Product name	PetShield Spot-On for Puppies and Small Dogs up to 4 kg
Active constituent/s	100 g/L imidacloprid, 25 g/L moxidectin
Applicant name	Australian AgVet Registration Solutions Pty Ltd
Applicant ACN	675 381 530
Date of registration	4 November 2026
Product registration no.	98054
Label approval no.	98054/154358
Description of the application and its purpose, including the intended use of the chemical product	Registration and the approval of a label of a 100 g/L imidacloprid and 25 g/L moxidectin topical solution for fleas and worms in puppies and small dogs up to 4 kg

Application no.	154357
Product name	PetShield Spot-On for Dogs 10-25 kg
Active constituent/s	100 g/L imidacloprid, 25 g/L moxidectin
Applicant name	Australian AgVet Registration Solutions Pty Ltd
Applicant ACN	675 381 530
Date of registration	4 November 2026
Product registration no.	98053
Label approval no.	98053/154357
Description of the application and its purpose, including the intended use of the chemical product	Registration and approval of a label of a 100 g/L imidacloprid and 25 g/L moxidectin topical solution for fleas and worms in dogs 10 - 25 kg

Application no.	154353
Product name	PetShield Spot-On for Dogs 4-10 kg
Active constituent/s	100 g/L imidacloprid, 25 g/L moxidectin
Applicant name	Australian AgVet Registration Solutions Pty Ltd
Applicant ACN	675 381 530
Date of registration	4 November 2026
Product registration no.	98052
Label approval no.	98052/154353
Description of the application and its purpose, including the intended use of the chemical product	Registration and approval of a label of a 100 g/L imidacloprid and 25 g/L moxidectin topical solution for fleas and worms in dogs 4 - 10 kg

Application no.	154352
Product name	PetShield Spot-On for Kittens and Small Cats up to 4 kg
Active constituent/s	100 g/L imidacloprid, 10 g/L moxidectin
Applicant name	Australian AgVet Registration Solutions Pty Ltd
Applicant ACN	675 381 530
Date of registration	4 November 2026
Product registration no.	98051
Label approval no.	98051/154352
Description of the application and its purpose, including the intended use of the chemical product	Registration and the approval of a label of a 100 g/L imidacloprid and 10 g/L moxidectin topical solution for Fleas, Heartworm & Worms in small cats up to 4 kg

Application no.	154342
Product name	PetShield Spot-On for Cats over 4 kg
Active constituents	100 g/L imidacloprid, 10 g/L moxidectin
Applicant name	Australian AgVet Registration Solutions Pty Ltd
Applicant ACN	675 381 530
Date of registration	4 November 2026
Product registration no.	98047
Label approval no.	98047/154342
Description of the application and its purpose, including the intended use of the chemical product	Registration and approval of a label of a 100 g/L imidacloprid and 10 g/L moxidectin topical solution for Fleas, Heartworm & Worms in cats over 4 kg

Application no.	154571
Product name	X-Factor Long Acting Injection for Sheep
Active constituent	20 g/L moxidectin
Applicant name	Arrovet Pty Ltd
Applicant ACN	674 072 532
Date of registration	29 October 2026
Product registration no.	98144
Label approval no.	98144/154571
Description of the application and its purpose, including the intended use of the chemical product	Registration and label approval of a 20 g/L moxidectin injectable product for the treatment and control of roundworms, nasal bot and itch mite in sheep

Application no.	154607
Product name	Epricor Pour-On for Beef and Dairy Cattle
Active constituent	5 mg/mL eprinomectin
Applicant name	Arrovet Pty Ltd
Applicant ACN	674 072 532
Date of registration	26 October 2026
Product registration no.	98146
Label approval no.	98146/154607
Description of the application and its purpose, including the intended use of the chemical product	Registration and label approval of a 5 mg/mL eprinomectin pour-on product for the treatment and control of gastrointestinal roundworms (including inhibited immature *Ostertagia ostertagi*) and lungworm in cattle

Table 4: Variations of registration – veterinary chemical products

Application no.	154490
Product name	ExiFlea Plus 3-in-1 Defence for Cats over 4 kg
Active constituent/s	100 g/L imidacloprid, 10 g/L moxidectin
Applicant name	Abbey Laboratories Pty Ltd
Applicant ACN	156 000 430
Date of variation	6 November 2026
Product registration no.	86381
Label approval no.	86381/154490
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of a registered chemical product and label approval by updating the label claims

Application no.	154485
Product name	Exiflea Plus 3-in-1 Defence for Kittens and Small Cats up to 4 kg
Active constituent/s	100 g/L imidacloprid, 10 g/L moxidectin
Applicant name	Abbey Laboratories Pty Ltd
Applicant ACN	156 000 430
Date of variation	6 November 2026
Product registration no.	86378
Label approval no.	86378/154485
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of a registered chemical product and label approval by updating the label claims

Application no.	154625
Product name	ilium Tula Injection
Active constituent/s	100 mg/mL tulathromycin
Applicant name	Troy Laboratories Pty Ltd
Applicant ACN	000 283 769
Date of variation	6 November 2026
Product registration no.	88512
Label approval no.	88512/154625
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the product and label approval by updating the claims, instructions of use and the product presentation

Application no.	154426
Product name	Tribrissen 20 Tablets
Active constituent/s	Each tablet contains:100 mg sulfadiazine, 20 mg trimethoprim
Applicant name	Intervet Australia Pty Limited
Applicant ACN	008 467 034
Date of variation	26 October 2026
Product registration no.	36122
Label approval no.	36122/154426
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the product and label by changing the instructions of use to align the label with the current Veterinary Labelling Code (the VLC)

Application no.	153019
Product name	Randlab Gentavet Injection
Active constituent	100 mg/mL gentamicin as gentamicin sulfate
Applicant name	Randlab Australia Pty Ltd
Applicant ACN	114 948 837
Date of variation	3 November 2026
Product registration no.	90730
Label approval no.	90730/153019
Description of the application and its purpose, including the intended use of the chemical product	Variation to the relevant particulars of the product and the label by updating the storage conditions

Application no.	154125
Product name	Beransa 30 mg Solution for Injection for Dogs
Active constituent	30 mg/mL bedinvetmab
Applicant name	Zoetis Australia Pty Ltd
Applicant ACN	156 476 425
Date of variation	11 November 2026
Product registration no.	89695
Label approval no.	89695/154125
Description of the application and its purpose, including the intended use of the chemical product	Variation of relevant particulars of product registration and label approval by updating the side effects and precaution statements on the label

Application no.	154148
Product name	Beransa 20 mg Solution for Injection for Dogs
Active constituent	20 mg/mL bedinvetmab
Applicant name	Zoetis Australia Pty Ltd
Applicant ACN	156 476 425
Date of variation	11 November 2026
Product registration no.	89655
Label approval no.	89655/154148
Description of the application and its purpose, including the intended use of the chemical product	Variation of relevant particulars of product registration and label approval by updating the side effects and precaution statements on the label

Application no.	154213
Product name	Beransa 15 mg Solution for Injection for Dogs
Active constituent	15 mg/mL bedinvetmab
Applicant name	Zoetis Australia Pty Ltd
Applicant ACN	156 476 425
Date of variation	11 November 2026
Product registration no.	89656
Label approval no.	89656/154213
Description of the application and its purpose, including the intended use of the chemical product	Variation of relevant particulars of product registration and label approval by updating the side effects and precaution statements on the label

Application no.	154185
Product name	Beransa 10 mg Solution for Injection for Dogs
Active constituent	10 mg/mL bedinvetmab
Applicant name	Zoetis Australia Pty Ltd
Applicant ACN	156 476 425
Date of variation	11 November 2026
Product registration no.	89657
Label approval no.	89657/154185
Description of the application and its purpose, including the intended use of the chemical product	Variation of relevant particulars of product registration and label approval by updating the side effects and precaution statements on the label

Application no.	154385
Product name	Beransa 5 mg Solution for Injection for Dogs
Active constituent	5 mg/mL bedinvetmab
Applicant name	Zoetis Australia Pty Ltd
Applicant ACN	156 476 425
Date of variation	11 November 2026
Product registration no.	89658
Label approval no.	89658/154385
Description of the application and its purpose, including the intended use of the chemical product	Variation of relevant particulars of product registration and label approval by updating the side effects and precaution statements on the label

Approved active constituents

Pursuant to the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has approved or varied the relevant particulars or conditions of the approval of the following active constituents, with effect from the dates shown.

Table 5: Approved active constituents

Application no.	150783
Active constituent	Fludioxonil
Applicant name	Vision Fluorochem (Nanjing) Ltd.
Applicant ACN	N/A
Date of approval	27 October 2026
Approval no.	96825
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent fludioxonil for use in agricultural chemical product

Application no.	152390
Active constituent	Fluopyram
Applicant name	Shaanxi Mei Bang Pharmaceutical Group Co Ltd
Applicant ACN	N/A
Date of approval	27 October 2026
Approval no.	97226
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent fluopyram for use in agricultural chemical products

Application no.	152453
Active constituent	Pyroxsulam
Applicant name	Jiangsu Agrochem Laboratory Co Ltd
Applicant ACN	N/A
Date of approval	27 October 2026
Approval no.	97240
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent pyroxsulam for use in agricultural chemical products

Application no.	152468
Active constituent	Procymidone
Applicant name	Greenchem HK Ltd
Applicant ACN	N/A
Date of approval	28 October 2026
Approval no.	97245
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent procymidone for use in agricultural chemical products

Application no.	152508
Active constituent	Saflufenacil technical
Applicant name	Sino-Agri Leading Biosciences Co., Ltd.
Applicant ACN	N/A
Date of approval	28 October 2026
Approval no.	97265
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent saflufenacil technical for use in agricultural chemical products

Application no.	151014
Active constituent	Paclobutrazol
Applicant name	Syngenta Australia Pty Ltd
Applicant ACN	002 933 717
Date of approval	5 November 2026
Approval no.	96872
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent paclobutrazol for use in agricultural chemical products

Application no.	151331
Active constituent	Piperonyl butoxide
Applicant name	Imtrade Australia Pty Ltd
Applicant ACN	090 151 134
Date of approval	5 November 2026
Approval no.	96959
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent piperonyl butoxide for use in agricultural chemical products

Application no.	151735
Active constituent	Picaridin
Applicant name	Theyes Management Pty Ltd
Applicant ACN	647 084 151
Date of approval	5 November 2026
Approval no.	97089
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent picaridin for use in agricultural chemical products

Application no.	151594
Active constituent	Mandipropamid
Applicant name	Greenchem HK Ltd
Applicant ACN	N/A
Date of approval	5 November 2026
Approval no.	97026
Description of the application and its purpose, including the intended use of the active constituent	Approval of the active constituent mandipropamid for use in agricultural chemical products

Licensing of veterinary chemical manufacturers

Pursuant to Part 8 of the Agricultural and Veterinary Chemicals Code (Agvet Code), scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994*, the APVMA hereby gives notice that it has taken action with respect to the licensing of the following veterinary chemical manufacturers with effect from the dates shown.

For a comprehensive listing of all licensed manufacturers please see the APVMA website.

New licenses

The APVMA has issued the following licenses under subsection 123(1) of the Agvet Code:

Table 6: New licenses issued by the APVMA under subsection 123(1) of the Agvet Code

Company name	Licence number	Company ACN	Address	Product types	Steps of manufacture	Date issued
Phibro Animal Health Pty Limited	6266	093 869 991	3A / 39 Stennett Road Ingleburn NSW 2565	Category 6: All dosage forms	Quality assurance (QA) of Raw Materials, Labelling, Relabelling, Storage (in process/quarantine), Release for Supply.	1 October 2026
Redox Limited	6182	000 762 345	7-11 Burr Court Laverton North Vic 3026	Category 6: All dosage forms	Quality assurance (QA) of raw materials, filling, packaging, labelling, analysis and testing (physical, chemical), storage and release for supply.	27 October 2026
Seqirus Pty Ltd	6267	160 735 035	Wooded Field Station (Roseneath Farm) 86 Cobb and Co Road Cadello VIC 3442	Category 6: All dosage forms	Quality assurance (QA) of raw materials, management and immunisation of donor animals, blood collection, plasma collection, serum collection, analysis and testing (physical, chemical, biological, serological, and immunological), storage, and release from manufacture.	30 October 2026

Licence suspensions

The APVMA has suspended the following licenses under subsection 127(1) of the Agvet code:

Table 7: Licenses suspended by the APVMA under subsection 127(1) of the Agvet Code

Company name	Licence number	Company ACN	Address	Period of suspension
Redox Limited	6118	000 762 345	2 Swettenham Road Minto NSW 2566	From 26 September 2026 to 25 March 2027

Agvet chemical voluntary recall: TITAN GLUFOSINATE 200 HERBICIDE

Product name: TITAN GLUFOSINATE 200 HERBICIDE

APVMA registration number: 66364

APVMA approved label number: 145705

Batch numbers: XA2025111003, XA2025101404, XA2025111202, XA2025111203, XA2025111307, XA2025111301, XA2025111302, XA2025111303, XA2025111304, XA2025111305, XA2025111306, XA2025111606, XA2025121401, XA2025122001, XA2025122002, XA2025122003, XA2025122004, XA2025121901, XA2026020102, XA2026020103, XA2026041202, XA2026042301, XA2026042302, XA2026081503, XA2026081501, XA2026091111T, XA2025090902, XA2025041201, XA2025090803, 2025102801, 2025102802, 2025102803, 2025102804, 2025102805, 2025102806, 2025101001, 2025101101, 2025101102, 2025101103, 2025112101, 2025112001, 2025112301, 2025121501, 2026041901, 2026042001, 2026050501, 2026062701, 2026062801, 2026062702, 2026062703, 2026062704, 2026080401, 2026080601, 2026080801, 2026081001, 2026080901, 2026081002, 2026081101, 2026091001, 2026091002, 2026091003, 2026091004, 2026091005, 2026091006, 2026091007, 2026091301, 2026100101, 2025091401, 2025061102, 2025082401, 2026081001, 2025071501, 2025062801, 2025031402

Sold by: Titan Ag Pty Ltd nationwide between 2 October 2025 to 9 November 2026

On 9 November 2026, Titan Ag Pty Ltd, (ACN:122 081 574) initiated a voluntary recall under section 106 of the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* (Cth) in relation to the chemical product described above.

Reason for voluntary recall

The product is outside the APVMA approved specifications for non-active ingredients; however, the product is within APVMA approved specifications for the active ingredient. This recall is limited to the above-mentioned batch numbers.

Hazard

The out of specifications may affect the product efficacy.

What to do if in possession of this chemical product

DO NOT use Titan Glufosinate 200 Herbicide from the above-mentioned batches. Contact Titan Ag Pty Ltd to arrange return and credit for the product. Place the product immediately into quarantine, store and lock up and contact Titan Ag Customer service to organise stock return and refund.

More information

Visit the APVMA website to view the notice of voluntary recall for the chemical product described above.

The APVMA publishes a list of agvet chemical recall notices on its website and provides a subscription option to be notified by email when a new recall notice is published.

Agvet chemical voluntary recall: Apparent Weedshot 200 Herbicide

Product name: Apparent Weedshot 200 Herbicide

APVMA registration number: 67152

APVMA approved label number: 102434

Batch numbers: 2025112601, 2025112401, 2025112402, 2025112403, 2026080401, 2026080501, 2026080502, 2026091003, 2026092301

Sold by: Titan Ag Pty Ltd nationwide between 2 October 2025 to 9 November 2026

On 9 November 2026, Titan Ag Pty Ltd, (ACN:122 081 574) initiated a voluntary recall under section 106 of the Agricultural and Veterinary Chemicals Code scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* (Cth) in relation to the chemical product described above.

Reason for voluntary recall

The product is outside the APVMA approved specifications for non-active ingredients; however, the product is within APVMA approved specifications for the active ingredient. This recall is limited to the above-mentioned batch numbers.

Hazard

The out of specifications may affect the product efficacy.

What to do if in possession of this chemical product

DO NOT use Apparent Weedshot 200 Herbicide from the above-mentioned batches. Contact Titan Ag Pty Ltd to arrange return and credit for the product. Place the product immediately into quarantine, store and lock up and contact Titan Ag Customer service to organise stock return and refund.

More information

Visit the APVMA website to view the notice of voluntary recall for the chemical product described above.

The APVMA publishes a list of agvet chemical recall notices on its website and provides a subscription option to be notified by email when a new recall notice is published.

Notice of end of registration of chemical products

Pursuant to section 47C of the Agricultural and Veterinary Chemical Code scheduled to the *Agricultural and Veterinary Chemical Code Act 1994* (the **Agvet Code**), the APVMA hereby gives notice that the product registrations in Table 8 (**product registrations**) have ended without being renewed.

Date registration has ended

The product registrations ended on 1 July 2026. The products are no longer registered under the Agvet Code (**unregistered products**).[1]

Instructions for possessing, having custody of or using the unregistered products

A person may use the unregistered products in accordance with their respective label instructions, including any conditions relating to shelf life or expiry date, until 30 June 2027.

A person may supply, or cause to be supplied, at wholesale or retail level, the unregistered products until 30 June 2027.

A person may possess or have custody of, the unregistered products, with the intention of supplying them, until 30 June 2027.

A person may not manufacture or import the unregistered products from 1 July 2026 onwards.

Permit taken to have been issued

Pursuant to subsection 47D(2) of the Agvet Code, a person who possesses, has custody of, or uses the unregistered products in accordance with the above instructions, is taken to have been issued with a permit to do so until either of the earliest of:

a) 30 June 2027 (being 1 year after the day on which the registration ended); or

b) The APVMA, by notice published in the Gazette, declares that subsection 47D(2) of the Agvet Code ceases to apply in respect of the specified unregistered product.

The permit taken to have been issued under s 47D(2) does not authorise a person to manufacture or import the unregistered product (subsection 47D(3)).

Warning – consequences for failure to comply with the above instructions

Potential contraventions under section 47E of the Agvet Code

From the date this notice is published, section 47E of the Agvet Code applies to a person that has possession or custody of an unregistered product with the intention of supplying it.

The person must not possess, have custody of or otherwise deal with the product, except in accordance with the instructions outlined above: subsection 47E(2).[2]

[1] The approval of the labels for containers for the unregistered products also ends as at 1 July 2026: subsection 47(4) of the Agvet Code.
[2] Subsection 47E(2) does not apply to a possession, custody or dealing if the product was registered when the possession, custody or dealing took place because of its having been registered or having become reserved after its previous registration ended: subsection 47E(3).

A person commits an offence if the person contravenes subsection 47E(2) (penalty: 300 penalty units).[3]

Evidently, it will be an offence against subsection 47E(2) if a person possesses or has custody of an unregistered product, with the intention of supplying it, after 30 June 2027. It will also be an offence to supply, or cause to be supplied, at wholesale or retail level, the unregistered products, after 30 June 2027

A person may also be liable to a civil penalty for a contravention of subsection 47E(2).

Potential contraventions under section 78 of the Agvet Code

Subsection 78(1) provides that a person must not supply, or cause or permit to be supplied, a chemical product that is not a registered chemical product or a reserved chemical product unless:

a) the supply is authorised by a permit; or

b) the product is exempted by the APVMA from the operation of this section.

A person commits an offence if the person contravenes subsection 78(1) (penalty: 300 penalty units).[4]

A person may also be liable to a civil penalty for a contravention of subsection 78(1).

Evidently, it could also be an offence to: (i) supply the unregistered products prior to 30 June 2027 other than in accordance with the above instructions; or (ii) supply the unregistered products after 30 June 2027 or a notice is published in the Gazette under subsection 47D(2)(b) to declare that subsection 47D(2) does not apply to product (i.e., when the abovementioned permit taken to have been issued must expire).
