The *Agricultural and Veterinary Chemical Code Act 1994* (the Act) commenced on 15 March 1995. The Agricultural and Veterinary Chemicals Code (the Agvet Code) scheduled to the Act requires notices to be published in the *Gazette* containing details of the registration of agricultural and veterinary chemical products and other approvals granted by the Australian Pesticides and Veterinary Medicines Authority. The Agvet Code and related legislation also requires certain other notices to be published in the *Gazette*. A reference to Agvet Codes in this publication is a reference to the Agvet Code in each state and territory jurisdiction.

GENERAL INFORMATION

The *APVMA (Australian Pesticides and Veterinary Medicines Authority) Gazette* is published fortnightly and contains details of the registration of agricultural and veterinary chemicals products and other approvals granted by the APVMA, notices as required by the Agricultural and Veterinary Chemicals Code (the Agvet Code) and related legislation and a range of regulatory material issued by the APVMA.

Pursuant to section 53(1) of the Agvet Code, the APVMA has decided that it is unnecessary to publish details of applications made for the purpose of notifying minor variations to registration details. The APVMA will however report notifications activity in quarterly statistical reports.

DISTRIBUTION AND SUBSCRIPTION

The *APVMA Gazette* is published in electronic format only and is available from the APVMA website, www.apvma.gov.au/publications/gazette/.

If you would like to receive email notification when a new edition is published, please subscribe on the APVMA website.

Continued Suspension of Products Containing Dimethoate and Associated Label Approvals

The APVMA has continued the suspension of the registrations and label approvals for agricultural chemical products containing dimethoate identified in the table below. The decisions to extend the suspensions of the registrations and label approvals were made under subsections 41(1) and 41(3) of the *Agricultural and Veterinary Chemicals Code Act 1994 (Agvet Code)*.

The suspension of product registrations and label approvals are now in effect until 5 October 2014.

Active constituent approvals are not affected by the APVMA's decision to continue this suspension.

REASONS FOR CONTINUING THE SUSPENSION

The APVMA suspended all products containing dimethoate and their associated labels on 6 October 2011. The dietary exposure concerns that formed the basis of this original suspension of label approvals and product registrations have not altered for the products listed in Table 1. Therefore continued suspension is necessary to ensure that the use of products containing dimethoate does not result in any undue hazard to the safety of people or have an effect that is harmful to human beings.

INSTRUCTIONS

Subsections 45A(5) and 55(3) of the Agvet Code cease to apply in respect of the products identified in Table 1 and the label approvals identified in Column 4 of Table 2 above. During the period of suspension, a person may not possess, have custody of, use or deal with any of the suspended products or products bearing suspended labels other than in accordance with:

- the instructions set out at the end of this Notice, and
- a permit issued by the APVMA.

New permits, with modified instructions for use, have been issued under section 114 of the Agvet Code (PER 13155 for agricultural products and PER 13156 for home garden products). The instructions for use have been reproduced at the end of this Notice.

WARNING

The registration and label approvals of the products listed above are not in force during the period of suspension. From 6 October 2011 a person may only possess, have custody of, use or otherwise deal with the products identified above in accordance with a permit issued by the APVMA and the instructions set out at the end of this Notice.

The APVMA may cancel either of these permits and issue replacement permits at any time during the suspension period. Before using, supplying or otherwise dealing with products containing dimethoate, suppliers and users need to be satisfied that the instructions set out at the end of this Notice continue to apply, and that their activities are authorised by a permit. Current permits are available at www.apvma.gov.au/permits/search.php.

Failure to comply with the instructions set out at the end of this Notice attracts a penalty under section 55(4) of the Agvet Code. The penalty is 300 penalty units (\$33,000).

INSTRUCTIONS FOR POSSESSING, HAVING CUSTODY OF, USING OR DEALING WITH SUSPENDED PRODUCT CONTAINING DIMETHOATE, PRODUCTS BEARING SUSPENDED LABELS AND ANY REMAINING STOCK OF CANCELLED PRODUCT

Possession and custody

A person may possess, have custody of, use or otherwise deal with the suspended or cancelled dimethoate products (bearing a suspended label) only in accordance with these instructions or permits PER 13155 for agricultural products or PER 13156 for home garden products, issued by the APVMA.

Supply

All suppliers must at the time of the supply of a product covered by these instructions provide to the person taking responsibility for the supplied product:

- a copy of the relevant permit (currently PER 13155 for agricultural products or PER 13156 for home garden products) in full setting out the conditions and instructions for use, and
- supply product with a copy of the instructions contained in those permits securely affixed to each container of product.

Use

PERSONS who wish to use suspended products containing dimethoate (as listed above) must read, or have read to them, the instructions included in the relevant APVMA permit. Users who have had the instructions read to them must confirm to the reader that they understand the instructions.

READ THESE INSTRUCTIONS before using or otherwise handling the product.

When using or otherwise handling the product, follow the instructions of the current label except as follows:

PROHIBITED CROP USES: HOME GARDEN PRODUCTS

The current (suspended) label may include instructions for use on fruit trees and vegetables. The use of dimethoate on these crops is no longer approved and the following restraint applies.

DO NOT apply to food producing plants in the Home Garden**PROHIBITED CROP USES: AGRICULTURAL PRODUCTS**

Revocation of Suspension of Certain Products Containing Dimethoate and Approval of new Labels

On 9 September 2013 the APVMA revoked the suspension of the following product registrations to allow approval of new product labels that have instructions consistent with the dimethoate review suspension instructions of 6 October 2011. This only applies to the registrations of the following products and those label approvals listed in Column 5 of Table 1 that have been approved since the suspension of 6 October 2011.

Table 1: Registered products containing dimethoate and new approved labels

1.Product No	2.Product Name	3.Registrant	4.Label Approvals that remain suspended	5.New approved Label Number that is not suspended
51545	Chemag Dimethoate Insecticide	Imtrade Australia Pty Ltd	51545/1100 51545/0203	51545/55601
52673	Amgrow Systemic Insect & Mite Spray	Amgrow Pty Ltd	52673/0300, 52673/0802, 52673/52923	52673/55564
55495	Superway Dimethoate 400 Systemic Insecticide	Superway Garden Ag & Pest Products Pty Ltd	55495/0103	55495/55441
56454	Danadim Insecticide	Ospray Pty Ltd	56454/0903 56454/0306 56454/0909 56454/1109	56454/55384

66538	ACP Dimethoate 400 Systemic Insecticide	Australis Crop Protection Pty Ltd	66538/53836	66538/55930

The suspensions of above product registrations in Table 1 have been revoked to allow the approval of new labels with instructions consistent with those issued by the APVMA.

Please note that the label approvals listed in Column 4 remain suspended. Product bearing these suspended labels must continue to be used only in accordance with the instructions issued by the APVMA to allow continued use of products bearing suspended labels. See *PER 13155 and 13156 for the current instructions for the use of suspended dimethoate products and labels.*

ALL OTHER DIMETHOATE PRODUCTS AND LABEL APPROVALS ARE NOT INCLUDED IN THIS REVOCATION

All other dimethoate products and labels (as listed below in Table 2) as well as previous labels for the above products (as listed in column 4 of Table 1) remain suspended and must only continue to be used in accordance with the instructions

issued by the APVMA in the permits PER 13155 and PER 13156. See the accompanying notice in this Gazette, *Gazette Notice No. APVMA 19, Tuesday, 24 September 2013 Continued Suspension of Products Containing Dimethoate and Associated Label Approvals* for the current suspension notice and a full list of suspended products and label approvals.

Other products may have their suspensions revoked at a later date to allow the approval of new labels that have instructions that are consistent with the instructions in PER 13155 or 13156.

FURTHER CHANGES TO INSTRUCTIONS FOR USE MAY BE REQUIRED

Please note that the review of all dimethoate products is still ongoing and further changes to the status of registrations and the instructions for use of dimethoate products may be required prior to finalisation of the review. In particular, there are findings arising from the [Human Health Risk Assessment of Dimethoate—Exposure and Risk Assessment of Dimethoate \(OHS component\) Aug 2013 \(PDF, 1.7MB\) | \(DOC, 1.2MB\)](#) that recommend changes to label use instructions. The APVMA will publish Preliminary Review Findings for dimethoate and then seek comments and information that may be used to refine the toxicology, OHS and residues assessments prior to finalising the review. The APVMA will also consider any proposals to amend label directions to address any identified concerns.

Revocation of Suspension of a Dichlorvos Product Registration

On 5 September 2013 the APVMA revoked the suspension of the product *Insectigas-D D.D.V.P. Insecticide (32939)* registered to BOC Limited, for the purpose of approving a new label as part of an application to vary the instructions for use of the product.

The new label (32939/59200) is consistent with the regulatory decisions made in the dichlorvos report *Final Review Report and Regulatory Decision*, published in March 2011.

The previously approved label, 32939/0111, remains suspended. Products bearing this label can be used under Permit PER14076, pending further advice regarding the suspension and use of this label from the APVMA.

Exemption for the purposes of Section 75 and section 78

The Australian Pesticides and Veterinary Medicines Authority (APVMA) has determined, as provided for under sections 75(1)(b) and 78(1)(b) of the Schedule to the *Agricultural and Veterinary Chemical Code Act 1994* (the Agvet Code), that the product listed below is exempt from the operations of section 75 and section 78 of the Agvet Code.

Product subject to this exemption:

EquiShure

This exemption is granted for the period of 28 August 2013 to 28 August 2014 inclusive.

While in force this exemption means that while the product is a veterinary chemical product, as defined by section 5 of the Agvet Code, and unregistered, it is not an offence to possess the product for the purposes of supply or to supply.

This exemption can be cancelled or amended at any time by the APVMA.

Cancellation of Label Approval at the Request of the Registrant

In accordance with Section 42 of the Agvet Code, if an interested or approved person in relation to an approval or registration has given to the APVMA a written notice requesting the APVMA to cancel the approval or registration, the APVMA, if satisfied that there are no valid reasons why it should not agree to the request, it must cancel the approval or registration. The APVMA must give written notice of its decision on the request to the person(s) who made the request.

This Gazette notice satisfies the requirement in section 45A (1) of the Agvet Code, that the APVMA must also give notice to any other person to whom, in its opinion such a notice should be given.

At the request of the registrant, following the recent approval of a new label for this product, the APVMA has cancelled the label approval listed below.

Product No.	Product Name	Registrant	Cancelled Label Approval Number	Date of Effect
63571	UNITED PHOSPHORUS ZEE-URON 900 WG HERBICIDE	UNITED PHOSPHORUS LTD.	63571/1112	9 September 2013

The following instructions set out how a person can deal with a product bearing the cancelled label approval.

SUPPLY

A person may supply or cause to be supplied products bearing a cancelled label manufactured prior to 9 September 2013 at wholesale and retail level, until 9 September 2015.

After 9 September 2015 it will be an offence against the Agvet Codes to have possession or custody of the products bearing the cancelled label with the intention to supply.

USE

A person may continue to use the product according to its cancelled label instructions until 9 September 2015.

Any person who possesses, has custody of, uses, or otherwise deals with the product bearing a cancelled label in accordance with the above instructions is taken to have been issued with a permit under the Agvet Codes to so possess, have custody of, use or otherwise deal with the product after the labels have been cancelled until 9 September 2015.

The supply and use of the product bearing a cancelled label must be in accordance with the label instructions, including any conditions relating to the shelf life or expiry date. It is an offence to possess, have custody of, use, or deal with the product listed in the table in a manner that contravenes the above instructions.

Cancellation of Active Constituent Approval at the Request of the Approval Holder

In accordance with Section 42 of the Agvet Code, if an interested or approved person in relation to an approval or registration has given to the APVMA a written notice requesting the APVMA to cancel the approval or registration, the APVMA, if satisfied that there are no valid reasons why it should not agree to the request, it must cancel the approval or registration. The APVMA must give written notice of its decision on the request to the person(s) who made the request.

This Gazette notice satisfies the requirement in section 45A (1) of the Agvet Code, that the APVMA must also give notice to any other person to whom, in its opinion such a notice should be given.

At the request of the approval holder, the APVMA has cancelled the approval of the following active constituent:

Active No.	Active Name	Approval Holder	Date of Effect
60794	METHAM POTASSIUM MANUFACTURING CONCENTRATE	IMTRADE AUSTRALIA PTY LTD	13 September 2013

The following instructions set out how a person can deal with the cancelled active.

SUPPLY

A person may supply or cause to be supplied active constituent manufactured prior to 13 September 2013 until 13 September 2015.

After 13 September 2015 it will be an offence against the Agvet Codes to have possession or custody of the active constituent with the intention to supply the active constituent.

USE

Any person who possesses, has custody of, uses, or otherwise deals with the listed active in accordance with the above instructions is taken to have been issued with a permit under the Agvet Codes to so possess, have custody of, use or otherwise deal with the active after the approval has been cancelled until 13 September 2015.

The supply and use of the active constituent must be in accordance with the conditions of approval, including any conditions relating to the shelf life or expiry date.

It is an offence to possess, have custody of, use, or deal with the active constituent listed in the table in a manner that contravenes the above instructions.

Application Summaries

The APVMA publishes complete application summaries on the APVMA website, www.apvma.gov.au. They are published in weekly instalments using the date the application was accepted for assessment. If an application summary has been amended, the APVMA will publish the amended version on the website and list it separately in the APVMA Gazette Notice for Application Summaries.

As a requirement of Regulations 8C and E of the Agvet Code, some product names will appear as 'NOT AVAILABLE'.

A summary will be removed from the website 28 days after the application has been finalised. Therefore, some summaries published in this notice may have already been removed prior to the Gazette being published.
