The *Agricultural and Veterinary Chemical Code Act 1994* (the Act) commenced on 15 March 1995. The Agricultural and Veterinary Chemicals Code (the Agvet Code) scheduled to the Act requires notices to be published in the *Gazette* containing details of the registration of agricultural and veterinary chemical products and other approvals granted by the Australian Pesticides and Veterinary Medicines Authority. The Agvet Code and related legislation also requires certain other notices to be published in the *Gazette*. A reference to Agvet Codes in this publication is a reference to the Agvet Code in each state and territory jurisdiction.

GENERAL INFORMATION

The *APVMA (Australian Pesticides and Veterinary Medicines Authority) Gazette* is published fortnightly and contains details of the registration of agricultural and veterinary chemicals products and other approvals granted by the APVMA, notices as required by the Agricultural and Veterinary Chemicals Code (the Agvet Code) and related legislation and a range of regulatory material issued by the APVMA.

Pursuant to section 8J(1) of the Agvet Code, the APVMA has decided that it is unnecessary to publish details of applications made for the purpose of notifying minor variations to registration details. The APVMA will however report notifications activity in quarterly statistical reports.

DISTRIBUTION AND SUBSCRIPTION

The *APVMA Gazette* is published in electronic format only and is available from the APVMA website,

Cancellation of Product Label Approval at the Request of the Holder

At the request of the holder, the APVMA has cancelled the product label approval of the following products:

Product no.	Product name	Registrant	Product label approval number	Date of effect
67882	Crop Culture Ancestor Insecticide	Crop Culture Pty Ltd	67882/57022	21 March 2018

The following instructions set out how a person can deal with the product bearing the cancelled product label approval.

SUPPLY

A person may supply or cause to be supplied the above product bearing the cancelled label manufactured prior to 21 March 2018 at wholesale and retail level, until the 21 March 2019.

After 21 March 2019 it will be an offence against the Agvet Codes to have possession or custody of the product bearing the cancelled label with the intention to supply, or to supply the product.

USE

A person may continue to use the product bearing the cancelled label according to its label instructions until 21 March 2019.

Any person who possesses, has custody of, uses, or otherwise deals with the listed product bearing the cancelled label in accordance with the above instructions is taken to have been issued with a permit under the Agvet Codes to so possess, have custody of, use or otherwise deal with the product bearing the cancelled label until 21 March 2019.

The supply and use of the product bearing the cancelled label must be in accordance with the conditions of registration or approval, including any conditions relating to the shelf life or expiry date.

It is an offence to possess, have custody of, use, or deal with the product bearing the cancelled label listed in the table in a manner that contravenes the above instructions.

**Cancelation of Registration and Associated Labels of Vet Only Trubin L-50 Growth Promotant for Pigs (35806)
Notice Under s45A(1)(b) and s45A(3) of the Agvet Code**

On 29 March 2018, the APVMA:

1. Cancelled the registration of the product listed in Table 1 under s34AA(1) of the *Agricultural and Veterinary Chemicals Code Act 1994* (Agvet Code); and
2. Cancelled the approval of the associated product labels (those listed in Column 4 of Table 1) under s44(2) of the Agvet Code.

Table 1: Product containing active constituent kitasamycin

BRIEF STATEMENT OF REASONS

The registration of this product has been cancelled because the APVMA was not satisfied that it met the safety criteria or that the relevant particulars or conditions of this product can be varied in such a way as to allow the registration to be affirmed.

INSTRUCTIONS FOR POSSESSING, HAVING CUSTODY OF, OR USING THE PRODUCT

The APVMA has determined under s45A and s45B of the Agvet Code that a one year period from the date of this decision shall apply for possessing, having custody of or using VET ONLY TRUBIN L-50 GROWTH PROMOTANT FOR PIGS (35806) bearing cancelled labels. During this time VET ONLY TRUBIN L-50 GROWTH PROMOTANT FOR PIGS may continue to be used according to the instructions appearing on the cancelled labels.

Affirmation of Product Registration and Associated Labels Notice Under s34AC(1)(b) of the Agvet Code

On 29 March 2018, the APVMA:

1. Affirmed the registration of the tylosin products listed below in Table 1 under s34(1) of the Agricultural and Veterinary Chemicals Code Act 1994 (Agvet Code); and
2. Affirmed the approval of labels for containers of the tylosin products listed below.
3. Determined under s81(3) of the Agvet Code that a one year period from the date of this decision shall apply for the continued supply and use of registered products bearing earlier approved labels.

BRIEF STATEMENT OF REASONS

Decision to affirm the registration of tylosin products and the approval of associated labels

The APVMA was not satisfied that the products, specified in Table 1 above, would meet the safety criteria for the purposes of s 34(1)(a) of the Agvet Code when used according to the previously approved instructions (as listed in Column 4 of Table 1).

However, the APVMA was satisfied for the purposes of s 34A(1)(b) that the relevant particulars of product registrations and label approvals (namely, removal of instructions for use to stimulate growth and improve feed efficiency and addition of a restraint statement) were capable of being varied in such a way as to allow the APVMA to be satisfied. Having so varied those particulars, the registration and label approval of the products specified in Table 1 above were affirmed.

SUPPLY OF PRODUCTS BEARING PREVIOUSLY APPROVED LABELS

As the relevant particulars of tylosin products have been varied, it is more likely than not that there are products which have left the custody of the manufacturer bearing labels which were the approved label (that is, the labels stated the relevant particulars that were required to be stated on the label prior to the decisions of 29 March 2018), but which are now unapproved labels.

The APVMA has determined, in accordance with s 81(3)(b) of the Agvet Code, that a one year period from the date of this decision shall apply for the continued supply and use of registered products bearing the earlier approved labels as specified in Column 4 of Table 1. During this time, products may continue to be used according to the earlier approved label instructions. After that period all product that is supplied should bear the varied approved label.

Amendments to the APVMA MRL Standard

The Australian Pesticides and Veterinary Medicines Authority (APVMA) approves maximum residue limits (MRLs) of agricultural and veterinary chemicals in agricultural produce, particularly produce entering the food chain. The MRLs approved by the APVMA are associated with a regulatory decision to register a product, grant a permit approval, or as an outcome from a review decision and are set out in the *Agricultural and Veterinary Chemicals Code Instrument No. 4 (MRL Standard) 2012*. The *MRL Standard* lists MRLs of substances that may arise from the approved use of agricultural and veterinary chemical products containing those substances on commodities used for human consumption as well as livestock feeds. The *MRL Standard* also provides the relevant residue definitions to which these MRLs apply. There may be situations where the residue definition for monitoring and enforcement is different to the definition used for dietary risk assessment purposes.

MRLs are set at levels which are not likely to be exceeded if the agricultural or veterinary chemicals are used in accordance with approved label instructions. In considering MRLs and variation to MRLs, the APVMA takes into account studies on chemistry, metabolism, analytical methodology, residues, toxicology, good agricultural practice and dietary exposure. In approving MRLs, the APVMA is satisfied, from dietary exposure assessment, that the levels set are not an undue hazard to human health.

The APVMA has amended the *MRL Standard* and the changes will have affect the day after the instrument is registered.

Details of the amendment can be found in the *Agricultural and Veterinary Chemicals Code Instrument No. 4 (MRL Standard) Amendment Instrument 2018 (No. 4)*.

The amendments will be incorporated into the compilation of the [Agricultural and Veterinary Chemicals Code Instrument No. 4 \(MRL Standard\) 2012](#).

The *MRL Standard* is accessible via the Federal Register of Legislation website www.legislation.gov.au or the links above.

Proposal to amend Schedule 20 in the Australia New Zealand Food Standards Code

In the previous notice on page 41 of APVMA Gazette No. 7, the APVMA gazetted amendments which it has approved to vary maximum residue limits (MRLs) for substances contained in agricultural and veterinary chemical products as set out as in the APVMA's *MRL Standard*.

Under section 82 of the *Food Standards Australia New Zealand Act 1991*, the APVMA is proposing to incorporate those variations (*Agricultural and Veterinary Chemicals Code Instrument No. 4 (MRL Standard) Amendment Instrument 2018 (No. 4)*) to MRLs into Schedule 20—Maximum residue limits in the Australia New Zealand Food Standards Code.

MRLs contained in Schedule 20 provide the limits for residues of agricultural and veterinary chemicals that may legitimately occur in foods. By this means, Schedule 20 permits the sale of treated foods and protects public health and safety by minimising residues in foods consistent with the effective control of pests and diseases.

The APVMA and Food Standards Australia New Zealand (FSANZ) are satisfied, based on dietary exposure assessments and current health standards, that the proposed limits are not harmful to public health.

The agreement between the Australian Government and the New Zealand Government concerning a Joint Food Standards System, excludes MRLs for agricultural and veterinary chemicals in food from the system setting joint food standards. Australia and New Zealand independently and separately develop MRLs for agricultural and veterinary chemicals in food.

FSANZ will make a Sanitary and Phytosanitary (SPS) notification to the World Trade Organization (WTO).

The APVMA invites comment on these proposals. Details on how to make a submission appear near the end of this notice, below the details of the proposed amendment.

The APVMA will consider any public comments made in response to this proposal. If the APVMA decides to proceed with the proposal, it will further notify any variations it makes to Schedule 20 in the APVMA Gazette. The variations will take effect as from the date of that subsequent notice.

PROPOSED VARIATION TO SCHEDULE 20 IN THE AUSTRALIA NEW ZEALAND FOOD STANDARDS CODE
(10 April 2018)

Note: Subsection 82(2) of the *Food Standards Australia New Zealand Act 1991* provides that variations to standards are legislative instruments, but are not subject to disallowance or sunseting.

To commence: on gazettal of variation

[1] The table to section S20–3 in Schedule 20 is varied by

[1.1] inserting for each of the following chemicals the foods and associated MRLs in alphabetical order

Agvet chemical: Acetamiprid

Permitted residue—commodities of plant origin:
Acetamiprid

Permitted residue—commodities of animal origin:

INVITATION FOR SUBMISSIONS

Written submissions are invited from interested individuals and organisations to assist the APVMA in considering the proposal to vary Schedule 20—Maximum residue limits in the Australia New Zealand Food Standards Code. Submissions should be strictly confined to relevant matters that the APVMA must consider (such as public health and safety) which are associated with the occurrence of the proposed residues in foods. Comments received outside these grounds will not be considered by the APVMA. Claims made in submissions should be supported wherever possible by referencing or including relevant studies, research findings, trials, surveys etc. Technical information should be in sufficient detail to allow independent scientific assessment.

Please note that FSANZ will make a SPS notification to the WTO and submissions related to impacts on international trade should be made to FSANZ in response to that notification.

Submissions must be made in writing and should be clearly marked as a 'submission on the proposed amendment to Schedule 20' and quote the correct amendment number.

DEADLINE FOR PUBLIC SUBMISSIONS: 6 pm (AEST) 8 May 2018

SUBMISSIONS RECEIVED AFTER THIS DEADLINE WILL ONLY BE CONSIDERED BY PRIOR ARRANGEMENT

Submissions received after this date will only be considered if agreement for an extension has been given prior to this closing date. Agreement to an extension of time will only be given if extraordinary circumstances warrant an extension to the submission period.
