

Application for Consent to Import unapproved active constituents or unregistered agricultural or veterinary chemical products under miscellaneous circumstances

Prior to submission of this application, applicants must be familiar with the information below.

Applications for Consent to Import must be lodged by a person who is either a resident of Australia or is representing a business that is operating in Australia.

An Import Consent will be issued with a limited validity period that will allow two to three weeks either side of the estimated time of arrival unless otherwise approved under a current Australian Pesticides and Veterinary Medicines Authority (APVMA) permit. If there are any changes to the information provided, a new application will be required. If it is not possible to estimate an exact date of importation, entering the month of the expected importation will be accepted.

Circumstances under which this application form may be used include:

- importation of a product to be market ready when registration is granted. All registration fees must have been paid and there must be no outstanding technical obstacles to registration. Applications should be aware that the APVMA may issue consent with: supply, warehousing and/or transportation conditions or restrictions. Importers may also have reporting responsibilities to demonstrate the product is securely quarantined until registration is granted
- limited promotions or events, where the product will not be supplied in Australia and will be subsequently re-exported or destroyed. Applicants should be aware that the APVMA may issue consent with: supply, warehousing and/or transportation conditions or restrictions. The APVMA may also request evidence of destruction or re-exportation.

Applicants should be aware that some commodities may require additional importation approvals other than what is provided by the APVMA, including:

- [Biosecurity](#)
- [Department of Agriculture](#)
- [Department of Foreign Affairs and Trade](#)
- [Department of Immigration and Border Protection](#)
- [Department of the Environment and Energy](#)
- [Office of Chemical Safety](#)
- [Office of the Gene Technology Regulator](#)
- [Therapeutic Goods Administration](#).

It is the applicant's responsibility to ensure any other approval requirements are met before importation.

Your personal information is collected by the Australian Pesticides and Veterinary Medicines Authority (APVMA) for the purpose of assisting the APVMA to perform its functions under the *Agricultural and Veterinary Medicines (Administration) Act 1992* and related legislation, including for the purpose of processing applications.

Your personal information will be managed in accordance with the *Privacy Act 1988*.

More information about the way in which the APVMA [will manage your personal information](#), including its Privacy Statement, is available on our website.

I declare that:

- I have read and understand the information on this page
- I am a resident of Australia, or represent a business that is operating in Australia
- the information contained in, and accompanying this application is complete and correct.

I understand that:

- giving false or misleading information is a serious offence and may lead to prosecution for an offence against the Agriculture and Veterinary Chemicals Code.
